Part 1 – Annual Budget

1.1 Mayor's Report

The Executive Mayor delivers his Budget speech with the tabling of the final budget for approval. A copy of the speech will be included thereafter.

The fourth review of the current new generation 5 year IDP will also be tabled during the Council meeting.

1.2 Council Resolution

The following is the resolution that will be considered for the approval and adoption of the annual budget for 2021/2022:

RECOMMENDATION TO THE COUNCIL:

1. that in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) the annual budget of the Overstrand Municipality for the 2021/22 to 2023/24 MTREF (Medium Term Revenue and Expenditure Framework) period **be approved** as set out in the following schedules:

   Schedule 1: Budgeted financial performance (revenue & expenditure by municipal vote)
   Schedule 2: Budgeted financial performance (revenue by source & expenditure by type)
   Schedule 3: Budgeted single & multi-year capital appropriations by functional classification (vote) and associated funding by source
   Schedule 4: Budgeted financial position
   Schedule 5: Budgeted cash flow
   Schedule 6: Cash backed reserves and accumulated surplus reconciliation
   Schedule 7: Asset management
   Schedule 8: Basic service delivery measurement

2. that in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) the property rates reflected in **Annexure A, be imposed** for the budget year 2021/22;

3. that in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) tariffs and charges reflected in **Annexure A, be approved** for the budget year 2021/22;

4. that the Municipal Manager be authorised to sign all the necessary agreements and documents to give effect to the 1rd draw down of the proposed three year borrowing programme for external loans amounting to R50 million per year.

5. that the following schedules be noted:

   Schedule 9: Budgeted financial performance (Rev. & Exp. by functional classification)
   Schedule 10: Budgeted capital appropriations by municipal vote

6. that **cognisance be taken** of the letters of comment received from the community and the SIME: LG MTEC Assessment Report by Provincial Treasury and the Provincial Department of Local Government, included in Annexure K & L respectively of the budget report; and

7. that **cognisance be taken** of the 2021/2022 Budget Report.

1.3 Executive Summary

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainable, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditure with regards to cost containment measures, non-core and 'nice to have' items.

The Municipality has undertaken various customer care initiatives to ensure that the municipality truly involves all citizens in the process of ensuring a people lead government. Encouragement of structured community participation in the matters of the municipality is a strategic objective.

The process with the compilation of the previous draft budget (2020/21, for the current financial period ending 30 June 2021), was marked by the challenge of an immediate and extensive impact of the worldwide COVID pandemic on the business in terms of strategies and our approach with the budget process followed at that stage.

The municipality had to analise and align with immediate focus on actions required and responsibilities towards our communities, and in order to adhere to the national state of disaster declared on 15 March 2020. The announcement of stringent measures on a national level, to contain the spread of Covid-19 at the time, such as travel restrictions on foreigners, a ban on mass gatherings of people, and the closure of schools. The unforseen and almost disasterous impact of before-mentionef on the local economy, lasted for several months.

Adjusted alert level 3 was in place from 29 December 2020 until 28 February 2021. The country is currently on adjusted alert level 1 from 1 March 2021.

The Health Department issued a statement on the 21st of April 2021, confirming the following:
A Cabinet announcement was made that more than 3 338 vaccination sites had been identified by provinces. A total of 2 369 sites were registered on the Masters Facility List and are undergoing various stages of approval. The respective provinces will continue to identify more sites, and sites will be activated and deactivated according to the need at any particular time. The government also announced that it has secured all the vaccines needed and provinces are visited to ensure that they are ready to roll-out the vaccines within the timeframes as committed to for the mammoth task ahead. Cabinet has expressed its confidence in the vaccination plans presented.
It has been a difficult start for our country with the vaccination rollout, however despite all the challenges faced, a positive outlook still exists for both for the recovery of public health and the economy at large.
Of concern, also mentioned in this statement, that the upsurge of infections in the Northern Cape, the Free State and the North West Provinces (and lately Gauteng as well). The statement furthermore emphasize that we must continue to urge fellow citizens in all the provinces to adhere to basic health protocols- in particular we must remind South Africans that the wearing of masks in public places is still compulsory under the Disaster Management Act. We know that social distancing and avoiding crowded situations like parties, funerals and other gatherings is very difficult but we must continue to do our best to avoid a third wave and harsher restrictions.

Nearly half a million citizens 60 years and above have registered on the Electronic Vaccination Data System (EVDS) and senior citizens are encouraged to register on the EVDS and all must help senior citizens to register on the EVDS portal at vaccine.enroll.health.gov.za.

On provincial level, there are signs of economic recovery and we could expect economic growth to increase by 4.6 per cent in 2021, 3.1 per cent in 2022 and 2.8 per cent in 2023 in the Western Cape. Again also warning that there are significant downside risks, including, most importantly, the possible

third wave, a shortage of electricity and a rise in inflation, all of which could compromise economic recovery as envisaged. The only real difference to economic recovery depends on vaccinating as many people as fast as possible.

The negative impact on cashflows will still be directly related to instances of temporary/permanent closure of businesses and the inability of consumers to maintain monthly payments of municipal accounts. It is also anticipated that individuals will reduce consumption (water & electricity) due to reduced household income available.

The Budget Steering Committee considered increased expenditure directly related to the effect of the COVID-19 lockdown and implementation of regulated requirements to provide costly Personal Protective Equipment (PPE) and related materials to essential services staff (Hazmat Suits), routine decontamination of municipal offices, public areas, sanitizer in all municipal offices, reception areas, et cetera). Before-mentioned will remain a priority in the unforseeable future.

In view of these major financial risks and constraints facing the municipality at this point in time, and with the uncertainty of rolling vaccines, the scenario currently still remains unpredictable to an extent.

The Budget Steering Committee recommended revenue projections based on an increase of 4% for municipal services and sundry tariffs across the board, as per the list of draft Rates, Tariffs, Tariff Structures and Charges, excluding electricity (to be discussed later on in this report), in finalising the budget for 2021/22, to serve before council before the end of May 2021 in accordance with legislative requirements.

The increase on Electricity tariffs are stated at 14.59% in the 2021/22 final budget, based on information in accordance with the release of the National Energy Regulator of South Africa (NERSA) Tariff Guideline on 07 May 2021.

To be noted that the final tariffs applicable on Overstrand residents will be aligned to the final approval of tariffs, to be received from NERSA.

In order to present a balanced budget to Council, the respective municipal directorates were requested to cut back on initial expenditure budget requests.

The Municipality remains alert with regard to the impact of COVID-19 on the municipality referring to the response and compliance required from the municipality in terms of the Disaster Management Regulations, inclusive of the severe impact on our human and fiscal resources, to ensure that expenditure incurred does not exceed the trend in revenue generated to fund the budget.

Against this backdrop, it is emphasized again that a provisio remain relevant, implying that emphasis be placed on responsible spending in view of the uncertainty as mentioned and the possible impact on the municipality's operations and finances.

The compilation of this budget followed due process over many months and are thus at this stage representing the known and planned status.

The municipality has expanded on the implementation of Repairs and Maintenance allocated as projects, in terms of the mSCOA version 6.5, this is also applicable on Contracted Services. These allocations are guided by the respective owner departments.

The mSCOA chart is reviewed on an annual basis by the National Treasury, to address implementation challenges and correct chart related errors. Towards this end, National Treasury issued MFMA Budget Circulars No. 107 & 108 for guidance for the compilation of the 2021/22 MTREF, with a revised A Schedule – mSCOA Version 6.5 (Municipal annual budgets and MTREF & supporting tables) also issued, effective from 2021/22 and to be used to compile the 2021/22 MTREF.

The publishing of the Municipal Regulations on the Standard chart of Accounts (mSCOA) on 22 April 2014 has had a profound effect on the business of local government. This reform is not limited to a financial reform, but a business reform as a whole. It is the largest reform since the promulgation of the Municipal Finance Management Act in 2003. The mSCOA regulations took effect on 1 July 2017 and therefore subsequent budgets have been compiled to adhere to the regulations.

The following are extracts from the preamble to the regulations:

"Section 216 of the Constitution of the Republic of South Africa, 1996, provides that national legislation must prescribe measures to ensure transparency and expenditure control in each sphere of government by introducing generally recognised accounting practice, uniform expenditure classifications and uniform treasury norms and standards." "These Regulations propose segments and a classification framework for the standard chart of accounts to be applied in local government in similar form to that implemented for national and provincial government departments. In order to enable the National Treasury to provide consolidated local government information for incorporation in national accounts, national policy and other purposes, it must obtain financial information from individual municipalities."

The regulations contain amongst others, the segment and classification framework for mSCOA, minimum business processes and system requirements and responsibilities of municipal councils and accounting officers.

The segments classification consists of the following:

Funding segment – This segment relates to the various sources of funding available to municipalities and municipal entities for financing expenditure relating to the operation of the municipality and provides for both capital and operational spending.

Function segment - This segment provides for the classification of the transaction according to the function or service delivery objective and provides for the standardisation of functions and sub-functions across local government.

Municipal Functional classification Segment - This segment provides for the organisational structure and functionality of an individual municipality, which is not prescribed.

Project Segment - This segment provides for the classification of capital and operating projects on the basis of whether it relates to a specific project and if so, the type of project.

Regional Indicator Segment - This segment identifies and assigns government expenditure to the lowest relevant geographical region within which the intended beneficiaries of the service or capital investment are located.

Item Segment - This segment provides for the classification of item detail in the presentation of the financial position, performance and cash flow according to the nature of the transaction either as revenue, expenditure, asset, liability or net asset.

Costing Segment - This segment provides for a classification structure for secondary cost elements with reference to departmental charges, internal billing etc. and acts as a cost collector in determining inter alia total cost of services.

Overstrand municipality was identified as one of the official national pilot sites to early implement mSCOA and to pilot the Bytes SAMRAS system. This was first implemented for the 2015/2016 financial year and continued in 2016/17. The piloting stage ended 30 June 2017. A report regarding the status of implementation of mSCOA can be found in Annexure I of the budget documentation.

The Municipal Cost Containment Regulations, 2019 published on 7 June 2020, replaced the MFMA Circular No. 82 (updated November 2016) relating to direction and guidance regarding Cost

Containment Measures. The stipulations of these regulations are now fully contained in the relevant draft budget related policies as reviewed. The status relating to cost containment measures are reported on in the quarterly financial report to Council.

The Western Cape Provincial Treasury has issued Circular No. 05 of 2020 regarding budget related matters and the proposed SIME: LG MTEC Budget & IDP engagements.

The main challenges experienced during the compilation of the 2021/22 MTREF can be summarised as follows:

- The impact of COVID-19 on the financial sustainability of the municipality, and the major financial risks, uncertainty and constraints facing the municipality;
- The on-going difficulties in the national and local economy;
- Ever aging water, roads, sewage and electricity infrastructure;
- Sustainable refuse disposal;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The cost of bulk electricity;
- Revenue recovery from cost reflective core municipal services;
- Wage increases for municipal staff that have exceeded headline consumer inflation in the past, as well as the need to restructure certain components for operational efficiencies;
- Affordability of capital projects and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2021/22 MTREF process;
- Maintaining a positive cash flow; and
- Ensuring financial sustainability.

The following budget principles and guidelines directly informed the compilation of the 2021/22 MTREF:

- The 2020/2021 Adjustments Budget priorities and targets, as well as the base line allocations contained in the Budget Circulars informed the upper limits for the new baselines for the 2021/22 annual budget;
- Service level standards were used to inform the measurable objectives, targets and any backlog eradication goals;
- Tariffs and property rates increases should aim to be affordable;
- Some price increases in the input costs of services are beyond the control of the municipality, for instance the cost of fuel, chemicals and electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure maintenance and backlogs;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;
- The following cost saving measures were applied:
    - The principle of a minimal increase in non-core general expenses unless valid motivations such as contractual inflation adjustments dictate.
    - The examining of expenses to see if they are essential to the municipality's operations.
    - Municipal Cost Containment Regulations, 2019.

In view of the aforementioned, the following table is a consolidated overview of the proposed 2021/22 Medium-term Revenue and Expenditure Framework:

C11|11

Table 1 Consolidated Overview of the 2021/22 MTREF

(a) Total Revenue (including capital grants)

R thousand	Budget Year 2020/21	Budget Year 2021/22	Budget Year +2 2022/23	Budget Year +3 2023/24			
Revenue	1 300 308	1 477 435	1 514 200	1 554 186	13,6%	2,5%	2,6%
Expenditure	1 345 559	1 495 006	1 535 060	1 600 612	11,1%	2,7%	4,3%
Surplus / (Deficit)	(45 251)	(17 571)	(20 860)	(46 426)			
Capital	280 086	274 775	142 286	95 835	-1,9%	-48,2%	-32,6%

(b) Total Revenue (excluding capital grants)

R thousand	Budget Year 2020/21	Budget Year 2021/22	Budget Year +2 2022/23	Budget Year +3 2023/24			
Revenue	1 253 392	1 416 839	1 472 060	1 520 294	13,0%	3,9%	3,3%
Expenditure	1 345 559	1 495 006	1 535 060	1 600 612	11,1%	2,7%	4,3%
Surplus / (Deficit)	(92 166)	(78 168)	(63 000)	(80 318)			
Capital	280 086	274 775	142 286	95 835	-1,9%	-48,2%	-32,6%

Total revenue (including capital grants) to expenditure (Table 1a) indicates declining deficits over the 2021/22 MTREF.

Total operating revenue (Table 1a) indicates a increase in revenue of 13 per cent for the 2021/22 financial year when compared to the 2020/2021 Adjustments Budget. For the two outer years, operational revenue will increase by 3,9 and 3,3 per cent respectively. Revenues in Table 1(a) are as informed by fluctuations in the allocation of the Housing grant between operating (top structures) and capital (infrastructure) in the respective financial years.

Total operating expenditure for the 2021/22 financial year has been appropriated at R1,495bn and translates into a budgeted deficit of R78.2m (excluding capital grants) and a deficit of R17.6m (including capital grants). When compared to the 2020/2021 Adjustments Budget, operating expenditure has increased by 11,1 per cent in the 2021/22 budget and increases by 2,7 and 4,3 per cent for each of the respective outer years of the MTREF.

It should be noted that although the 2021/2022 operational budget and indicative years indicate budgeted deficits (Table 1b), this does not reflect the actual cash position. This phenomenon will continue for the foreseeable future. These circumstances arose as the result of the implementation of GRAP, with special reference to GRAP 17 (Property, Plant and Equipment-PPE). The asset value before depreciation is in excess of R6 billion, which relates to substantially high depreciation charges. Although accurately reflecting asset value, the cost of a substantial portion of these assets had been fully redeemed previously, but the useful life of assets was extended as well as ever increasing assets funded by grants. The replacement thereof can thus not be recouped via current tariffs as this would lead to taxation in advance of need and no reserves may be established for these purposes. The principle of recovering actual cash costs during each financial period is adhered to.

The capital budget of R274.8m for 2021/22 is 1,9 per cent less when compared to the 2020/2021 Budget. The decreased own funding from surplus is due to cash available for capital investment for the 2021/22 capital budget. The dedicated infrastructure upgrading/replacement project for water and sewerage networks had a 3 year lifespan, ending 30 June 2021. The impact of roll-over projects for the current financial period also results in a decreased capital budget for 2021/22.

The capital programme decreases to R142.3m and to R95.8m in the outer years, which is still aligned on average to the estimated minimum of R100m required annually to sustain capital infrastructure. Own funding (new borrowings) is anticipated at R50m. Borrowings contribute to 37,8 % of the funding over the 2021/22 MTREF. Internally generated funds contribute 18,4% and capital grants 43.8%. The various sources of funded roll-over projects are included in these figures.

The Municipality had reached its planned outer borrowing limit of 60% of operational revenue in 2012. This was a result of much needed investment in infrastructure during the period from 2009 to

2012, after which the municipality embarked on a strategy to manage this rate down by at least 10% over a ten-year period. In January 2014 National Treasury published the first norms and standards circular in which it recommended an upper limit of 45% to revenue. It is estimated that this rate would be below 40% and at the end of the 2021/22. The repayment of capital and interest (debt services costs) remains within the NT acceptable norm band. Consequently, the capital budget reflects an increase compared to the previous three years.

1.4 Operating Revenue Framework

For Overstrand to continue delivering and improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of the municipality. The reality is that we are faced with an increasing population (7th highest growth nationally as per the 2011 census), development backlogs and increasing poverty levels. The expenditure required to address these challenges will inevitably always exceed available funding, hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to maintain levels of above 99 per cent annual collection rates for property rates and other key service charges.;
- Electricity tariff increases for Eskom and the municipality, as approved by NERSA;
- Achievement of cost recovery of specific user charges and especially in relation to services;
- Determine tariff escalation rate by establishing the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increased pressure to deliver and maintain services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Municipality.

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

The VAT on property rates is levied at a rate of 0%.

Revenue generated from rates and services forms a significant percentage of the revenue basket for the Municipality. Rates and services revenues comprise 75% of the total operating revenue mix for 2021/22. For the 2021/2022 financial year, revenue from rates and services charges totals R1,069bn and increases to R1,152bn, R1,242bn in the respective financial years of the MTREF.

The following table is a summary of the 2021/22 MTREF (classified by main revenue source):

C13|111

Gains on disposal of PPE	10 500	8 225	-21,67%	8 361	1,66%	8 504	1,71%
Total Revenue (excluding capital transfers and contributions)	1 253 392	1 416 839	13,04%	1 472 060	3,90%	1 520 294	3,28%

The above table, relating to percentage increases for the different revenue categories, could reflect percentage changes that are not consistent with the annual tariff increases. This would be due to the baseline for 2020/21 and the subsequent adjustments budget and further reclassifications of revenue categories relating to mSCOA. The determination of proposed revenue for 2021/22 has been based on the current statistics available, limited growth and pending slump in economic activity due to the coronavirus.

After collective service charges, property rates are the second largest revenue source. The third largest source is operational grants from national and provincial government, which is showing growth over the MTREF. This is followed by other revenue which consists of various items such as revenue received from permits and licenses, building plan fees, connection fees, advertisement fees and construction contracts relating to low cost housing etc, interest on investments and fines. Departments delivering these services have been urged to review the tariffs of these items on an annual basis to ensure they are cost reflective.

Operating grants and transfers total R139,7m in the 2021/22 financial year. This increases in the outer years to R144,9 in 2022/23 and R148,2 in 2023/24 respectively, of the MTREF. The housing allocation for the building of top structures for housing development are included under other revenue in accordance with GRAP construction contracts, and amounts to R202,8m over the MTREF. Equitable share increases over the 3 year MTREF period, from the current 2020/21 adjustments budget by 5,6% (excluding the special COVID-19 equitable share allocation in 2020/21) in terms of the equitable share formula, after the release of the 2011 census figures, as a result of the population growth in the Overstrand area.

The following table gives a breakdown of the various operating grants and subsidies allocated to the municipality over the medium term:

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services was taken into account to ensure the financial sustainability of the Municipality.

National Treasury continues to encourage municipalities to keep increases in rates, tariffs and other charges as low as possible. Inflation (CPI) is currently within the 3 to 6 per cent target band of the South African Reserve Bank's inflation targets, with very little change in inflation forecasts over the 2021/22 MTREF. Municipalities should justify increases in excess of the 3,9 per cent projected inflation target as indicated in Municipal Budget Circular 108. Excessive increases are by nature fundamentally likely to be counterproductive, which could result in possible higher levels of non-payment.

The increase in property rates has been set at 4%. Furthermore, average increases in water, refuse and sewage service charges are also set at 4%, with the exception of electricity tariffs.

The percentage increase of Eskom bulk tariffs charged to municipalities are now set at 17.8% in this report. The overall tariff increases for municipal electricity tariffs for municipal consumers for the electricity basket are indicated at 14.59%, both increases in accordance with the final NERSA guideline consultation paper released on 07 May 2021. To be noted that the most recent trend in electricity consumption post stringent lockdown was considered, with an indication that electricity

consumption tends to be higher in comparison with previous financial periods. Before-mentioned can be seen in the increase for both revenue and expenditure related to electricity consumption.

The following table sets out the costing of services. It should be noted that the revised budget presentation for the costing of services relating to FBS, in comparison with previous years' revenue accrual of subsidies for basic services to indigents, are now reflected as a reduction of revenue. The portion of the Equitable Share equal to the cost and revenue cost of FBS to indigents has since 1 July 2017 been reflected as revenue to the relevant service. This is to ensure that the tariffs for these services are not unduly burdened as a result of the revised budget presentation.

Table 5 Costing of services

COSTING OF SERVICES	Original Budget 2019/2020	Original Budget 2020/2021	Original Budget 2021/2022
Service : ELECTRICITY			
TOTAL EXPENDITURE	418 081 345	411 253 812	505 140 622

	9,47%	5,10%	6,86%
Service : WASTE MANAGEMENT			
TOTAL EXPENDITURE	82 066 253	84 410 720	94 017 578
TOTAL INCOME	-86 219 480	-87 758 890	-94 144 886
(SURPLUS)/DEFICIT	-4 153 227	-3 348 170	-127 308
	4,82%	3,82%	0,14%

It must also be noted that the consumer price index, as measured by CPI, is not always an ideal indicator of the cost increases of goods and services relevant to municipalities. The basket of goods and services utilised for the calculation of the CPI consist of items such as food, accommodation, petrol and medical services, whereas the cost drivers of a municipality are informed by items such as the cost of remuneration, bulk purchases of electricity, chemicals, fuel etc. The current challenge facing the Municipality is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. Within this framework the Municipality has undertaken the tariff setting process relating to rates and service charges as follows:

1.4.1 Property Rates

Property rates revenue should cover the cost of the provision of general community and support services. Determining the effective property rates tariff is therefore an integral part of the municipality's budgeting process.

National Treasury's MFMA Circular No. 51 deals, inter alia with the implementation of the Municipal Property Rates Act, with the regulations issued by the Department of Co-operative Governance. These regulations came into effect on 1 July 2009 and also prescribe the rate ratio for the non-residential categories, public service infrastructure and agricultural properties relative to residential properties.

The following stipulations in the Property Rates Policy are highlighted:

TARIFF CODE	CLASS TAX	TYPE OF PROPERTY	REBATE OR EXEMPTIONS
BUS	General Tax: Commercial	All business, industries, Bed and Breakfast and Guest Houses	NO exemptions Bed and Breakfast as well as Guesthouses can apply before 30 June for the following rebate on the difference between Bus and Res rate: 1 - 2 X lettable room : 100% 3 X lettable room : 75% 4 X lettable room : 50% 5 X lettable room : 25%
BUSO	General Tax: Tourism and Recreational Resorts outside the municipal service areas	Hotels, Guest Houses, Cottages, Caravan Parks and Holiday Resorts, Chalets	50% rebate on the tax applicable on commercial property in urban areas
RES	General Tax: Residential properties within the municipal service areas	Single residential properties, Group housing, Retirement villages, Flats, Sectional schemes, Small holdings not used for bona fide farming purposes	The first R15 000.00 of the rateable value of all residential properties is exempted from property tax as per the Municipal Property Rates Act, Section 17 (1) h A further R35 000.00 of the rateable value is exempted in respect of all residential properties where a residential completion certificate has been issued An Additional rebate of 20% of the levy calculated on such properties is granted Rebate to qualifying property owners as indicated under "Other Retabe"
RESO	General Tax: Residential properties outside the municipal service area	Single residential properties, Group housing, Retirement villages, Flats, Sectional schemes	50% of the tax applicable on residential property in urban areas Rebate to qualifying property owners as indicated under "Other Retabe"
FARMS	General Tax: Farming properties	Small holdings used for bona fide farming purposes outside municipal service area	Agricultural purpose in relation to the use of a property, excludes the use of the property for the purpose of ecotourism or for the trading in or hunting game
FARMS	Conservation land	Privately owned properties whether designated or used for conservation purposes	Not rateable in terms of section 17(1)(e) of the Municipal Property Rates Act
	Other Rebates	Single residential properties, Group housing, Retirement villages, Flats, Sectional schemes	- Property zoned single residential must be occupied permanently by the applicant; - The applicant must be the registered owner; - Applicant may not be the registered owner of more than one property
PR100			* A rebate of 100% to approved applicant in terms of the Property Rates Policy, who's gross monthly household income may not exceed the amount of two times (2X) of state funded social pensions per month
PR050			* A rebate of 50% to approved applicants, in terms of the Property Rates Policy who are older than 60 with a gross monthly household income less than four times (4X) of state funded social pensions per month
PR040			* A rebate of 40% to approved applicants, in terms of the Property Rates Policy who are older than 60 with a gross monthly household income more than four times (4X) but less than eight times (8X) of state funded social pensions per month

The following table sets out the categories of rateable properties for purposes of levying rates and the proposed rates for the 2021/22 financial year, to increase from 1 July 2021:

Table 6 Comparison of proposed rates to be levied for the 2021/22 financial year

1.4.2 Sale of Water and Impact of Tariff Increases

Evermore South Africa faces challenges with regard to potable water supply, since demand growth outstrips supply, coupled with the possible impact of climate change. Due to water source and infrastructure investment in the previous few years, made by Overstrand municipality, a water crisis could up till now, be averted. Consequently, National Treasury is encouraging all municipalities to carefully review the level and structure of their water tariffs to ensure:

- Water tariffs are fully cost-reflective – including the cost of maintenance and renewal of purification plants, water networks and the cost associated with reticulation expansion;
- Water tariffs are structured to protect basic levels of service and ensure the provision of free water to the poorest of the poor (indigent); and
- Water tariffs are designed to encourage efficient and sustainable consumption.

National Treasury has urged all municipalities some years ago to ensure that water tariff structures are cost reflective from 2014 onwards. Overstrand has implemented a phased approach in this regard.

Water source management and maintenance of infrastructure together with cost-reflective tariffs will ensure that the supply challenges are managed in future to ensure sustainability. It needs to be noted that the second infrastructure levy (Table 7 below), implemented in the 2018/19 financial year, relates to a loan for water & waste water infrastructure networks, raised over a period of three years.

Tariff increases as from 1 July 2021 are indicated in the list of tariffs in Annexure C. The 6 kℓ free water per 30-day period has since 2014 only been granted to registered indigents. The third level of phasing in the increases in the 0 – 6 kℓ category as implemented during 2013/14, to recover minimum cost of the production of water, has been further postponed. The increases in the 0 – 6 kℓ category for this budget will be the same as the general 4% increase for water consumption tariffs.

A summary of the proposed tariffs for households (residential) are as follows:

Table 7 Comparison between current water charges and increases (Domestic)

1.4.3 Sale of Electricity and Impact of Tariff Increases

NERSA has published on 07 May 2021 the final electricity pricing structure consultation paper - National Energy Regulator of South Africa (NERSA) Tariff Guideline.

The tariffs in this report reflect a 14,59% increase for municipal consumers. The finalisation of electricity tariffs are adjusted in terms of the final NERSA determination.

The updated recommendation to Council is aligned to the NERSA outcome, for approval by Council on 26 May 2021, in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) of tariffs and charges for the budget year 2021/22.

The municipality submitted the electricity tariffs application, to ensure that NERSA considers and approves the application on time for implementation on 1 July 2021.

The increase in basic charges as well as the respective brackets of the Inclining Block Tariffs (0-350 kWh, 351-600kWh, and >600kWh), are thus currently stated at 14,59%.

Registered indigents continue to be granted 50 kWh per 30-day period free of charge, in the instance that they qualify for this indigent benefit.

The following table shows the impact of the proposed increases in electricity tariffs for domestic consumers:

Table 8 Comparison between current electricity charges and increases (Domestic)

Tariff Code	Detail		2021/2022		2020/2021		
			Exclude VAT	Include VAT	Exclude VAT	Include VAT	
E1A	Two-Part Tariff: Credit meters up to 60 Amp (13.8 kVA BDMD) (Including Resorts)						
E1A1	Basic Monthly charge per meter	R	408,17	469,40	356,20	409,63	14,59%
	kWH Unit cost						
E1A2	IBT BLOCK 1 0 - 350 kWh	c	156,61	180,10	136,67	157,17	14,59%
E1A3	IBT BLOCK 2 351 - 600 kWh	c	230,01	264,51	200,72	230,83	14,59%
E1A4	IBT BLOCK 3 > 600 kWh	c	282,60	324,99	246,62	283,61	14,59%
E1B	Two-Part Tariff: Pre-paid up to 60 Amp (13.8 kVA BDMD) (Including Resorts)						
E1B1	Basic Monthly charge per meter	R	408,17	469,40	356,20	409,63	14,59%
	kWH Unit cost						
E1B2	IBT BLOCK 1 0 - 350 kWh	c	144,66	166,36	126,24	145,18	14,59%
E1B3	IBT BLOCK 2 351 - 600 kWh	c	216,75	249,26	189,15	217,52	14,59%
E1B4	IBT BLOCK 3 > 600 kWh	c	271,65	312,39	237,06	272,62	14,59%

The IBT for electricity, as previously proposed by NERSA has continued. As mentioned above, with the latest estimate, the tariff increases in the inclining block tariff for the electricity consumption tariffs has been stated at 14,59% for the respective inclining blocks. The across the board tariff increase for this service relates to cost reflective tariff setting, taking into account the excessive increase of 17,8% payable by the municipality to Eskom for bulk purchases. The reduced tariffs for prepaid meters, compared to conventional meters, will continue as in the past.

The full proposed tariffs are included in Annexure C.

1.4.4 Sanitation and Impact of Tariff Increases

A tariff increase of 4 per cent for sanitation (basic & consumption) is proposed from 1 July 2021.

This is based on tariff increases related to inflation increases as mentioned earlier in this report. The following factors inform the proposed tariffs:

- Sanitation charges are calculated according to the percentage water discharged as indicated in the table below;
- Tariff structure comparability research was undertaken by the Infrastructure & Planning directorate, where it was found that the current tariff structure compares very favourably, towards the consumer, against tariff structures locally and international; and
- Free sanitation (4,2 kℓ of 6 kℓ water) will be applicable to registered indigents.

The following table compares the current and proposed tariffs:

Table 9 Comparison between current sanitation charges and increases (Domestic)

Tariff Code	Detail	2021/2022		2020/2021		
		Exclude VAT	Include VAT	Exclude VAT	Include VAT	
SE7A	**SEWERAGE - SINGLE AND INTERMEDIATE RESIDENTIAL (Dwelling house and Duplex flats, Conventional Sewers, small bore sewers and conservancy tanks)**					
SE7A1	0 - 35kl per kl (based on 70% of max 50kl water usage) - per unit per month , Conservancy tank service only during office hours per month. For after hours service, refer to tariff SE9B.	14,89	17,13	14,32	16,47	4,00%
SE7A2	Where no municipal water is used - per RUE per month. Conservancy tank service only during office hours per month. For after hours service, refer to tariff SE9B.	131,57	151,31	128,83	148,15	2,13%
SE8	**BASIC CHARGE**					
SE8A	Basic Monthly Charge Developed sites per erf/unit per month	132,20	152,04	127,12	146,19	4,00%

The full proposed tariffs are included in Annexure C.

1.4.5 Waste Removal and Impact of Tariff Increases

The Overberg District Municipality officially re-launched the Karwyderskraal waste disposal on 29 March 2019, with Cell 4 and resumed operations at the site from 1 April 2019.

A tariff increase of 4% is proposed for 2021/22, the relocating of the Hermanus Waste Management Facility will also be completed and ready to become operational in the 2021/22 financial year.

Services relevant to refuse removal, refuse dumps and solid waste disposal mechanisms must comply with stringent legislative requirements such as the National Environmental Management: Waste Act, No 59 of 2008. This service will receive further revision of the solid waste strategy to ensure that this service can be rendered in a sustainable manner over the medium to long-term.

The following table compares current and proposed amounts payable from 1 July 2021:

Table 10 Comparison between current waste removal fees and increases (Domestic)

Tariff Code	Detail	2021/2022		2020/2021		
		Exclude VAT	Include VAT	Exclude VAT	Include VAT	
SAN1	**REFUSE REMOVAL (1 removal per week of 4 bags or 1X240 Bin)**					
SAN1A	Residential (All registered erven/unit with approved building plan) 1 x removal per week (R/Month)	201,59	231,83	193,84	222,91	4,00%

All proposed refuse tariffs are listed in Annexure C.

1.4.6 Overall impact of tariff increases on households

The following table shows the overall expected impact of the tariff increases on large, medium and small household consumers (**with a pre-paid electricity meter**), as well as an indigent household receiving free basic services.

High Consumption with prepaid elect meter			2020/2021	2021/2022	Amount	%

1.5 Operating Expenditure Framework

C23|117

The Municipality's expenditure framework for the 2021/22 budget and MTREF is informed by the following:

- Balanced budget constraint (cash operating expenditure should not exceed cash operating revenue) unless there are sound reasons for utilising existing uncommitted cash-backed reserves to fund any deficit;
- The repairs and maintenance plan relating to the asset management strategy;
- Funding of the budget over the MTREF as informed by Section 18 and 19 of the MFMA;
- Reducing expenditure on non-core programmes;
- Implementing operational gains and efficiencies;
- Strict adherences to the principle of *no project plan no budget.* If there is no business plan no funding allocation will be made; and
- Taking cognisance of cost containment guidelines and assessing the status of current measures.

The following table is a high-level summary of the 2021/22 budget and MTREF (classified per main type of operating expenditure):

Table 12 Summary of operating expenditure by functional classification item

The budgeted allocation for employee related costs and remuneration of councillors for the 2021/22 financial year totals R476,2m which equals 31,8 per cent of the total operating expenditure and is within the NT norm of 25 – 40 per cent. Of this total, the provisions relating to employee related costs amounts to R14,9m of which the majority of the amount is a long term liability (post-retirement benefits) and therefore not cash remuneration.

The South African Local Government Bargaining Council (SALGBC) Salary and Wage Collective Agreement for municipalities for the period 01 July 2018 to 31 June 2020 has come to an end and a new agreement is under consultation, which we hope will take into account the current fiscal constraints faced by government.

The proposed increase in the salary budget is 4.5%, and notch increases, which average 1.9% have also been budgeted for in view of the fact that annual salary adjustments are still to be negotiated at SALGBC level between the employer organization (SALGA) and the respective unions. Staff vacancies are still frozen and may only be filled following a motivation to Senior Management. No new posts were considered for inclusion in the Draft Budget for 2021/22.

With effect from 1 July 2010, the Section 57 Employees (Directors) remuneration is determined by an independent consulting firm, appointed by the Employer to determine market related cost-to-employer remuneration packages. The afore-mentioned employees receive no bonuses, which principle was negotiated with them. The recommendation does compare the salaries of incumbents with similar job descriptions, whether it is the private or government sector. The remuneration model developed by the consultants for senior managers in the local government sector has been adjusted to reflect the remuneration trends in the labour market. This determination will be completed at a later stage for 2021/2022. For budgeting purposes, a similar increase as for other employees has been factored into the budget for this category of employees.

Regulations have been promulgated, which provide for the Minister of Co-operative Governance to determine the total remuneration packages payable to any new employees to the posts of Municipal Manager and Section 57 Employees (Directors), with effect from 1 July 2014. Existing contracts however continue until they lapse.

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The proclamation with regard to the 2019/20 increases was published in Government Notice 475, dated 24 April 2020. Neither was an indication for 2020/21 received to date. Remuneration of councillors has been factored into the 2021/22 budget at the same rate as the 2020/2021 determination.

The provision of debt impairment and write-off of bad debts for consumer accounts has been determined based on an annual collection rate of close to 99 per cent and the Debt Write-off Policy of the Municipality. The provision for impairment has however been revisited.

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate of asset consumption. Budget appropriations in this regard total R145,7m for the 2021/22 financial year and equates to 10,0 per cent of the total operating expenditure. Note that the implementation of the GRAP 17 accounting standard meant bringing a range of assets previously fully depreciated and not included in the assets register, back onto the assets register. This resulted in a significant increase in depreciation at implementation, relative to previous years. This aspect is further highlighted in para. 1.3 of this report.

Finance charges consist of the repayment of interest on long-term borrowing (cost of capital). Finance charges comprise 3,46 per cent of operating expenditure. The gearing ratio of borrowing to revenue is expected to below 40% for 2021/22, which is below the outer proposed limit of National Treasury.

Bulk purchases are directly informed by the purchase of electricity from Eskom. The proposals from the NERSA determination for Eskom was released days ago as stated. The increase in this budget report reflect a 17,8% bulk price increase to municipalities from 1 July 2021, which percentage is adjusted in accordance with the final guideline as published.

