To aid the Accounting Officer in this responsibility, Council has adopted a Delegations of Powers and Duties Policy which assists in maximising the

administrative and operational efficiency and is reviewed and updated annually.

### **6.9. Demand Management**

**Demand Management is an interactive process to determine the demand levels required to meet the municipality's objectives. These objectives are reflected in the municipality's Integrated Development Plan (the 'IDP'), which is a comprehensive strategy document setting out how the municipality intends to address the development challenges in a specific financial year.**

The SCM Unit has, with support by the Accounting Officer and the Chief Financial Officer implemented SCM via a Demand Management Plan (DMP) as a strategic tool in order to implement the budget. The DMP assists the SCM Unit with the planning of tender processes and user departments with the planning of the execution and timely completion of projects in alignment with performance targets in the Service Delivery and Budget Implementation Plan.

The Demand Management Plan for the 2016/2017 financial year was actively promoted and driven to enhance the demand management process in procuring goods and services. The SCM Unit submits reports to the Top Management Team on a monthly basis to measure the success of the implementation of a DMP.

The DMP for 2017/2018 was approved by the accounting officer in June 2017 in order to fast track the procurement processes. The DMP was previously annually approved in August.

### **6.10. Purchases Section**

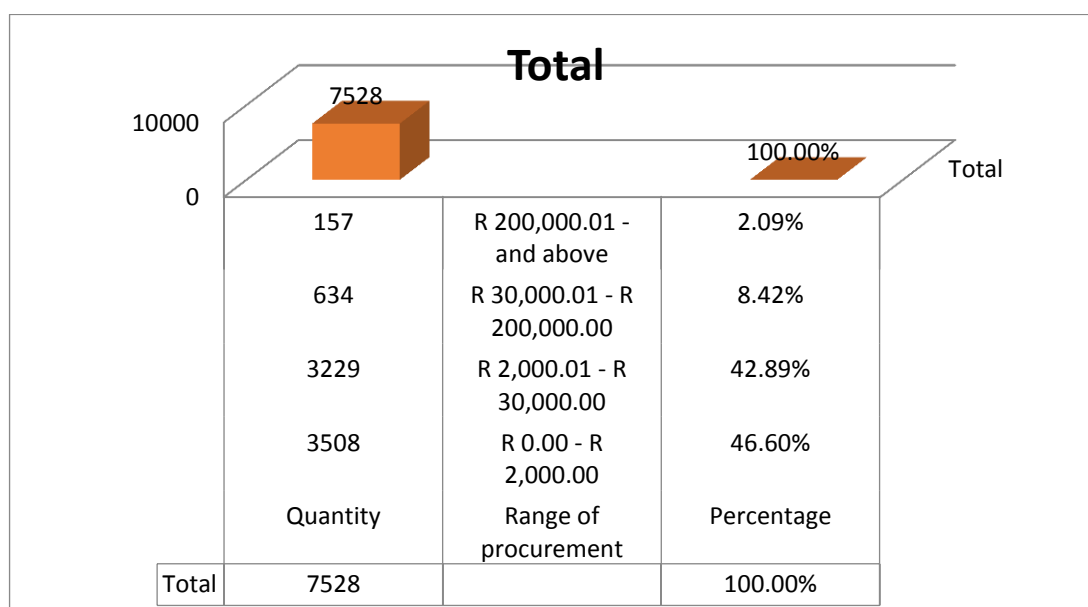

The Purchases Section is specifically tasked to perform all procurement related functions for the procurement of goods and services with a value up to R30,000 as well as the issuance of orders for procurement with higher values.

In comparison to the previous financial year of 2015/2016, totaling an amount of orders issued of 7,843, the 2016/2017 financial year decreased slightly to an amount of orders issued of 7,528. In terms of the municipality's legislative requirement, interested suppliers were requested to register on the database. Current suppliers are requested on a half yearly basis to update their registration information.

There are currently 4,136 accredited suppliers registered on the supplier database, which constitute an increase of 620 suppliers from 2015/2016. The reason for the increase of the suppliers on the supplier database was due to the fact that suppliers that are registered on the Central Supplier Database (CSD), that we are conducting business with were requested to re-register on our supplier database. Many initiatives are conducted annually in order to assist suppliers with the completion of SCM database forms and to register on CSD, with the assistance of the Directorate: Economic Development and Tourism.