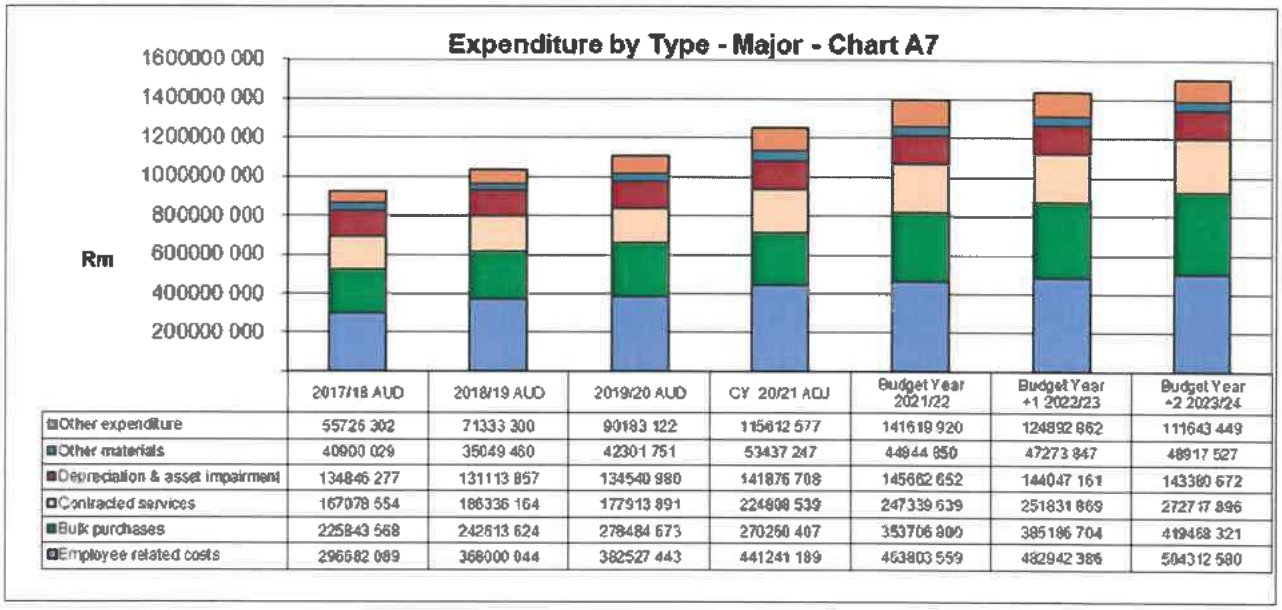

Other materials, now classified as Inventory in mSCOA, comprise amongst others the purchase of materials for maintenance, cleaning materials, fuel, printing and stationery etc. In previous financial years the expenditure on top structures relating to Housing Projects funded through the Human Settlement Grant that fluctuates from year to year causes major discrepancies in the trend for this type of expenditure.

In line with the Municipality's repairs and maintenance plan this group of expenditure has been prioritised to ensure sustainability of the Municipality's infrastructure. The introduction of further reclassification resulting from mSCOA caused a shift in expenditure budgeted under Repairs and maintenance as well as Contracted Services, in relation to figures in the past few years.
Contracted services have been identified as an area for the municipality to implement efficiencies. As part of the compilation of the 2021/22 MTREF this group of expenditure was critically evaluated

and operational efficiencies are being enforced. In the 2021/22 financial year, this group of expenditure totals R247,3m. Further details relating to contracted services can be seen in Table 62 MBRR SA1 (see page 99).

Other Expenditure, now classified as Operational Costs in mSCOA, comprises of various line items relating to the daily operations of the municipality. The introduction and reclassification resulting from mSCOA has caused a shift in expenditure previously classified and budgeted under general expenses to Inventory (materials) and contracted services. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved. Further details relating to other expenditure can be seen in Table 62 MBRR SA1 (see page 100). It is highlighted that the NT A Schedules, although revised, does not sufficiently reflect all mSCOA classifications relating to all types of expenditure.

The following table gives a breakdown of the major expenditure categories for the 2021/22 financial year.

	2017/18 AUD	2018/19 AUD	2019/20 AUD	CY 20/21 ADJ	Budget Year 2021/22	Budget Year +1 2022/23	Budget Year +2 2023/24

Figure 1 Main operational expenditure categories for the 2021/22 financial year

1.5.1 Priority given to repairs and maintenance

Aligned to the priority being given to preserving and maintaining the Municipality's current infrastructure, the 2021/22 budget and MTREF provides for continuing in the area of asset maintenance, as informed by the asset maintenance strategy and repairs and maintenance plan of the Municipality.

In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. Considering these cost drivers, the following table is a consolidation of all the expenditures associated with repairs and maintenance.

C26/117

Table 13 Operational repairs and maintenance

During the compilation of the 2021/22 MTREF operational repairs and maintenance was identified as a strategic imperative owing to the aging of the Municipality's infrastructure. As part of the 2021/22 MTREF this strategic imperative remains a priority. In relation to the total operating expenditure, repairs and maintenance comprises on average 17.1 per cent of the budget over the respective financial years of the MTREF.

The municipality has expanded on the implementation of Repairs and Maintenance allocated as projects in terms of the mSCOA version 6.5, which distorted the year-on-year comparative figures. This is also applicable to Contracted Services. These allocations are guided by the respective owner departments.

The table below provides a breakdown of the repairs and maintenance in relation to asset classes:

Table 14 Repairs and maintenance per asset class

For the 2021/22 financial year, 17 per cent or R254.2m of the total budget will be spent on repairs and maintenance, of which R149.3m is for infrastructure. Roads infrastructure has received a

significant proportion of the infrastructure allocation totalling 26.55 per cent (R67.5m), followed by community assets at 24.25 per cent (R61.65m) and electricity at 13.15 per cent (R33.42m) on the total repairs and maintenance allocation.

1.5.2 Free Basic Services: Basic Social Services Package

The social package assists households that are indigent or face other circumstances that limit their ability to pay for services. To receive these free/subsidised services the households are required to register in terms of the Municipality's Indigent Policy. The budgeted indigent households for 2021/22 is estimated at 8 000.

The following is an extract from NT Budget Circular 85:
"The change in the treatment of cost of free basic services indicates that municipalities must not disclose the support to indigents on table SA21 "Transfers and grants". The change in the treatment of free basic services has been fully implemented during the 2017/2018 financial year already.

Details relating to free services and basic service delivery measurement is contained in Table 26 MBRR A10 (Basic Service Delivery Measurement) on page 45.

The cost of the social package of the registered indigent households is fully covered by the local government equitable share received in terms of the annual Division of Revenue Act and that portion relating to a specific service has been apportioned as revenue to that specific service.

Grants-in-aid to organisations has not been budgeted for 2021/22, after due consideration by the Budget Steering Committee, with budget constraints identified as a major challenge in this regard.

For 2021/22 an amount of R171,4m has been appropriated for the development of basic services infrastructure which represents 62,4 per cent of the total capital budget of R274,7. In the outer years this amount totals R81m, 56,7 per cent and R78m, 81.4 per cent respectively for each of these financial years. Waste water infrastructure has the second highest allocation at R47,4m in 2021/22 which equates to 27,7 per cent of the basic services infrastructure allocation, followed by water management at 30,3 per cent, R51,9 million, waste management 2,2 per cent, R3,8m and electricity as the highest allocation at 39,8 per cent, R68,2m. Over the MTREF the capital housing grant expenditure relating to housing infrastructure provision amounts to R94,1 million.

Further detail relating to asset classes and proposed capital expenditure is contained in Table 25 MBRR A9 (Asset Management) on page 41. In addition to the MBRR Table A9, MBRR Tables SA34a, b, c & e provides a detailed breakdown of the capital programme relating to new assets construction as well as operational repairs and maintenance by asset class (refer to page 90). Some of the salient projects to be undertaken during 2021/2022 includes, amongst others:

Top 10 Capital Projects

Project Description	Ward	Amount
LCH SERVICES CONSTRUCTION CONTRACTS	Overstrand	52 259 085

Furthermore, pages 93 to 95 and Annexure E contains a detailed breakdown of the capital budget per project over the medium-term.

The following graph provides a breakdown of the capital budget to be spent per vote over the MTREF.

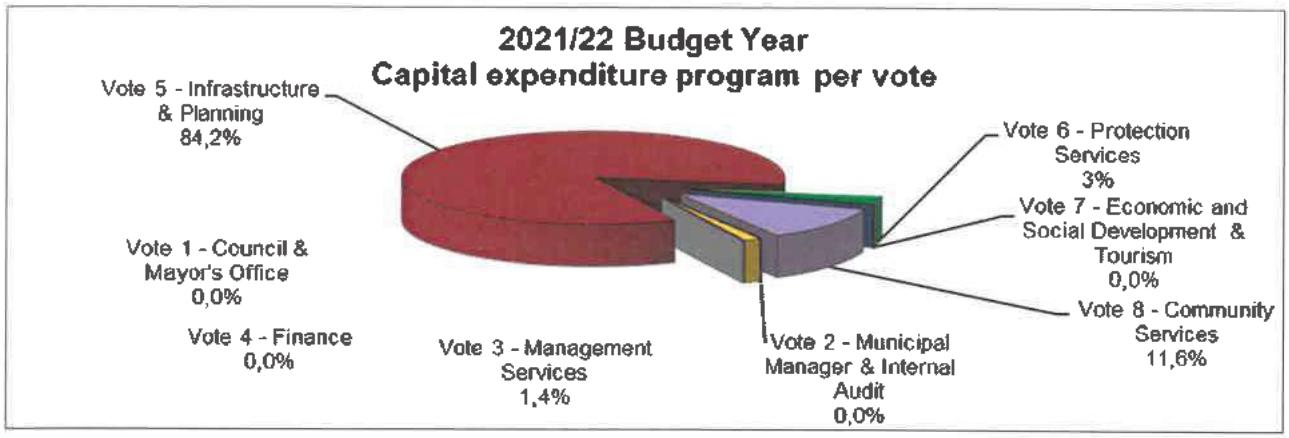

Figure 2 Capital Infrastructure Programme

Further capital projects have been considered and prioritised for the 2021/2022 capital budget from the proceeds of land sales received in the prior year.

1.6.1 Future operational cost of new Infrastructure

An estimate has been included in Table 58 MBRR SA35 on page 92. Furthermore, a long term financial plan implementation policy has been developed to encompass costs over the long term. It needs to be noted that as part of the 2021/22 MTREF, this expenditure has been factored into the two outer years of the operational budget.

1.7 Annual Budget Tables

The following section of the report presents the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2021/22 final budget and MTREF to be approved and/or noted by the Council. Each table is accompanied by *explanatory notes* on the facing page.

Explanatory notes to MBRR Table A1 - Budget Summary

1. Table A1 is a budget summary and provides a concise overview of the Municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's service delivery and commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
    a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF
    b. Capital expenditure is balanced by capital funding sources, of which
        i. Transfers recognised is reflected on the Financial Performance Budget;
        ii. Borrowing is incorporated in the net cash from financing on the Cash Flow Budget
        iii. Internally generated funds are financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive and stable, indicates that the necessary cash resources are available to fund the Capital Budget.
4. The Cash backing/surplus reconciliation shows a decrease in cash over the MTREF.
5. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor. The section of Free Services shows that the amount spent on Free Basic Services and the revenue cost of free services provided by the municipality continues to increase. In addition, the municipality continues to make progress in addressing service delivery backlogs.

Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by functional classification) - mSCOA – Function/Sub Function

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per functional classification. The modified GFS functional classification, now Function/Sub Function, divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas, which enables National Treasury to compile 'whole of government' reports.
2. Note the Total Revenue on this table includes capital revenues (Transfers recognised: capital) and so does not balance to the operating revenue shown on Table A4.

C35/17

Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote) – mSCOA – Own Segment

1. Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per own segment: municipal vote (directorate). This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the Municipality. This means it is possible to present the operating surplus or deficit of a vote.
2. Note the Total Revenue on this table includes capital revenues (Transfers recognised: capital) and so does not balance to the operating revenue shown on Table A4.

Explanatory notes to Table A4 - Budgeted Financial Performance (revenue and expenditure)

1. Total operating revenue is R1,253 billion in 2020/2021 and indicates an increase to R1,416 billion in 2021/22.
2. Revenue to be generated from property rates is R259,2 million in the 2020/2021 financial year and increases to R275,6 million by 2021/22 which represents 19,5 per cent of the operating revenue base of the Municipality and therefore remains a significant funding source for the municipality.
3. Services charges relating to electricity, water, sanitation and refuse removal constitutes the biggest component of the revenue basket of the Municipality totalling R663,2 million for the 2020/2021 financial year and indicates an increase to R793,9 million by 2021/22. For the 2021/22 financial year services charges amount to 56,03 per cent of the operating revenue base.
4. Transfers recognised – operating grants includes the local government equitable share (inclusive of the COVID-19 equitable share allocation) and other operating grants from national and provincial government.
5. The following graph illustrates the major expenditure items per type.

	Employee related costs	Bulk purchases	Contracted services	Depreciation & asset impairment	Other materials	Other expenditure

Figure 3 Expenditure by major type

6. Bulk purchases have significantly increased over the 2017/18 to 2023/24 period escalating from R225,8 million to R419,5 million. These increases can be attributed to the substantial increase in the cost of bulk electricity from Eskom over the past years. The change in the trend for contracted services also relates to the reclassification of expenditure resulting from mSCOA implementation.
7. Employee related costs and bulk purchases are the main cost drivers within the municipality and alternative operational gains and efficiencies will have to be identified to lessen the impact of wage and bulk tariff increases in future years.

C28/17

Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, functional classification and funding source

1. Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by functional classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
2. The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations. The capital expenditure amounts to R274,8 million in 2021/22.
3. Unlike multi-year capital appropriations, single-year appropriations relate to expenditure that will be incurred in the specific budget year such as the procurement of vehicles and specialized tools and equipment. The budget appropriations for the two outer years are indicative allocations based on the departmental business plans as informed by the IDP and will be reviewed on an annual basis to assess the relevance of the expenditure in relation to the strategic objectives and service delivery imperatives of the Municipality.
4. The capital programme is funded from national and provincial grants and transfers, public contributions and donations, borrowing and internally generated funds from previous year surpluses. For 2021/22, capital transfers total R111,5 million. Borrowing has been provided at R94,06 million (inclusive of roll-over borrowing), finance leases (nil) and internally generated funding totaling R69,2 million. These funding sources are further discussed in detail in paragraph 2.6 (Overview of Budget Funding).
5. Rolled over borrowing amounts to R44m.

Explanatory notes to Table A6 - Budgeted Financial Position

1. Table A6 is consistent with international standards of good financial management practice, and improves understandability for councilors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is largely aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as "accounting" Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. Table 64 is supported by an extensive table of notes (SA3 which can be found on page 104) providing a detailed analysis of the major components of a number of items, including:
   - Call investments deposits;
   - Consumer debtors;
   - Property, plant and equipment;
   - Trade and other payables;
   - Provisions non-current;
   - Changes in net assets; and
   - Reserves
4. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
5. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.
3. It can be seen that the expected cash levels of the Municipality indicates a decrease over the 2021/22 to 2022/23 period, with an increase in 2023/24.
4. The 2021/22 MTREF has been informed by the planning principle of ensuring adequate cash over the medium-term.
5. Cash and cash equivalents totals R450,8 million as at the end of the 2021/22 financial year and is estimated to increase to R513,9 million by 2023/24.

Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. As part of the budgeting and planning guidelines that informs the compilation of the 2021/22 MTREF the end objective of the medium-term framework is to ensure the budget is funded and aligned to section 18 of the MFMA.
5. As can be seen the budget has been modelled to ensure that the budget is funded.

Explanatory notes to Table A9 - Asset Management

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal/upgrading of existing assets, as well as spending on repairs and maintenance by asset class.
2. The following graph provides an analysis between depreciation and operational repairs and maintenance over the MTREF.

	2017/18 AUD	2018/19 AUD	2019/20 AUD	CY 20/21 ADJ	Budget Year 2021/22	Budget Year +1 2022/23	Budget Year +2 2023/24

CS1|17

Explanatory notes to Table A10 - Basic Service Delivery Measurement

1. Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. Good progress is being made with the eradication of current services backlogs. Housing remains a challenge.
    a. Electricity services – the current backlog has provisionally been eliminated.
3. The budget provides for 8 000 households to be registered as indigent in 2021/22, and therefore entitled to receiving Free Basic Services. The number is set to increase over the MTREF, especially by poor people seeking economic opportunities.
4. It is anticipated that the cost of these Free Basic Services will amount to R92,9 in 2021/22. This is covered by the municipality's equitable share allocation from national government.
5. In addition to the Free Basic Services, other rates rebates also apply to households.

C 52|117

2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Full-time Councillors, Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the MMC for Finance.

The primary aims of the Budget Steering Committee are to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Municipality's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

2.1.1 Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2020) a time schedule that sets out the process to prepare the IDP and prepare the budget.

The Mayor tabled in Council the required IDP and budget time schedule on 26 August 2020. Key dates applicable to the process are as follows:

- **July 2020** – Budget Office submits current 3 year Capital Budget to the Strategic Office. Review status of Samras Budget Portal functionality and MTREF budget information;
- **September 2020** – Ward Committee meetings to review current needs on the wish list;
- **September/October 2020** – Mayoral strategic session with Councillors and Senior Management to determine Strategic direction for the 2021/22 IDP review;
- **September 2020** – Ward Committees met to review their ward priorities for 2021/2022;
- **October 2020** – Top management meeting to discuss budget proposals and affordability;
- **October 2020** – Mayoral directional IDP/Budget speech;
- **October/December 2020** – Various Budget Steering Committee and Management meetings relating to draft Capex and Opex budgets;
- **November 2020**– Submission of tariff proposals and tariff workshops;
- **November 2020**– Workshop on tariffs and tariff related policies;
- **November 2020/February 2021**– Review of all budget related policies;
- **December 2020** – Mid-year review by the BSC of the 2020/2021 progress and review of 2021/2024 draft operational expenditure including financial forecasting and scenario considerations;
- **January 2021** – Tariff finalisation, consider budget related policies changes and overview of draft 2021/22 Capex & Opex;
- **January 2021**- Council considered the 2020/2021 Mid-year Review;
- **February 2021** – Final tariffs and adjustments budget review;
- **February 2021** – BSC review/finalises draft Capex/Opex;
- **January 2021** – Finalisation of adjustments budget;

- **10 March 2021** – OMAF Consultation & Budget Proposals;
- **26 March 2021** – Budget office finalises budget report;
- **31 March 2021** - Tabling in Council of the draft 2021/22 IDP, SDBIP and 2021/22 MTREF for public consultation;
- **1 April 2021 – 30 April 2021** – Draft Budget available to the public and any other stakeholders for perusal and the submission of comments and representations;
- **30 April 2021** - Closing date for written comments;
- **5 May 2021** – BSC considered all comments received and amendments to the Draft Budget;
- **8-15 May 2021** – Finalisation of the 2021/2022 IDP and 2021/22 MTREF, taking into consideration comments received from the public, comments from NT & PT and updated information from the most recent DoRA and financial framework;
- **8-15 May 2021** – Budget Office compiles final report and schedules and final review of budget report and schedules ;
- **21 May 2021** – Final budget distribution; and
- **26 May 2021** - Tabling of the 2021/22 MTREF in Council for consideration and approval.

2.1.2 IDP and Service Delivery and Budget Implementation Plan

This is the fourth review of the latest new generation IDP (2018/2022) to be considered and adopted by Council in May 2021. The draft IDP process started in September 2020 after the tabling of the IDP Process Plan and the Budget Time Schedule for the 2021/22 MTREF in August 2020.

The Municipality's IDP is its principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the Draft IDP cycle included the following key IDP processes and deliverables:

- Registration of community needs;
- Compilation of departmental business plans with key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process;
- Compilation of the SDBIP, and
- The review of the performance management and monitoring processes.

The IDP was taken into a business and financial planning process leading up to the 2021/22 MTREF, based on the approved 2020/2021 MTREF, mid-year review and adjustments budget. The business planning process was subsequently refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2021/22 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets after reviewing the mid-year and third quarter performance against the 2020/2021 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

2.1.3 Financial Modelling and Key Planning Drivers

Strategic objectives of the compilation of the 2021/22 MTREF include the undertaking of extensive financial modelling to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2021/22 MTREF:

- Municipality growth
- Policy priorities and strategic objectives

CS4/17

- Asset maintenance
- Economic climate (trends, inflation, Eskom increases, household debt, migration patterns)
- Performance trends
- The approved 2020/2021 adjustments budget and performance against the SDBIP
- Cash Flow Management Strategy
- Debtor payment levels
- Loan and investment possibilities
- The need for tariff increases versus the ability of the community to pay for services;
- Improved and sustainable service delivery

In addition to the above, the strategic guidance given in National Treasury's MFMA Circular 107 & 108 was taken into consideration in the planning and prioritisation process.

The municipality has expanded on the implementation of Repairs and Maintenance allocated as projects in terms of the mSCOA version 6.5. These allocations are guided by the respective owner departments.

Emphasis is placed on the Municipal Cost Containment Regulations, 2019 as published in June 2019, and which took effect on 1 July 2019. Cost containment has already been implemented across the organisation over the past four years. The measures as per the Cost Containment Circular in place prior to 2020/21, was incorporated to a large extent in existing policies, prior to the existence of the Overstrand Cost Containment Policy.

2.1.4 Community Consultation on the Draft Budget

The draft 2021/22 MTREF was tabled in Council on 31 March 2021 and was made available to the community as follows:

Copies of the document could ve viewed:

- At the offices of all Area Managers
- All public libraries within the municipality
- At the website: www.overstrand.gov.za

The tabling of the draft budget was be advertised in all local newspapers and a copy of the advertisement was be placed on the notice boards at municipal offices and libraries. All documents in the appropriate format (electronic) were provided to National Treasury and Provincial Treasury in accordance with section 23 of the MFMA, to provide an opportunity for comment.

The Executive Mayor, MMC for Finance, other full time Councillors, Municipal Manager and Area Managers, all Directors and officials from the Budget Office and Strategic Planning Office, engaged the community at the Draft IDP Review And Draft Budget 2021/2022 Public Consultation process during April 2021, to present the draft budget for engagement with the public. These engagements were arranged in a hybrid format, both through virtual access through electronic platform links and at venues in the different administrative areas.

The public had the opportunity to comment, in writing, on Overstrand Municipality's Draft Integrated Development Plan (IDP) Review and Amendment for 2021/22 and the Draft Budget for 2021/22 until 30 April 2021.

Submissions received during the community consultation process and additional information regarding revenue and expenditure and capital projects were considered by the Budget Steering Committee at a meeting to be held by 06 May 2021, for the finalisation of the 2021/2022 Budget.

Comments from the community and the municipality's responses thereto are included as an Annexure to the final report.

2.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realised through a credible integrated developmental planning process. Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery. Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning provides a strategic environment for managing and guiding all planning, development and decision making in the municipality. It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the Municipality, issues of national and provincial importance should be reflected in the IDP of the municipality. A clear understanding of such intent is therefore imperative to ensure that the Municipality strategically complies with the key national and provincial priorities. The aim of the five year IDP cycle is to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of national and provincial importance. One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the Municipality's response to these requirements.

The national and provincial priorities, policies and strategies of importance include amongst others:

- Green Paper on National Strategic Planning of 2009;
- Government Programme of Action;
- Development Facilitation Act of 1995;
- Provincial Growth and Development Strategy (GGDS);
- National and Provincial spatial development perspectives;
- Relevant sector plans such as transportation, legislation and policy;
- National Key Performance Indicators (NKPIs);
- Accelerated and Shared Growth Initiative (ASGISA);
- National 2015 Vision;
- National Spatial Development Perspective (NSDP);
- The National Priority Outcomes; and
- National Development Plan

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP. The following table highlights the IDP's five strategic objectives for the 2021/22 MTREF and further planning refinements that have directly informed the compilation of the budget:

C56/17

Table 27 IDP Strategic Objectives

2021/22 MTREF
The provision of democratic, accountable and ethical governance
The provision and maintenance of municipal services
The encouragement of structured community participation in the matters of the municipality
The creation and maintenance of a safe and healthy environment
The promotion of tourism, economic and social development

In order to ensure integrated and focused service delivery between all spheres of government it was important for the Municipality to align its budget priorities with that of national and provincial government. All spheres of government place a high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

Local priorities were identified as part of the IDP review process which is directly aligned to that of the national and provincial priorities. The key performance areas can be summarised as follows against the five strategic objectives:

Provision of quality basic services and infrastructure which includes, amongst others:

- Provide electricity;
- Provide water;
- Provide sanitation;
- Provide waste removal;
- Provide housing;
- Provide roads and storm water;
- Provide municipality planning services; and
- Maintaining the infrastructure of the Municipality.

Economic growth and development that leads to sustainable job creation by:

- Ensuring there is a clear structural plan for the Municipality;
- Ensuring planning processes function in accordance with set timeframes;
- Facilitating the use of labour intensive approaches in the delivery of services and the building of infrastructure.

Fight poverty and build clean, healthy, safe and sustainable communities:

- Effective implementation of the Indigent Policy;
- Extending waste removal services and ensuring effective municipality cleansing;
- Ensuring all waste water treatment works are operating optimally;
- Working with strategic partners such as SAPS to address crime;
- Ensuring safe working environments by effective enforcement of building and health regulations;
- Promote viable, sustainable communities through proper zoning; and
- Promote environmental sustainability by protecting wetlands and key open spaces.

Integrated Social Services for empowered and sustainable communities

- Work with provincial departments to ensure the development of community infrastructure such as schools and clinics is properly co-ordinated with the informal settlements upgrade programme

Foster participatory democracy and Batho Pele principles through a caring, accessible and accountable service by:

- Optimising effective community participation in the ward committee system; and

CS7/11

- Implementing Batho Pele in the revenue management strategy.

Promote sound governance through:

- Publishing the outcomes of all tender processes on the municipal website

Ensure financial sustainability through:

- Reviewing the use of contracted services
- Continuing to implement the infrastructure maintenance strategy and the repairs and maintenance plan

Optimal institutional transformation to ensure capacity to achieve set objectives

- Review of the organisational structure to optimize the use of personnel;

In line with the MSA, the IDP constitutes a single, inclusive strategic plan for the Municipality. The five-year programme responds to the development challenges and opportunities faced by the Municipality by identifying the key performance areas to achieve the five the strategic objectives mentioned above.

In addition to the five-year IDP, the Municipality undertakes an extensive planning and developmental strategy which primarily focuses on a longer-term horizon; 15 to 20 years for infrastructure planning. This process is aimed at influencing the development path to restructure current patterns of settlement, activity and access to resources in the Municipality so as to promote greater equity and enhanced opportunity. It provides direction to the Municipality's IDP, associated sectorial plans and strategies, and the allocation of resources of the Municipality and other service delivery partners.

This development strategy introduces important policy shifts which have further been translated into seven strategic focus areas/objectives as outlined below:

- Developing dormant areas;
- Enforcing hard development lines – so as to direct private investment;
- Maintaining existing urban areas;
- Strengthening key economic clusters;
- Building social cohesion;
- Strong developmental initiatives in relation to the municipal institution as a whole; and
- Sound financial fundamentals.

Lessons learned with previous IDP revision and planning cycles as well as changing environments were taken into consideration in the compilation of the IDP of the 2018/2022 cycle, including:

- Strengthening the analysis and strategic planning processes of the Municipality;
- Initiating zonal planning processes that involve the communities in the analysis and planning processes. More emphasis was placed on area based interventions, within the overall holistic framework;
- Ensuring better coordination through a programmatic approach and attempting to focus the budgeting process through planning interventions; and
- Strengthening performance management and monitoring systems in ensuring the objectives and deliverables are achieved.

The 2021/22 MTREF has therefore been directly informed by the 4th review of the 2018/2022 IDP process and the following tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

Table 28 MBRR Table SA4 - Reconciliation between the IDP strategic objectives and budgeted revenue

2.3 Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the Municipality has developed and implemented a performance management system of which system is constantly refined as the integrated planning process unfolds. The Municipality does targets, monitor, assess and review organisational performance which in turn is directly linked to individual employee's performance.

At any given time within government, information from multiple years is being considered; plans and budgets for next year; implementation for the current year; and reporting on last year's performance. Although performance information is reported publicly at each quarter, the performance information process begins when policies are being developed, and continues through each of the planning, budgeting, implementation and reporting stages. The planning, budgeting and reporting cycle can be graphically illustrated as follows:

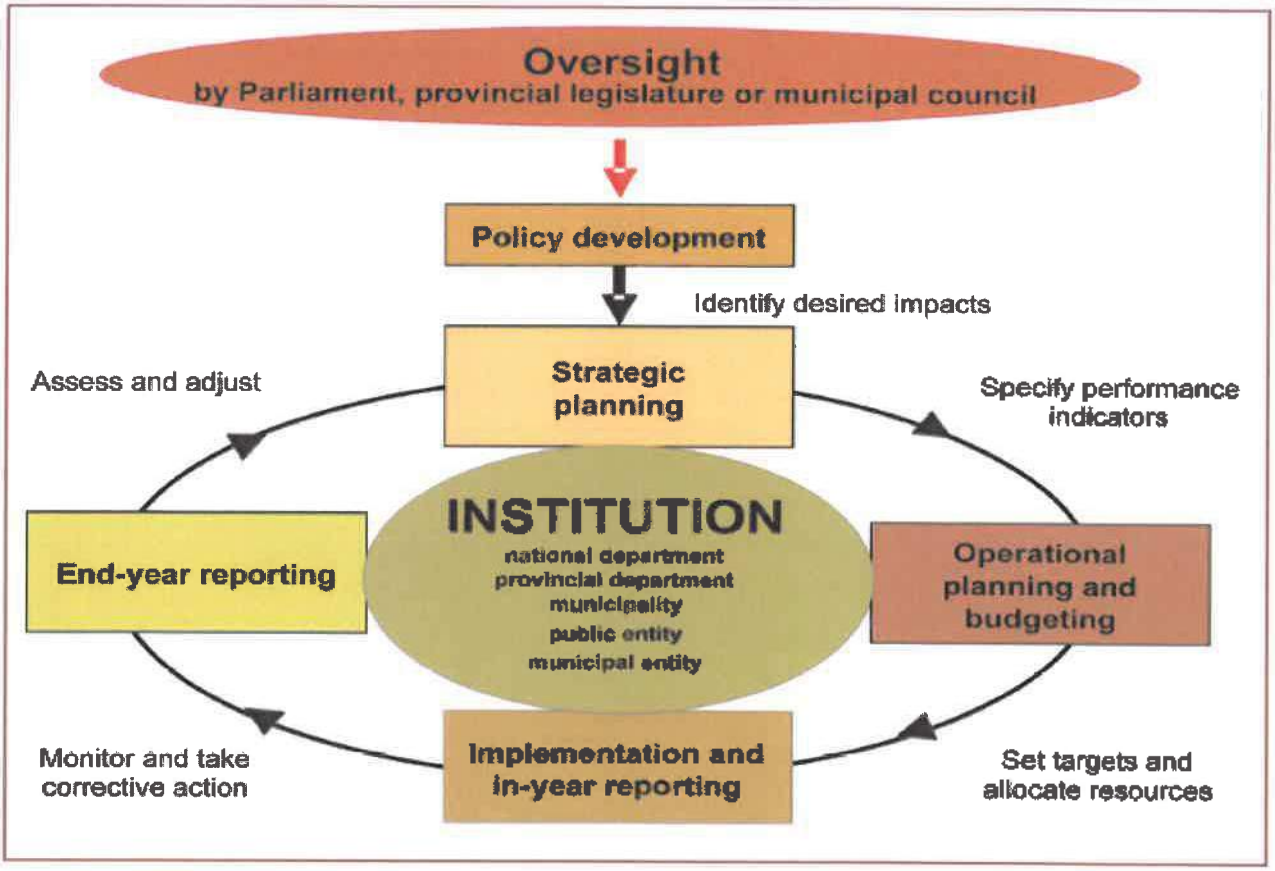

Figure 5 Planning, budgeting and reporting cycle

The performance of the Municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations. The Municipality therefore has adopted one integrated performance management system which encompasses:

- Planning (setting goals, objectives, targets and benchmarks);
- Monitoring (regular monitoring and checking on the progress against plan);
- Measurement (indicators of success);
- Review (identifying areas requiring change and improvement);
- Reporting (what information, to whom, from whom, how often and for what purpose); and
- Improvement (making changes where necessary).

The performance information concepts used by the Municipality in its integrated performance management system are aligned to the ***Framework of Managing Programme Performance Information*** issued by the National Treasury:

C60/11

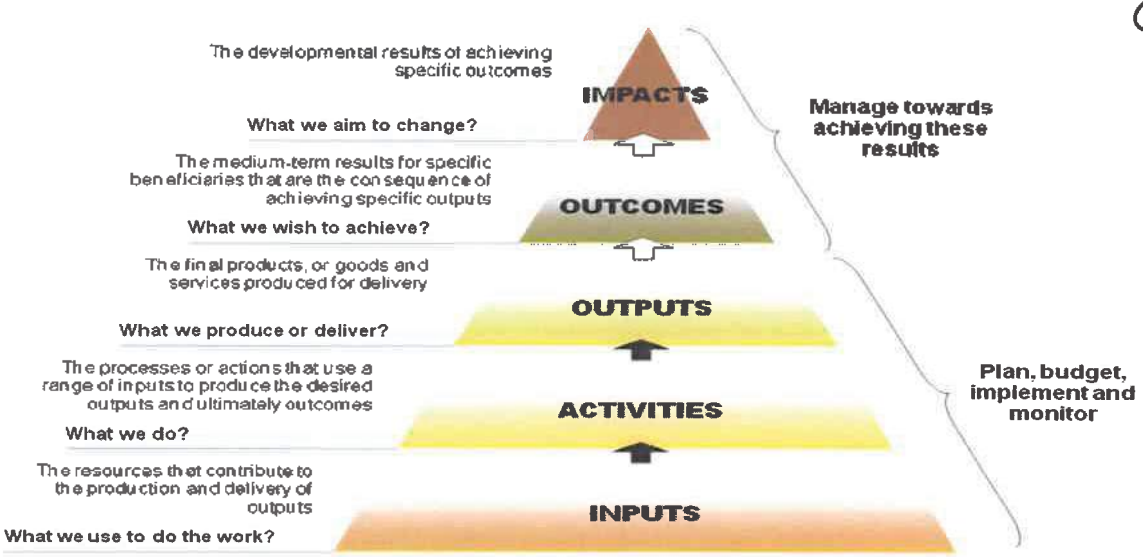

Figure 6 Definition of performance information concepts

The following table provides the main measurable performance objectives the municipality undertakes to achieve this financial year.

Table 31 MBRR Table SA7 - Measurable performance objectives

C64|117

2.3.1 Performance indicators and benchmarks

Overstrand has been compiling and including in the annual budget documentation the Financial Ratios and Norms in terms of MFMA Circular 71 dated 17 January 2014, for each of the budget year's being compiled, since 2014/2015.

National Treasury requested information based on the ratios and norms in respect of the 2017/2018, 2018/19 and 2019/20 audit outcomes. This, and information relating to the current financial year (2020/2021) and all three years of the 2021/22 MTREF has been compiled and is included in Annexure H of this report. The six year horizon has thus been compiled and analised.

It should be noted that instances where indicators are not favourable with the norms indicated by NT, are not necessarily a negative indication, as the Overstrand financial strategy may differ from the envisaged outcome of the ratios and norms. In most instances the trend for those indicators are the same over the six year horizon. In other instances Overstrand is well above some of the ratios and norms over the six year horizon.

2.3.1.1 Borrowing Management

Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. The ability of a municipality to raise long term borrowing is largely dependent on its creditworthiness and financial position. As with all other municipalities, Overstrand's borrowing strategy is primarily informed by the affordability of debt repayments. The structure of the Municipality's debt portfolio is dominated by annuity loans. The following financial performance indicators have formed part of the compilation of the 2021/22 MTREF:

- *Capital charges to operating expenditure* is a measure of the cost of borrowing in relation to the operating expenditure. It can be seen that the cost of borrowing remains steady. While borrowing is considered a prudent financial instrument in financing capital infrastructure development, this indicator will have to be carefully monitored going forward.

- *Borrowing funding of own capital expenditure* measures the degree to which own capital expenditure (excluding grants and contributions) has been funded by way of borrowing. The average over the MTREF is 66 per cent which indicates that the amount available from own sources to finance capital has shown an increase. This is as a result of utilising a portion of surpluses as they became available, as well as land sales.

In summary, various financial risks could have a negative impact on the future borrowing capacity of the municipality. In particular, the continued ability of the Municipality to meet its revenue targets and ensure its forecasted cash flow targets are achieved will be critical in meeting the repayments of the debt service costs. As part of the compilation of the 2011/2012 MTREF the potential of smoothing out the debt profile over the longer term was investigated and borrowing was capped at 60% in the borrowing policy. The gearing on borrowing had to be reduced by 10 per cent over a period of ten years as started in 2012. To date this has now been achieved, with the indication that the 2021/22 budget year is estimated to end below 40%.

2.3.1.2 Safety of Capital

- *The gearing ratio* is a measure of the total long term borrowings over funds and reserves. This ratio is not conducive to the GRAP accounting framework due to the low amount of reserves.

2.3.1.3 Liquidity

- *Current ratio* is a measure of the current assets divided by the current liabilities and as a benchmark the Municipality has set a bottom limit of 1.5, therefore at no point in time should this ratio be less than 1.5. Over the 2021/22 MTREF the current ratio is 1,71 decreasing to 1,53 by

2023/2024. National Treasury has set a current ratio minimum of 1.5 in circular 71. Going forward it will be necessary to preserve this ratio, notwithstanding that it could tie up cash needed for capital investment.

- *The liquidity ratio* is a measure of the ability of the municipality to utilize cash and cash equivalents to extinguish or retire its current liabilities immediately. Ideally the municipality should have the equivalent cash and cash equivalents on hand to meet at least the current liabilities, which should translate into a liquidity ratio of 1. Overstrand Municipality's liquidity ratio is at an average of more than 2 over the MTREF. The liquidity includes consumer deposits and provisions which are not likely to be realised in the short term. As part of the longer term financial planning objectives this ratio should be preserved as mentioned, notwithstanding that it could tie up cash needed for capital investment.

2.3.1.4 Revenue Management

- As part of the financial sustainability strategy, an aggressive revenue management framework has been implemented to increase cash inflow, not only from current billings but also from debtors that are in arrears in excess of 90 days. The intention of the strategy is to streamline the revenue value chain by ensuring accurate billing, customer service, credit control and debt collection.

2.3.1.5 Creditors Management

- The Municipality has managed to ensure that creditors are settled within the legislated 30 days of invoice. By applying daily cash flow management the municipality has managed to ensure compliance to this legislative obligation. This has had a favourable impact on suppliers' perceptions of risk of doing business with the Municipality, which is expected to benefit the Municipality in the form of more competitive pricing of tenders, as suppliers compete for the Municipality's business.

2.3.1.6 Other Indicators

- The electricity distribution losses have been managed downwards from 8.3 per cent in the 2010/2011 financial year to 6 per cent over the MTREF. This includes measureable technical losses, which further reduces the percentage of losses. The initiatives to ensure these targets are achieved include managing illegal connections, regular meter audits and managing theft of electricity by rolling out smart metering systems, including prepaid meters. It should be noted that technical losses range substantially below 10 per cent over the Overstrand area. When taking this into consideration it is evident that distribution losses are well managed.

- The water distribution losses have been significantly reduced from 27,4 per cent in 2009/10 to 25 per cent over the 2021/22 MTREF. This has been achieved with investing in the upgrading of water reticulation infrastructure, which is set to continue over the MTREF. Active attention is also given to reported leaks by the public and a further measure is to install flow limiters.

- Employee costs as a percentage of operating revenue remains stable. This is primarily owing to limited expansion of the personnel structure.

- In real terms, repairs and maintenance has increased as part of the municipality's strategy to ensure the management of its asset base

2.3.2 Free Basic Services: basic social services package for indigent households

The social package assists residents that have difficulty paying for services and are registered as indigent households in terms of the Indigent Policy of the Municipality. Only registered indigents qualify for the free basic services.

For the 2021/22 financial year 8 000 registered indigents have been provided for in the budget. In terms of the municipality's indigent policy, registered households are entitled to 6kℓ free water, 50 kWh of electricity on qualifying in terms of the particular Indigent Policy requirements, weekly refuse removal and, where applicable, sewer services which includes sewage output based on 70% of the water consumption and the latest infrastructure levy for water and waste water. Further subsidies are capped at the full revenue cost of the basic services provided above. Households with a property valuation of R220 000 qualify upon registration as indigents, for particular subsidised levels.

Further detail relating to the number of households receiving free basic services, the cost of free basic services, highest level of free basic services as well as the revenue cost associated with the free basic services is contained in Table 26 MBRR A10 (Basic Service Delivery Measurement) on page 45.

Note that the number of households in informal areas that receive free services and the cost of these services (e.g. the provision of water through stand pipes) are not taken into account in the table noted above due to the measuring criteria.

2.3.3 Providing clean water and managing waste water

The Department of Water Affairs conducts performance rating of water and sewage treatment works, presenting a Blue Drop or Green Drop award (2014/15 most recent) respectively to potable water treatment works and waste water treatment works that meet certain criteria of excellence.

The municipality has achieved Blue Drop and Green Drop awards during the latest review, indicating that the municipality's drinking water is of good quality.

The following is briefly the challenges facing the municipality:

- Some infrastructure is old and insufficient to treat the increased volumes of waste water to the necessary compliance standard - the municipality has actively prioritise this as far as possible
- Shortage of skilled personnel makes proper operations and maintenance difficult – the maintenance contract awarded in this regard thus in attending to this.

2.4 Overview of budget related-policies

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

2.4.1 Customer Care, Credit Control and Debt Collection Policy

The 2021/22 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 98 per cent on current billings year to date. In addition the collection of debt in excess of 90 days has been prioritised, as well as debt older than two years, where interest could be waived, subject to a signed agreement for the remainder of the debt.

2.4.2 Asset Management Policy

The Asset Management Policy is considered a strategic guide in ensuring a sustainable approach to asset renewal, repairs and maintenance. In addition the policy prescribes the accounting and administrative policies and procedures relating to property, plant and equipment (fixed assets).

A proxy for asset consumption can be considered the level of depreciation each asset incurs on an annual basis. Preserving the investment in existing infrastructure needs to be considered a significant strategy in ensuring the future sustainability of infrastructure and the revenue base.

2.4.3 Budget Policy

The budget process is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the financial management practices of municipalities. To ensure that the Municipality continues to deliver on its core mandate and achieves its developmental goals, the mid-year review and adjustment budget process will be utilised to ensure that underperforming functions are identified and funds redirected to performing functions.

2.4.4 Supply Chain Management Policy

The Supply Chain Management Policy was first adopted by Council in 2008. The policy is continually revised to incorporate amending legislation.

2.4.5 Virement Policy

The Virement Policy aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA and the Municipality's system of delegations.

2.4.6 Investment, Liquidity & Cash Management Policy

The aim of the policy is to ensure that the Municipality's surplus cash and investments are prudently and adequately managed.

2.4.7 Tariff Policy

The Municipality's tariff policies provide a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery.

2.4.8 Long term Financial Planning & Implementation Policy

Funding for the compiling of a The Long term Financial Planning Policy was acquired from the Provincial Government. A long term financial plan has been compiled in 2014/15, after a service provider had been appointed. The policy is reviewed annually.

2.4.9 Contract Management Policy

This policy has been introduced to further enhance the supply chain management function.

2.4.10 Pay Day Policy

This policy has been introduced to give effect to the council resolution in this regard.

The following policies have also been subject to review:

- Property Rates Policy;
- Funding and Reserves Policy;
- Borrowing Policy;
- Indigent Policy;
- Travelling & Subsistence;
- Petty Cash
- Special rating Area Policy
- Unauthorised, Irregular and Fruitless & Wasteful Expenditure Policy
- Cost Containment Policy

2.5 Overview of budget assumptions

2.5.1 External factors

On provincial level, there are signs of economic recovery and we could expect economic growth to increase by 4.6 per cent in 2021, 3.1 per cent in 2022 and 2.8 per cent in 2023 in the Western Cape. Again also warning that there are significant downside risks, including, most importantly, the possible third wave, a shortage of electricity and a rise in inflation, all of which could compromise economic recovery as envisaged. The only real difference to economic recovery depends on vaccinating as many people as fast as possible.

2.5.2 General inflation outlook and its impact on the municipal activities

There are five key factors that have been taken into consideration in the compilation of the 2021/22MTREF:

- National Government macro-economic targets;
- The general inflationary outlook and the impact on Municipality's residents and businesses;
- The impact of municipal cost drivers;
- The increase in prices for bulk electricity and fuel; and
- The increase in the cost of remuneration. Employee related costs comprise 32,7 per cent of total operating expenditure in the 2021/22 MTREF and therefore increases above inflation places a disproportionate upward pressure on the expenditure budget

2.5.3 Interest rates for borrowing and investment of funds

The MFMA specifies that borrowing can only be utilised to fund capital or refinancing of borrowing in certain conditions. The municipality chiefly engages in amortisation-style loans requiring both regular principal and interest payments. Surplus cash is invested and re-invested at short intervals.

2.5.4 Collection rate for revenue services

The base assumption is that tariff and rating increases will increase at a rate linked to CPI over the medium term. It is also assumed that current economic conditions, and relative inflationary conditions, will continue for the forecasted term.

The revenue collection rate is currently expressed as a percentage (98%) of annual billings up to February 2021. Cash flow is expected to be less than this historic performance up to date, due to the impact of the COVID-19 virus and subsequent lockdown from end of March 2020. Adjusted alert level 3 was in place from 29 December 2020 until 28 February 2021.

2.5.5 Growth or decline in tax base of the municipality

Debtors' revenue is assumed to increase at a rate that is influenced by the consumer debtors' collection rate, tariff/rate pricing, real growth rate of the Municipality, household formation growth rate and the poor household change rate.

Household formation is the key factor in measuring municipal revenue and expenditure growth, as servicing 'households' is a greater municipal service factor than servicing individuals. Household formation rates are assumed to convert to household dwellings. In addition the change in the number of poor households influences the net revenue benefit derived from household formation growth, as it assumes that the same costs incurred for servicing the household exist, but that no consumer revenue is derived as the 'poor household' mainly limits consumption to the level of free basic services.

2.5.6 Salary increases

The South African Local Government Bargaining Council (SALGBC) Salary and Wage Collective Agreement for municipalities for the period 01 July 2018 to 31 June 2020 has come to an end and a new agreement is under consultation, which we hope will take into account the current fiscal constraints faced by government.
The proposed increase in the salary budget is 4.5%, and notch increases, which average 1.9% have also been budgeted for in view of the fact that annual salary adjustments are still to be negotiated at SALGBC level between the employer organization (SALGA) and the respective unions.

2.5.7 Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard various measures were implemented to align IDPs, provincial and national strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives:

- Creating jobs;
- Enhancing education and skill development;
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption.

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of the national, provincial and local objectives.

2.5.8 Ability of the municipality to spend and deliver on the programmes

It is estimated that a spending rate of 99 per cent could be achieved on operating expenditure and 95 per cent on the capital programme for the 2021/22 MTREF.

2.6 Overview of budget funding

2.6.1 Medium-term outlook: operating revenue

The following table is a breakdown of the operating revenue over the medium-term:

C70/17

Table 33 Breakdown of the operating revenue over the medium-term

Description R thousand	2021/22 Medium Term Revenue & Expenditure Framework Budget Year 2021/22	Budget Year +1 2022/23	Budget Year +2 2023/24
Revenue By Source			
Property rates	275 637	286 662	298 129

TOTAL GRANTS	**293 546 000**	**258 105 000**	**203 777 000**

Tariff setting plays a major role in ensuring desired levels of revenue. Getting tariffs right assists in the compilation of a credible and funded budget. The Municipality derives most of its operational revenue from the provision of goods and services such as water, electricity, sanitation, solid waste removal, property rates, operating and capital grants from organs of state and other minor charges (such as building plan fees, licenses and permits etc).

The revenue strategy is a function of key components such as:

- Growth in the municipality and economic development;
- Revenue management and enhancement;
- Achievement of close to 98 per cent annual collection rate for consumer revenue;
- National Treasury guidelines;
- Electricity tariff increases within the National Electricity Regulator of South Africa (NERSA) approval;
- Achievement of full cost recovery of specific user charges;
- Determining tariff escalation rate by establishing/calculating revenue requirements; and
- The Property Rates Policy in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004), as amended (MPRA).

The above principles guide the annual increase in the tariffs charged to the consumers and the ratepayers aligned to the economic forecasts.

Table 34 Proposed tariff increases for 2021/2022

Description Rand/cent	Current Year 2020/21	Budget Year 2021/22 % incr.	Budget Year 2021/22
Monthly Account for Household - 'Affordable Range'			
Rates and services charges:			
Property rates	178,80	4,0%	186,00
Electricity: Basic levy	356,20	14,6%	408,17
Electricity: Consumption	725,57	14,6%	831,44

Other	56,97	–	56,97
sub-total	**2 349,21**	**8,8%**	**2 555,47**
VAT on Services	325,56		355,42
Total small household bill:	**2 674,77**	**8,8%**	**2 910,89**
% increase/-decrease	–		**8,8%**

Refer to Annexure C for Tariffs increases

The levying of property rates is considered a strategic revenue source.

Services charges relating to electricity, water, sanitation and refuse removal constitutes the biggest component of the revenue basket.

Operational grants and subsidies have shown increases over the MTREF. It needs to be noted that in real terms the grants receipts from national government are growing over the MTREF. This can be seen in the increase in equitable share over the MTREF (excluding the 2020/21 Covid-19 Equitable Share allocation)

Investment revenue contributes to the revenue base. It needs to be noted that these allocations have been conservatively estimated. The actual performance against budget will be carefully monitored. Any variances in this regard will be addressed as part of the mid-year review and adjustments budget.

The tables below provide detail investment information and investment particulars by maturity.

For the medium-term, the funding strategy has been informed directly by ensuring financial sustainability and continuity. The surplus is intended to partly fund capital expenditure from own sources as well as ensure adequate cash backing of reserves and funds.

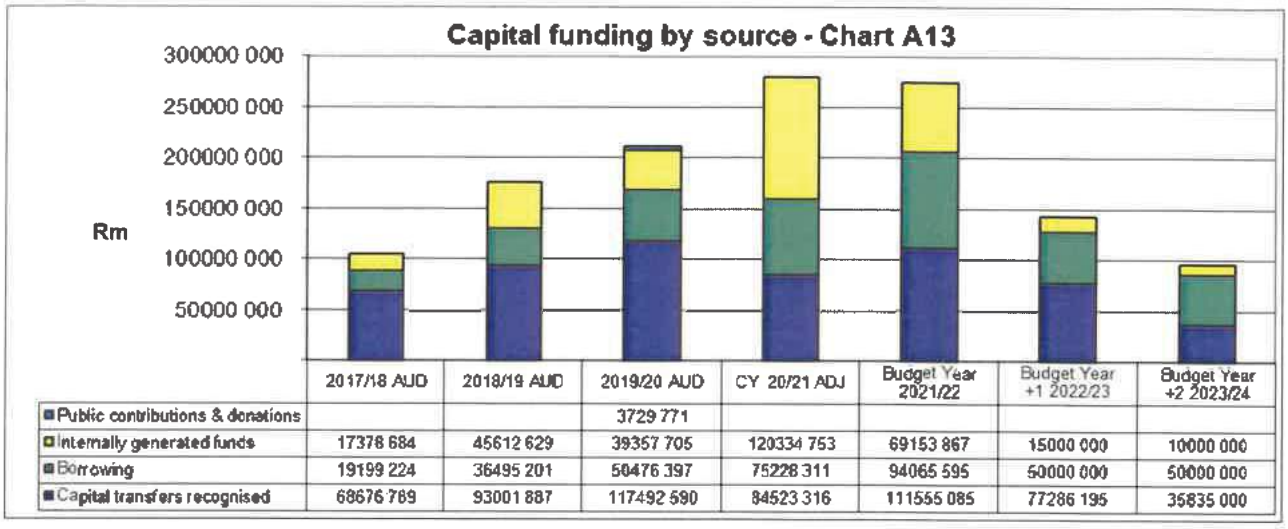

2.6.2 Medium-term outlook: capital revenue

The following table is a breakdown of the funding composition of the 2021/22 medium-term capital programme:

Borrowing still remains a significant funding source (one-third) for the own capital programme over the medium-term with an estimated R150 million new borrowing.

The following table is a detailed analysis of the Municipality's borrowing liability.

Table 39 MBRR Table SA17 - Detail of borrowings

Borrowing - Categorised by type	2017/18	2018/19	2019/20	Current Year 2020/21			2021/22 Medium Term Revenue & Expenditure Framework

C74/117

Internally generated funds consist of a mixture between surpluses generated on the operating statement of financial performance, cash backed reserves and proceeds on land sales. In determining the credibility of this funding source it becomes necessary to review the cash flow budget as well as the cash backed reserves and accumulated funds reconciliation, as discussed below. Internally generated funds consist of R69,1 million in 2021/22.
It should be noted that the level of borrowings decreases over the MTREF, from R94m in 2021/2022 to R50m in 2023/2024.

The following graph illustrates the growth in outstanding borrowing for the 2017/18 to 2023/24 period.

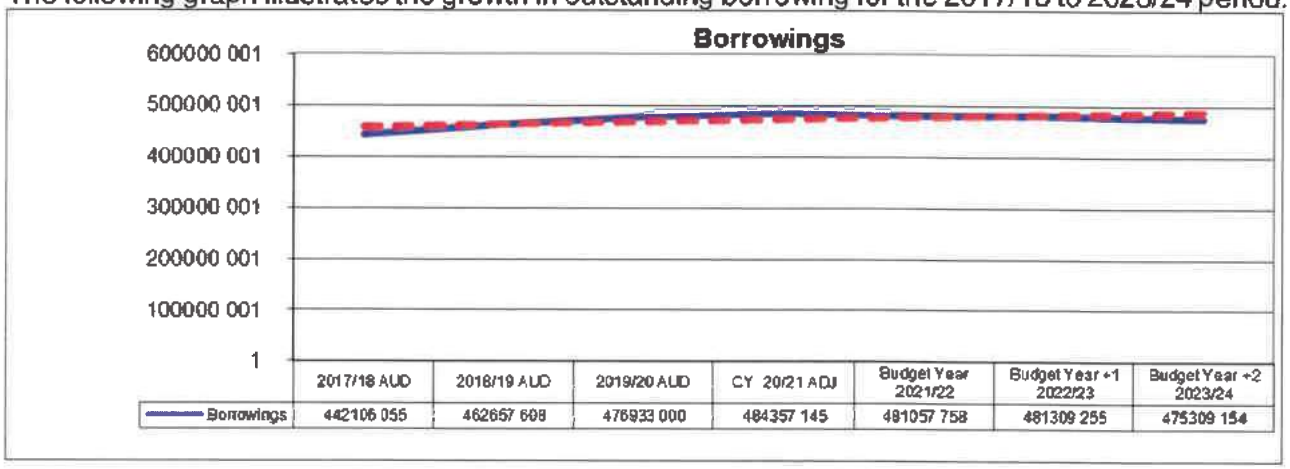

Figure 9 Growth in outstanding borrowing (long-term liabilities)

Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves understanding for councillors and management.

Table 40 MBRR Table A7 - Budgeted cash flow statement

NET CASH FROM/(USED) FINANCING ACTIVITIES	31	20 552	14 275	6 626	6 737	6 737	(2 646)	2 252	(4 000)
NET INCREASE/ (DECREASE) IN CASH HELD	215 153	58 220	120 626	(99 615)	(135 684)	(135 684)	(67 299)	9 786	53 526
Cash/cash equivalents at the year begin:	259 815	474 967	533 188	585 426	653 813	653 813	518 129	450 829	460 616
Cash/cash equivalents at the year end:	474 967	533 188	653 813	485 812	518 129	518 129	450 829	460 616	513 942

The above table shows that cash and cash equivalents of the Municipality reflects steady growth from the 2017/2018 to 2023/2024 financial years. For the 2021/22 MTREF the budget has been prepared to ensure acceptable levels of cash and cash equivalents over the medium-term with cash levels anticipated to remain stable.

2.6.3 Cash Backed Reserves/Accumulated Surplus Reconciliation

This following table meets the requirements of MFMA Circular 42 which deals with the funding of a municipal budget in accordance with sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- The predicted cash and investments available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that is available. A shortfall (applications > cash and investments) is indicative of non-compliance with section 18 of the MFMA requirement that the municipality's budget must be 'funded' it is also important to analyse trends to understand the consequences. Cash surpluses have been realised over the past three years, which is inevitably utilised to finance capital. The working capital has to be optimally managed.

Table 41 MBRR Table A8 - Cash backed reserves/accumulated surplus reconciliation

Description	2017/18	2018/19	2019/20	Current Year 2020/21			2021/22 Medium Term Revenue & Expenditure Framework		
R thousand	Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Budget Year 2021/22	Budget Year +1 2022/23	Budget Year +2 2023/24
Cash and investments available									
Cash/cash equivalents at the year end	474 967	533 188	653 813	485 812	518 129	518 129	450 829	460 616	513 942
Other current investments > 90 days	(0)	0	-	(0)	-	-	-	-	-
Non current assets - Investments	44 595	50 524	46 515	65 460	54 460	54 460	62 165	70 005	77 989
Cash and investments available:	519 562	583 711	700 328	551 272	572 589	572 589	512 994	530 621	591 931
Application of cash and investments									
Unspent conditional transfers	-	-	-	-	-	-	-	-	-
Unspent borrowing	10 450	38 199	-	25 193	25 193	25 193	-	-	-
Statutory requirements	-	-	-	-	-	-	-	-	-
Other working capital requirements	(234 701)	(242 434)	(310 844)	(219 251)	(214 941)	(214 941)	(302 146)	(331 089)	(396 241)
Other provisions				4 109	4 109	4 109	10 200	10 200	10 200
Long term investments committed	44 595	50 524	46 515	65 460	54 460	54 460	62 165	70 005	77 989
Reserves to be backed by cash/investments	3 259	3 227	3 227	3 345	3 345	3 345	3 228	3 228	3 228
Total Application of cash and investments:	(176 397)	(150 485)	(261 102)	(121 144)	(127 835)	(127 835)	(226 555)	(247 657)	(304 825)
Surplus(shortfall)	695 959	734 196	961 430	672 416	700 423	700 423	739 548	778 278	896 756

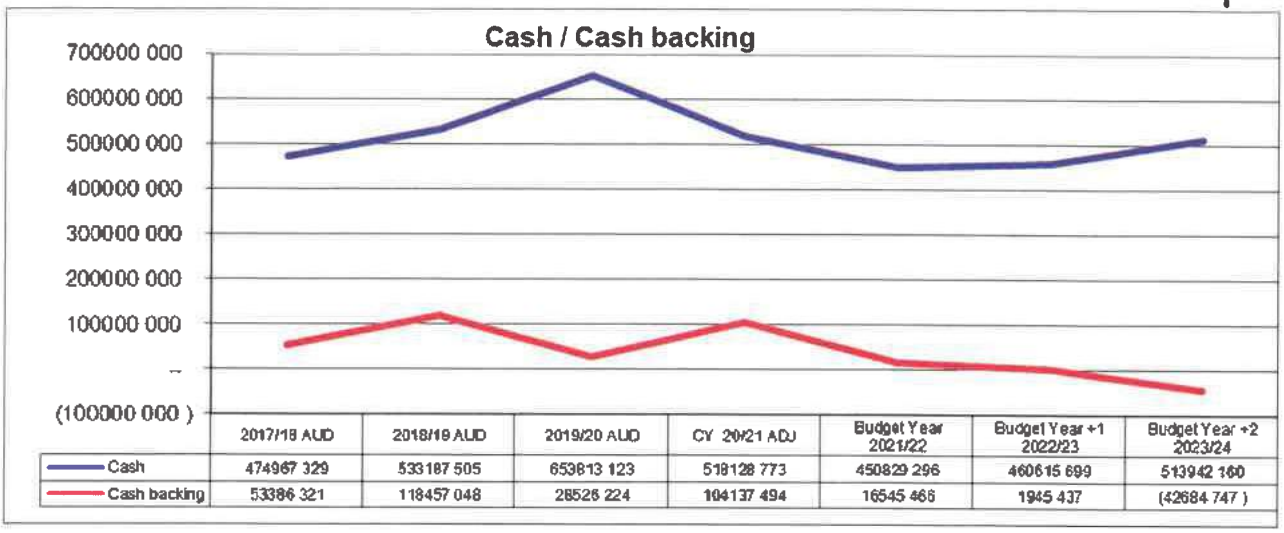

From the above table it can be seen that the cash and investments total R572,6 million in the 2020/2021 financial year and decrease to R512,9 million in 2021/22, including the projected cash and cash equivalents as determined in the cash flow forecast. The following is a breakdown of the application of this funding:

- Unspent conditional transfers (grants) are automatically assumed to be an obligation as the municipality has received government transfers in advance of meeting the conditions. Ordinarily, unless there are special circumstances, the municipality is obligated to return unspent conditional grant funds to the national revenue fund at the end of the financial year. Stringent measures have been implemented by NT regarding unspent grants.
- Unspent borrowing amounting to R44m from the previous financial year is anticipated. Borrowings are only drawn down once substantial expenditure has incurred against the particular projects.
- Provisions for statutory requirements could include VAT owing to SARS at year end.
- The main purpose of other working capital is to ensure that sufficient funds are available to meet obligations as they fall due. A key challenge is often the mismatch between the timing of receipts of funds from debtors and payments due to employees and creditors. For the purpose of the cash backed reserves and accumulated surplus reconciliation, at least two months operational expenditure is covered at all times. It needs to be noted that although this can be considered prudent, the desired cash levels should be 90 days to ensure continued liquidity of the municipality. Any underperformance in relation to collections could place upward pressure on the ability of the Municipality to meet its creditor obligations.
- Long term investments consist primarily of the sinking funds for the repayment of future borrowings. The sinking fund value is held within long term investments and must be 'held to maturity' and is not available for spending.

When considering the funding requirements of section 18 and 19 of the MFMA, it needs to be noted that for all practical purposes the 2021/22 MTREF is funded, from a pure cash flow perspective (cash out flow versus cash inflow), and is therefore credible. The challenge for the Municipality will be to ensure that the underlying planning and cash flow assumptions are meticulously managed, especially the performance against the collection rate.

The following graph supplies an analysis of the trends relating cash and cash equivalents and the cash backed reserves/accumulated funds reconciliation over a seven year perspective.

2.6.4 Funding compliance measurement

National Treasury requires that the municipality assess its financial sustainability against fourteen different measures that look at various aspects of the financial health of the municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of financial performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA. Each of the measures is discussed below.

C78/117

Table 42 MBRR SA10 – Funding compliance measurement

MTREF Funded (1) / Unfunded (0)		1	1	1	1	1	1	1	1	1
MTREF Funded ü / Unfunded û		✓	✓	✓	✓	✓	✓	✓	✓	✓

2.6.4.1 Cash/cash equivalent position

The Municipality's forecast cash position was discussed as part of the budgeted cash flow statement. A 'positive' cash position, for each year of the MTREF would generally be a minimum requirement, subject to the planned application of these funds such as cash-backing of reserves and working capital requirements.

If the municipality's forecast cash position is negative, for any year of the medium term budget, the budget is very unlikely to meet MFMA requirements or be sustainable and could indicate a risk of non-compliance with section 45 of the MFMA which deals with the repayment of short term debt at the end of the financial year. The forecasted cash and cash equivalents for the 2021/22 MTREF indicates R450,8million, R460,6 million and R513,9 million for each respective financial year.

2.6.4.2 Cash plus investments less application of funds

The purpose of this measure is to understand how the municipality has applied the available cash and investments as identified in the budgeted cash flow statement. The detail reconciliation of the cash backed reserves/surpluses is contained in Table 41, on page 72. The reconciliation is intended to be a relatively simple methodology for understanding the budgeted amount of cash and investments available with any planned or required applications to be made. This has been extensively discussed above.

2.6.4.3 Monthly average payments covered by cash or cash equivalents

The purpose of this measure is to understand the level of financial risk should the municipality be under stress from a collection and cash in-flow perspective. Regardless of the annual cash position an evaluation should be made of the ability of the Municipality to meet monthly payments as and when they fall due. It is especially important to consider the position should the municipality be faced with an unexpected disaster that threatens revenue collection such as services boycotts. The ratio is above 4 over the 2021/22 MTREF.

2.6.4.4 Surplus/deficit excluding depreciation offsets

The main purpose of this measure is to understand if the revenue levels are sufficient to conclude that the community is making a sufficient contribution for the municipal resources consumed each year. An 'adjusted' surplus/deficit is achieved by offsetting the amount of depreciation related to externally funded assets. Municipalities need to assess the result of this calculation taking into consideration its own circumstances and levels of backlogs. If the outcome is a deficit, it may indicate that rates and service charges are insufficient to ensure that the community is making a sufficient contribution toward the economic benefits they are consuming over the medium term. The issue relating to depreciation has been discussed at length elsewhere in this report. This indicator cannot be measured as depreciation offset do not form part of the GRAP reporting framework. It needs to be noted that a deficit does not necessarily mean that the budget is not funded from a cash flow perspective and the first two measures in the table are therefore critical.

2.6.4.5 Property Rates/service revenue as a percentage increase less macro inflation target

The purpose of this measure is to understand whether the municipality is contributing appropriately to the achievement of national inflation targets. This measure is based on the increase in 'revenue', which will include both the change in the tariff as well as any assumption about real growth such as new property development, services consumption growth etc.

The factor is calculated by deducting the maximum macro-economic inflation target increase (which is projected at 3.9 per cent). Refer to Annexure B for Rates, Tariffs and Service Charges.

2.6.4.6 Cash receipts as a percentage of ratepayer and other revenue

This factor is a macro measure of the rate at which funds are 'collected'. This measure is intended to analyse the underlying assumed collection rate for the MTREF to determine the relevance and credibility of the budget assumptions contained in the budget. Given that the collection rate was based on a lower performance target, the cash flow statement has been accurately determined. This measure and performance objective will have to be meticulously managed. Should performance with the mid-year review and adjustments be positive in relation to actual collections of billed revenue, the adjustments budget will be amended accordingly.

C80/117

2.6.4.7 Debt impairment expense as a percentage of billable revenue

Overstrand Municipality has provided for adequate Debt impairment.

2.6.4.8 Capital payments percentage of capital expenditure

The purpose of this measure is to determine whether the timing of payments has been taken into consideration when forecasting the cash position. The municipality aims to ensure strict compliance with the legislative requirement that creditors be paid within 30 days.

2.6.4.9 Borrowing as a percentage of capital expenditure (excluding transfers, grants and contributions)

The purpose of this measurement is to determine the proportion of a municipality's 'own-funded' capital expenditure budget that is being funded from borrowed funds to confirm MFMA compliance. Externally funded expenditure (by transfers/grants and contributions) has been excluded. It can be seen that borrowing equates to 55, 77 and 83 per cent of own funded capital.

2.6.4.10 Transfers/grants revenue as a percentage of Government transfers/grants available

The purpose of this measurement is mainly to ensure that all available transfers from national and provincial government have been budgeted for. A percentage less than 100 per cent could indicate that not all grants as contained in the Division of Revenue Act (DoRA) have been budgeted for. The Municipality has budgeted for all transfers.

2.6.4.11 Consumer debtors change (Current and Non-current)

The purpose of these measures is to ascertain whether budgeted reductions in outstanding debtors are realistic. There are 2 measures shown for this factor; the change in current debtors and the change in long term receivables, both from the Budgeted Financial Position.

2.6.4.12 Repairs and maintenance expenditure level

This measure must be considered within the context of the funding measures criteria because a trend that indicates insufficient funds are being committed to asset repair could also indicate that the overall budget is not credible and/or sustainable in the medium to long term because the revenue budget is not being protected. Details of the municipality's strategy pertaining to asset management and repairs and maintenance are contained in Table 56 MBRR SA34C on page 91.

2.6.4.13 Asset renewal/rehabilitation expenditure level

This measure has a similar objective to aforementioned objective relating to repairs and maintenance. A requirement of the detailed capital budget (since MFMA Circular 28 which was issued in December 2005) is to categorise each capital project as a new asset or a renewal/rehabilitation project. The new mSCOA Framework has further categorised asset classes. The objective is to summarise and understand the proportion of budgets being provided for new assets and also asset sustainability. A declining or low level of renewal funding may indicate that a budget is not credible and/or sustainable and future revenue is not being protected, similar to the justification for 'repairs and maintenance' budgets. Further details in this regard are contained in Table 55 MBRR SA34a on page 89.

C92/117

2.10 Annual budgets and SDBIP

The draft SDBIP for 2021/22 was tabled as a separate item at the Council meeting on 31 March 2021.

2.11 Contracts having future budgetary implications

In terms of the Municipality's Supply Chain Management Policy all contracts awarded beyond the medium-term revenue and expenditure framework (three years) are listed in Table 73 on page 113. In ensuring adherence to this contractual time frame limitation, all reports submitted to either the Bid Evaluation and Adjudication Committees must obtain formal financial comments from the Financial Management Division of the Treasury Department.

2.12 Capital expenditure details

The following four tables present details of the Municipality's capital expenditure programme, firstly on new assets, then the renewal of assets, the repair and maintenance of assets and finally, the depreciation of assets.

C93/117

2.13 Legislation compliance status

C102|117

Compliance with the MFMA implementation requirements have been adhered to through the following activities:

1. In year reporting
   Reporting to National Treasury in electronic format is being fully complied with on a monthly basis. Section 71 reporting to the Executive Mayor (within 10 working days) is being fully complied with and includes monthly published financial performance on the Municipality's website.

2. Internship programme
   The Municipality is participating in the Municipal Financial Management Internship programme and currently has five inters in the programme.

3. Budget and Treasury Office
   The Budget and Treasury Office has been established in accordance with the MFMA.

4. Audit Committee
   An Audit Committee has been established and is fully functional.

5. Service Delivery and Implementation Plan
   A SDBIP document will be tabled in council as part of the IDP.

6. Annual Report
   Annual report is compiled in terms of the MFMA and National Treasury requirements.

7. MFMA Training
   In excess of 120 municipal officials of Overstrand Municipality have completed the MFMA training.

8. Policies
   All budget related policies have been reviewed and will be tabled in Council on 31 March 2021.

2021/2022 MAIN LEDGER FINAL BUDGET CHANGES

Main Ledger Changes

ITEM		2021/2022 Changes	2022/2023 Changes	2023/2024 Changes	Notes
Cash and cash equivalents		4 530 186	-1 594 702	-33 212 708	Changes mainly due to the changes made to the surplus/deficit
Consumer debtors		-9 230 691	-19 141 230	-29 796 257	Changes mainly due to the recalculation of electricity service charges
Other debtors		3 040 000	6 080 000	9 120 000	Changes mainly due to the recalculation of yearend unbilled electricity service charges
Inventory		-1 000	-2 000	-3 000	Changes due to the water inventory
Property, plant and equipment		41 330 881	41 330 881	41 330 881	Changes due to the additional capital expenditure
Borrowings		48 884 012	41 584 107	32 104 700	Changes due to the recalculation of borrowing advances and repayments and bringing this item, as a whole more in line with actuals
Trade and other payables		70 900 000	91 050 000	111 200 000	Changes mainly due to the recalculation of electricity purchases and bringing this item, as a whole, more in line with actuals
Provisions		-3 802 413	-7 220 851	-14 646 027	Changes due to the recalculation of the provision for landfill sites, taking into consideration the cash amount to be spent (R9.1mil) as well as bringing this item more in line with actuals
Accumulated surplus		-76 194 723	-98 622 806	-141 102 253	Changes due to changes in surplus/deficit as well as other adjustments made to bring certain items more in line with actuals
Reserves		-117 500	-117 500	-117 500	Changes mainly due to the recalculation of the housing development fund and bringing this item, as a whole, more in line with actuals

References

1. *Must reconcile with Budgeted Cash Flows*
2. *For example: VAT, taxation*
3. *Council approval for policy required - include sufficient working capital (e.g. allowing for a % of current debtors > 90 days as uncollectable)*
4. *For example: sinking fund requirements for borrowing*
5. *Council approval required for each reserve created and basis of cash backing of reserves*

ANNEXURE F

SERVICE LEVEL STANDARDS

Province: Municipality(WC032) - Schedule of Service Delivery Standards	
Description	
Standard	**Service Level 2021/2022**
Solid Waste Removal	
Premise based removal (Residential Frequency)	WEEKLY
Premise based removal (Business Frequency)	UP TO 7 TIMES PER WEEK (AS PER REQUEST)
Bulk Removal (Frequency)	NO
Removal Bags provided(Yes/No)	NO
Garden refuse removal Included (Yes/No)	YES (1 bag)
Street Cleaning Frequency in CBD	DAILY
Street Cleaning Frequency in areas excluding CBD	DAILY ON ROTATIONAL BASIS
How soon are public areas cleaned after events (24hours/48hours/longer)	WITHIN 24 HRS
Clearing of illegal dumping (24hours/48hours/longer)	48 HOURS (from notification)
Recycling or environmentally friendly practices(Yes/No)	Recycling - Yes in Gansbaai and Stanford / no not by municipality for Hermanus and Kleinmond until new MRF constructed, however smaller private recyclers operating on small scale in the areas.
Licenced landfill site(Yes/No)	Yes
Water Service	
Water Quality rating (Blue/Green/Brown/N0 drop)	Programme discontinued by DWS
Is free water available to all? (All/only to the indigent consumers)	Indigent Consumers only
Frequency of meter reading? (per month, per year)	Monthly
Are estimated consumption calculated on actual consumption over (two month's/three month's/longer period)	N/A
On average for how long does the municipality use estimates before reverting back to actual readings? (months)	N/A
Duration (hours) before availability of water is restored in cases of service interruption (complete the sub questions)	
One service connection affected (number of hours)	4.00
Up to 5 service connection affected (number of hours)	4.00
Up to 20 service connection affected (number of hours)	8.00
Feeder pipe larger than 800mm (number of hours)	N/A
What is the average minimum water flow in your municipality?	Min 2.4 Bar pressure
Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)	Yes. Groundwater Monitoring Programs
How long does it take to replace faulty water meters? (days)	5 days
Do you have a cathodic protection system in place that is operational at this stage? (Yes/No)	No
Electricity Service	
What is your electricity availability percentage on average per month?	98,78% (Eskom Loadshedding included) 99.7% (Eskom Loadshedding excluded)
Do your municipality have a ripple control in place that is operational? (Yes/No)	YES
How much do you estimate is the cost saving in utilizing the ripple control system?	R 1 477 732.00 p/a
What is the frequency of meters being read? (per month, per year)	PER MONTH
Are estimated consumption calculated at consumption over (two month's/three month's/longer period)	N/A
On average for how long does the municipality use estimates before reverting back to actual readings? (months)	N/A
Duration before availability of electricity is restored in cases of breakages (immediately/one day/two days/longer)	IMMEDIATE
Are accounts normally calculated on actual readings? (Yes/no)	YES
Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)	NO
How long does it take to replace faulty meters? (days)	1

Description	
Standard	**Service Level 2021/2022**
Do you have a plan to prevent illegal connections and prevention of electricity theft? (Yes/No)	YES
How effective is the action plan in curbing line losses? (Good/Bad)	GOOD
How soon does the municipality provide a quotation to a customer upon a written request? (days)	7
How long does the municipality takes to provide electricity service where existing infrastructure can be used? (working days)	5
How long does the municipality takes to provide electricity service for low voltage users where network extension is not required? (working days)	5
How long does the municipality takes to provide electricity service for high voltage users where network extension is not required? (working days)	21
Sewerage Service	
Are your purification system effective enough to put water back in to the system after purification?	YES, effective to put water back into water resources in accordance with license conditions.
To what extent do you subsidize your indigent consumers?	Basic charge plus 4,2kl or tanker service
How long does it take to restore sewerage breakages on average	
Severe overflow? (hours)	6.00
Sewer blocked pipes: Large pipes? (Hours)	6.00
Sewer blocked pipes: Small pipes? (Hours)	8.00
Spillage clean-up? (hours)	8.00
Replacement of manhole covers? (Hours)	4.00
Road Infrastructure Services	
Time taken to repair a single pothole on a major road? (Hours)	24.00
Time taken to repair a single pothole on a minor road? (Hours)	72.00
Time taken to repair a road following an open trench service crossing? (Hours)	72.00
Time taken to repair walkways? (Hours)	72.00
Property valuations	
How long does it take on average from completion to the first account being issued? (one month/three months or longer)	3 months
Do you have any special rating properties? (Yes/No)	yes
Financial Management	
Is there any change in the situation of unauthorised and wasteful expenditure over time? (Decrease/Increase)	Decrease
Are the financial statement outsources? (Yes/No)	No
Are there Council adopted business process tsructuing the flow and managemet of documentation feeding to Trial Balalnce?	Standard Operating Procedures
How long does it take for an Tax/Invoice to be paid from the date it has been received?	30 days
Is there advance planning from SCM unit linking all departmental plans quaterly and annualy including for the next two to three years procurement plans?	Yes
Administration	
Reaction time on enquiries and requests?	1 to 10
Time to respond to a verbal customer enquiry or request? (working days)	1 to 10
Time to respond to a written customer enquiry or request? (working days)	10
Time to resolve a customer enquiry or request? (working days)	10
What percentage of calls are not answered? (5%,10% or more)	1
How long does it take to respond to voice mails? (hours)	N/A
Does the municipality have control over locked enquiries? (Yes/No)	yes
Is there a reduction in the number of complaints or not? (Yes/No)	no

Description	
Standard	**Service Level 2021/2022**
How long does in take to open an account to a new customer? (1 day/ 2 days/ a week or longer)	1 day
How many times does SCM Unit, CFO's Unit and Technical unit sit to review and resolve SCM process delays other than normal monthly management meetings?	Weekly progress reports
Community safety and licensing services	
How long does it take to register a vehicle? (minutes)	30min
How long does it take to renew a vehicle license? (minutes)	10min
How long does it take to issue a duplicate registration certificate vehicle? (minutes)	72hours
How long does it take to de-register a vehicle? (minutes)	10min
How long does it take to renew a drivers license? (minutes)	30min
What is the average reaction time of the fire service to an incident? (minutes)	4.25 min
What is the average reaction time of the ambulance service to an incident in the urban area? (minutes)	15 min urban
What is the average reaction time of the ambulance service to an incident in the rural area? (minutes)	40 min urban
Economic development	
How many economic development projects does the municipality drive?	7
How many economic development programme are deemed to be catalytic in creating an enabling environment to unlock key economic growth projects?	4
What percentage of the projects have created sustainable job security?	50
Does the municipality have any incentive plans in place to create an conducive environment for economic development? (Yes/No)	No
Other Service delivery and communication	
Is a information package handed to the new customer? (Yes/No)	Yes - available on www.overstrand.gov.za
Does the municipality have training or information sessions to inform the community? (Yes/No)	Yes
Are customers treated in a professional and humanly manner? (Yes/No)	Yes

ANNEXURE G

WATER & WASTE WATER QUALITY

ANNEXURE G1/22

2014 Blue Drop Report

water & sanitation

Department:
Water and Sanitation
REPUBLIC OF SOUTH AFRICA

blue drop
CERTIFICATION
drinking water quality
REGULATION

G2/22

Blue Drop Requirements for 2014

2014 BLUE DROP REQUIREMENTS		
(1) WATER SAFETY PLANNING 35%	(1.1) WATER SAFETY PLANNING PROCESS (10%)	a) The Water Safety Planning Process is steered by a group of people which includes the technical, financial and management staff of the municipality. Where a Water Services Provider arrangement exist the WSA and Water Services Provider should partake in this process b) There should be clear indication that the Water Services Institution conducted a water safety planning process and not only drafted a document c) There should be clear reference to the specific water supply system at hand and not only global risk management measurements put in place
	(1.2) RISK ASSESSMENT (35%)	a) The Risk Assessment must cover catchment, treatment and reticulation b) The Water Services Institution (WSI) must provide information on findings of the Risk Assessment (and detail Risk Prioritisation method followed) for the specific water supply system including water resource quality. Format not important but it should be proven not to be a desktop study c) The Water Safety Planning process must include (adequate) Control Measures for each significant hazard or hazardous event identified d) A Water Quality Analyses conducted for at least 95% of the SANS 241 list of determinands (min 80%) (SANS 241). This is to verify whether treatment technology is adequate to treat the raw water to comply with national standard limits e) The WSI to proof implementation of mitigation measures from previous Water Safety Plans
	(1.3) MONITORING PROGRAMME (30%)	a) Prove Operational Monitoring is: i) Informed by the Risk Assessment ii) Required sites to monitor: Raw water, after filtration (per process unit) and final water iii) Determinands (minimum): pH, turbidity and disinfectant residual iv) Frequency of analyses: at least every 8 hours v) Equipment used + calibration records
		b) Prove Compliance Monitoring is: i) Informed by the Risk Assessment and SANS 241 compliant ii) Monitoring programme is registered on BDS iii) Actual monitoring occur according to registered BDS monitoring programme (>80%) iv) Required sites to monitor: Water works final & distribution network + Frequency of analyses: Water works final according SANS 241; distribution network according SANS 241 v) Coverage of population served must at least be 80%
	(1.4) CREDIBILITY of DWQ DATA (15%)	a) Certificate of Accreditation for applicable methods OR Z-scores results (z-scores must be ≥–2 & ≤ 2 are acceptable) in a recognised Proficiency Testing Scheme b) DWQ Data credibility on the BDS (Blue Drop Certified Data)
	(1.5) INCIDENT MANAGEMENT (10%)	a) **Protocol to specify:** 1) Alert levels 2) Response times 3) Required actions 4) Roles & responsibilities 5) Communication vehicles/methods and 6) Must include response on possible risks identified in the Risk Assessment of the Water Safety Planning process b) **Incident Register to include:** 7) Date, location and description of incident 8) Action taken and date of resolution 9) Outcome of cause investigation
	Sampler's Training	

		1) Evidence of relevant sampling training that will ensure credibility of the sampling process; or 2) Evidence of control measures to ensure sampling credibility
	Incident Management Protocol Communication	Communication on the Incident Management Protocol process with all relevant staff within the Municipality
(2) DWQ PROCESS MANAGE-MENT & CONTROL 8%	(2.1) **WORKS CLASSIFICATION COMPLIANCE (15%)**	Treatment works classified according the requirements of Regulation 2834- ONLY the classification as it appears on BDS will be used. Supporting evidence to allow the correct classification to be loaded on BDS, Water Services Institutions remains accountable for correctness of information / classification Certificate to be displayed at treatment works (*confirmed during on-site assessments*)
	(2.2) **PROCESS CONTROL REGISTRATION COMPLIANCE (50%)**	a) Process Control Staff must be Registered according to Regulation 2834 with the Department of Water Affairs. Water Services Institutions to prove per treatment works that Process Control Staff complies with the legislative requirements of: i) Number of Process Controllers' ii) Complying with the required Classification levels b) The Supervisor must comply with legislative requirements Information as it appears on BDS will be used ONLY, WSI's to ensure correct classification of all staff per treatment plant
	(2.3) **WATER TREATMENT WORKS' LOGBOOK (35%)**	a) A logbook is in place to record all incidents and observations at the water treatment works b) Evidence is presented that the logbook process is (i.e. communication medium between process controllers and shifts) being implemented (It is NOT required to be implemented for the entire assessment period)
	BONUS (1): **Process Control Training**	Proof of Process Control staff being subjected to relevant training the past 12 months to allow Process Controllers to meet the education requirements towards higher level draft Regulation 813 Registration (Year 2013)
	BONUS (2) **Process Control Excellence**	a) Process Control Staff classified according the requirements of draft Regulation 813 on the Blue Drop System b) Process Control Staff and Supervisor compliance confirmed against draft Regulation 813 (must comply at least 75% in each of the shifts) WSI must indicate shift patterns and Supervisor on BDS. WSI to explain measures in place when a shift does not comply with regulatory process control requirements c) WSI must indicate process controllers and/or supervisors that are 'shared' across different plants/sites
Water Quality Data Period – 1 January 2013 – 31 December 2013		
(3) DRINKING WATER QUALITY VERIFICATION 30%	(3.1.1) **MICROBIOLOGICAL DWQ COMPLIANCE (50%)**	The Microbiological Quality of the water supply must comply with the South African National Standard (specifically, the 2014 Blue Drop Limits which have been derived from SANS241: 2006 and 2011) as per the Excellent Requirements set by the Blue Drop Programme (*E coli*) - Excellent Compliance (97% for <100 000 population) & (99% for >100 000 population)
	(3.1.2) **CHEMICAL DWQ COMPLIANCE (45%)**	The Chemical Quality of the water supply must comply with the Excellent Requirements set by the Blue Drop Programme for all chemical-health determinands listed in the South African National Standard (the 2014 Blue Drop Limits, derived from SANS241: 2006 and 2011) Chemical – Health (Acute and Chronic): - Excellent Compliance (95% for <100 000 population) & (97% for >100 000 population) - Good Compliance (93% for <100 000 population) & (95% for >100 000 population)
	(3.1.3) **OPERATIONAL**	The compliance of operational determinands must comply with the 2014 Blue Drop Excellent Limits set by the Blue Drop Programme

G4/22

	COMPLIANCE (5%)	- Excellent Compliance (93% for <100 000 population & 95% for >100 000 population) - Good Compliance (90% for <100 000 population & 93% for >100 000 population)
	Aesthetic DWQ Compliance	The Aesthetic Quality of the water supply must comply with the Excellent Requirements set by the Blue Drop Programme for all aesthetic determinands listed in the 2014 Blue Drop Limits - Excellent Compliance (93% for <100 000 population & 95% for >100 000 population) - Good Compliance (90% for <100 000 population & 93% for >100 000 population)
	PENALTY (1): Data **Difference**	Should there be a difference between data available on BDS and that which is presented in hardcopy for verification the penalty will apply
	PENALTY (2): <11 **Months' Data**	Less than 11 months data available to assess Microbiological and Chemical compliance
	PENALTY (3): **Notification of Failure**	If there is any significant (sustained) failure with no evidence of a Water Quality Alert Notice (Boil Water Notice) being issued, this penalty will apply. NB! This may have an implication on qualification for certification
(4) **MANAGE-MENT, ACCOUNTA-BILITY, & LOCAL REGULATION** **10%**	(4.1) **MANAGEMENT COMMITMENT** (30%)	Management's commitment to effective Drinking Water Quality Operations & Management should be portrayed by Proof of signature approval of the: a) Water Safety Plan b) DWQ Monitoring Programme c) Water Treatment Plant Logbook d) Operations and Maintenance Budget e) Water Services Development Plan
	(4.2) **PUBLICATION OF PERFORMANCE** (25%)	Evidence should be provided on the various means of drinking water quality information made public to the constituencies supplied with drinking water from this specific water supply system Forms of Publication: >Newspaper publication >Municipal Billing >Community Radio >Annual Report >Posters & Pamphlets >Population and Promotion of "My Water" >Electronic Webpage Water Services Institutions must provide evidence of adequate marketing of Existing Blue Drop Certified water supply systems
	(4.3) **SERVICE LEVEL AGREEMENT/ PERFORMANCE AGREEMENT** (15%)	Should there be an institutional arrangement between the Water Services Authority and the Water Services Provider, then it is essential that the legislatively required contract (Section 19 of the Water Services Act) stipulate the Service Level Agreements between the two entities. A copy of this document is required, **OR** Should the Water Services Authority fulfil the function of Water Services Provider as per Section 78 arrangements, then it is required that the responsible manager (official) have a Performance Agreement (Workplan) in place which stipulates Drinking Water Quality Management Responsibilities
	(4.4) **SUBMISSION OF DWQ DATA** (30%)	a) 12 months of data had been submitted on the Blue Drop System (BDS) (DWA will only consider data available on the BDS) b) All compliance monitoring test results are required to be submitted c) As per a requirement of the Water Services Act, compliance data submission occurred monthly (Section 62 of the Water Services Act, Section 9 Regulations) (measured as BDS submission compliance)
	BONUS (1): **Publication of Performance**	Awarding bonus information on drinking water to relevant consumers in a more comprehensive manner
	BONUS (2)	Water Master Plan Completed and Used to Optimise Infrastructure

	Performance Agreement	Maintenance Manual
	Procurement processes	Proof that systems are in place to not run short of Chemicals & Consumables required for treatment
	PENALTY: **Submission of DWQ Data**	Penalty will apply should the Department find proof during / post assessment that the WSI are guilty of an offence as per Section 82 of the Water Services Act, by only submitting partial information in order to present a false impression of DWQ Performance and/or compliance
(5) **ASSET MANAGE-MENT 14%**	(5.1) **ANNUAL PROCESS AUDIT (20%)**	Process Audit Report on technical inspection/assessment of treatment facility and evidence of implementation of findings This process assessment should've been done within the 12-month assessment period
	(5.2) **ASSET REGISTER (15%)**	The Institution must present a complete Asset Register. The asset register must: a) Detail relevant equipment and infrastructure b) Indicate asset description c) Location d) Condition (remaining life) e) Replacement value
	(5.3) **AVAILABILITY & COMPETENCE of MAINTENANCE TEAM (15%)**	a) The Institution must present evidence of a competent Maintenance Team (in form of Organogram; Contract or Invoice). Logbook with maintenance entries will serve as adequate evidence (for Mechanical, Electrical, Instrumentation and Civil work) b) Additional prove required on team competency (e.g. Qualification & Experience & Trade-test)
	(5.4) **OPERATIONS & MAINTENANCE MANUAL (15%)**	O&M manual to contain: a) Civil, mechanical, electrical detail / drawings of plant b) Design capacity of plant c) Operational schedules, maintenance schedules d) Process detail and control e) Mechanical and electrical equipment specification f) Fault finding g) Monitoring
	(5.5) **OPERATIONS & MAINTENANCE BUDGET and EXPENDITURE (20%)**	The Institution must present credible evidence of: a) Maintenance Budget (as part of Operations Budget) b) Maintenance Expenditure (as part of the Operations Expenditure) c) Maintenance Expenditure should be more than 5% of the Operations Expenditure in Total for the preceding Financial Year Financial expenditure to apply as per Municipal Budget Year: Jul 2012 to Jun 2013
	(5.6) **DESIGN CAPACITY vs. OPERATIONAL CAPACITY (15%)**	Proof to be submitted of the documented design capacity and documented daily operating capacity over the past 12 months Groundwater dependant systems must have an acceptable plan which stipulates abstraction patterns that will prevent aquifer damage Flow meters must be calibrated at least annually
Blue Drop Requirements= TOTAL 97%

2014 NO DROP REQUIREMENTS (Water use efficiency)

<table>
<tr><td rowspan="3">(6)
WATER USE EFFICIENCY & WATER LOSS MANAGE-MENT
3%</td><td>(6.1)
WATER BALANCE
(30%)</td><td>Provide MONTHLY and ANNUAL composite IWA water balance diagrams and supporting documents for the complete system as part of the water audit (as a component in the WSDP) as per Regulation 509 of 2001 Clause 10 of the Water Supply Regulations. Balance diagram to specify as a minimum the main components of the IWA balance including Water Losses broken down into:
a) System input volumes
b) Billed metered and unmetered usage
c) Unbilled Authorised Consumption
d) Water losses broken down into Real and Apparent Losses
e) Free Basic Water, and
f) Non Revenue Water
and to be supported by a schematic showing bulk meters, zones and main infrastructure components

Note: WSI's to ensure that units are clearly indicated against numeric values in water balance (e.g. 100 kl/annum, 50 m^3/day, etc)</td></tr>
<tr><td>(6.2)
WDM STRATEGY and BUSINESS PLAN and IMPLEMENTATION
(30%)</td><td>a) Evidence must be provided of a Council approved WDM strategy and business plan consisting of at least the following:
- Background and Context
- Situation Assessment including a Needs Statement
- Key Issues and Challenges
- Focus Areas of Intervention
- List of Proposed Interventions
- Set targets for demand, NRW, commercial and real losses
- Budget and Multi-year Implementation Timeline
b) Provide evidence of implementation against the above Plan in terms of:
- List of Interventions (Projects)
- Movement against targets for demand, NRW, commercial and real losses
- Budget and Multi-year Implementation Timeline
(Reg 509 of 2001 Clause 10)</td></tr>
<tr><td>(6.3)
COMPLIANCE and PERFORMANCE
(40%)</td><td>a) Provide historic data in order to calculate the following:
- Physical (real) water loss trend
- Commercial water loss trend
- Water use efficiency trend
b) Provide the following data (grey cells only) with supporting documentation, in order to calculate the WSI baseline profile for:
- Physical (real) water loss status
- Commercial water loss status
- Water use efficiency status
<table>

G9/22

Regulatory Impression

The Overstrand Local Municipality team was well prepared and demonstrated their commitment to the Blue Drop assessment and water quality excellence. The Municipality is to be congratulated for obtaining Blue Drop status for the Greater Hermanus system. A decreased municipal score was however achieved during this assessment. The reason for the observed decrease in compliance includes:

- Full compliance with the requirements of SANS 241 with regard to monitoring and analysis could not be demonstrated. No chemical determinants have been analysed in the reticulation network to monitor the chemical quality of water provided to the consumer and identify any potential health impacts. In addition, the frequency of analysis does not comply with the requirements for the final water produced at treatment facilities receiving surface water or within the reticulation network. The Municipality however confirmed that subsequent to the assessment that a service provider has been appointed to implement a risk based monitoring programme that fully complies with the requirements of SANS 241, sampler training and uploading of analytical data to the BDS.
- Detailed annual process audits could not be demonstrated that assessed the performance of the treatment systems and each process unit with the design capacity of the plant. Recommendations should be incorporated into the review process of water safety plan.
- Poor microbiological compliance was observed in the Baardskeerdersbos system. This should be mitigated when the new plant to treat borehole water is commissioned in August 2014.

Significant progress has been made by the municipality with regard to WC/WDM and projects have been ongoing for the last three years. Good baseline information and a formal strategy are available that enables the municipality to make informed decisions regarding ongoing planning to minimise non-revenue water.

It is anticipated that the identified gaps will be addressed by the Overstrand Local Municipality and that an upward trend towards Blue Drop compliance will once again be achieved in the next assessment.

Based on the Audit results, the DWS has serious concerns on the poor microbiological drinking water quality and the resultant risk to consumers of the Baardskeerdersbos water supply system. These concerns have to be addressed as a matter of urgency and drinking water quality results and appropriate actions must be communicated to consumers should the water be found to be unfit for human consumption.

The overall **2014 Risk Rating** for Overstrand LM is 41% which translates into the 10th best performance in the Western Cape. Note that this value is based on the 3 specific areas indicated below and shows concerns (medium to critical risks) for

Process Control (which risks reflect compliance in terms of draft Regulation 813) in 6 of the 8 systems; Drinking Water Quality in 2 out of the 8 systems; and Risk Management in none of 8 systems.

Additional information regarding the Blue Drop Risk Rating

Water Supply System	Beerdskeerdersbos		
	2012	2013	2014
A: Process Control RR	77.8%	22.2%	55.6%
B: Drinking Water Quality RR	11.1%	55.6%	70.4%
C: Risk Management RR	13.0%	13.0%	17.4%

Site Inspection Scores

The **Preekstoel and Buffels River Base WTWs**were inspected to verify the Overstrand Local Municipality Blue Drop findings.

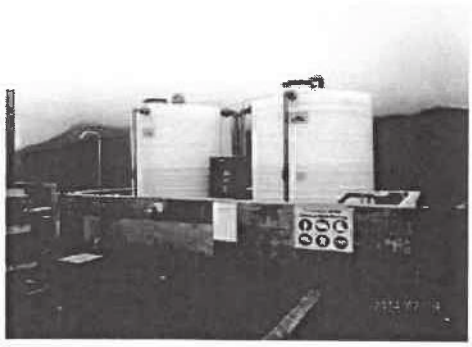

Preekstoel WTW:	**88%**
Buffels River WTW:	**90%**

The site inspection impression at the **Preekstoel WTW** was considered to be good. A number of drinking water quality management practices still require attention, including:

- A flow chart was displayed of the incident management protocol that indicates roles and responsibilities but alert levels were not included.
- Records of the results of the jar tests that are routinely undertaken could not be provided.
- Emergency shower and eye wash facilities were not located at the chemical dosing room.
- Manual post dosing of lime was being undertaken at the time of the assessment due to equipment failure. This was to be repaired as part of the maintenance contract with an external service provider. Standby equipment was not installed.
- Standby chlorine dosing equipment is not installed.

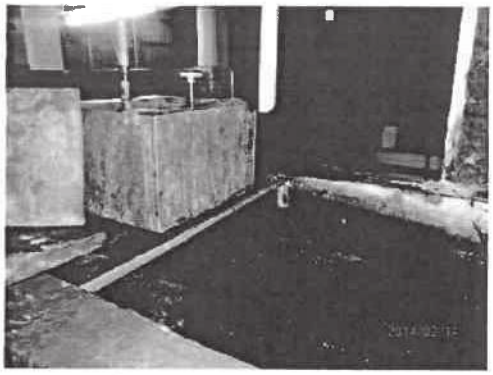

Flocculent dosing at point of high turbulence tanks

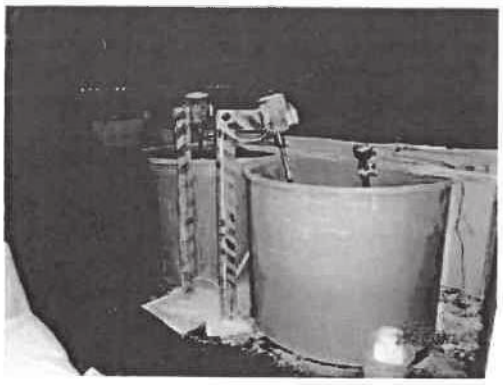

Bunded area for chemical storage

The site inspection impression at the **Buffels River WTW** was considered to be good. A number of drinking water quality management practices still require attention, including:

- A flow chart was displayed of the incident management protocol that indicates roles and responsibilities but alert levels were not included.
- The original O&M manual for the WTW is not available. Standard operating procedures have been compiled.
- Records of jar tests undertaken by the service provider could not be provided.
- Chemical tanks are not contained within a bunded area.
- Standby chlorine dosing equipment is not installed.
- Standby air compressor is not installed.

Gravity flow dosing system of flocculent

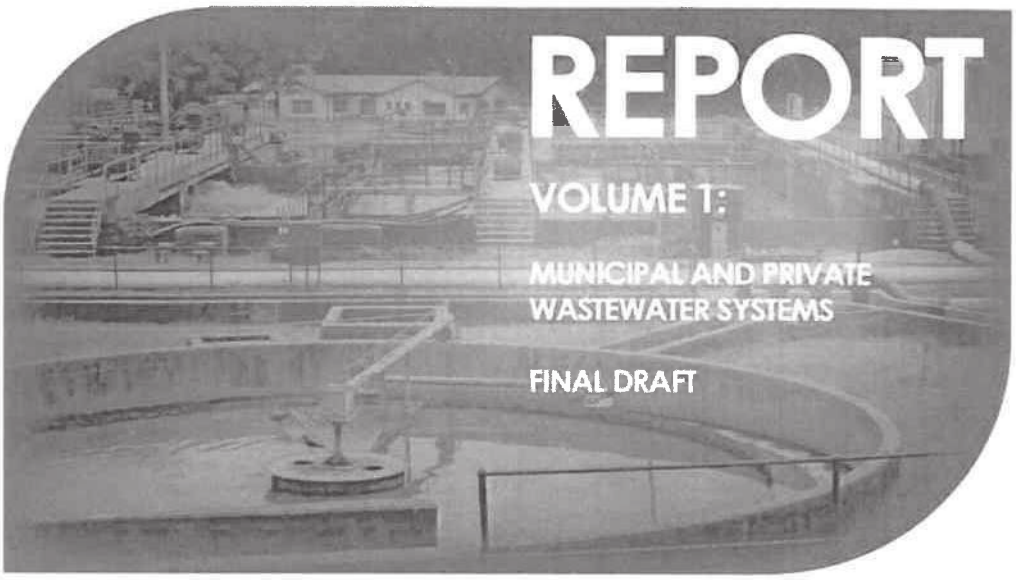

Chemical tanks not bunded

The following is an example of a typical municipal report card that appears in the Green Drop Report 2013. Results are provided in colour coded format – each colour has a specific meaning and performance reference.

Water Services Authority	ABC Local Municipality
Water Services Provider(s)	ABC WSP

2013 Municipal Green Drop Score	**81.63%**
2011 Municipal Green Drop Score	**63.80%**
2009 Municipal Green Drop Score	**75.00%**

The Municipal Green Drop score is a Performance Indicator of the overall municipal wastewater business (function of the available design capacity and the individual Green Drop scores).
Arrows: Depict the current Green Drop status of the plant. A ↑ arrow shows improvement upon the 2009situation, ↓ shows digress, shows unchanged situation

Key Performance Area	Weight	System X
Process Control & Maintenance Skills	10%	**67**
Monitoring Programme	15%	**95**
Submission of Results	5%	**100**
Effluent Quality Compliance	30%	**16**
Risk Management	15%	**90**
Local Regulation	5%	**100**
Treatment Capacity	5%	**100**
Asset Management	15%	**94**
Bonus Scores		8.48
Penalties		1.90
Green Drop Score (2013)		**74.88%**
2011 Green Drop Score		47.00%
2009 Green Drop Score		66.00%
System Design Capacity	Ml/d	2.3
Capacity Utilisation (% ADWF ito Design Capacity)		112.0%
Resource Discharged into		Pienaars River (sensitive, special standard apply)
Microbiological Compliance	%	12.95%
Chemical Compliance	%	24.35%
Physical Compliance	%	20.69%
Overall Compliance	%	20.90%
Wastewater Risk Rating (2012)		**76.50%**
Wastewater Risk Rating (2013)		**76.47%**

Colour codes		Appropriate action by institution
	90-100%	Excellent situation, need to maintain via continued improvement
	80-<90%	Good status, improve where gaps identified to shift to 'excellent'
	50-<80%	Fair performance, ample room for improvement
		Very poor performance, need targeted intervention towards gradual sustainable improvement
	0-<31%	Critical state, need urgent intervention for all aspects of the wastewater services business

<30% = Purple Drop Status

Plant is receiving 12% more wastewater compared to its original design capacity (ADWF)

Effluent quality compliance to legislative standards carries a high (30%) weight in the GDC score

The CRR% Deviation (CRR/ CRRmax) score is specific to the wastewater "treatment" function of the service. This score indicates the actual risk as a % of the maximum risk that the plant potentially can reach. An and redblock indicate that the plant is in high- or critical risk that warrants urgent attention. A higher value reflects a high risk state (undesirable). A lower value reflects a lower risk state.

Note: volumetric capacity refers to Average Dry Weather Flow

CRR% Deviation	
	90 – 100% Critical risk WWTP
	70 - <90% High Risk WWTP
	50-<70% Medium risk WWTP
	<50% Low Risk WWTP

1. GREEN DROPSCORECARD 2012/13

The Stockdale paradox:
Confront the brutal truth of the situation, yet at the same time, never give up hope.

Green Water Services Audits are conducted by a panel consisting of a qualified wastewater professional as Lead Assessor, supported by 2 Assessors. The team selection is done based on the outcomes of a Green Drop Examination which tests the assessor's knowledge and competence in the subject field.

The following scorecard outlines the key requirements of the Green Drop assessment and indicates the Portfolio of Evidence that was required by each Water Services Institution to calculate a Green Drop score per wastewater system.

Green Water Services Audit Period : 1 July 2011 – 30 June 2012

Green Drop Key Performance Area	Requirements	Sub-Requirements
(1) Process Control and Maintenance	**(1.1)** **WORKS REGISTRATION**	**a)** The wastewater treatment facility is registered as per the Requirements of Regulation 2834/17.
[10%]	**(1.2)** **PROCESS CONTROLLER & SUPERVISOR REGISTRATION**	**a)** Copies of Registration Certificates of Process Controllers and Supervisor(s) **b)** Copies of the classification certificates of all process controllers/operators and supervisors/ superintendents must be uploaded on the GDS; **c)** Compliance with Regulation 2834 (must comply at least 50% in each of the shifts); WSI must indicate shift patterns or measures in place when a shift does not comply with Regulatory Process Control Requirements. **d)** WSI must indicate process controllers and/or supervisors that are 'shared' across different plants/sites.
	1.3) **MAINTENANCE TEAM**	**a)** Evidence of Maintenance Team used for general maintenance work at the plant & pump-stations(both mechanical and electrical) **b)** Information on in-house staff (or organogram) or external contractor/s **c)** Provide additional proof of competency of team (e.g. Qualification & Experience & Trade-test) **d)** Provide a site specific operation and maintenance schedule (routine / scheduled) **e)** Contract or Logbook with maintenance entries to serve as evidence of the above aspects
	1.4) **OPERATIONS & MAINTENANCE MANUAL**	**a)** Proof of a 'site-specific' Operation & Maintenance Manual O&M manual to contain: *1. structural,* *2. mechanical,* *3. electrical detail of plant,* *4. design specifications of plant,* *5. reference to drawings,* *6. operational schedules,* *7. maintenance schedules,* *8. process detail and control,* *9. instrumentation specification/type,* *10. fault finding,* *11. monitoring,* *12. pump curves,* *13. supportive appendices*
	(1.5) **OPERATIONAL LOGBOOK**	**a)** A logbook is in place to record all incidents at the wastewater treatment works. **b)** Evidence is presented that the logbook process is being implemented.

	BONUS **(Process Control)**	**BONUS:** Proof of Process Controller staff being subjected to relevant training the past 24 months 1. Names of trainees and signature of attendance / Certificate 2. Date and training subject field 3. Training provider and content of training
(2) **Wastewater Monitoring Programme** **[15%]**	**(2.1)** **OPERATIONAL MONITORING**	Details of Operational Monitoring: **a)** Proof of Operational Monitoring sites, determinands and frequency; **b)** Samples must include: i) *Inflow* *ii) outflow* *iii) process flows* *iv) industrial* *v) sludge* **c)** Determinands monitored; **d)** as per Authorisation / as per best practice per technology type; **e)** Frequency: as per Authorisation /as per best practice (1/month for micro & small plants, 1 /week for medium plants, and 1/day for large & macro plants)
	(2.2) **COMPLIANCE MONITORING**	Details of Compliance Monitoring (For ALL Effluent Discharges). **a)** Sampling Sites as per Authorisation; **b)** Determinands as per Authorisation (This would include determinands not categorised as Microbiological, Chemical or Physical, e.g. SAR) ; **c)** Sampling frequency occurs as Authorisation Requirements Note 1: For zero-effluent treatment systems - still need to monitor for impact on catchment / environment (for both lined and unlined systems). Where oxidation ponds are producing effluent for irrigational purposes then General Limits apply. Note 2: A monitoring programme alone will not be sufficient to obtain full score; Analyses results should proof implementation of the monitoring programme.
	(2.3) **LABORATORY USED**	**a)** Name lab(s) for operational analysis (In-house or on-site) and lab for compliance analysis/checks (in-house or external) **b)** Provide the turnaround in laboratory analysis (in hours: from time of submission to time of results dissemination)
	(2.3) **LABORATORY CREDIBILITY**	**a)** Certificate of Accreditation for applicable methods, **b)** Or Z-scores results following participation a recognised Proficiency Testing Scheme (–2 ≥ z-score ≥ 2 are unacceptable) **c)** Or Proof of Intra- and Inter-laboratory proficiency (quality assurance as prescribed in Standard Methods)
	(2.4) **PROCESS CONTROL / MONITORING RESULTS**	**a)** Explain how monitoring results are used to amend/improve process controlling *[The assessor will select at random analytical parameter/s from the presented analytical results to present an audit question. This might be checked during on-site assessment.]*
(3) **Submission of Wastewater Quality Results** **[5%]**	**(3.1)** **DATA SUBMISSION**	1. 12 months of data submitted to DWA on the GDS **2.** WSA must ensure that 12 months' sets of results are submitted and recorded on the GDS prior to the assessment. Note: All compliance results' data required
	PENALTY (1): Data Not Captured OR	Penalty will apply should Wastewater results be available but not captured on GDS.
	PENALTY (2): Section 82	Penalty will apply should the Department find proof during / post assessment that the WSI is guilty of an offence as per Section 82 of the Water Services Act, by only submitting partial information (on GDS) in order to present a false impression of WWQ Performance and/or compliance.

(4)Wastewater Effluent Quality Compliance	**(4.1) WATER USE AUTHORISATION**	**a)** Copy of authorisation, detailing Effluent Quality Standards. **NOTE**: List Standards to comply with.
[30%]	**(4.2) EFFLUENT QUALITY COMPLIANCE**	**a)** 90% **Microbiological Compliance** (e.g. E Coli; Faecal Coliforms) **b)** 90% **Chemical Compliance** (e.g. COD, Ammonia, Nitrogen, Nitrate, Nitrite, Residual Chlorine, Ortho-Phosphates, Fluoride, Arsenic, Cadmium, Copper, Manganese, Iron, Selenium, Zinc, Boron, etc.) **c)** 90% **Physical Compliance** (e.g. pH, Suspended Solids, Electrical Conductivity, Soap, Oil or Grease, etc)
	BONUS (GDIP)	**a)** A practical Green Drop Improvement Plan (GDIP) in place – with baseline (current) score, tasks, responsible person, completion date, budget, target GDC score; **b)** Implementation evidence and proof of management of process
	PENALTY: (Sludge Management)	a) Sludge treatment not managed / monitored. (Monitoring records must be produced); b) In case of ponds systems, provide schedule for desludging of system.
(5) Wastewater Quality Risk Management	**(5.1) WASTEWATER RISK ABATEMENT PLAN (W_2RAP)**	**a)** A practical and site specific Wastewater Risk Abatement Plan (W_2RAP) is in place which identify and prioritise risks, with measures to mitigate inefficiencies/inadequacies that result in non-compliance **b)** Implementation evidence and proof of management commitment
[15%]	**(5.2) INCIDENT REGISTER**	**a)** Provide evidence of implementation of Protocol **b)** Wastewater Quality Failure Incident and Sewer Spillage Incident register.
	(5.3) WASTEWATER INCIDENT MANAGEMENT PROTOCOL	**a)** Evidence of a documented Wastewater Incident Management Protocol **b)** Protocol to specify alert levels, response times, required actions, roles & responsibilities and communication measures/vehicles. **c)** NB. Include Pumpstation failure (sewer collector system spillages)
	BONUS (Energy)	WSI is able to provide DWA with: a) Electricity consumption over last financial year (in KWh/day) and Rand value (R/year) of treatment plant; b) Energy demand projections over next >3 years (in KWh/day) and in Rand value (R/year); and c) Calculate cost of energy (KWh/kl wastewater treated)
(6) Local Regulation	**(6.1) BYLAWS**	Proof of the Bylaws providing for the regulation of: *1. industrial (trade) influent (volumes & quality) discharged into municipal system,* *2. package plants,* *3. decentralized systems,* *4. vacuum tank discharges and* *5. Spillages into the environment.* *6. Storm-water connections to sewer system.*
[5%]	**(6.2) ENFORCEMENT**	1. Proof of application of Bylaw clause in practice, supported by written notice/s to offender **OR** 2. Proof of adequate enforcement (informing relevant sectors and means of monitoring industrial or other sewer influent.) 3. Records of Package Plants in area of jurisdiction (where development was approved by the Authority (Local Government).

	PENALTY: **(Industrial Monitoring)**	No evidence of any industrial influent monitoring. 1. There must be proof in form of results to indicate WSA is performing its local regulation function as per Wastewater Services.
	BONUS **(Publication)**	1. Annual Publication of wastewater management performance against the requirements of the site-specific License conditions or General Authorisations 2. Name and date of publication, copy of information pertaining to audit question. 3. Note: Communication must include compliance summary
(7) **Wastewater Treatment Capacity**	**(7.1)** **DESIGN CAPACITY**	**a)** Documented design capacity (hydraulic and organic) of the wastewater treatment facility 1. Design capacity as Average Dry Weather Flow (ADWF) and COD load to the plant and **b)** Documented daily receiving flows over the 12 months of assessed period (ideally ≤ than design capacity) 1. Evidence of daily flows and subsequent calculated averages. Measurement method to be explained 2. Evidence of peak wet weather flow to plant during rain events (record rain event and flow to plant) 3. Evidence of minimum night flow (minimum monitoring: monthly) 4. Water services institution is required to provide motivation/proof of accuracy of meter readings. **c)** Monitoring of outflow volumes (available records) - provide proof of verification system and/or calibration of meters)
[5%]	**(7.2)** **WWTW CAPACITY PLANNING**	Medium to long term planning to ensure sufficient capacity for treatment system and to ensure effluent quality compliance; 1. Detailed Work-plan which stipulates: *i) type of work,* *ii) associated budget,* *iii) projected timeframe* *iv) planned output of this work.*
	(7.3) **COLLECTOR CAPACITY PLANNING**	Medium to long term planning to ensure sufficient capacity for collecting system1. Detailed Work-plan which stipulates: *i) type of work,* *ii) associated budget* *iii) projected timeframe* *iv) iv) the planned output of this work* Note for 7.2 and 7.3: When the WSI is motivating that 'no work' is needed, then provide basis for such standpoint (i.e. quantified design versus operational capacity, usage of system, expected housing developments, condition of treatment system)
	PENALTY	**CapacityUtilisation <40%, >90%, >100%**
(8) **Wastewater Asset Management**	**(8.1)** **PROCESS AUDIT**	**a)** Process Audit reporting (evidence required of audit findings and recommendations) on treatment facility efficacy. The audit to include the (design) capability of the plant to meet compliance standards, as well as actual performance of plant. Should've been done between July 2010 and June 2012. **b)** Evidence/plan of implementation of findings during year following Audit Report required.
[15%]	**(8.2)** **SEWER MAIN INSPECTION**	**c)** Site inspection of sewer reticulation network and pump-station/s. Provide evidence in form of capacity and condition assessment and recommendations of system. Report to include flow balance that provides evidence which % of total sewage is received at treatment plant. Note: both the process audit and sewer network report could serve as baseline to the W_2RAP (may run concurrently with "system description and risk identification/rating)

	(8.3) **WASTEWATER ASSET REGISTER**	**d)** Updated sanitation / wastewater Infrastructure Asset Register 1. Proof of Asset Register, evidence to be submitted. Asset register to include movable equipment and immovable infrastructure / assets with matching detail. The asset register must detail : a) relevant equipment and infrastructure b) indicate asset description c) location d) condition (remaining life) e) replacement value
	(8.4) **O&M BUDGET &EXPENDITURE**	**e)** Operation and maintenance budget and comparative expenditure detail for: 1. *wastewater treatment (in cents/m^3), and* *2. collection system (R/m^3)* The assessor will require the WSI to explain how these figures compare or are benchmarked to determine whether budget is (in)sufficient NOTE: Indicate whether WSI could only provide global figures or system specific figures.
	(8.5) **PUMPSTATION MAINTENANCE**	Proof of maintenance work done on mechanical, electrical, civil per pumpstation
Additional Bonuses	(AB 1) **CROSS-POLLINATION**	WSI is able to provide evidence of improvement partnership initiatives with smaller municipalities (Cross-pollination). Green Drop scores will serve as good evidence to measure the outcomes of such initiative/s.
	(AB 2) **STORMWATER MANAGEMENT**	Proof of a Storm-water management plan detailing how storm-water entry is quantified, managed and monitored to prevent entry to sewer systems. Plan should also include measures to prevent sewage from entering stormwater systems. Evidence of implementation required
	(AB 3) **WATER DEMAND MANAGEMENT**	Water Demand Management Plan which provides a strategy and/or work plan that identify, quantify, monitor and manage leakages and water losses of any kind that (may) create an artificial water demand due to higher hydraulic loading of wastewater collection and treatment infrastructure. The bonus will be maximised should a wastewater flow balance be provided.

Green Drop Certification status = ≥90% score against the above criteria.

Purple Drop status = <30% against the above criteria.

"If you are going to achieve excellence in big things, you develop the habit in little matters. Excellence is not an exception, it is a prevailing attitude."

Colin Powell

1. Overstrand Local Municipality

Water Services Authority	**Overstrand Local Municipality**
Water Services Provider(s)	Overstrand Local Municipality

2013 Municipal Green Drop Score	89.14% ↑

Regulatory Impression

The Overstrand Local Municipality is to be congratulated with an outstanding performance and able presentation of their Portfolio of Evidence. The Inspection team were impressed with *"... the team's enthusiasm, expertise and knowledge of the wastewater business."* As result, Overstrand is awarded with four Green Drop Certificates. The overall management of all five systems is consistent and indicative of the personnel's dedication and discipline to wastewater management. Regrettable, the Kleinmond system did not perform on par with the other 3 systems, which weakened the municipal Green Drop score to 89.14%, just short of overall Green Drop award.

The points of strength include the high overall compliance of effluent quality, prominent risk abatement, and technical skilled staff with strong management support and involvement. The presence of the Finance department contributed to the positive score received for asset management and ringfenced costing. The Hermanus WWTW is currently in the process of upgrading the works to 12ML/d. Monitoring programs should be revised to include sludge monitoring at all systems and to ensure sufficient sampling frequency where process upgrades have occurred.

Overall, Overstrand has managed to produce a polished Green Drop Performance. Overstrand is also one of very few municipalities that were using the opportunity to score against all the bonus criteria. ***Well done***. The absolute consistency displayed in keeping all systems in low risk zones using the W_2RAP process, is commendable. Overstrand is an accomplished service provider in wastewater management, and deserves to be mentioned amongst the top performers in the Province.

Green Drop findings:

1. Regulation 17 compliance need to receive attention
2. Sea outfall monitoring frequency need to be revised for Hermanus
3. Sludge monitoring and handling could improve going forward
4. Some shortcomings are evident on process assessment which might possibly resolve some of the lower compliance to ammonia, EC, O-PO_4, SS/COD at some plants, given that ample capacity exist at all plants.

Site Inspection Report

Kleinmond **75%**

The Kleinmond plant was inspected to verify the Green Drop findings:

- The plant is beautifully set, with notices, PFD, manuals and signage in place
- Process control logbooks can be improved, as well as instrumentation
- Flows recorded, except nightflow, 60% tankered, daily pumpstations checks
- Aeration of wastewater well maintained, goo process control, lime slightly slug dosed, MLSS used along temperature
- Disinfection via ultraviolet radiation, clear overflows to reed beds (Phragmites) for polishing. UV performance questioned.

   9.3 Publication of budgets on municipal websites 20
   9.4 Communication by municipal entities to National Treasury 20

Introduction

The purpose of the annual budget circular is to guide municipalities with their compilation of the 2021/22 Medium Term Revenue and Expenditure Framework (MTREF). This circular is linked to the Municipal Budget and Reporting Regulations (MBRR) and the municipal Standard Chart of Accounts (*m*SCOA); and strives to support municipalities' budget preparation processes so that the minimum requirements are achieved.

Among the objectives of this budget circular is to demonstrate how municipalities should undertake annual budget preparation in accordance with the budget and financial reform agenda by focussing on key "game changers". These game-changers include ensuring that municipal budgets are funded, revenue management is optimised, assets are managed efficiently, supply chain management processes are adhered to, *m*SCOA is implemented correctly and that audit findings are addressed.

Municipalities are reminded to refer to the annual budget circulars of the previous years for guidance on budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

The National Treasury projects real economic growth of 3.3 per cent in 2021, following an expected contraction of 7.8 per cent in 2020. Real GDP growth is expected to moderate to 1.7 per cent in 2022 and 1.5 per cent in 2023, averaging 2.1 per cent over the medium term.

South Africa experienced its largest recorded decline in economic output in the second quarter of 2020 due to the strict COVID-19 lockdown. Real GDP fell by 17.1 per cent relative to the previous quarter (or 51 per cent on a seasonally adjusted and annualised basis), with all major sectors except agriculture declining. The second-quarter results were weaker than expected in the June 2020 special adjustments budget, which projected a contraction of 7.2 per cent in 2020.

High-frequency data for the third quarter – such as the volume of electricity distributed, mining and manufacturing output, business confidence and the Absa Purchasing Managers' Index (PMI) – shows evidence of a limited economic rebound. Although growth rates are likely to improve quickly as restrictions are removed, based on current projections, output is only expected to return to pre-pandemic levels in 2024.

The main risks to the economic outlook are weaker-than-expected growth, continued deterioration in the public finances and a failure to implement structural reforms. A second wave of COVID-19 infections, accompanied by new restrictions on economic activity, would have significant implications for the outlook. Government's fiscal position is a risk to growth: higher long-term borrowing costs and risk premiums have started to affect the broader economy.

In addition, recovery efforts will fail unless structural constraints (including in energy, infrastructure and competitiveness) are urgently addressed. While the reforms required in these areas do not immediately affect growth, they are critical for market confidence and investment.

Electricity remains a binding constraint on economic recovery, with power interruptions expected to continue into 2021. Private generation will only be able to plug the electricity gap to a limited extent over the next year.

Job creation is a top priority of the economic recovery plan that will guide policy actions over the medium term, supported by new infrastructure investment and large-scale public

employment programmes. In addition, targeted skills development will improve productivity and employment prospects.

Headline inflation is at the lower end of the 3 to 6 per cent target range. Goods and services inflation has broadly declined due to weak demand and falling oil prices. Inflation is forecast to fluctuate around the 4.5 per cent midpoint over the medium term in line with moderating inflation expectations.

In summary, the country's tax collection targets have not been met and this means that the fiscus has less funds available to allocate across the various spheres of government. There are measures in place to reduce expenditure to narrow the deficits.

The following macro-economic forecasts must be considered when preparing the 2021/22 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2016 - 2020

Fiscal year	2019/20	2020/21	2021/22	2022/23	2023/24
	Actual	Estimate		Forecast	
CPI Inflation	4.1%	3.2%	4.1%	4.4%	4.5%

Source: Medium Term Budget Policy Statement 2020.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

2. Key focus areas for the 2021/22 budget process

2.1 Local government conditional grants allocations

Transfers to local government will be reduced by R17.7 billion, including R14.5 billion from the local government equitable share, R2.7 billion from the general fuel levy and R569 million in direct conditional grants over the 2021 MTEF period. The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the MTEF period.

Government will revisit underperforming programmes. For example, some cities receiving the Public Transport Network Grant (PTNG) have not launched their integrated public transport networks. Over the MTEF period, government will suspend at least two more poorly performing cities from this grant and the remaining cities will be required to reduce costs and demonstrate their effectiveness to remain funded.

The annual Division of Revenue Bill will be published in February 2021 after the Minister of Finance's budget speech. The Bill will specify grant allocations and municipalities must reconcile their budgets to the numbers published herein.

Municipalities are advised to use the indicative numbers presented in the 2020 Division of Revenue Act to compile their 2021/22 MTREF. In terms of the outer year allocations (2023/24 financial year), it is proposed that municipalities conservatively limit funding allocations to the indicative numbers as presented in the 2020 Division of Revenue Act for 2020/21. The DoRA is available at http://www.treasury.gov.za/documents/national%20budget/2020/default.aspx

Division of Revenue Second Amendment Bill, 2020: changes to local government allocations

Roll-over of funds - R390 million is rolled over in the Urban Settlement Development Grant (USDG) to fund commitments for bulk infrastructure related projects in Nelson Mandela Bay Metropolitan Municipality. R98 million is rolled over in the PTNG to continue with the rollout of the integrated public transport network (IPTN) for public and non-motorised infrastructure in Nelson Mandela Bay Metropolitan Municipality.

R307 million is rolled over in the Regional Bulk Infrastructure Grant (RBIG) for drought and COVID-19 water and sanitation interventions nation-wide.

Water Services Infrastructure Grant (WSIG) - R12 million has been reprioritised from the Department of Water Affairs' budget into the indirect component of WSIG for the implementation of various water services interventions.

Reductions to municipal conditional grants
In the Medium-Term Policy Budget Statement, the Minister of Finance indicated that R10.5 billion is required for the rescue plan for the South African Airways. Therefore, R613 million has been proportionately reduced across municipalities in respect of conditional grants while no reductions were made to the local government equitable share for the 2020/21 financial year.

These changes are shown in Schedule 4, Part B; Schedule 5, Part B and Schedule 6, Part B of the Bill.

Additional instruments to finance infrastructure in municipalities

Municipalities can access other instruments to finance the development of infrastructure that boosts economic growth beyond infrastructure grants. Reforms over the medium term will enhance the ability of municipalities to raise revenue to invest in their own development. An update on development charges and borrowing reforms is summarised below:

- *Development charges* - Municipalities earn revenue from charging developers to connect new developments to municipal services. The draft Municipal Fiscal Powers and Functions Amendment Bill proposes new, uniform regulations in respect of these development charges, thereby strengthening the revenue-raising framework of municipalities. After processing comments, the National Treasury will submit the Bill to Cabinet and Parliament for consideration in 2021; and
- *Borrowing* - Creditworthy municipalities can also borrow in capital markets. The National Treasury has updated the original municipal borrowing policy framework, which guides this borrowing, and will shortly submit it to Cabinet for approval. The proposed changes aim to increase the term maturity of borrowing improve the secondary market for the trade of municipal debt instruments and define the role of development finance institutions to avoid crowding out the private sector.

3. 2021 Local Government Elections and the budget process

Local government elections are scheduled to take place in 2021, and the proposed date is yet to be determined. Elections are important events as we reaffirm our commitment to democratic and accountable government by choosing representatives of the people who will guide the work of local government for the next five years.

The following four risks need to be explicitly managed:

1. In terms of section 13 of the Municipal Property Rates Act, 2004 (Act No 6 of 2004)(MPRA) and sections 24 and 42 of the Municipal Finance Management Act, 2003 (Act No 56 of 2003)(MFMA), new tariffs for property rates, electricity, water and any other taxes and similar tariffs may only be implemented from the start of the municipal financial year (1 July). This means that the municipal council must approve the relevant tariffs as part of the MTREF budget before the commencement of the financial year on 1 July. Failure to obtain council approval for the annual tariff increases would most likely cause an immediate financial crisis that may lead to the provincial executive intervening in the municipality in terms of section 139 of the Constitution. Therefore, if the elections take place after the start of the financial year, the outgoing council will be responsible for approving tariffs for the 2021/22 MTREF and the newly elected council for the implementation thereof as section 28(6) of the MFMA does not allow the increase of tariffs in-year;

2. In terms of section 16 of the MFMA, a municipal council must approve the annual budget for the municipality before the start of the financial year, and should a municipal council fail to do so, section 26 of the MFMA prescribes that the provincial executive **must** intervene. This provincial intervention may include dissolving the municipal council and appointing an administrator to run the municipality. Therefore, the outgoing council must ensure that they comply with the timeframes for approval of the budget;

3. The outgoing council may be tempted to prepare an 'election friendly budget' with unrealistically low tariff increases and an over-ambitious capital expenditure programme. The outcome of this approach will undoubtedly be an unfunded municipal budget that threatens their respective municipality's financial sustainability and service delivery; and

4. Given that the timing of election campaigning may coincide with the municipal public budget consultations, there is a risk that these consultations may be neglected or used to serve the narrow interests of political parties. It is reiterated that transparency and public participation is an integral part of our constitutional democracy, hence municipalities must ensure that public and stakeholder consultation processes are adhered to as required by the legislative framework.

In the build-up to the 2021 local government elections, the financial sustainability of the municipality should be protected. Now, more than ever before, it is paramount for sound municipal decision-making so that the long-term sustainability of municipal finances and service delivery is achieved beyond the election period.

Finances of some municipalities have been unstable for many years, and this was exacerbated by the financial impact of the COVID-19 pandemic. Therefore, there is severe pressure to maintain healthy cash flows and increase cost containment measures while sustaining efficient service delivery levels. It is therefore imperative that municipalities refrain from suspending credit control and debt collection efforts. Municipalities are also reminded of the regulatory framework set out in the Municipal Cost Containment Regulations insofar as it relates to the use of municipal funds to fund election campaigns and other non-priority issues as this might further impact the financial sustainability of municipalities.

Furthermore, as the current municipal leadership will be responsible for the compilation of the 2022/23 MTREF budgets, councils are advised to prioritise expenditure appropriations aligned to the policy intent as described in the integrated development plans (IDPs). Infrastructure provisioning for water, sanitation, roads and electricity remain key priorities.

In addition, the outgoing council is advised to critically consider the financial implications before entering into new long-term contracts that are not of priority to the municipality and avoid if possible, committing the incoming council. Municipalities should refrain from filling non-critical positions, purchasing cars, procuring new financial systems and from incurring any other expenditure at this stage that will financially burden the incoming council.

During this time of transition, all stakeholders should work together to ensure that municipalities continue to perform their functions efficiently and effectively. The Mayor and municipal manager should now be engaging in the process of the annual review of the fifth and last year of the IDP in terms of section 34 of the Municipal Systems Act (MSA) and the 2022/23 budget preparation process in terms of section 21 of the MFMA. It is particularly important to ensure that arrangements for the review of IDPs and preparation of budgets continue seamlessly as these processes cannot be delayed in anticipation of the announcement of an election date.

In deciding on the schedule for the 2022/23 budget process, the Mayor and municipal manager must also note that the MFMA, read together with the Municipal Budget and Reporting Regulations, only allows for a 'main adjustments budget' to be tabled after the mid-year budget and performance assessment has been tabled in council, i.e. after 25 January 2022. In addition, the permitted scope of an adjustments budget is quite limited in that taxes and tariffs may not be increased (refer to section 28(6) of the MFMA) and any additional revenues may only be appropriated to programmes and projects already budgeted for (refer to section 28 of the MFMA). Therefore, the idea of the current council passing a 'holding budget' which the new council will change substantially through an adjustments budget soon after the start of the municipal financial year is not legally permitted.

Though an IDP is a five-year strategic document of council, municipalities should note that when a new council takes office after a local government election, the norm has been that the new council implements the last adopted IDP during the first year of office. It is normally only in the second year of office that the newly elected council adopts a new IDP after thorough interrogation, extensive consultation and finalisation of a new five-year strategy.

In the absence of detailed information on the 2021 Local Government Elections, National Treasury will provide further guidance in the follow-up MFMA Budget Circular to be issued in March 2021.

4. Municipal Standard Chart of Accounts (*m*SCOA)

4.1 Release of Version 6.5 of the Chart

On an annual basis, the *m*SCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.5 is released with this circular.

Version 6.5 of the chart will be effective from 2021/22 and must be used to compile the 2021/22 MTREF and is available on the link below:
http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

4.2 Budgeting and Reporting for the COVID-19 pandemic and water inventory

In terms of the Annexure to MFMA Circular No. 99, *m*SCOA Circular No. 9, and GRAP 12, municipalities were advised to:

1. Record and ringfence all funding and expenditure pertaining to the COVID-19 pandemic for the 2020/21 MTREF when budgeting and transacting; and

2. Budget and account for bulk water purchases as inventory as per GRAP 12 (paragraph 07).

It is evident from the snapshots that were drawn from the Local Government Database based on the *m*SCOA data strings that were submitted by municipalities in terms of the monthly Section 71 reporting, that most municipalities have not budgeted or reported on COVID-19 related allocations and expenditure, nor bulk water inventory as per the guidance provided.

Although the regulated A1 Schedule will only be amended from the 2021/22 MTREF to align to GRAP 12 (as per MFMA Circular No. 98), municipalities should already record water inventory in the *m*SCOA chart. ***Municipalities must budget for water as inventory in the 2021/22 MTREF.*** This means that municipalities will no longer be able to budget for water bulk purchases as an expense on table A4. Municipalities must use bulk water purchases i.e. system input volume on table A6: inventory. This provides for three different water sources i.e. water treatment works, bulk purchases and natural sources. When water is issued through the billing/ distribution, the cost should be expensed through table A4: inventory consumed with the corresponding accounting transaction in the inventory account on table A6: current assets: water: authorised consumption.

Municipalities that did not adjust their 2020/21 MTREF budgets by 30 September 2020 to respond to the COVID-19 pandemic or budget for bulk water inventory are reminded to do so in the main adjustments budget process in February 2021.

It should also be noted that the National Treasury's reporting on COVID-19 will be drawn as per *m*SCOA Circular No. 9 and we will not be able to identify COVID-19 allocations and expenditure that have been ringfenced in another manner.

Municipalities must submit the adjustments budget and revised project list for 2020/21 in the format of a *m*SCOA data strings (ADJB and PRAR) uploaded to the Local Government (LG) Upload Portal within 10 working days after Council has adopted the adjustments.

4.3 Revised Municipal Property Rates Act Categories

By now all municipalities should be aware that section 8 of the Municipal Property Rates Act on the determination of categories of **rateable** properties has been revised through the Local Government Municipal Property Rates Amendment Act, 2014 ("the Amendment Act"). The new rateable property categorisation framework based on use (provided these property categories exist within the municipality) and consequently, all property categories that are based on ownership, geographic location or any other basis fall away.

Municipalities must implement the new property categorisation framework by not later than 1 July 2021. The *m*SCOA chart Version 6.5 makes provision for the new and the old framework. However, the old framework will be retired in the next version of the chart and municipalities are advised to implement the new property categorisation framework as legislated. Therefore, municipalities cannot use both frameworks to avoid duplication and overstatement of revenue from property rates.

4.4 Forbidden activities

The Item Assets segment of the *m*SCOA chart currently includes items such as staff loans as non-current receivables from non-exchange transactions. This is in contravention with Section 164(1)(c) of the MFMA that stipulates that a municipality may not make loans to councillors or officials of the municipality; directors or officials of the entity; or members of the public. Therefore, municipalities are advised not to use these items when budgeting as National Treasury may retire these items in the next version of the chart.

4.5 Independent Audits on Municipal Financial Systems

All municipalities and municipal entities had to comply with the *m*SCOA Regulations by 1 July 2017. MFMA Circular No. 80 provided guidance on the minimum business processes and system specifications for all categories of municipality (A, B and C). The Request for Proposal (RFP) issued on 4 March 2016 for the appointment of service providers for an integrated financial management and internal control system for local government (RT25-2016 published in Tender Bulletin No. 2906), provided further guidance on the requirements applicable to a specific category of municipality.

The National Treasury will conduct independent audits on all municipal financial systems in 2021 to determine to what extent the financial systems that are currently being used by municipalities comply with the minimum business processes and system specifications required in terms of *m*SCOA. These audits were initially planned for 2020, but due to restrictions on procurement processes and travel in terms of the COVID-19 pandemic it was postponed to 2021. The results of the audits will also inform the new transversal tender for the procurement of municipal financial and internal control systems in 2022. **Until these audits have been concluded, and the results have been released, municipalities should exercise caution when changing their financial system to avoid purchasing a system that does not comply with the necessary *m*SCOA functionality requirements**. However, should a municipality need to procure a new financial system, they must follow the processes set out in the MFMA read together with the Municipal Supply Chain Management Regulations and MFMA Budget Circulars No. 93, 98 and *m*SCOA Circulars No 5 and 6. In addition, National Treasury has not accredited any of the municipal financial systems available in the market and this should therefore not be advertised as a requirement in municipal tender documents.

It should be emphasised that the onus to ensure compliance with the *m*SCOA Regulations and minimum system specifications as per MFMA Circular No. 80 and its Annexure B rests with the municipality and not the system vendor. Municipalities must properly manage Service level agreements (SLA) with system vendors. Penalties, including the termination of the SLA in cases of persistent non-compliance, should be imposed if the system vendor does not meet the agreed upon milestones. Likewise, if a system vendor has delivered on the services agreed upon in the SLA, then the municipality should pay all money owing to the system vendor within 30 days of receiving the relevant invoice or statement, as per the requirements of Section 65(2)(e) of the MFMA. Lastly, municipalities must agree on the services that are to be provided by the system vendors and costs thereof in the SLA that is signed by the municipality and system vendor. Municipalities should consider the financial implications thereof and negotiate more favourable terms with the system vendor if necessary before signing the SLA. Once signed, the SLA is legally binding.

4.6 Regulation of Minimum Business Processes and *m*SCOA System Specifications

National and Provincial Treasuries held extensive engagements with key system providers during which the system functionality on the following were demonstrated: IDP and budget, supply chain management (SCM), asset management, annual financial statements, revenue management, cash flow and period control. These engagements provided National and Provincial Treasuries with an understanding of what functionality is available on each system and what the key system related challenges are.

It was evident from the engagements that municipalities are not using their financial systems optimally. Some of the challenges that were identified in this regard include the following:

- Some municipalities have not purchased all the modules of the core financial system or have not upgraded to the Enterprise Resource Planning (ERP) (*m*SCOA enabling) version of their financial systems;

- A few municipalities are not paying for the required licences to use system solutions and they are not upgrading and maintaining their servers, hardware and software to become and remain *m*SCOA compliant and to protect their data;
- Several municipalities are still transacting on their legacy systems that are not *m*SCOA enabling or they are using excel spreadsheets that are not incorporated in the functionality of their financial systems, while they are paying for maintenance and support for the *m*SCOA enabling system that was procured. This constitutes fruitless and wasteful expenditure; and
- Other municipalities are not using all the modules of the core financial system (using 3rd party systems) while they have procured these modules. This is once again fruitless and wasteful expenditure.

Municipalities should include the cost of the above in their 2021/22 MTREF budgets.

One of the key objectives of the *m*SCOA reform is to ensure that municipalities are budgeting, transacting and reporting directly on and from integrated ERP systems to have one version of the truth in terms of the reported financial performance. The manual correction of data strings by municipal officials or system vendors are not allowed in terms of the *m*SCOA Regulations.

National Treasury will expand and regulate the business processes and system specifications communicated in MFMA Circular No. 80 and its Annexure B in the 2021/22 MTREF to ensure that municipalities are using the functionality available on their financial systems. MFMA Circular No. 80 was issued in 2016, and several Regulations and best practises as per the MFMA Circulars have been introduced since then. The expansion of the requirements will accommodate these new developments.

4.7 Non-compliance with *m*SCOA requirements

If your municipality has not yet achieved the required level of *m*SCOA implementation, then it must provide a detailed action plan (road map) to the National and the respective provincial treasury to indicate how the municipality will fast track the implementation of *m*SCOA. The action plan should include the following priority areas, as applicable to the municipality:

- The functionality of the financial system, including the minimum system functionality and business process as per MFMA Circular No. 80 and Annexure B and functionality required in terms of Regulations and MFMA Circulars that was issued after 08 March 2016 (the date on which MFMA Circular No. 80 was issued);
- Integration of 3rd party sub-systems with the *m*SCOA enabling financial system as required in terms of MFMA Circular No. 80 and Annexure B;
- Change management initiatives to ensure that *m*SCOA is institutionalised as an organisational reform and not only a financial reform; and
- Training initiatives to ensure that all officials in the organisation are familiar with the *m*SCOA chart, basic accounting, balance sheet budgeting and movement accounting and the use of the *m*SCOA enabling financial system.

Importantly, the action plan must be drafted by the municipality and not the system vendor and the progress against it should be carefully monitored by the municipality's *m*SCOA Project Steering Committee (chaired by the Accounting Officer). Municipalities must present progress against the action plan at the 2020/21 Mid-Year Budget and Performance visits and Budget and Benchmark engagements with the National and the respective provincial treasury.

4.8 Extension and Procuring of Service Level Agreements (SLA) for Financial Systems

At least six (6) months prior to the expiry of the SLA for the support and maintenance of the financial system, the municipality should either:

- Extend the existing SLA with the same system vendor subject to the provisions of Section 33 and 116(3) of the MFMA (read in conjunction with MFMA Circular No. 62); or
- Approach the market to procure services for the support and maintenance of the financial system consistent with the Municipal Supply Chain Management Regulations and municipality's Supply Chain Management Policy.

Importantly, once the SLA has expired, it cannot be extended, and the municipality will have to embark on a new procurement process. In addition, when the contract for the support and maintenance of the financial system comes to an end, it does not mean that the municipality must procure a new financial system. It is only support and maintenance services pertaining to the financial system that needs to be procured. Municipalities need to properly document their systems and the system language used to ensure that system support can be procured in the local market when required.

4.9 Cash flow reconciliation

The population of the cash flow reconciliation in tables A7, B7 and C7 of the MBRR formats using *m*SCOA data strings has been a challenge in previous financial years. The main contributing factors to this were that:

- Municipalities were not using the *m*SCOA segments correctly to populate their cash flow information;
- A number of municipalities did not use the movement accounts correctly in the *m*SCOA chart which distorts the figures reported in the cash flow tables;
- Some municipalities did not budget, transact or report directly in or from their financial systems; and
- There were errors in the linkages of the MBRR cash flow tables to the *m*SCOA data strings in the segment item: asset and liabilities on the Local Government Database.

It is critical that municipalities undertake balance sheet and cash flow budgeting to provide accurate cash flow information. National Treasury has provided guidance in this regard in MFMA Circular No. 98 and *m*SCOA Circular No. 10 and have also corrected the errors in the linkages of the MBRR cash flow tables to the *m*SCOA data strings. This has resulted in improvements in the section 71 cash flow data that were published at the end of quarter 1 of the 2020/21 MTREF. Further guidance on the application of the funding segment has also been issued in *m*SCOA Circular No. 11 on 4 December 2020.

4.10 *m*SCOA Calendar for 2021/22

Important dates pertaining to *m*SCOA related activities for the 2020/21 financial year is summarised below for planning purposes:

	Activity	Time Frames
1.	Independent System Audits	February to December 2021
2.	Regulation of Minimum Business Processes and System Specifications	For comments and testing: October 2021
3.	*m*SCOA Virtual Training Sessions (various topics)	Monthly
4.	Roll out of eLearning *mSCOA* course through	July 2020

	National School of Governance	
5.	Issue proposed *m*SCOA chart changes for version 6.6	October 2021
6.	Annual *m*SCOA CIGFARO Budgeting Workshop	November 2021
7.	Issuing of transversal contract for provision of financial systems	March 2022

5. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. Even as demand for services rises, weak economic growth has put stress on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, water boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them and eliminate wasteful and non-core spending. Municipal budgets will be scrutinised to ensure that municipalities adequately provide for the servicing of their debt obligations. Municipalities must ensure that expenditure is limited to the maximum revenue collected and not spend on money that they do not have.

Municipalities are reminded that the local government equitable share allocation is mainly to fund the costs of free basic services and to subsidise the administrative costs of the smaller and more rural municipalities. The increasing unemployment and growth in the number of persons per household means that the revenue foregone in respect of free basic services will likely increase, and it will become even more difficult to collect revenue. Household budgets are becoming increasingly under more pressure, and trade-offs might be applied when it becomes unaffordable to pay all household expenses on a monthly basis.

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the financial sustainability of the municipality. The Consumer Price Index (CPI) inflation is forecasted to be within the lower limit of the 3 to 6 per cent target band; therefore, municipalities are required to ***justify all increases in excess of the*** **projected inflation target for 2021/22** in their budget narratives and pay careful attention to tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

5.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circular No. 93, paragraph 3.1 and No. 98, paragraph 4.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their 2021/22 MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this has been identified as a fundamental reason for municipalities not attaining their desired collection rates.

It is therefore essential that municipalities pay attention to reconciling the valuation roll data to that of the billing system to ensure that revenue anticipated from property rates are accurate. Municipalities are encouraged to undertake this exercise as a routine practice. The list of exceptions derived from this reconciliation will indicate where the municipality may be compromising its revenue generation in respect of property rates. A further test would be to reconcile this with the Deeds Office registry. In accordance with the MFMA Circular No. 93,

municipalities are once more requested to submit the reconciliation of the valuation roll to the financial system to the National Treasury by no later than **05 February 2021**.

The above information must be emailed to linda.kruger@treasury.gov.za or must be uploaded by approved registered users using the LG Upload Portal at: https://lguploadportal.treasury.gov.za/.

5.2 Setting cost-reflective tariffs

Reference is made to MFMA Circular No. 98, paragraph 4.2. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (FFC, 2011). Credible budgets are critical for local government to fulfil its mandate and to ensure its financial sustainability.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- An effective budget is one that is adequate to deliver a service of the necessary quality on a sustainable basis; and
- An efficient budget is one that delivers services at the lowest possible cost.

Municipalities are encouraged to utilise the tariff setting tool referenced in MFMA Circular 98, item 4.2. This tool will assist in setting tariffs that are cost-reflective and would enable municipalities to recover costs to fulfil its mandate. The National Treasury Municipal Costing Guide is also available on the link below on the National Treasury website.

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08

5.3 Bulk Account Payments - Eskom Concessions

During 2018/19, intense work had been undertaken to resolve systemic and structural issues pertaining to the electricity function in municipalities. Core to this work was addressing the escalating Eskom debt that threatened the sustainability of Eskom as well as that of municipalities.

During the process, Eskom was engaged on providing relieve in certain areas. Municipalities must be made aware that the following concessions were agreed upon:

- Reducing the interest rate charged on overdue municipal bulk accounts from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms being extended from 15 days to 30 days for municipal bulk accounts; and
- Payments received from municipalities will be allocated to capital first and then the interest.

These concessions are aligned to the MFMA and are meant to curb the growing debt levels by allowing municipalities a more conducive payment regime than what was previously employed. In addition, municipalities are encouraged to budget for bulk services and honour their current account payments religiously to avoid stringent application of the bulk suppliers' credit control policy.

5.4 Timeous allocations and clearing of the control accounts

Municipalities are encouraged to clear the control accounts on a monthly basis and to allocate trade and other receivable payments in these suspense accounts to the relevant debtor accounts regularly before the monthly submissions as required by the MFMA. Implementing and enforcing the credit control policy of the municipality whilst payments are not cleared in the control account is negligent and irresponsible. Municipalities are warned against this bad practice, and this must be avoided at all costs.

5.5 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for price determination of the bulk costs for electricity. In March NERSA approved a municipal tariff increase of 6.9 per cent effective 1 July 2020 (1.2 per cent lower than the tariff increase in Multi-Year Price Determination (MYPD) 4 period due to differences in municipal and national financial years).

Municipalities are advised to use the tariff increases previously (March 2019) approved by the Regulator of 5.2 per cent 2021/22, 8.9 per cent for 2022/23 and 8.9 per cent in 2023/24 (*for 2023/24,* an average annual tariff increase is used for the National Energy Regulator of South Africa's multi-year price determination period of 1 April 2019 to 31 March 2022). The outer year is anticipated to be the first year of the MYPD 5 period, which is yet to be published.

6. Funding choices and management issues

Municipalities are under pressure to generate revenue as a result of the economic landscape, the COVID-19 pandemic, weak tariff setting and increases in key cost drivers to provide basic municipal services. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2021/22 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read with MFMA Circular No. 82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates; and
- Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

6.1 Employee related costs

The *Salary and Wage Collective Agreement* for the period 01 July 2018 to 31 June 2020 has come to an end and a new agreement is under consultation, which we hope will take into account the current fiscal constraints faced by government. Therefore, in the absence of any information in this regard from the South African Local Government Bargaining Council (SALGBC), municipalities are advised to take into account their financial sustainability when considering salary increases. It has been observed over the previous years that salary

increases were above inflation. In addition, municipalities that could not afford such increases did not apply for exemption as provided by SALGBC. Given the current economic condition exacerbated by the COVID-19 pandemic, municipalities are urged to consider projecting increases to wage that would reflect their affordability as many municipalities that are already not in a position to afford the current wage cost would indeed have to apply no more than zero per cent increase in the 2021/22 MTREF and to exercise the option for exemption for any negotiated increase above the level of their affordability.

6.2 Remuneration of councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process.

7. Conditional Grant Transfers to Municipalities

7.1 Non-compliance of in-year monitoring

In terms of Section 74(1) of the MFMA, municipalities must submit to the transferring officers, National and Provincial treasuries documents and monthly grant reports as may be prescribed or required. The *m*SCOA Regulations requires the uniform recording and classification of municipal budget and financial information at a transaction level in the form of a *m*SCOA data string that must be submitted to the LG Upload portal. Most municipalities are still not reporting on conditional grants as per the *m*SCOA requirements. As per MFMA Circular No 93, the National Treasury has only used *m*SCOA data strings as the source of data for publications on municipal financial performance from 1 July 2019. The *m*SCOA data strings will also be the main source of data that will be used to monitor the performance against grants and to inform decisions on the stopping and reallocation of conditional grants funding in the 2021/22 MTREF. The credibility of the *m*SCOA data strings reporting on grants will be closely monitored going forward.

Furthermore, section 12(2) of the Division of Revenue Act, 2020 (Act No. 4 of 2020) (DoRA) states that the municipality, as part of the report required in terms of section 71 of the MFMA, report on the matters referred to in subsection (4) and submit a copy of that report to the relevant provincial treasury, the National Treasury and the relevant Transferring Officer.

Some municipalities have not been complying with the reporting requirements as stipulated above. Municipalities are reminded that the non-submission of monthly reports translates to non-compliance with the MFMA and DoRA. The National Treasury and Transferring Officer will be implementing stringent measures to municipalities that do not comply with the prescripts. This includes, but is not limited to, the stopping and reallocation of conditional grants funding of non-compliant municipalities. Municipalities are encouraged to comply with the reporting requirements to avoid withholding or stopping of an allocation.

In terms of performance reporting on conditional grants, municipalities and Transferring Officers are urged to pay particular attention to the contents of money spent against conditional grants. Government is not realising full value for money against the substantial investments it makes through grants.

8. The Municipal Budget and Reporting Regulations

8.1 Ensuring municipal sustainability through a funded budget

A budget is funded from realistically anticipated revenues to be collected, cash backed accumulated funds from the previous year as well as borrowed funds to be utilised for capital projects. A budget is realistic if it takes into account projected revenue for the current year based on the collection levels to date and actual revenue collected in the previous financial year. Municipal budgets must be prepared on this basis. The economic climate and the impact of COVID-19 pandemic had an effect on the ability of municipalities to collect arrear debt during levels 5, 4 and 3 of the national lockdown. This inability to exercise credit control measures during this period had decreased the collection rate in many municipalities.

Municipalities need to be proactive in exercising credit control measures to ensure that arrear debt is collected. Whilst collection rates decreased during the period mentioned above, municipalities must implement efforts to collect arrear debt and return collection rates to pre-COVID-19 levels. Whilst this unprecedented COVID-19 period is the exception, collection rates need to be maintained at 95 per cent in order to ensure the financial sustainability of municipalities. If collection rates have decreased, prudent financial management requires expenditure to be adjusted downward accordingly. This is to ensure that deficits are not realised and that realistically anticipated revenue based on projected collection rates funds expenditure. This will also ensure financial sustainability and avoid situations of financial distress in municipalities.

The Municipal Systems Act states that a municipal council must adopt, maintain and implement a credit control and debt collection policy that would be utilised for the collection of money that is due and payable to it. The municipal Councillors therefore are the custodians of the policy and responsible for its implementation. As a result, Councillors are required to encourage consumers in their municipal jurisdiction to pay for municipal services and to ensure that such debt that is due and payable to the municipality is collected. This would ensure compliance with the Act and ensure that a culture of payment is implemented in the municipal area. Council needs to play an active role in implementing their adopted policies to increase collection rates and ensure that funds are received to render services to the people.

Municipalities are reminded to develop a credible funding plan where the budget is unfunded. This plan must be tabled in and adopted by Council with the 2021/22 MTREF budget and submitted to the National and provincial treasuries when they submit their tabled and adopted budget in terms of Section 22(b)(i) and 24 (3) of the MFMA. Failure to approve a credible plan will result in the invoking of Section 216(2) of the Constitution.

8.2 Budgeting for indirect grant allocations

Some municipalities continue to budget for allocations not directly allocated to them as revenue in the Statement of Financial Performance. This results in revenue being overstated. Therefore, municipalities must refrain from budgeting for indirect grant allocations. A municipality must only budget for the allocations that are directly allocated and transferred to them.

8.3 Monthly reporting of debtors

National Treasury has observed through in-year monitoring that most municipalities are overstating debtors as they report on gross debtors instead of net. The format of the monthly debtors' data strings provides for a column to disclose provision for impairment as per council policy. Therefore, municipalities are urged to always reflect the provision for impairment in the column as indicated above for National Treasury to be able to reconcile the net debtors.

8.4 Schedule A - version to be used for the 2021/22 MTREF

National Treasury has released Version 6.5 of the Schedule A1 (the Excel Formats) which is aligned to Version 6.5 of the *m*SCOA classification framework and must be used when compiling the 2021/22 MTREF budget.

It is imperative that all municipalities prepare their 2021/22 MTREF budgets in their financial systems and that the Schedule A1 be produced directly from their financial system. Vendors have demonstrated their budget modules to the National Treasury and provincial treasuries. All financial systems have this functionality to assist and prepare budgets and to generate the prescribed Schedule A1 directly from the financial system. Therefore, there is no reason why the 2021/22 MTREF budget must be done manually. National Treasury has protected the A1 schedule version 6.5, therefore manual population will not be allowed as the schedule must be extracted from the financial system.

ALL municipalities **MUST** prepare their 2021/22 MTREF tabled and adopted budgets using the A1 schedule version 6.5.

Municipalities must start early enough to capture their tabled budget (and later the adopted budget) in the budget module provided and must ensure that they produce their Schedule A1 directly out of the budget module. **Manual capturing on A1 schedule version 6.5 is not allowed** in terms of the *m*SCOA Regulations.

The National Treasury has indicated in MFMA Circular No. 93 that municipalities must submit all A1 Schedules in PDF format only from the 2019/20 MTREF. Given the fact that the *m*SCOA classification framework makes it possible to generate the financial data required in the A1 schedule directly from the data strings and that additional data needed must be obtained from sub-systems that integrate with the financial system, the National Treasury will only accept the prescribed data string containing the supporting data, populated and uploaded by each municipality. National Treasury published the layout for the data string on the website in MFMA Budget Circular No. 98 and an amended version to be used for the 2021/22 MTREF forms part of this circular. The publication in the 2020/21 MTREF of non-financial data will be done using the supporting data uploaded from these data strings.

The National Treasury **will no longer gather supporting data from the MBRR A1 Schedules** but will expect each municipality to **submit the prescribed supporting data strings** containing the required data using the LG Upload Portal.

The budget, adjustments budget and Section 71 monthly reporting Schedules that have been regulated in terms of the MBRR have also been aligned to the *m*SCOA chart version 6.5 changes. The revised MBRR Schedules for the 2021/22 MTREF and its linkages to the data string are available on the link below:

http://cenvappsp10:31200/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Documents/Forms/AllItems.aspx?RootFolder=%2fRegulationsandGazettes%2fMunicipal%20Budget%20and%20Reporting%20Regulations%2fDocuments%2f2020%2d21&FolderCTID=0x0120001860D4A2BD7AD042BF8427FC3BB59F67

The Municipal Budget and Reporting Regulations, formats and associated guides are available on National Treasury's website at:

http://mfma.treasury.gov.za/RegulationsandGazettes/Pages/default.aspx

8.5 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

Province	Responsible NT officials	Tel. No.	Email
Eastern Cape	Matjatji Mashoeshoe	012-315 5553	Matjatji.Mashoeshoe@treasury.gov.za
Buffalo City	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
Free State	Cethekile Moshane	012-315 5079	Cethekile.moshane@treasury.gov.za
Gauteng	Kgomotso Baloyi	012-315 5866	Kgomotso.Baloyi@treasury.gov.za
	Kevin Bell	012-315 5725	Kevin.Bell@treasury.gov.za
Johannesburg and Tshwane	Willem Voigt	012-315 5830	WillemCordes.Voigt@treasury.gov.za
KwaZulu-Natal	Kgomotso Baloyi	012-315 5866	Kgomotso.Baloyi@treasury.gov.za
	Mpati Rakgwale		Mpati.Rakgwale@treasury.gov.za
eThekwini	Una Rautenbach	012-315 5700	Una.Rautenbach@treasury.gov.za
	Abigail Maila		Abigail.Maila@treasury.gov.za
Limpopo	Willem Voigt	012-315 5830	WillemCordes.Voigt@treasury.gov.za
	Sifiso Mabaso	012-315 5952	Sifiso.Mabaso@treasury.gov.za

	Stanley Malele		Stanley.Malele@treasury.gov.za
Northern Cape	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
	Phumelele Gulukunqu	012 315 5539	Phumelele.Gulukunqu@treasury.gov.za
North West	Willem Voigt	012-315 5830	WillemCordes.Voigt@treasury.gov.za
	Makgabo Mabotja	012-315 5156	Makgabo.Mabotja@treasury.gov.za
Cape Town	Kgomotso Baloyi	012-315 5866	Kgomotso.Baloyi@treasury.gov.za
George	Willem Voigt and	012-315 5830	WillemCordes.Voigt@treasury.gov.za
	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
Technical issues with Excel formats	Elsabe Rossouw	012-315 5534	lgdataqueries@treasury.gov.za

National and provincial treasuries will analyse the credibility of the data string submissions.

8.6 Assessing the 2021/22 MTREF budget

National and provincial treasuries will assess the 2021/22 MTREF budgets to determine if it is complete, funded and complies with the *m*SCOA requirements. The *m*SCOA data strings for the tabled (TABB) and adopted (ORGB) budgets will be used for this assessment.

The **assessment period** of all municipal budget will therefore be from **31 May to 30 June**. In this one-month period, the National and provincial treasuries will evaluate all municipal budgets for completeness and for being fully funded. Any adjustment that need to be made must be done before the start of the municipal financial year on 1 July.

Importantly, in order to generate an adopted budget (ORGB) data string, the budget must be locked on the financial system by the 10th working day of July each year. Therefore, once the ORGB data string has been generated, errors in the ORGB can only be corrected via an adjustments budget in February of each year. In terms of the design principles of *m*SCOA, municipalities are not allowed to open the budget on the system for corrections after it has been locked. This means that the tabled budget data string (TABB) should in fact be verified and errors in the TABB should be corrected in the ORGB **before the adopted budget is locked on the financial system and the ORGB data string is generated.**

The previous verification process and timeframes (i.e. July to September) can no longer be applied as municipalities are already transacting against the adopted and locked budget from 01 July 2020.

Amending an unfunded, incomplete and erroneous budget through an adjusted budget is also not encouraged as the National Treasury only considers an adjusted budget in the third and fourth quarter of the financial year for analysis and publication purposes. This will result in overspending and unauthorised expenditure not been monitored in the first six months of the financial year.

Municipal managers are reminded that the annual budget must be accompanied by a quality certificate and council resolution, as well as a budget locking certificate (in the case of the adopted budgets) in accordance with the format specified in Regulation 31 of Schedule A of the MBRR. The A1 schedule must be included as part of the budget documentation in pdf format.

The National Treasury would like to emphasise that ***where municipalities have adopted an unfunded budget without a* credible funding plan*, they will be required to correct the budget and go back to the Municipal Council to ensure they adopt and implement a funded budget as required in terms of Section 18 of the MFMA.***

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The budget and data strings that the municipality submits to National Treasury must be a consolidated budget for the municipality (including entities). The budget of each entity must be submitted on the D schedule in pdf format.

In the past it was noted that municipalities have challenges to align the audited outcomes on the financial system to A1 Schedule. Municipalities must ensure that the audited figures and adjusted budget figures captured on the A1 Schedule aligns to the annual financial statements and Schedule B respectively.

9. Budget process and submissions for the 2021/22 MTREF

9.1 Submitting budget documentation and A1 schedules for 2021/22 MTREF

To facilitate oversight of compliance with the Municipal Budget and Reporting Regulations, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that, ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. If the annual budget is tabled to council on **31 March 2021**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Thursday, 01 April 2021**.

Section 24(3) of the MFMA, read together with regulation 20(1) of the MBRR, requires that municipalities must submit the approved annual budget to both National Treasury and the relevant provincial treasury ***within ten working days*** after the council has approved the annual budget. E.g. if the council approves the annual budget on **31 May 2021**, given the new timeframe for the evaluation of the municipal budgets, the adopted budget data strings and documentation must be submitted by the latest **Monday, 14 June 2020**.

Municipalities are no longer expected to submit hard copies of all required documents including budget-related, Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Hard copies must be submitted in pdf format to the LG Upload portal.

9.2 Expected submissions for 2021/22 MTREF

- The budget documentation as set out in the MBRR. The budget document must include the main A1 Schedule Tables (A1 - A10);
- The non-financial supporting tables (A10, SA9, SA11, SA12, SA13, SA24 and any other information not contained in the financial data string) in the A1 in the prescribed *m*SCOA data string in the format published with Version 6.5 of the A1 schedule;
- The draft and final service delivery and budget implementation plan (SDBIP) in electronic PDF format;
- The draft and final IDP;
- The council resolution for the tabled and adopted budgets;
- Signed Quality Certificate as prescribed in the MBRR for the tabled and adopted budgets;
- D Schedules specific for the entities; and
- A budget locking certificate immediately at the start of the new municipal financial year on 1 July.

Budget-related documents and schedules must be uploaded by approved registered users using the LG Upload Portal at: https://lguploadportal.treasury.gov.za/. It should be emphasised that municipalities should submit all required documents to the LG Upload portal and not to lgdocuments@treasury.gov.za. National Treasury will retire lgdocuments@treasury.gov.za on 1 July 2021 to ensure that there is a single collection point of municipal financial data.

Also note that the LG Upload Portal does not have the same size restrictions encountered with lgdocuments@treasury.gov.za, but requires all documents to:

1. Be in PDF format only; and

2. Each PDF file must NOT contain multiple document e.g. council resolution and quality certificate within the budget document. Each document type must be identified clearly and uploaded separately.

Any problems experienced with the submission of documents can be addressed with Elsabe Rossouw at Elsabe.Rossouw@treasury.gov.za.

The 2020/21 MTREF and the preliminary Quarter 1 Section 71 results for the 2020/21 financial year that has recently been published, have indicated that the credibility of the *m*SCOA data strings is still a concern although we have observed a marked improvement in some areas. At the core of the problem is:

- The incorrect use of the *m*SCOA chart and segments, balance sheet budgeting, movement accounting and basic municipal accounting practices by municipalities;
- Some municipalities are not budgeting, transacting and reporting directly in/from their core financial systems; and
- Municipalities are not locking their adopted budgets and their financial systems at month-end to ensure prudent financial management. To enforce municipalities to lock their budgets and close their financial system at month-end in 2020/21, the Local Government Database and Reporting System will lock all submission periods within the reporting period at the end of each quarter. The published period will NOT be opened again to ensure consistency between publications. System vendors were also requested to build this functionality into their municipal financial systems.

To improve the credibility of these data string, National and provincial treasuries are analysing the accuracy of the data strings and the use of the six regulated segments. The National Treasury has developed tools to analyse the segment/chart use and trained budget analysts from both National and provincial treasuries on the use thereof. To date, the analysis has highlighted that municipalities are not using the FUND, REGION and COSTING segments correctly. In many instances, these segments are simply defaulted which impedes the multi-dimensional reporting power of the *m*SCOA classification framework. Another common area of concern is that total capital expenditure do not balance to total funding. Currently, the expenditure is much higher than the available funding reported.

It needs to be noted that the single source for all analysis and publications will be the data strings submitted by the municipalities for the 2020/21 municipal financial year. It is therefore imperative that municipalities ensure the credibility and accuracy of the data strings before submission.

9.3 Publication of budgets on municipal websites

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website. This will aid in promoting public accountability and good governance.

All relevant documents mentioned in this circular are available on the National Treasury website, http://mfma.treasury.gov.za/Pages/Default.aspx. Municipalities are encouraged to visit it regularly as documents are regularly added / updated on the website.

9.4 Communication by municipal entities to National Treasury

Municipal entities should not request meetings directly from National Treasury. National Treasury will only engage the entities through the parent municipalities. This includes all communications apart from the legislative reporting requirements.

ANNEXURE A: TREATMENT OF ROLLOVERS AND REPAYMENT OF UNSPENT GRANTS IN *MSCOA* 16

Introduction

This budget circular is a follow-up to the one issued in December 2020. It guides municipalities with their preparation of the 2021/22 Medium Term Revenue and Expenditure Framework (MTREF) and, as with previous annual budget circulars, it should be read within this context. This Circular is linked to the Municipal Budget and Reporting Regulations (MBRR) and the municipal Standard Chart of Accounts (*m*SCOA); and strives to support municipalities' budget preparation processes so that the minimum requirements are achieved. The key focus of this Circular is the grant allocations per the 2021 Budget Review and the 2021 Division of Revenue Bill.

Municipalities are reminded to refer to the previous years' annual budget circulars for guidance on budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

The South African economy contracted by an estimated 7.2 per cent in 2020 compared with the 7.8 per cent contraction projected in the 2020 Medium Term Budget Policy Statement (MTBPS). The revised estimate results from easing lockdown restrictions in the third quarter and a faster-than-expected resumption of global growth, especially in China. The National Treasury projects real economic growth of 3.3 per cent in 2021, following an estimated contraction of 7.2 per cent in 2020. Real GDP growth is expected to moderate to 1.9 per cent in 2022 and 2023.

The outlook remains highly uncertain, and the economic effects of the pandemic are far-reaching. There were 1.7 million fewer jobs by the third quarter of 2020 compared to the same period in 2019. Rising unemployment and income losses have entrenched existing inequalities. GDP is only expected to recover to pre-pandemic levels in late 2023. High-frequency data for the third quarter, such as the volume of electricity distributed, mining and manufacturing output, business confidence and the ABSA Purchasing Managers' Index (PMI) shows evidence of a limited economic rebound.

Although growth rates are likely to improve quickly as restrictions are removed, based on current projections, the output is only expected to return to pre-pandemic levels in 2024. Given South Africa's structural constraints, its recovery will be slower than many of its developing-country peers. Industrial sectors (which include mining, manufacturing, construction and utilities) lagged substantially, undermined by structural constraints including unreliable electricity supply and weak public investment that preceded the pandemic. Over the next several years, the country requires the implementation of long-standing structural reforms to sustainably move to a higher growth path.

These economic challenges will continue to exert pressure on municipal revenue generation and collection levels; hence a conservative approach is advised for revenue projections.

The following macro-economic forecasts must be considered when preparing the 2021/22 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2019 - 2023

Fiscal year	2019/20	2020/21	2021/22	2022/23	2023/24
	Actual	Estimate		Forecast	
CPI Inflation	4.1%	3.3%	3.9%	4.2%	4.4%

Source: 2021 Budget Review.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

2. Key focus areas for the 2021/22 budget process

2.1 Changes to local government allocations

Over the next three years, municipalities will have to adjust to significant changes in expenditure plans while improving accountability. The 2021 Budget protects transfers that focus on infrastructure, service delivery and COVID-19 spending while reducing those spent less effectively. The 2021 Budget includes funding for initiatives to improve municipal revenue collection and support financially distressed municipalities.

Transfers to local government over the medium-term account for **9.4 per cent** of nationally raised funds after providing for debt-service costs, the contingency reserve and provisional allocations. Local government's share of revenue has risen in relative terms because reductions to the public-service wage bill affect only national and provincial government. Local government transfers grow by an annual average of 5.2 per cent over the MTEF; the equitable share declines by 4.4 per cent and conditional grants grow by 7.3 per cent. As part of government's fiscal consolidation policies over the medium term, transfers to local government are reduced by R19.4 billion, including R14.7 billion from the local government equitable share, R2.7 billion from the general fuel levy and R2 billion in direct conditional grants.

Conditional grants

The reduction to direct conditional grants includes R329 million from the *municipal infrastructure grant* and R21 million from the *integrated urban development grant*. These amounts have been reprioritised from underspending grants to fund a once-off councillor gratuity for non-returning councillors. The largest proportional reduction of R1.3 billion to local government grants has been made in the *public transport network grant*, because only six of the 13 cities receiving the grant have successfully launched public transport systems. Indirect conditional grants are re duced by R286 million over the period.

Government continues to reform the system of conditional grant transfers to local government based on the principles set out in the 2019 Budget Review. In 2021, government will expand the scope of the *municipal infrastructure grant* to allow municipalities to use up to 5 per cent of their allocation to develop infrastructure asset management plans. This change addresses poor asset management in municipalities.

In 2020, the *integrated city development grant* was repurposed to assist cities to build internal capacity or obtain technical support to prepare and package key infrastructure projects. This will continue in 2021 and private sector participation will be encouraged in these projects.

Two standalone *informal settlement upgrading grants* for provinces and municipalities will be introduced from 2021/22. These grants are made up of components previously within the *human settlements development grant* and the *urban settlements development grant* for provinces and municipalities respectively. In addition, the Municipal Systems Improvement Grant scope is extended to fund comprehensive institutional diagnostic assessments of the 21 district areas where the district municipality is a water service authority and the development of institutional improvement/ support plans that will inform all future capacity development programmes and municipal support initiatives to enhance the continued rollout of the rollout of the District Development Model (DDM).

Municipalities are reminded that all allocations included in their budgets must correspond to the allocations listed in the Division of Revenue Bill. All the budget documentation can be accessed from the National Treasury website by clicking on the link below:
http://www.treasury.gov.za/documents/national%20budget/2021/

3. 2021 Local Government Elections and the budget process

Municipalities are advised to refer to MFMA Circular No. 107 on risks related to the Local Government elections and issues to be considered in compiling the 2021/22 MTREF in addition to the information provided below.

3.1 Transitional processes - development and adoption of IDPs during the 2021 election year

The 2020/21 municipal financial year represents the last year of the current municipal councils' electoral term. Therefore, the next municipal election to usher in new councils is expected to take place between August and November 2021 in terms of the Section 24 (2) of the Municipal Structures Act, 2000 (Act No. 32 of 2000) (MSA).

It is acknowledged that the period within which the coming election's date is expected takes place after the start of a new financial year. This particular scenario poses a latent challenge in so far as adherence to legislated timeframes with regard to the adoption of the 5-year Integrated Development Plan (IDP) and the subsequent implementation.

Given the fact that the IDP and budget would need to be reviewed and adopted by 30 June 2021, the current council has an obligation to ensure that these stipulations are complied with. In this regard, the current council will be expected to continue reviewing the IDP and ensuring that it is adopted within the legislated timeframe.

Section 25 (3) of the MSA does allow the municipal council to adopt the IDP of the preceding council. However, should the incoming councils be unhappy with the priorities set out by the current council, in this case, municipal councils are advised to consider the existing adopted IDP and resolve to initiate or not to initiate an amendment procedure as guided by the MSA and the Municipal Performance and Planning Regulations (2001).

The Department of Cooperative Governance (DCoG), through the Chief Directorate: Development Planning, is rolling out the revised IDP guidelines to municipalities. These guidelines are aimed to, amongst others, guide municipalities with regards to the adoption of IDPs during an election year.

3.2 Hand-over reports for the newly elected councils

Each municipal manager, working together with the CFO and senior managers, is encouraged to prepare a hand-over report that can be tabled at the first meeting of the newly elected council. This hand-over report aims to provide the new councils important orientation information regarding the municipality, the state of its finances, service delivery and capital programme, as well as key issues that need to be addressed.

It is proposed that the hand-over report should include:

- An overview of the demographic and socio-economic characteristics of the municipality;
- An overview of the organisational structure of the municipality, with the names and numbers of senior managers;
- An overview of key municipal policies that councillors need to be aware of and where they can obtain the full text of such policies;
- An overview of issues that still need to be addressed in relation to the municipality's turnaround strategy;
- An overview of the municipality's financial health, with specific reference to:
    - Its cash and investments, and its funding of commitments (Table A8);
    - Cash coverage of normal operations (see Supporting Table SA10);

  - Creditors outstanding for more than 30 days, along with reasons for delayed settlement;
  - Current collection levels and debtors outstanding for more than 30 days; and
  - Extent of existing loans and associated finance and redemption payments.
- The municipality's 2019/20 audit outcome and its strategy to address audit issues;
- An overview of the provision of basic services, including plans to address backlogs;
- An overview of the state of the municipality's assets, with particular reference to the asset management plan, and repairs and maintenance requirements;
- A list of the main infrastructure projects planned for the 2021/22 budget and MTREF;
- A list of key processes requiring council input over the next six months, e.g. revision of the IDP, approval of specific policies etc. and
- Any other information deemed to be important.

In addition to the hand-over report, each new councillor should be given the municipalities' revised IDP, the adopted 2021/22 MTREF budget, the mid-year budget and performance assessment report for 2020/21, and the latest monthly financial statement, and the annual report for 2019/20.

Municipal managers should submit their municipality's hand-over report to the relevant provincial department responsible for local government, to the Department of Co-operative Governance (DCoG) and National and Provincial Treasuries.

4. Municipal Standard Chart of Accounts (*m*SCOA)

4.1 Opening balances

It was noted that some municipalities are not transferring their opening balances consistently to the current year of transacting. Opening balances for the previous year must be transferred in the first month (M01) of the current year, and all adjustments made during the preparation of the annual financial statements in period 14 and 15 must be transferred through journals to the opening balances of the current year in the month that it becomes apparent. When municipalities are not doing this correctly and consistently, it compromises the credibility of the *m*SCOA data strings submitted.

Importantly, journals may only be passed in the core financial system and not in 3rd party sub-systems.

4.2 Surplus or deficit journals

The Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) and MBRR require that municipalities perform their month-end reconciliations at the end of every month before they submit their financial performance information to the National Treasury. Surplus or deficit journals must be passed monthly before a data string is generated to ensure that the financial system remains in balance. The monthly data strings reflected in the Statement of Financial position (table C6 of the regulated C Schedules) will not be in balance for those municipalities that are not doing this, and their *m*SCOA data strings will therefore not be accurate.

Municipalities must also reconcile their creditors and debtors and all month-end processes **before** they submit their monthly data strings to ensure that the data submitted to the National Treasury Local Government Database is credible.

4.3 Rollovers and repayment of unspent grants

Municipalities are required to use the correct posting levels and movement accounting when conditional grants are being receipted, recognised, rolled over, and unspent grants are repaid. The accounting for grants should be done in accordance with GRAP 23: Revenue from

exchange transactions (Taxes and Transfers). Refer to **Annexure A** of this Circular on the correct treatment of rollovers and repayment of unspent grants in *m*SCOA.

5. The revenue budget

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring the municipality's financial sustainability. The Consumer Price Index (CPI) is forecasted to be within the lower limit of the 3 to 6 per cent target band; therefore, municipalities are required ***to justify all increases in excess of the projected inflation target for 2021/22 MTREF*** in their budget narratives and pay careful attention to the differential incidence of tariff increases across all consumer groups. It is noted that the tariff increases by Eskom and Water Boards are above inflation and should be considered as such while determining cost-reflective tariffs. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

Local government also confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving its own revenue collection, working more efficiently and implementing cost-containment measures.

5.1 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for price determination of the bulk costs for electricity. In March, NERSA approved a municipal tariff increase of 6.9 per cent effective 1 July 2020 (1.2 per cent lower than the tariff increase in Multi-Year Price Determination (MYPD) 4 period due to differences in municipal and national financial years).

The equitable share formula uses the 9.9 per cent bulk tariff increase used when National Treasury calculated the baseline for this year in the 2020 MTEF period. Other (non-bulk) electricity costs are updated based on the National Treasury's inflation projections in the 2020 MTBPS. This is due to fiscal constraints and the fact that the court had not pronounced on the Eskom matter at the time that the budget was finalised.

The additional R10 billion that the courts have allowed Eskom to recover in the 2021/22 national financial year translates to a 15.6 per cent bulk increase over the national financial year. However, given that the increase only comes into effect in July for municipalities, NERSA typically allows a higher percentage increase so that Eskom can recover the additional allowable revenue from municipalities over 9 months before the national financial year ends. Therefore, the increase should be expected to be between 16 to 20 per cent. Municipalities can mitigate the negative impact of this increase by improving efficiencies on both the revenue collections and the spending side.

The outer two years of the 2021 MTEF use 8.9 per cent, which is an average annual tariff increase used for the NERSA's multi-year price determination period of 1 April 2019 to 31 March 2022. Moreover, the outer year is anticipated to be the first year of the MYPD 5 period, yet to be published.

6. Funding choices and management issues

Municipalities are under pressure to generate revenue as a result of the economic landscape, the COVID-19 pandemic, weak tariff setting and increases in key cost drivers to provide basic municipal services. Customers' ability to pay for services is declining, which means that less revenue will be collected.

In order to achieve financial sustainability, municipalities must demonstrate the political will to implement the changes required to improve their performance. Where municipalities consistently fail to deliver their mandates, the Constitution provides for provincial and/or national government to intervene.

6.1 Employee related costs

The *Salary and Wage Collective Agreement* for the period 01 July 2018 to 31 June 2020 has come to an end and a new agreement is under consultation, which we hope will take into account the current fiscal constraints faced by government. Therefore, in the absence of any information in this regard from the South African Local Government Bargaining Council (SALGBC), municipalities are advised to take into account their financial sustainability when considering salary increases. It has been observed over the previous years that salary increases were above inflation. In addition, municipalities that could not afford such increases did not apply for exemption as provided by SALGBC.

Given the current economic condition exacerbated by the COVID-19 pandemic, municipalities are urged to consider projecting increases to wage that would reflect their affordability. Some municipalities are already not able to afford the current wage cost and would indeed have to apply no more than a zero per cent increase in the 2021/22 MTREF and exercise the option for exemption for any negotiated increase above the level of their affordability.

Therefore, should accounting officers fail to consider salary increases within the ambit of the municipality's available resources and financial position, such failure will constitute an act of financial misconduct as defined in section 171 of the MFMA read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

6.2 Remuneration of councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process.

6.3 Payment of danger allowance to the employees

The work undertaken by the frontline staff in rendering services to communities must be appreciated whilst understanding the country's economic situation and the world resulting from the impact of COVID-19 pandemic. The SALGBC Circular No. 5 of 2020 provides advice to municipalities about the payment of danger allowance to employees working at the frontline to fight the COVID-19 pandemic.

The Circular provides that the council of the municipality must have an approved policy that should guide how the danger allowance should be paid, based on the affordability of the municipality. During this difficult financial situation posed by the COVID-19 pandemic, municipalities must consider the following:

1. Determine whether or not the municipality will afford the percentage increase in order to accommodate the Danger Allowance;
2. Assess the current status of the Employee Related Costs that form part of the municipality's budget in order to ascertain whether or not the inclusion of such allowance will not place the municipality's financial position in jeopardy in terms of the total Employee Related Costs as a percentage of the total expenditure;
3. Determine the credible funding source for the payment of Danger Allowance;

4. In this case the municipality must subject that change to "public participation processes" when dealing with the 2021/2022 MTREF based on the funding source; and
5. The municipality must also have a policy that operationalise the implementation of this kind of an allowance, only based on the determination/ assessment as per the aforementioned points.

6.4 Mayor's discretionary funds and similar discretionary budget allocations

It has been observed that many municipal budgets contain sub-votes or allocations to "Mayoral Discretionary Funds", "Special Projects", "Special Events" or similar discretionary type funds. Municipalities must refer to section 12 of the MFMA in relation to setting up a relief, charitable, trust or other funds.

National Treasury regards these types of allocations as a bad practice because:

- It is not clear how they are aligned to the constitutional requirement that municipalities structure their budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community (see section 153(a) of the Constitution);
- They do not provide for the appropriation of funds for the purposes of a department or functional area of the municipality (see the definition of 'vote' in section 1 of the MFMA);
- They undermine the budget consultation processes since the intended use of the funds is not transparently reflected in the tabled budget; and
- There is a risk that they may be abused for personal gain or to improperly benefit another person or organisation.

Therefore, National Treasury discourages allocations of this nature. Good budget practice requires that a municipal budget should transparently indicate the purposes and areas where municipal funds (i.e. public funds) are to be allocated. These kinds of discretionary funds immediately raise public suspicions of impropriety and corruption. In terms of section 52(a) of the MFMA the Mayor "must provide general political guidance over the fiscal and financial affairs of the municipality". The Mayor, therefore, provides direct input into the budget. If this is the case, why does the Mayor require a 'discretionary / personal slush fund'?

Section 17(3)(b) of the MFMA requires that when an annual budget is tabled it must be accompanied by "measurable performance objectives ... for each vote in the budget". What measurable performance objectives can be set in relation to these funds given that their use is at the discretion of the Mayor? This means the transparent and effective use of these funds cannot be monitored and assessed by the council and the public.

National Treasury notes that section 17(3)(j) of the MFMA requires that when an annual budget is tabled it must be accompanied by "particulars of any proposed allocations or grants by the municipality to ... (iv) any organisations or bodies referred to in section 67(1)". The aim of this provision is to ensure that all proposed allocations or grants are presented transparently in the budget documentation that is tabled for public consultation and council approval, as well as for budget management and monitoring purposes. *Any allocations or grants made to organisations or bodies that are not reflected in a municipality's budget or adjustments budget must be regarded as unauthorised expenditure because they are "(f) a grant by the municipality otherwise than in accordance with this Act"* (see definition of unauthorised expenditure in section 1 of the MFMA).

National Treasury further notes that section 67 of the MFMA only allows funds to be transferred to 'an organisation or body' and not to an individual. Any allocations or grants to individuals, *other than in terms of the municipality's indigent policy or bursary scheme, must be regarded as*

irregular expenditure because they are expenditures not in accordance with a requirement of the MFMA.

National Treasury and provincial treasuries will exercise close oversight of all discretionary type allocations in municipal budgets. If there are any concerns about the use of these funds, section 74 of the MFMA will be used to request information in this regard and analyse it for consistency with the MFMA legal framework.

7. Conditional Grant Transfers to Municipalities

The annual Division of Revenue Act requires that municipalities must request for a rollover approval against any unspent conditional grants that were allocated through the Act, therefore this section provides guidance to municipalities with regard to the preparation for the 2020/21 unspent conditional grant and rollover process and should be referenced against previous annual budget circulars.

7.1 Criteria for the rollover of conditional grant funds

In terms of Section 22 of the Division of Revenue Act, 2020 (Act No.4 of 2020) (DoRA) in conjunction with the Division of Revenue Amendment Act, 2020 (Act No. 10 of 2020) (DoRAA) and the Division of Revenue Second Amendment Act, 2020 (Act No. 20 of 2020), the Act requires that any conditional allocation or a portion thereof that is not spent at the end of the 2020/21 financial year reverts to the National Revenue Fund, unless the rollover of the allocation is approved in terms of subsection (2). Furthermore, the receiving officer, provincial treasury and national transferring officer is required to prove to National Treasury that the unspent allocation is committed to identifiable projects, in which case the funds may be rolled over.

When requesting a rollover in terms of section 22(2) of the 2020 DoRA, municipalities must include the following information with their submission to National Treasury:

1. A formal letter, signed by the accounting officer addressed to the National Treasury requesting the rollover of unspent conditional grants in terms of section 22(2) of the 2020 DoRA;
2. A list of all the projects that are linked to the unspent conditional grants and a breakdown of how much was allocated and spent per project;
3. The following evidence indicating that work on each of the projects has commenced, as applicable to the specific rollover(s):

    a) Proof that a contractor or service provider was appointed for delivery of the project before 31 March; or
    b) Proof of project tender and tender submissions published and closed before 31 March with the appointment of contractor or service provider for delivery of service before 30 June in cases where additional funding was allocated during the course of the final year of the project;
    c) Incorporation of the Appropriation Statement;
    d) Evidence that all projects linked to an allocation will be fully utilised by 30 June 2022 (attach cash flow projection for the applicable grant).

4. A progress report (also in percentages) on the status of each project's implementation that includes an attached **legible implementation plan**);
5. The value of the committed project funding and the conditional allocation from the funding source;
6. Reasons why the grants were not fully spent during the year of original allocation per the DoRA;

7. Rollover of rollovers will not be considered therefore municipalities must not include previous year's unspent conditional grants as rollover request;
8. An indication of the time period within which the funds are to be spent if the rollover is approved; and
9. Proof that the Municipal Manager and Chief Financial Officer are permanently appointed.

No rollover requests will be considered for municipalities with vacant or acting Chief Financial Officers and Municipal Managers for a period exceeding 6 months from the date of vacancy; this also includes acting appointments as a result of suspensions of either MM or CFO that are more than 12 months.

If any of the above information is not provided or the application is received by National Treasury (Intergovernmental Relations Division) after 31 August 2021, the application will be declined.

In addition, National Treasury will also consider the following information when assessing rollover applications; and reserves the right to decline an application should there be non-performance by the municipality in any of these areas:

1. Compliance with the in-year reporting requirements in terms of sections 71 and 72 of the MFMA and section 12 of the 2020 DoRA, **including the municipal manager and chief financial officer signing-off on the information** sent to National Treasury;
2. Submission of the pre-audited Annual Financial Statements to National Treasury by 31 August 2021;
3. Accurate disclosure of grant performance in the 2020/21 pre-audited Annual Financial Statements, (i.e. correct disclosure of grant receipts and spending in the notes to the AFS);
4. Despite the fact local government is required to comply to different norms and standards prescribed by different legislations, municipalities are expected to fully comply with the provisions of DoRA that relates to rollover processes and disclose conditional grant performance in the 2020/21 pre-audited Annual Financial Statements in order to verify grant expenditure; and
5. Cash available in the bank (net position including short term investments) as at 30 June 2021 is equivalent to the unspent amount at the end of the financial year. If the amount that is requested for rollover **is not entirely cash-backed**, such a rollover will not be approved. National Treasury will also not approve portions of rollover requests.

It should be noted that under no circumstances will the National Treasury consider requests to rollover:

1. The entire 2020/21 allocation to the municipality, in cases whereby the rollover request is more than 50 per cent of the total allocation, National Treasury will approve the rollover amount up to 50 per cent of the 2020/21 allocation;
2. Rollover request of the same grant for the third consecutive time;
3. Funding for projects constituted through Regulation 32 of the Municipal Supply Chain Management Regulations (Gazette No.27636). Projects linked to additional funding and disasters are exempted; and
4. A portion of an allocation where the proof of commitment for the rollover application is linked to invoices that were issued before or on 31 May 2021.

7.2 Rollover request against the Covid-19 allocated through the Equitable Share

The Division of Revenue Amendment Act, 2020 (Act No 10 of 2020) made available to Local government an amount of R11 billion following the President's speech on 20 April 2020. The President pronounced that R20 billion would be made available to municipalities in order to provide emergency water supply, increase sanitation of public transport facilities, and provide

food and shelter for the homeless. The R20 billion consisted of an additional allocation of R11 billion, which was transferred through the Equitable Share, and the R9 billion was funded from the repurposed spending within conditional grants allocated to municipalities. This increased the 2020/21 municipal Equitable Share allocation from R74.7 billion to R85.7 billion.

The R11 billion added to the local government Equitable Share allowed municipalities to maintain existing services despite a temporary decline in revenue collections and also cover some additional expenses incurred in response to the pandemic, including the provision of temporary shelter for homeless people during the lockdown.

Although the R11 billion was allocated through an unconditional grant (Equitable Share), these are committed funds in response to the Covid-19 pandemic. Consequently, the municipalities are required to request a rollover from National Treasury of any unspent committed Covid-19 allocation to be rolled over into the 2021/22 financial year.

Municipalities are therefore required to provide the following information to National Treasury in order to prove that the unspent funds are committed and also provide approval to allow the unspent funds to be spent in the 2021/22 financial year.

1. Provide the contracts that are linked to the response of the Covid-19 pandemic in line with the provisions made in the 2020 DoRAA;
2. Reasons why the funds were not fully spent during the year of original allocation per the DoRAA;
3. Accurate disclosure of Covid-19 allocation expenditure in the 2020/21 pre-audited Annual Financial Statements, (i.e. correct disclosure of grant receipts and spending in the notes to the AFS); and
4. Any expenditure incurred against the unspent Covid-19 funds that was not approved for the rollover will be regarded as unauthorized expenditure.

7.3 Unspent conditional grant funds for 2020/21

The process to ensure the return of unspent conditional grants for the 2020/21 financial year will be managed in accordance with section 22 of the DoRA. In addition to the previous MFMA Circulars, the following practical arrangements will apply:

Step 1: Municipalities must submit their June 2021 conditional grant expenditure reports according to section 71 of the MFMA reflecting all accrued expenditure on conditional grants and further ensure that expenditure reported to both National Treasury and national transferring officers reconcile;

Step 2: When preparing the Annual Financial Statements, a municipality must determine the portion of each national conditional grant allocation that remained unspent as at 30 June 2021. These amounts MUST exclude all interest earned on conditional grants, retentions and VAT related to conditional grant spending that has been reclaimed from SARS, which must be disclosed separately; and

Step 3: If the receiving officer wants to motivate in terms of section 22(2) of the 2020 DoRA that the unspent funds are committed to identifiable projects, the rollover application pack must be submitted to National Treasury by no later than 31 August 2021.

National Treasury will not consider any rollover requests that are incomplete or received after this deadline.

Step 4: National Treasury will confirm in writing whether or not the municipality may retain any of the unspent funds as a rollover based on criteria outlined above by 22 October 2021;

Step 5: National Treasury will communicate the unspent conditional grants amount by 08 November 2021. A municipality must return the remaining unspent conditional grant funds that are not subject to a specific repayment arrangement to the National Revenue Fund by 19 November 2021; and

Step 6: Any unspent conditional grant funds that should have, but has not been repaid to the National Revenue Fund by 19 November 2021, and for which a municipality has not requested a repayment arrangement, will be offset against the municipality's 07 December 2021 equitable share allocation.

All other issues pertaining to Appropriation Statement and reporting on approved rollovers are addressed in the Annexure to MFMA Circular No. 86.

7.4 Importance of section 17 of the Division of Revenue Act

The purpose of this section is to provide further clarity on section 17 of DoRA in relation to the transfer of funds to the organ of state in order to implement projects on behalf of the municipalities.

Section 17 (3) of DoRA states that a receiving officer may not allocate any portion of a schedule 5 allocation to any other organ of state for the performance of a function, unless the receiving officer and the organ of the state agree on the obligation of both parties and a payment schedule, the receiving officer has notified the transferring officer, the relevant provincial treasury and National Treasury of the agreed payment schedule and:

a. The allocation
   - i) Is approved in the budget for the receiving provincial department or municipality; or
   - ii) If not already approved;
     - aa) the receiving officer notifies the National Treasury that the purpose of the allocation is not to artificially inflate the expenditure estimates of the relevant municipality and indicates the reasons for the allocation; and
     - bb) the National Treasury approves the allocation; or

b. The allocation is for the payment for goods or services procured in accordance with the procurement prescripts applicable to the relevant province or municipality and, if it is an advance payment, paragraph (a) (ii) applies with the necessary changes.

Further, section 17 (4) states that the receiving officer must submit a copy of the agreement envisaged in subsection (3) to the transferring officer and the National Treasury before payment is made.

This section requires municipalities to comply with section 17 (3) before any DoRA allocated funds are allocated to any organ of state, and the municipality should first seek approval from National Treasury.

Note that National Treasury considers the following when assessing the request from the municipality for approval:

1. If the municipality is benefitting and utilising from the five per cent from capital grants that may be utilised for Project Management Unit (PMU). In terms of the capital grant framework (i.e. MIG and IUDG and three per cent for the USDG), municipalities are allowed to utilise a certain per cent of the grant for PMU or capacity support in order to implement capital projects. Therefore, if municipalities are benefiting from this initiative, the PMU should be capacitated enough to implement capital project;
2. Municipalities that are benefiting from the added technical support from Municipal Infrastructure Support Agent (MISA) will not be granted approval because MISA would assist with providing support and develop technical capacity towards sustained

accelerated municipal and service delivery. This implies that the municipality would be capacitated and be in a better position to implement capital project; and

3. If the request does not comply with the grant conditions, framework and if the transfer artificially inflates the expenditure estimates.

The following information must be submitted to National Treasury before approval is granted to municipalities to transfer funds to organs of the state:

1. In consultation with the relevant transferring officer municipalities must submit their request to National Treasury for approval;
2. Provide the time frames regarding the duration of this arrangement between the municipality and the organ of the state;
3. Provide the Service Level Agreement between the municipality and the organ of the state in consultation with the relevant transferring officer;
4. Provide the agreed payment schedule reflecting the disbursement of the funds;
5. Must provide the reasons why the municipality has taken such a decision;
7. If amongst the reasons for the request is related to capacity challenges, the municipality must therefore prove beyond reasonable doubt that there are capacity challenges and the reasons thereof; and
8. Upon approval, the municipality must submit the approved budget that includes the allocation.

Note that once the allocation has been approved, the payment for goods or services must be procured in accordance with or in compliance with the procurement prescripts applicable to the relevant municipality. If there is an agreement for an advancement, subsection (a) (ii) will apply in order to determine if the payment does not artificially inflate the expenditure estimates. Further, before funds are transferred, the national transferring officer and National Treasury must agree on the payment schedule.

Therefore, if any expenditure incurred which emanates from such an arrangement while there was non-compliance with section 17, grant conditions and framework, such expenditure will not be recognised by both National Treasury and relevant transferring officer and will be classified as unauthorised expenditure.

8. The Municipal Budget and Reporting Regulations

8.1 Service Level Standards

Municipalities are reminded to update the service level standards which must form part of their 2021/22 MTREF tabled budget documentation. A broad framework on the minimum service standards was issued with MFMA Circular No. 75. Therefore, the outline must be used as a guideline and be amended accordingly to align to the municipality's specific circumstances.

8.2 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

Province	Responsible NT officials	Tel. No.	Email
Eastern Cape	Matjatji Mashoeshoe	012-315 5553	Matjatji.Mashoeshoe@treasury.gov.za

9. Budget process and submissions for the 2021/22 MTREF

9.1 Submitting budget documentation and A1 schedules for 2021/22 MTREF

To facilitate oversight of compliance with the MBRR, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. **If the annual budget is tabled to council on 31 March 2021**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Thursday, 01 April 2021**.

Section 24(3) of the MFMA, read together with regulation 20(1) of the MBRR, requires that municipalities must submit the approved annual budget to both National Treasury and the relevant provincial treasury ***within ten working days*** after the council has approved the annual budget. E.g. if the council approves the annual budget on **31 May 2021**, given the new timeframe for the evaluation of the municipal budgets, the adopted budget data strings and documentation must be submitted by the latest **Monday, 14 June 2020**.

Municipalities are no longer expected to submit hard copies of all required documents including budget-related, Integrated Development Plan, Service Delivery Budget and Implementation Plan, Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Electronic copies must be submitted in pdf format to the LG Upload portal or lgdocuments@treasury.gov.za.

9.2 Consolidated budgets and reports

Municipalities with entities are reminded that they must prepare and submit MTREF budgets, section 71 reports, annual financial statements and annual reports for both the parent municipalities and consolidated documents that incorporates the entity information in terms of the MBRR.

9.3 Submission using LG Upload Portal

In MFMA Budget Circular No 107, it was indicated that budget-related documents and schedules must be uploaded by approved registered users using the LG Upload Portal at: https://lguploadportal.treasury.gov.za/ and that National Treasury was planning to retire lgdocuments@treasury.gov.za from 01 July 2021 to ensure that there is a single collection point of municipal financial data. However, based on workflow licensing challenges on the LG Upload Portal, data string submissions will shortly be shifted to the Open Portal GoMuni while documents must still be submitted using lgdocuments@treasury.gov.za. The document submissions will also be shifted to GoMuni as soon as possible.

All municipalities and their entities had to prepare their MTREF budget directly on the *m*SCOA financial systems from 01 July 2017. Therefore, all MBRR schedule submissions must be submitted in ***PDF format only***.

9.4 Publication of budgets on municipal websites

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website. This will aid in promoting public accountability and good governance.

All relevant documents mentioned in this circular are available on the National Treasury website, http://mfma.treasury.gov.za/Pages/Default.aspx. Municipalities are encouraged to visit it regularly as documents are regularly added/ updated on the website.

JH Hattingh
Chief Director: Local Government Budget Analysis
08 March 2021

Annexure A: Treatment of Rollovers and repayment of unspent grants in *m*SCOA

Cash receipting of a conditional grant
The receiving of grants must be accounted for against (Dt) Bank and (Cr) Item Liabilities: Unspent grants: Capital: Monetary: Municipal Infrastructure Grant: Receipts as shown below:

- Municipal Infrastructure Grant(IL-001-007-002-001-002-005-002)
  - Opening Balance(IL-001-007-002-001-002-005-002-001)
  - Receipts(IL-001-007-002-001-002-005-002-002)

Recognising the revenue when the grant is spent

When the grant is spent in accordance with the conditions of the grant, a transaction must be passed against the (Dt) Item Liabilities: Transferred to Revenue/ Capital Expenditure and (Cr) Item Revenue: Non-Exchange Transactions: Transfers and subsidies: Capital: Monetary allocations: National Government: Municipal Infrastructure Grant as shown below:

Debit Item Liability: posting level

- Municipal Infrastructure Grant(IL-001-007-002-001-002-005-002)
  - Opening Balance(IL-001-007-002-001-002-005-002-001)
  - Receipts(IL-001-007-002-001-002-005-002-002)
  - Transferred to Revenue/Capital Expenditure(IL-001-007-002-001-002-005-002-003)

Credit revenue recognised: posting level

- Transfers and Subsidies(IR-003-005)
  - Capital(IR-003-005-001)
    - Allocations In-kind(IR-003-005-001-001)
    - Monetary Allocations(IR-003-005-001-002)
      - Departmental Agencies and Accounts(IR-003-005-001-002-001)
      - District Municipalities(IR-003-005-001-002-002)
      - Foreign Government and International Organisations(IR-003-005-001-002-003)
      - Households(IR-003-005-001-002-004)
      - National Government(IR-003-005-001-002-005)
        - Integrated National Electrification Programme Grant(IR-003-005-001-002-005-001)
        - Municipal Infrastructure Grant(IR-003-005-001-002-005-002)

Rollovers

In the event that the full grant was not spent at the end of the financial year, the municipality must apply for a rollover as per the process stipulated in the Division of Revenue Act (DoRA). Until such approval has been granted by the National Treasury, a municipality may not continue to incur expenditure against the unspent conditional grant allocation. This does not mean that the municipality should stop or cancel ongoing projects, but Council approval must be obtained to fund the spending from own funding sources until rollover approval is granted by the National Treasury. Once the rollover has been approved by the National Treasury, the amount of the rollover must be ratified through an adjustments budget. The *m*SCOA chart makes provision for all the required transactions in this regard.

Roll over not approved/ Offset against Equitable share

In the event that the rollover is not approved by the National Treasury, the unspent grant funding must be paid back to the National Revenue Fund or alternatively be offset against the Equitable Share and the Liability must be reduced by:

1) Debiting Unspent Grant (Repayment) to reduce the liability that was still outstanding; and
2) Crediting Item Revenue Equitable Share to adjust the revenue in line with DoRA.

This is further illustrated below:

1) Debit Liability: posting level

- Municipal Infrastructure Grant(IL-001-007-002-001-002-005-002)
  - Opening Balance(IL-001-007-002-001-002-005-002-001)
  - Receipts(IL-001-007-002-001-002-005-002-002)
  - Transferred to Revenue/Capital Expenditure(IL-001-007-002-001-002-005-002-003)
  - (Retired) Closing Balance(IL-001-007-002-001-002-005-002-004)
  - Re-payment of Unspent Grant(IL-001-007-002-001-002-005-002-005)

2) Credit Revenue: posting level

- National Revenue Fund(IR-003-005-002-002-006)
  - Fuel Levy (RSC Replacement Grant)(IR-003-005-002-002-006-001)
  - Equitable Share(IR-003-005-002-002-006-002)

Unauthorised, Irregular, Fruitless and Wasteful (UIFW) expenditure

If the municipality continues to spend against the conditional grant allocation, but rollover approval has not been granted by the National Treasury, this expenditure will be viewed as unauthorised expenditure.

MUNICIPAL BUDGET CIRCULAR FOR THE 2020/21 MTREF AND ASSOCIATED STRATEGIC INTEGRATED MUNICIPAL ENGAGEMENTS: 2020

1. PURPOSE

The purpose of this circular is to:

- provide guidance to municipalities with the finalisation of the 2020/21 Medium Term Revenue and Expenditure Framework (MTREF) Budgets and accompanied budget documentation, and
- brief municipalities on the 2020 Strategic Integrated Local Government Medium Term Expenditure Committee Process (i.e. LG MTEC) and related matters.

2. LEGISLATIVE CONTEXT

The Western Cape Provincial Government has institutionalised the Strategic Integrated Municipal Engagements (SIME; previously referred to as LGMTEC) process in fulfilment of its obligations under:

- Sections 5, 22 and 23 of the Local Government: Municipal Finance Management Act (MFMA), Act No. 56 of 2003; and
- Chapter 5 of the Local Government: Municipal Systems Act (Act No. 32 of 2000) [MSA].
- Chapter 3 of the National Environmental Management Act (Act No. 107 of 1998) (NEMA); and
- Chapter 4 of the Spatial Planning and Land Use Management Act (Act No. 16 of 2013) (SPLUMA).

The 2020 SIME process gives effect to the "Integrated Work Plan" agreed to in 2017. It builds on the 2019 integrated municipal and provincial processes in order to strengthen alignment between municipal and provincial planning and budgeting and driving the theme of "**Integrated Service Delivery**". The 2020 process continues to drive this theme for the current 4th Generation Integrated Development Planning Cycle.

The SIME process has been amended from previous years in response to the challenges resulting from the Coronavirus disease (COVID-19) pandemic.

3. BACKGROUND

3.1 2020 National Budget

The 2020 National Budget, which was tabled by the Minister for Finance, Tito Mboweni on 26 February 2020, was formulated in an environment of slow economic growth and constrained fiscal environment. Low growth has led to a R63.3 billion downward revisions to estimates of tax revenue in 2019/20 relative to the 2019 Budget. To support growth, no major tax increases have been proposed. Debt is not projected to stabilize over the medium term, and debt-service costs now absorb 15.2 per cent of main budget revenue. Over the next three years, the 2020 Budget proposes total reductions of R261 billion, which includes a R160.2 billion reduction to the wage bill of national and provincial departments, and national public entities. Reallocations and additions total R111.1 billion over the medium term, of which R60 billion is set aside for Eskom (to address the electricity crises via debt payment, the renewable energy programme and allowing municipalities to purchase electricity from independent power producers) and South African Airways. These measures narrow the consolidated deficit from 6.8 per cent of GDP in 2020/21 to 5.7 per cent in 2022/23, with debt rising to 71.6 per cent of GDP over the same period.

Along with faster economic growth, fiscal sustainability will require targeted reduction of specific programmes, and firm decisions to rein in extra-budgetary pressures, including reform of state-owned companies and the Road Accident Fund (RAF).

Key programmes to be implemented over the medium term include: modernizing network industries; restructuring state-owned enterprises; opening markets to trade with the rest of the continent; focusing on job creating sectors such as agriculture and tourism; lowering the cost of doing business, supporting Jobs Fund projects; creating a fairer process for third party access into the rail network; the Innovation Fund; Industrial Business incentives, refurbishment of industrial parks in townships and rural economies; small business incentive programmes; and implementing a State Bank.

The 2020 National Budget documentation are available at:
http://www.treasury.gov.za/documents/National%20Budget/2020/

3.2 2020 Western Cape Provincial Budget

The 2020 Provincial Budget, which was tabled by the Minister of Finance and Economic Opportunities, Mr David Maynier on 10 March 2020, was formulated in an environment of sluggish economic growth and fragile fiscal environment. The Western Cape is also confronted by perennial supply side constrains in the water and energy sectors, rising crime levels, increased service load pressures associated with population growth.

The 2020 MTEF offers the Western Cape Government (WCG) response to the volatile and uncertain economic and fiscal environment, while giving effect to the Province's vision of a "safe Western Cape where everyone prospers". The MTEF aims to ensure that the credibility and sustainability of public finances is maintained while keeping the citizen at the centre of delivery through responsive fiscal and budget policy.

The Provincial Budget amounts to R71.619 billion in 2020/21, R74.887 billion in 2021/22 and R78.308 billion in 2022/23. The Provincial Budget delivers on the Western Cape's Vision Inspired Priorities (VIPs) embedded in the 2020-2024 Provincial Strategic Plan by allocating an estimated R224 billion over the medium term as follows:

- R4 billion towards VIP1: To create **safe and cohesive communities** by enhancing capacity and effectiveness of policing and law enforcement; strengthening youth-at-risk referral pathways and child-and-family centred initiatives to reduce violence; and increasing social cohesion and safety of public spaces.

- R32.4 billion towards VIP 2: Economic **growth and jobs** by increasing investment; engaging in infrastructure investment and development and building and maintaining infrastructure; growing the economy through export growth and resource resilience; and creating opportunities for job creation through skills development.

- R173.8 billion towards VIP 3: **Empowering people** through long-term and holistic planning that target socio-economic challenges facing children and families, education and learning, youth and skills, health and wellness and older persons and persons with disabilities.

- R24.6 billion towards VIP 4: Enabling **Mobility and Spatial Transformation** through better linkages between places through public transport and mobility systems that work together; creating spatially and economically viable growth points; creating more opportunities for people to live in better locations; and improving the places where people live.

- R7.5 billion towards VIP 5: **Innovation and Culture**: where the WCG will engage in citizen-centric culture and innovation; innovation for impact; integrated service delivery and good governance transformation.

The 2020 Provincial Budget documentation are available at:
https://www.westerncape.gov.za/provincial-treasury/news/western-cape-budget-202021

3.3 2020/21 Strategic Integrated Municipal Engagements

The Integrated Implementation Plan (IIP) for Provincial and Municipal planning, budgeting and implementation is an annual plan which outlines the approach, processes and actions required as well as the stakeholders who will be involved in executing the Integrated Work Plan (IWP) for the respective year. Taking an Integrated Management approach therefore involves the practice of co-planning, co-budgeting and co-implementation through both vertical and horizontal integration. The IIP takes into account the policy, economic and fiscal context and identifies the objectives and approach for 2020/21 to give effect to Integrated and Citizen-centric Service Delivery. The IIP is the official departure point for the 2020/21 integrated planning and budgeting process and is further complimented by the Joint District Approach. The 2020/21 integrated planning and budgeting process focuses on strengthening the progress made to align planning and budgeting in the Province and will place particular emphasis on enhancing the provincial and local government interface.

The Integrated Management approach seeks to ensure that, inter alia, the budgets, programmes and projects of municipalities and provincial and national departments are derived from robust and integrated planning processes, at the heart of which is the development of an Integrated Development Plan (IDP) and its core components, such as a Spatial Development Framework (SDF). SDFs must direct the spatial location of growth and development within the municipal areas.

The *SIME* which takes place in April and May precedes the approval and implementation of municipal budgets. The engagement provides provincial government the opportunity to assess the Municipality's compliance and performance through the planning review of Municipal IDP and budgeting efforts for the upcoming financial year.

The engagement will include an assessment compliance and performance information obtained from the Western Cape Monitoring and Evaluation System (MES) as well as conformance, responsiveness, credibility and sustainability of the municipality's draft budget, IDP, SDF and supporting plans to ensure they are aligned and give effect to the national and provincial priorities while highlighting possible risks and informing provincial support plans to municipalities.

The SIME process will primarily focus on strategic issues emanating from the municipalities integrated development plans, strategic development planning frameworks and draft annual budgets. The aim will be to strengthen the synergies between the three main sets of documents in order to gear the municipalities for sustainable growth and development and social upliftment.

A key focus of the 2020/21 SIME process will be on local governments responsiveness to its socio-economic environment and the related impact for its citizens. This will also reveal potential opportunities and gaps for spending and collaboration or partnerships with Province or other stakeholders.

The overall objectives of the 2020/21 SIME process and the key messages therefore emphasises:

- Aligning strategic intent as encapsulated within the 2019 - 2024 Provincial Strategic Plan and Integrated Development Plans (IDP) and municipal budgets to create public value based on the community needs/priorities identified through the public participation processes;
- Safeguarding of municipal sustainability by ensuring that municipalities table funded budgets and the strengthening of municipal financial management;
- Ensure optimal and targeted service delivery through strategic spatial planning and alignment;
- Deepening of an integrated approach to service delivery with the intention of creating synergies through the consolidation/concentration of resources, also across different spheres of government;
- Identification of areas that require amendment to the IDP; support and training; as well as opportunities for collaboration and partnerships.

The discussions at the engagements are strategic in nature. The representation at the SIME engagements between the Province and municipalities will be as follows:

- The Provincial Government - senior officials from the Provincial Treasury, Department of Local Government, Department of Environmental Affairs and Development Planning and relevant provincial departments.
- Municipalities - Municipal Manager, section 56 Managers, Budget and Treasury officials, IDP Manager/officials and Planning officials.
- **Due to the developments with the COVID-19 pandemic and the measures announced by the President to minimize the risk of the spread of the disease, SIME engagements will no longer take place on site at municipal offices. The Provincial Treasury will instead arrange for engagements to take place via video-conferencing.** A list of available video-conference facilities across the Province will be made available for use by any municipality that does not have access to such facilities.
- The SIME engagements are provisionally scheduled to take place from 24 April 2020 to 8 May 2020 and is subject to confirmation from the municipalities. PT will communicate with each Municipality on an individual basis to confirm the date and time of the engagement.

4. NATIONAL TREASURY AND PROVINCIAL TREASURY GUIDELINES

4.1 Context

- Municipalities are advised to consult the latest Budget Circular, MFMA Circular 99 released on 9 March 2020, which is a follow up circular on MFMA Circular 98 issued on 6 December 2019.
- Municipalities MUST include the National and Provincial Treasury Budget Circulars as part of the source documents consulted in the preparation of the 2020/21 MTREF Budget documents and table it as part of the budget documentation in the Municipal Council.

4.2 Changes to the Local Government Fiscal Framework

Improve municipal revenue thru pilot initiatives

The 2020 Budget includes funding to support pilot initiatives to improve municipal revenue collection. The National Treasury will work with selected municipalities that have large outstanding debts to bulk

suppliers, including Eskom, as a result of customer non-payment. Smart meters will be retrofitted in these municipalities to test whether revenue collections increase sufficiently to pay for the meters and recover associated costs. If so, further rollout of smart meters may be funded by borrowing against future revenue increases. The Department of Cooperative Governance has also been funded to run a payment culture campaign.

Review of municipal funding model

In 2020, the Minister of Finance will host a special lekgotla of the Budget Forum – the intergovernmental structure established to facilitate formal consultation on local government finances – to review the municipal funding model broadly. The National Treasury is working with the Department of Cooperative Governance, the South African Local Government Association, the Financial and Fiscal Commission and provinces to prepare for this lekgotla.

Division of Revenue Outlook

Municipalities will be experiencing pressure as they are expected to expand the provision of free basic services and improve revenue collection. This comes on the back of large reductions in transfers to municipalities (conditional grants) in the 2020 MTEF; a reduction in the amount of cities with access to the Public Transport Network Grant; and the Municipal Cost Containment Regulations, 2019 which calls for municipalities to improve their efforts to limit non-priority spending and to implement stringent cost-containment measures. Re-prioritization of projects may therefore be required over the MTEF.

Local Government conditional grants and additional allocations

The proposed division of revenue will prioritize the funding of services for the poor. Allocations will be geared towards the provision of basic services, new infrastructure and maintenance of existing infrastructure.

The 2020 Division of Revenue Bill (DoRB) indicates that equitable share transfers to Western Cape local municipalities for the 2020 MTREF amount to R5.689 billion and will grow at an annual average rate of 6.6 per cent over the MFEF period. Municipalities will receive unconditional funding in the form of equitable share and the general fuel levy. Conditional grant funding must be utilised for the intended purpose within the timeframes, as specified in the annual DoRB. Unspent funds should be returned to the fiscus. Requests for roll-overs will only be considered where unforeseen and unavoidable circumstances led to underspending of conditional grants. Refer to the criteria for the rollover of conditional grants as published in MFMA Circular No. 75. Unspent cash-backed grants should be classified as "Cash and cash equivalents" and any over expenditure must be funded from the municipalities own revenue.

The 2020 DoRB has been published by the Minister of Finance. The grant allocations are specified in this Act and municipalities must reconcile their budgets to the numbers published therein. Municipalities are advised to use these numbers to compile their 2020/21 MTREF. The DoRB is available at:
http://www.treasury.gov.za/legislation/bills/2020/[B03-2019]%20Division%20of%20Revenue.pdf

Changes to the structure of local government allocations

The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the MTEF period.

Due to underinvestment in infrastructure amongst large urban municipalities, government will introduce dedicated grant funding for these municipalities. Eligible municipalities will receive co-financing on a declining basis over three years. Financing will be conditional on establishing a municipal project preparation fund and an infrastructure delivery management system, and achieving targets for programmes and projects under preparation. Funding for this new facility will be reprioritised from existing allocations to municipalities.

Government will continue to assist municipalities with raising their revenue. The Municipal Fiscal Powers and Functions Amendment Bill, which has been published for public comment (due 31 March 2020), will standardise the regulation of development charges. Currently, these charges are frequently below cost. The change could increase municipal revenues for capital spending by an estimated R20 billion a year. The draft Bill can be accessed on the National Treasury website at: http://www.treasury.gov.za/legislation/draft_bills/default.aspx.

4.3. Municipal Tariffs and Charges Increases

- Municipalities are urged to maintain tariff and charges increases at levels that reflect an appropriate balance between the affordability to poorer households and other customers while ensuring sustainability of the Municipality.

- Consumer Price Index (CPI) inflation is forecasted to be within the upper limit of the 3 to 6 per cent target band; thus municipalities are required to justify all increases in excess of the projected inflation target of ***4.5 per cent*** for 2020/21, ***4.6 per cent*** for 2021/22 and 2021/22 in their budget narratives, and pay careful attention to the differential incidence of tariff increases across all consumer groups.

- Municipalities should include details of their revenue growth assumptions for the different service charges in their budget narrative. Valuation roll data should be reconciled with that of the billing system to ensure that anticipated revenue is realistic and accurate.

4.4 Setting cost reflective tariffs

- Section 74(2) of the MSA states that tariffs must reflect the costs reasonably associated with rendering the service. Municipalities thus need to set credible budgets which reflects the costs necessary to provide a service efficiently and effectively. As such the National Treasury has developed a tool to set proper tariffs for water, sanitation, electricity and solid waste. Municipalities are encouraged to use the tool in order to improve budgeting and financial sustainability.

- The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website:

  http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08

- The Municipalities should attempt to reduce its technical and non-technical losses as these will reduce the cost of supplying services and increase the volumes sold. In turn this will reduce the tariffs required.

4.5 Electricity Supply and Tariffs

- On 9 March 2020, the National Energy Regulator of South Africa (NERSA) considered Eskom's application for Retail Tariffs and Structure Adjustment (ERTSA). The bulk input tariff applicable to municipalities from 1 July 2020 is 6.9 per cent.
- The National Energy Regulator of South Africa (NERSA) has not yet published their Municipal Benchmark 2020/21.
- Taking the above into consideration municipalities are advised to prepare scenarios for an electricity bulk price increase in 2020/21 of between 7.0 and 15.0 per cent (as per the guidance provided in MFMA Circular 98). **Municipalities should also include a disclaimer in the Budget documentation and Tariff List** which states that the electricity tariffs are still subject to change due to the non-availability of the NERSA Tariff Guidelines for municipalities.
- Municipalities are cautioned that the proposed bulk input tariff was finalised before the High court ruling on Tuesday, 10 March 2020.
- NERSA's upcoming "Municipal Tariff Guidelines Increases, Benchmarks and Proposed Timelines for Municipal Tariff Approval Process for the 2020/21 financial year" publication should be consulted before the tabling of the final budgets.

4.6 Borrowing and refinancing for capital projects

- A municipality may appropriate funding for capital expenditure for a period not exceeding three financial years, provided that a separate appropriation is made for each of those financial years. Municipalities should spend on their capital budgets in accordance with Section 19(1) of the MFMA.
- Before approving capital budgets, the municipal council must consider the projected cost until the project is operational and the future operational costs and revenue of the project.
- Expenditure may be revised downward if there is material under-collection of revenue for the current year in terms of section 28(2) of the MFMA and may similarly appropriate additional revenues for the project if revenues are higher than anticipated, via an adjustments budget process. These appropriations can only be used to revise or accelerate spending programmes already budgeted for and cannot be used for new capital projects, unless provided for in terms of section 28(2) of the MFMA.
- Funds can be shifted between multi-year appropriations as long as it is done in accordance with section 31 of the MFMA.
- A municipality is allowed to re-finance existing long-term debt in accordance with the provisions set out in Section 46(5) of the MFMA. If the re-financing of an existing loan does not comply with these provisions, then the municipality should consider going to the market for a new loan that offers more affordable terms and/or negotiate a payment arrangement with the financial institution until the loan can be repaid as per the original terms.

4.7 Addressing unfunded budgets in local government

A revised strategy to address municipal financial performance failures has been endorsed by the Budget Council and Budget Forum. This strategy is largely aimed at ensuring that municipalities adopt funded budgets. This is in order to avoid financial distress in the long run, which could affect the municipalities ability to fund its strategic goals. It is also essential that municipalities pay attention to reconciling the valuation roll data to that of the billing system to ensure that revenue anticipated from property rates are accurate. Municipalities who are finding it difficult to table funded and sustainable budgets should contact National or the Western Cape Provincial Treasury for assistance to reprioritise their budgets. The SIME process will advise municipalities on whether their budgets are funded or not. Should the municipality proceed to table an unfunded budget then a strategy should be tabled along with the budget to indicate how the municipality will proceed to make their budget funded over the course of the financial year.

4.8 Municipal Standard Chart of Accounts (mSCOA)

Release of Version 6.4.1 of the Chart

On an annual basis, the mSCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.4.1 was released with MFMA Circular No. 98. Version 6.4.1 of the chart will be effective from 2020/21 and must be used to compile the 2020/21 MTREF. The chart is available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

Should a municipality not be mSCOA compliant, the Municipality must provide a road map to National and Provincial Treasury indicating how they will become mSCOA compliant. Progress against the road map must be presented at the Benchmark engagements.

4.9 Municipal Budget Day

According to sections 16(2) and 17(3)(d) of the MFMA, the Mayor of a municipality must table the annual budget at a council meeting at least 90 days (i.e. by 31 March 2020) before the start of the budget year.

It is important to note there is no explicit requirement for council to endorse or approve the tabled budget or reviewed/amended IDP tabled by the mayor for public participation. The municipal council only has the legal authority to consider a tabled budget and reviewed/amended IDP after the completion of one or more public participation processes undertaken pursuant to section 22, read with section 23 of the MFMA. Council will only consider for approval "*the product of an inclusive budget preparation and consultative process*" when the proposed annual budget (as amended, if applicable) is placed before council in terms of section 24(1) of the MFMA.

Given that the preparation, consultation, adoption and implementation of a municipality's annual budget is inextricably linked to, and must be substantially aligned to and informed by the contents of that municipality's IDP, it would be procedurally flawed by the mayor to proceed with the tabling of the proposed annual budget (and commence with public participation process required in terms of section 22 of the MFMA) at a time when the annual review and/or revision of the Municipality's IDP has not been completed.

If a municipality has failed to complete the relevant processes applicable to review and revision of the annual budget and IDP in time for the deadline applicable to the tabling of the proposed annual budget (i.e. 31 March), the mayor should submit an application for an extension of the said deadline.

Municipalities are kindly requested to indicate any changes to the confirmed tabling dates as per **Appendix A** with the Provincial Treasury as it is crucial for the budget documentation and the assessment schedule leading up to the SIME engagements. Municipalities are requested to indicate any changes to the confirmed tabling dates to Tania.Bosser@westerncape.gov.za by **23 March 2020**.

In light of the recent developments with the COVID-19 pandemic and the National Address by the President of South Africa on 15 March 2020, the Department of Local Government is aware of the difficulties presented to undertake the IDP and budget public participation process. Consequently, there was a Special MinMay held on 18 March 2020 where public participation engagements formed part of the agenda. The Department of Local Government's Circular C4 of 2020 provides guidance on how public participation should be conducted under the prevailing circumstances.

4.10 Submitting budget documentation and schedules for 2020/21 MTREF

- Section 22 (b)(i) of the MFMA requires that, immediately after an annual budget is tabled in municipal council, it must be submitted to the National Treasury and the relevant provincial treasury.

- If the annual budget is tabled in council on 31 March 2020, the final date of submission of the electronic budget documents and corresponding **mSCOA data strings** is Wednesday, 1 April 2020.

- However, in cases where Council requires amendments to the tabled budget prior to consultation, municipalities should inform the National Treasury and the relevant provincial treasury immediately and submit the required budget documents and corresponding mSCOA data strings within **three working days** after the Council meeting.

- Metropolitan municipalities should also submit the Built Environment Performance Plan (BEPP) to Yasmin.coovadia@treasury.gov.za or if it exceeds 4 MB to Yasmin.coovadia@gmail.com or send to Yasmin Coovadia via Dropbox; any problems experienced in this regard can be addressed with Yasmin.Coovadia@treasury.gov.za. Hardcopies of the BEPP may be sent to Yasmin Coovadia, National Treasury, 3rd Floor, 40 Church Square, Pretoria, 0002 or Private Bag X115, Pretoria, 0001. The BEPP should also be submitted to Provincial Treasury together with the budget documentation.

- The accompanying checklist (see Appendix B) provides an inclusive list of the documentation as required from Provincial Government. Electronic budget related documents need to be provided in PDF format. In addition, the A schedules should be provided in both Microsoft Excel and PDF formats.

- The designated municipal official needs to complete and sign the accompanying checklist (Appendix B) as confirmation that the set of budget, IDP and related documents have been submitted.

4.11 Electronic copy submissions

National Treasury budget related documents and schedule should be uploaded by approved registered users using the LG Upload Portal at: https://lguploadportal.treasury.gov.za/. Documents should be in PDF format. Each document type should be identified and uploaded separately. National Treasury will issue a full guideline in due course to explain the process and to outline which documents municipalities will be required to upload.

Provincial Treasury electronic documents should be submitted to: MFMA.MFMA@westerncape.gov.za or if too large (exceeds 3 MB) must be submitted via the lift server function (http://lift.pgwc.gov.za/) or One Drive. Instructions for uploading the budget related documents are provided in Appendix C.

Hard copies of the budget related documentation should be submitted to the Provincial Treasury via 24-hour courier to the following address:

For attention: Mr Paul Pienaar
Room 3.50
3rd Floor
7 Wale Street
Cape Town
8001

4.12 Publication of budgets on municipal website

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the Municipality's website. This will aid in promoting public accountability and good governance.

5. CONCLUSION

Municipalities are encouraged to take into account and apply the contents on this budget circular in the 2020/21 planning and budgeting process.

Please direct any queries regarding this circular to: Malcolm Booysen at Malcolm.Booysen@westerncape.gov.za.

APPENDIX C

Western Cape Government
Provincial Treasury

The following instructions provide a guide for the upload of budget documentation onto the lift server and OneDrive respectively.

- **How to lift:**

  1. Go to the website: http://lift.pgwc.gov.za/
  2. Type in the email address: MFMA.MFMA@westerncape.gov.za
  3. Browse to and click on the correct file for uploading
  4. Press: Submit

- **How to upload documents to One drive:**

  You can use this option if you have OneDrive linked to your Microsoft Office or Office 365

  1. In any Office document, select File > Save As, choose your OneDrive, and then pick the folder where you want to save the file. Create a new folder (e.g. DC1 2020 Budget Documents) and place all the budget related documents within it.

  2. In order to share the link to that folder Go into OneDrive
  3. Select the file that you want to share and right click on it

4. Choose "share"
5. Ensure that sharing is defaulted to "Anyone with the link can edit"
6. Enter the MFMA email address: MFMA.MFMA@westerncape.gov.za and email addresses of anyone else that you want to share the link with.
7. Click the Share Button

File names in following sequence for budget related documents to be submitted to MFMA:

- Demarcation code
- "ccyy" century and year (eg.2020)
- Name of document submitted (e.g. Draft Budget, draft IDP, draft SDBIP etc.)

  E.g.: DC1 2020 Draft IDP or DC1 2020 MTREF main budget

  E.g.: DC1_A1 Schedule - mSCOA vs 6.4.1

MUNICIPAL BUDGET CIRCULAR FOR THE 2021/22 MTREF AND ASSOCIATED STRATEGIC INTEGRATED MUNICIPAL ENGAGEMENTS: 2021

1. INTRODUCTION

This Provincial budget circular is a follow-up to the Provincial Treasury (PT) Circular 20/2020 issued on 18 December 2020 and should be read in conjunction with National Treasury (NT) MFMA Circular No. 107 and MFMA Circular No. 108 issued on 04 December 2020 and 08 March 2021 respectively.

The purpose of this circular is to:

- Provide guidance to municipalities with the finalisation of the 2021/22 Medium Term Revenue and Expenditure Framework (MTREF) Budgets and accompanied budget documentation, and
- Brief municipalities on the 2021 Strategic Integrated Municipal Engagements (SIME) process and related matters.

2. LEGISLATIVE CONTEXT

The Western Cape Provincial Government (WCG) has institutionalised the Strategic Integrated Municipal Engagements (SIME; previously referred to as LGMTEC) process in fulfilment of its obligations under:

- Sections 5, 22 and 23 of the Local Government: Municipal Finance Management Act (MFMA), Act No. 56 of 2003;
- Chapter 5 of the Local Government: Municipal Systems Act (Act No. 32 of 2000) [MSA];
- Chapter 3 of the National Environmental Management Act (Act No. 107 of 1998) (NEMA); and
- Chapter 4 of the Spatial Planning and Land Use Management Act (Act No. 16 of 2013) (SPLUMA).

The 2021 SIME process will give effect to the "Integrated Work Plan" adopted in 2017. It builds on the 2020 integrated municipal and provincial processes to strengthen alignment between municipal and provincial planning and budgeting and drives the theme of "Integrated service delivery", specifically as municipalities are preparing for the final year of the current five (5) year Integrated Development Planning Cycle.

#61/20

3. FISCAL AND ECONOMIC CONTEXT

3.1 2021 National Budget

The key highlights of the 2021 National Budget which was tabled by the Minister of Finance, Tito Mboweni on 24 February 2021, are summarised below.

- Government will support economic recovery by extending short-term economic support and undertaking reforms to lower the cost of doing business and stabilize the public finances. While real GDP is expected to grow at 3.3 per cent in 2021 and 2.2 per cent in 2022, the global economic outlook is uncertain; however, additional policy stimulus packages and the successful rollout of COVID-19 vaccines will boost global growth.

- A successful rollout of COVID-19 vaccines will also support economic recovery and global trade. Government will also take steps to promote faster growth by stabilizing electricity supply, supporting industries with high employment potential and undertaking partnerships with the private sector. Operation Vulindlela, a joint initiative of the National Treasury and President's office to rollout economic reforms, will further support the implementation of key structural reforms, however still faster progress is needed to generate an economic recovery.

- To support economic recovery, government will not raise any additional tax revenue in the 2021 budget. The personal income tax brackets and rebates will increase above the inflation rate of 4 per cent. However, government will increase excise duties on alcohol and tobacco by 8 per cent for 2021/22 while inflation-related increases of 15c/litre and 11c/litre will be implemented for the general fuel levy and the RAF levy, respectively, with effect from 7 April 2021. The Unemployment Insurance Fund (UIF) contribution ceiling has been set at R17 711.58 per month from 1 March 2021.

- In response to the spending and economic pressures of the COVID-19 pandemic, the budget deficit has been revised to 14 per cent of GDP in 2020/21. Gross debt increased from 65.6 per cent to 80.3 per cent of GDP for 2020/21. The 2021 Budget also proposes measures to narrow the main budget primary deficit from 7.5 per cent of GDP in the current year to 0.8 per cent in 2023/24. The proposed fiscal framework will stabilize debt at 88.9 per cent of GDP in 2025/26. Over the medium term, debt-service costs are expected to average 20.9 per cent of gross tax revenue.

- Total consolidated spending amounts to R2 trillion each year over the medium term with the bulk of the 2021/22 spending being allocated to learning and culture (R402.9 billion), social development (R335.2 billion) and health (R248.8 billion). The fastest-growing functions over the medium term are economic development, community development and general public services. The majority of funding for new and urgent priorities is provided through the reprioritisation and reallocation of existing baselines. Government will roll out a fee mass COVID-19 vaccination campaign for which R9 billion has been allocated in the medium term.

The 2021 National Budget documentation is available at: http://www.treasury.gov.za/documents/National%20Budget/2021/

3.2 2021 Western Cape Provincial Budget

The WCG tabled the Western Cape Recovery Plan in cabinet in March 2021. The Recovery Plan is based on the following four themes:

- **COVID-19 Recovery:** The pandemic is still with us; existing health measures must continue, and new ones put in place, and we must also deal with the secondary impacts of COVID-19 on the delivery of health services.
- **Jobs:** The economic impact of COVID-19 has been severe. We can only recover if our economy grows and our citizens generate income.
- **Safety:** This is the overarching theme for the Provincial Strategic Plan, and it is equally relevant going forward. It is inextricably linked with Well-being, as Safety cannot be achieved if basic human needs are not met.
- **Well-being:** Government must ensure that the basic human needs of our citizens are realised, as guaranteed in the Constitution.

The full Western Cape Recovery Plan can be found at this link:

https://www.westerncape.gov.za/sites/www.westerncape.gov.za/files/assets/departments/premier/western_cape_recovery_plan.pdf

In April 2020, the WCG adopted a three-phased approach to the budget process in order to ensure resources are reprioritised and deployed with the agility necessary to respond to the pandemic and its social and economic consequences. The Immediate Phase focused on the public health response through reprioritising resources and deploying available reserves. The Short-term Phase focused on policy-led repositioning towards the Western Cape Recovery Plan's priorities of Jobs, Safety and Well-being.

On Tuesday, 16 March 2021, the Western Cape Minister for Finance and Economic Opportunities, David Maynier, tabled the 2021 Western Cape Budget Address in the provincial legislature.

The 2021 MTEF, along with the 3rd 2020 adjusted budget, represent the final phase of this approach and sets the course for recovery and fiscal sustainability over the medium to long term. Given the complexities, uncertainties and moving variables related to the budget process and the fiscal outlook, the Medium-term Phase required difficult decisions in order to support economic and social recovery, re-introduce fiscal stability and maintain fiscal sustainability through rebuilding Provincial Reserves.

While responding to immediate pressures, the 2021 MTEF Budget also protects spending on the Western Cape's constitutionally and legally mandated functions. The 2021 MTEF Budget has four main objectives:

- **Protecting the health platform**, by allowing for an agile response to the risk of a COVID-19 resurgence and the need to have an effective vaccination programme. Dealing decisively with the COVID-19 pandemic will both allow the economy to open up and support a rebound in economic growth and dramatically reduce the health effects of the pandemic.
- **Enabling the Western Cape Recovery Plan (Recovery Plan)**, by protecting jobs and stimulating employment, accelerating implementation of the Provincial Safety Plan, enhancing well-being and providing targeted social relief.

- **Managing risks, particularly those arising from the COVID-19 pandemic**, ensuring resources are available to respond to ongoing vulnerabilities in communities, and ensuring that money is set aside for other disasters, particularly environmental ones. Transversal risks include a) severe COVID-19 pressures on the fiscal framework and the likely economic and social implications, b) Compensation of Employees pressures resulting in the inability to fill critical posts and having implications for staff well-being and burnout, c) Insufficient infrastructure investment including ICT infrastructure constraining service delivery and d) Deterioration of Local Government finances and the need to enhance the Joint District Metro Approach (JDMA).

- **Supporting the transition to long-term fiscal sustainability.** Measures are required to restructure the composition of Provincial Government expenditures and rebuild reserves in light of national spending reductions and the utilisation of reserves to fund the COVID-19 response. In particular, expenditure on the compensation of employees should not overwhelm spending on infrastructure or goods and services. This in turn requires the adoption of new technologies and ways of working to enhance the efficiency and effectiveness of service delivery.

These priority areas/objectives are as relevant to the local government space as it is to the Western Cape as a whole and has informed the formulation of the 2021 SIME theme i.e. Recovery, Responsiveness, Resilience. Municipalities are urged to familiarise themselves with the fiscal strategy underlining the 2021 WCG MTEF Budget and to take cognisance of the Provincial expenditure allocations (including infrastructure investments) within the respective municipal areas. The 2021 Main Budget documentation can be found here: https://www.westerncape.gov.za/provincial-treasury/western-cape-budget-202122

4. NATIONAL TREASURY AND PROVINCIAL TREASURY GUIDELINES

- Municipalities are advised to consult MFMA Circular No. 107 and MFMA Circular No. 108 as well as the Provincial Treasury Circular No. 20/2020 (December 2020) for guidance with respect to 2021/22 planning and budgeting. Key focus areas from MFMA Circular No. 108 are highlighted in section 4.1 below.

- Municipalities MUST include the National and Provincial Treasury Budget Circulars as part of the source documents consulted in the preparation of the 2021/22 MTREF Budget documents and table it as part of the budget documentation in the Municipal Council.

4.1 Key focus areas from MFMA Circular No. 108

Changes to local government allocations

Over the next three years, municipalities will have to adjust to significant changes in expenditure plans while improving accountability.

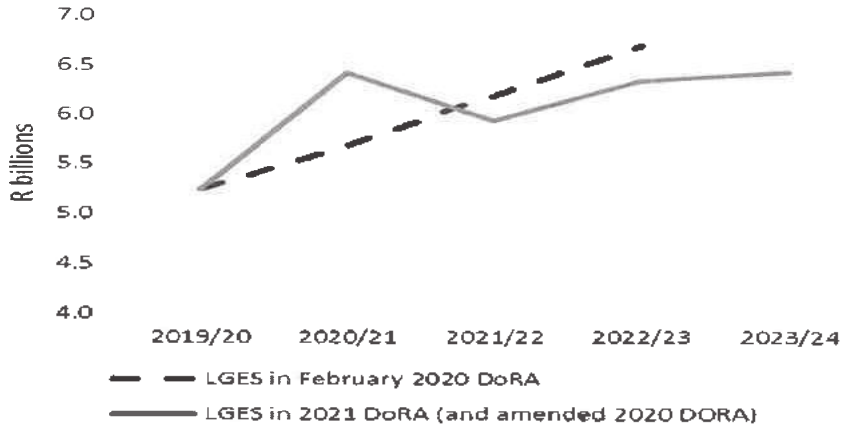

Local government transfers grow by an annual average of 5.2 per cent over the MTEF; the equitable share declines by 4.4 per cent and conditional grants grow by 7.3 per cent. As part of government's fiscal consolidation policies over the medium term, transfers to local government are reduced by R19.4 billion, including R14.7 billion from the local government equitable share, R2.7 billion from the general fuel levy and R2 billion in direct conditional grants.

Local government equitable share

Following the additional allocations made to municipalities through the local government equitable share for 2020/21 in the national Special Adjustment Budget in June last year, equitable share allocations to Western Cape municipalities decline by an average of 7.5 per cent from 2020/21 to 2022/23. Equitable share allocations then increase by an average of 6.9 per cent from 2021/22 to

2022/23. However, municipalities are cautioned to note that from 2022/23 to 2023/24 the average increase is only 1.4 per cent. This will be the first time that equitable share increases will be less than inflation. This increase will not compensate for population growth or the rising cost of services. Municipalities must therefore identify reprioritisations and savings that can be implemented in time to offset the impact of lower equitable share increases by the end of the 2021 MTREF period.

Figure 1: Comparison of total local government equitable share (LGES) allocations for Western Cape municipalities in the 2020 and 2021 Division of Revenue Acts

It should also be noted that some municipalities will face steeper changes that the average growth rates cited above. Some municipalities in the Western Cape face a decline in allocations from 2020/21 to 2021/22 of as much as 10.2 per cent and increases from 2021/22 to 2022/23 of as much as 9.6 per cent. In 2023/24 two municipalities in the Province are projected to see negative growth in their nominal equitable share allocations.

A national census is due to be conducted in 2021, and this data should be expected to be used to update the local government equitable share formula. Depending on the timelines for the release of the Census data, these updates could be phased into the equitable share formula from 2022/23 or 2023/24. National Treasury may also take this opportunity to implement other changes to the structure of the equitable share formula. Municipalities should therefore be aware of a higher degree of uncertainty on their equitable share allocations for the outer years of the MTREF.

Conditional grants

- Municipalities are reminded that all allocations included in their budgets must correspond to the allocations listed in the 2021 Division of Revenue Bill. All the budget documentation can be accessed from the National Treasury website at the following link:

  http://www.treasury.gov.za/documents/national%20budget/2021/

2021 Local government elections and the budget process

- Municipalities are advised to refer to MFMA Circular No. 107 and MFMA Circular No. 108 and highlighted in Provincial Budget Circular 20/2020 for details on risks related to the Local Government elections, issues to be considered and transitional processes in development and adoption of the 2021/22 MTREF IDPs and budgets.

- As detailed in MFMA Circular No. 108, Municipal Managers, together with the Chief Financial Officers (CFOs) and Senior Managers are also encouraged to prepare a hand-over report that can be tabled at the first meeting of the newly elected council. This hand-over report aims to provide the new councils important orientation information regarding the Municipality, the state of its finances, service delivery and capital programme, as well as key issues that need to be addressed. A detailed list of what is proposed should be included is included in Circular No. 108. In addition to the hand-over report, each new councillor should be given the municipalities' revised IDP, the adopted 2021/22 MTREF budget, the mid-year budget and performance assessment report for 2020/21, the latest monthly financial statement, and the annual report for 2019/20.

- Municipal Managers should submit their municipality's hand-over report to the relevant provincial department responsible for local government, to the Department of Co-operative Governance (DCoG) and National and Provincial Treasuries.

Electricity supply and tariffs

- The National Energy Regulator of South Africa (NERSA) published their Municipal Tariff Guideline Increase Benchmarks for 2021/22 on Friday, 12th March 2021.

- In March 2019, NERSA approved a Multi-Year Price Determination that allowed for tariff increases for Eskom of 9.4 per cent in 2019/20, 8.1 per cent in 2020/21 and 5.2 per cent in 2021/22. However, for a variety of reasons, these are not the actual bulk tariff increases applied to municipalities in any of these years.

    - In 2019/20 the bulk tariff increase for municipalities was 15.63 per cent (and the NERSA guideline for the municipal retail tariff increase was 13.07 per cent).

    - In 2020/21 the bulk tariff increase for municipalities was 6.9 per cent (and the NERSA guideline for the municipal retail tariff increase was 6.22 per cent).

    - In 2021/22 the bulk tariff increase for municipalities was 17.8 per cent (and the NERSA guideline for the municipal retail tariff increase was 14.59 per cent).

Table 1: Electricity tariff increases, 2019/20 – 2021/22

	MYPD tariff increase for Eskom customers (national financial year)	Revised bulk tariff (national financial year)	Bulk increase for municipalities (municipal financial year)	NERSA guideline tariff increase for municipal customers
2019/20	9.4%	-	15.63%	13.07%
2020/21	8.4%	-	6.9%	6.22%
2021/22	5.2%	15.63%	17.8%	14.59%

- On 17 February 2021, the North Gauteng High Court ruled in Eskom's favour, ordering NERSA to add R10 billion to Eskom's allowable revenue to be recovered from tariff customers in the 2021/22 financial year. NERSA calculates that this will result in a tariff increase of 15.63 per cent in the 2021/22 national financial year. However, given that the increase only comes into effect in July for municipalities, NERSA typically allows a higher percentage increase so that Eskom can recover the additional allowable revenue from municipalities over the 9 months before the national financial year ends.

- The higher bulk tariff for municipalities will extend past the end of the 2020/21 national financial year (which ends on 30 March 2021). As a result, there is likely to be an over-recovery of bulk costs from municipalities in the period from April to June 2021. Such an over-recovery is typically offset against the following year's bulk tariff increase. So, it is anticipated that the 2021/22 municipal tariff increases will be lower than those for Eskom customers. This pattern of over-recovery followed by an offset is the reason for the "see-saw" pattern in which tariff increases for Municipal customers are higher in one year (e.g. 2019/20) and then higher for Eskom customers in the next year (e.g. 2020/21).

- In 2021/22 the NERSA guideline issued on 12 March 2021 assumes that bulk costs make up 76 per cent of municipalities' retail electricity costs. As other costs (for salaries, repairs, capital and other costs) are all expected to be much closer to CPI, the guideline retail tariff will be somewhat lower than the bulk tariff for municipalities.

- NERSA's "Municipal Tariff Guidelines Increases, Benchmarks and Proposed Timelines for Municipal Tariff Approval Process for the 2021/22 financial year" publication should be consulted before the tabling of the budgets.

- Municipalities should note that the increase in the free basic services subsidy used in the local government equitable share formula used a bulk electricity increase of 9.9 per cent. As a result, the increase in the cost of free basic electricity may not be fully covered by the equitable share.

Cost of employment

- The Salary and Wage Collective Agreement for the period 01 July 2018 to 31 June 2020 has come to an end and a new agreement has not yet been negotiated.

- In the absence of any information from the South African Local Government Bargaining Council (SALGBC), National Treasury has advised municipalities to take into account their financial sustainability when considering salary increases.

- National Treasury acknowledges that several municipalities cannot afford any wage increase and suggests that they consider budgeting for a zero per cent increase. Several municipalities in the Western Cape applied for exemptions from implementing the 6.25 per cent increase in 2020/21 as they could not afford it. However, most of these applications were not successful in the SALGBC process. Although the option to apply for exemptions has been provided for in previous wage agreements and may be included again, it is difficult to budget on the basis of applying for an exemption.

- Provincial Treasury has observed that several municipalities in the Province appear to be responding to financial pressures and uncertainty in 2020/21 by delaying the filling of vacant posts. After the first six months of 2020/21 employee related spending by municipalities in the Province was R569.04 million lower than projected, largely as a result of unfilled posts. This offers one option for how municipalities can respond to the uncertainty of not having a wage agreement in place. If a municipality chooses to budget for a zero percent wage increase, they could nonetheless budget to fill all vacant posts. Then if the wage agreement includes an increase, the municipality can respond by no longer filling vacant posts in order to offset the cost of the increase. In this way, the same overall level of compensation spending can be achieved in two different ways: either with a smaller number of staff receiving wage increases, or a larger staff contingent, with static wages.

- Municipalities should note that national and provincial budgets have been prepared on the basis zero per cent cost of living increases for the 2020/21 to 2023/24 financial years. However,

even with these zero percent increases some other cost of employment related costs are still projected to increase, including medical and housing allowances and progression rates (which are equivalent to a 1.5 per cent increase). Technical details of the approach used for the other spheres can be seen at:

http://www.treasury.gov.za/publications/guidelines/2021%20MTEF%20COE%20guidelines.pdf

This may be useful both as a precedent for how zero per cent increases have been budgeted for in other spheres, and in identifying other compensation-related cost factors that will increase at different rates.

- It must be noted however that national and provincial government cannot set wages on behalf of municipalities and can only offer advice in the absence of a finalised wage agreement concluded through the SALGBC processes.

Mayor's discretionary funds and similar discretionary budget allocations

Discretionary funds and similar discretionary budget allocations are regarded as bad practice because:

- It is not clear how they are aligned to the constitutional requirement that municipalities structure their budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community (see Section 153(a) of the Constitution);
- They do not provide for the appropriation of funds for the purposes of a department or functional area of the Municipality (see the definition of 'vote' in section 1 of the MFMA);
- They undermine the budget consultation processes since the intended use of the funds is not transparently reflected in the tabled budget; and
- There is a risk that they may be abused for personal gain or to improperly benefit another person or organisation.

National and Provincial Treasury will exercise close oversight of all discretionary type allocations in municipal budgets. If there are any concerns about the use of these funds, section 74 of the MFMA will be used to request information in this regard and analyse it for consistency with the MFMA legal framework.

5. 2021/22 STRATEGIC INTEGRATED MUNICIPAL ENGAGEMENTS (SIME) PROCESS

5.1 Municipal Budget Day

According to sections 16(2) and 17(3)(d) of the MFMA, the Mayor of a municipality must table the annual budget at a council meeting at least 90 days (i.e. by 31 March 2021) before the start of the budget year.

It is important to note that there is no explicit requirement for council to endorse or approve the tabled budget or reviewed/amended IDP tabled by the mayor for public participation. The municipal council only has the legal authority to consider a tabled budget and reviewed/amended IDP after the completion of one or more public participation processes undertaken pursuant to Section 22, read with section 23 of the MFMA. Council will only consider for approval "*the product of an inclusive budget preparation and consultative process*" when the proposed annual budget (as amended, if applicable) is placed before council in terms of section 24(1) of the MFMA.

Given that the preparation, consultation, adoption and implementation of a municipality's annual budget is inextricably linked to, and must be substantially aligned to and informed by the contents of that municipality's IDP, it would be procedurally flawed for the mayor to proceed with the tabling of the proposed annual budget (and commence with public participation process required in terms of section 22 of the MFMA) at a time when the annual review and/or revision of the Municipality's IDP has not been completed.

If a municipality has failed to complete the relevant processes applicable for the review and revision of the annual budget and IDP in time for the deadline applicable to the tabling of the proposed annual budget (i.e. 31 March), the mayor must submit an application for an extension of the said deadline. As per section 27 of the MFMA, the mayor of a municipality must, upon becoming aware of any impending non-compliance by the municipality of any provisions of the Act or any other legislation pertaining to the tabling or approval of the annual budget or compulsory consultation processes, inform the MEC for Finance in the province in writing of any impending non-compliance.

If the impending non-compliance pertains to a time provision, except section 16(1) of the MFMA, the mayor may apply to the MEC for Finance for an extension, which must be in accordance with Schedule G of the Municipal Budget and Reporting Regulations.

Municipalities are kindly requested to indicate any changes to the confirmed tabling dates as per **Appendix A** with the Provincial Treasury to Tania.Bosser@westerncape.gov.za by **23 March 2021**.

5.2 Submitting budget documentation and schedules for 2021/22 MTREF

- Section 22 (b)(i) of the MFMA requires that, immediately after an annual budget is tabled in municipal council, it must be submitted to the National Treasury and the relevant provincial treasury.

- If the annual budget is tabled in council on 31 March 2021, the final date of submission of the electronic budget documents and corresponding **mSCOA data strings** is Thursday, 01 April 2021.

- Section 24(3) of the MFMA, read together with Regulation 20(1) of the Municipal Budget and Reporting Regulations (MBRR), requires that municipalities must submit the approved annual budget to both National Treasury and the relevant provincial treasury within ten (10) working days after the council has approved the annual budget. E.g. if the council approves the annual budget on 31 May 2021, given the new timeframe for the evaluation of the municipal budgets, the adopted budget data strings and documentation must be submitted by the latest Monday, 14 June 2021.

- The accompanying document submission checklist (***see Appendix B***) provides a list of the documentation required from Provincial Government. Electronic budget related documents must be provided in PDF format. The designated municipal official needs to complete and sign the accompanying checklist (***Appendix B***) as confirmation that the set of budget, IDP and related documents have been submitted.

- *Municipalities are **no longer** expected to submit hard copies of all required documents including budget-related, Integrated Development Plan, Service Delivery Budget and Implementation Plan (SDBIP), Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Electronic copies must be uploaded by approved registered users in PDF format to the **LG Upload portal at https://lguploadportal.treasury.gov.za/**. Also note that the LG Upload Portal requires all documents: 1. To be in PDF format only; and that 2. Each PDF file must NOT contain multiple document e.g. council resolution and quality certificate within the budget document. Each document type must be identified clearly and uploaded separately.*

- *Municipalities should submit electronic documents to **Provincial Treasury** to: MFMA.MFMA@westerncape.gov.za or if too large (exceeds 3 MB), must be submitted via One Drive. Instructions for uploading the budget and related documents via **One Drive** are provided in **Appendix C**.*

- If municipalities require advice with the compilation of their respective budgets, they should direct their enquiries to the following WC Provincial Treasury officials:

5.3 Publication of budgets on municipal website

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the Municipality's website. This will aid in promoting public accountability and good governance.

5.4 Strategic Integrated Municipal Engagement Process

Integrated planning and budgeting focusses on strengthening the alignment of planning and budgeting in the Province, and places particular emphasis on enhancing the provincial and local government interface. The Strategic Integrated Municipal Engagements which takes place in April and May precedes the approval and implementation of municipal budgets. The engagements afford Provincial Government the opportunity to provide feedback on its assessment of the of Municipal planning and budgeting efforts for the upcoming financial year and for the 2021/22 MTREF.

The assessments are based on compliance and performance information obtained from the Western Cape Monitoring and Evaluation System (WCMES) as well as an assessment on conformance, responsiveness, credibility and sustainability of the municipality's draft budget, IDP, SDF and supporting plans. It is therefore important that all Municipalities timeously submit all the required information as per the WCMEC. The assessment of the tabled IDPs will be undertaken by the Department of Local Government working with all relevant sector departments in the Province impacting on municipalities, to ensure alignment between the IDPs and all the Provincial strategic priorities and plans.

The Strategic Integrated Municipal Engagements will primarily focus on strategic issues emanating from the municipalities IDPs, SDFs and tabled annual budgets in order to gear municipalities for sustainable growth and development.

A key focus of the 2021/22 SIME process will be on local governments responsiveness, resilience and recovery plans in dealing with its socio-economic environment, and in particular, in relation to the effects of the COVID-19 pandemic that has had far reaching economic and social impacts. Although the future path of the pandemic is still uncertain, municipalities must chart a way through the difficult environment to ensure that it continues to deliver on its mandate.

The overall objectives of the 2021/22 SIME process and the key messages therefore emphasises:

- Aligning strategic intent as encapsulated within the Integrated Development Plans (IDP) and municipal budgets to create public value based on the community needs/priorities identified through the public participation processes;
- Safeguarding of municipal sustainability by ensuring that municipalities table funded budgets and the strengthening of municipal financial management;
- Ensure optimal and targeted service delivery through strategic spatial planning and alignment;
- Deepening of an integrated approach to service delivery with the intention of creating synergies through the consolidation/concentration of resources, also across different spheres of government;
- Identification of areas that require support as well as opportunities for collaboration and partnerships.

The discussions at the engagements are strategic in nature. The representation at the SIME engagements between the Province and municipalities will be as follows:

- The Provincial Government - senior officials from the Provincial Treasury, Department of Local Government, Department of Environmental Affairs and Development Planning and relevant provincial departments.
- Municipalities - Municipal Manager, section 56 Managers, Budget and Treasury officials, IDP Manager/officials and Planning officials.

Due to the COVID-19 pandemic and measures taken to minimize the risk of the spread of the disease, the Strategic Integrated Municipal Engagements will take place via videoconferencing, on Microsoft Teams.

- The SIME engagements are provisionally scheduled to take place from 29 April 2021 to 10 May 2021 and is subject to confirmation from the municipalities. PT will communicate with each Municipality on an individual basis to confirm the date and time of the engagement.

6. OTHER MATTERS

6.1 Annual Report submission

Municipalities are reminded to ensure that Annual Reports are tabled within the legislated timeframes, which read together with Exemption Notice 43582, stipulates that Municipalities and municipal entities must comply within two months after the deadline, that is, by end March 2021.

If the mayor is unable to table the Annual Report within the legislated timeframe, as per section 127(3)(a) of MFMA, the mayor must promptly submit to the council a written explanation referred to in section 133(1)(a) setting out the reasons for the delay, together with any components of the annual report listed in section 121(3) or (4) that are ready. If the Audit Report is not yet available at this time, all other components of the Annual Report must be tabled by this date. As per section 127(3)(b) of the MFMA, the mayor must submit to the council the outstanding annual report or the outstanding components of the annual report as soon as may be possible.

6.2 Performance Reporting Obligations: Implementation of MFMA Circular 88 (2017) for the 2021/22 municipal financial year

Municipalities are reminded to familiarise themselves with MFMA Circular No. 88 of 2017, its accompanying annexures and subsequent addendums which provide guidance to municipalities on the adoption and internalisation of a common set of performance indicators. Experience since the 2018/19 implementation of the original circular has shown that the on-going planning, budgeting and reporting reforms process is complex and requires sufficient time and change management for incremental roll-out, growth and institutionalisation. Addendum 2 (released in December 2020) introduced a significant shift in the reforms in four respects: 1) it more closely integrates and guides planning, budgeting and reporting reforms; 2) it significantly expands and revises the set of MFMA Circular No. 88 indicators applicable to metropolitan municipalities; 3) it expands the application of the reforms and the indicators to differential categories of municipalities and levels of readiness, for application in 2021/22 MTREF cycle going forward; and 4) it introduces evaluations in the context of these reforms.

For immediate implementation purposes, municipalities should be able to identify the indicators in Appendix A to Addendum 2 that are listed as Tier 1 or Tier 2 for their category of municipality and start establishing baselines for those measurements (if they are not already being tracked). Understanding the standard definitions will require engaging with the technical indicator descriptions (TID) in Appendix B to Addendum 2. Municipalities should be able to navigate Appendix A without any further guidance to understand what is going to apply to them for the 2021/22 financial year and be able to refer to Appendix B to get the detail on the standard formulation of each indicator.

Importantly, please note that intermediate cities, districts and local municipalities will not yet for 2021/22 be required to incorporate these indicators in their IDPs and SDBIPs. Instead, the relevant indicators should be included as an annexure to the IDP and SDBIP. Although the indicators do not formally have to be included in the IDP/SDBIP, municipalities will be required to report on performance against said indicators on a quarterly and annual basis. Municipalities are therefore

H 12/130

advised to put in place the necessary standard operating procedures and portfolios of evidence to ensure timeous reporting throughout 2021/22 to ultimately strengthen the link between planning, budgeting and reporting. Please do note that the roll-out process will for 2021/22 remain a pilot project. Reporting against these indicators will as such not be audited for 2021/22.

7. CONCLUSION

Municipalities should take into account and apply the contents of this budget circular in the 2021/22 planning and budgeting process.

Please direct any queries regarding this circular to Dian Cronje at:

ANNEXURE C

The following instructions provide a guide for the upload of budget documentation onto OneDrive.

- **How to upload documents to One drive:**

  You can use this option if you have OneDrive linked to your Microsoft Office or Office 365

  1. In any Office document, select File > Save As, choose your OneDrive, and then pick the folder where you want to save the file. Create a new folder (e.g. DC1 2020 Budget Documents) and place all the budget related documents within it.

  2. In order to share the link to that folder Go into OneDrive
  3. Select the file that you want to share and right click on it
  4. Choose "share"
  5. Ensure that sharing is defaulted to "Anyone with the link can edit"
  6. Enter the MFMA email address: MFMA.MFMA@westerncape.gov.za and email addresses of anyone else that you want to share the link with.
  7. Click the Share Button

File names in following sequence for budget related documents to be submitted to MFMA:

- Demarcation code
- "ccyy" century and year (eg.2021)
- Name of document submitted (e.g. Draft Budget, Draft IDP, Draft SDBIP etc.)

  E.g.: DC1 2021 Draft IDP

  E.g.: DC1 2021 MTREF Main Budget

  E.g.: DC1 2021 Draft SDBIP

NATIONAL TREASURY

MFMA Circular No. 71

Municipal Finance Management Act No. 56 of 2003

Uniform Financial Ratios and Norms

The purpose of this Circular is to provide a set of uniform key financial ratios and norms suitable and applicable to municipalities and municipal entities. Section 216 (1)(c) of the Constitution and section 2 of the Municipal Finance Management Act (MFMA) enable National Treasury to introduce uniform treasury norms and standards to ensure sound and sustainable management of fiscal and financial affairs of municipalities and municipal entities.

A number of institutions currently use a variety of financial ratios and norms to assess and compare the financial health and performance of municipalities. Municipalities also use different financial ratios and norms to assess their own performance and set benchmarks for improvement to be measured over time. Results of our research show that there are in excess of two hundred different sets of financial ratios, with different derivatives used to assess municipality's financial status. This results in conflicting interpretation, inconsistent application and misunderstanding of the financial status of a municipality, often with incorrect diagnosis of the challenges and therefore inappropriate responses.

This Circular aims to bring consistency in interpretation and application of certain financial information using standardised financial ratios. It is important that any one of these ratios should not be read in isolation of one another, as this could lead to distortions in interpretation. Ideally, a number of interrelated ratios should be analysed together in order to get a broader picture of a municipality's or municipal entity's financial performance. When used in a combined manner analysis of different ratios will provide policy makers and the public with a very good sense of the financial status of the municipality and its entity. This Circular will also assist in municipalities being able to identify areas of financial management that need constant monitoring and improvement.

The Circular addresses different categories of ratios norms, interpretation and covers various aspects of a municipality's finances, such as financial position, financial performance and budget implementation, so that these can be used as part of in-year and end of year analysis. This will also aid in long-term financial planning and can be used to track progress over a number of years. Each ratio is explained to remove ambiguity and misinterpretation. The source of such information is also explained in the annexures to this Circular. Norms or standards have been assigned to each financial ratio, which are explained later in this Circular.

Categorisation Financial Ratios, Formulas, Norms and Interpretation

Categorisation

In order to perform a holistic financial analysis of a municipality or municipal entity all financial aspects of the institution should be considered. Ratios are divided into various

categories to address the different financial aspects and operations of a municipality or municipal entity.

1) **Financial Position**

2) **Financial Performance**

3) **Budget Implementation**

Financial Ratios, Formulas, Norms and Interpretation

The ratios presented in this Circular are categorised in accordance with the previous section, and are presented in further detail to include the following:

- Purpose/ description of the Financial Ratio;
- Formula to be Used;
- Norms per Ratio; and
- Interpretation of Ratio Analysis Results.

Tables that provide a summary of the financial ratios, formulas, data source and norms are presented in Annexure 1.

1. FINANCIAL POSITION

A. Asset Management

1. Capital Expenditure to Total Expenditure

Purpose/Description of the Ratio

This Ratio is used to assess the level of Capital Expenditure to Total Expenditure, which indicates the prioritisation of expenditure towards current operations *versus* future capacity in terms of Municipal Services.

Formula

Total Capital Expenditure / Total Expenditure (Total Operating Expenditure + Capital Expenditure) × 100

Norm

The norm range between **10% and 20%**

Interpretation of Results

When assessing the level of Investment in Assets, a ratio less than 10% reflects lower spending by the municipality in infrastructure and holds potential risks to service delivery. A ratio of more than 20% reflects higher spending on infrastructure and acceleration in service delivery, but could also hold financial sustainability risks if the infrastructure do not include both economic (revenue generating) and social type infrastructure.

The environment of the municipality should be considered when assessing the level of Investment in Assets. A municipality that has already invested in assets to address service delivery backlogs, would be required to maintain and improve such service levels, and therefore the percentage of spending allocated to new assets may not be significant higher.

On the other hand a municipality where the infrastructure and level of services provided is low and the associated expenditure is also low, the percentage of investment in new assets to total expenditure would be significantly higher.

The results from this ratio should be read together with the results from the analysis of the funding mix for capital expenditure.

It is critical that capital expenditure is largely directed toward service delivery infrastructure and not administrative assets.

2. ***Impairment of Property, Plant and Equipment and Investment Property and Intangible Assets (Carrying Value)***

Purpose/ Description of the Ratio

Asset impairment refers to the loss in future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

This implies that the utilisation of assets did not deliver the value or service levels envisaged when approval was originally obtained for procuring the assets. When the approval is obtained to invest in Property, Plant and Equipment or Intangible Assets by the Municipality or Municipal Entity, the value should be realised through utilisation and reflected as Depreciation and not through unexpected losses due the Impairment of Property, Plant and Equipment or Intangible Assets. Impairment is therefore unexpected and only detected when the assessment for Impairment is performed as per the requirements of the applicable GRAP standards. It is therefore not planned for or expected and will not be budgeted.

Formula

Property, Plant and Equipment + Investment Property + Intangible Assets Impairment/ (Total Property, Plant and Equipment + Investment Property + Intangible Assets) x 100

Norm

The norm is **0%**

Interpretation of Results

The purpose of the Ratio is to indicate the percentage of Impairments compared to the Carrying Value of the Assets; a ratio above 0% reflects a risk in service delivery and therefore corrective measures should be implemented.

3. ***Repairs and Maintenance as a % of Property, Plants and Equipment and Investment Property (Carrying Value)***

Purpose/ Use of the Ratio

The Ratio measures the level of repairs and maintenance to ensure adequate maintenance to prevent breakdowns and interruptions to service delivery. Repairs and maintenance of municipal assets is required to ensure the continued provision of services.

Formula

Total Repairs and Maintenance Expenditure / Property, Plant and Equipment and Investment Property (Carrying Value) x 100

Norm

The norm is **8%**

Interpretation of Results

A ratio below the norm is a reflection that insufficient monies are being spent on repairs and maintenance to the extent that it could increase impairment of useful assets.

An increasing expenditure trend may be indicative of high asset-usage levels, which can prematurely require advanced levels of Repairs and Maintenance or a need for Asset Renewal / Replacements. Also, should an increasing expenditure trend suddenly drop to lower levels without an increase in the fixed asset value, this may be indicative of challenges in spending patterns. This may also indicates that the Municipality is experiencing cash flow problems and therefore unable to spend at

appropriate levels on its repairs to existing assets or purchase of new assets thus impacting negatively on service delivery.

B. Debtors Management

1. *Collection Rate*

Purpose/ Use of the Ratio

The Ratio indicates the collection rate; *i.e.* level of payments. It measures increases or decreases in Debtors relative to annual billed revenue. In addition, in order to determine the real collection rate bad debts written-off is taken into consideration.

Formula

Gross Debtors Opening Balance + Billed Revenue – Gross Debtors Closing Balance - Bad Debts Written Off) / Billed Revenue x 100

Norm

The norm is **95%**

Interpretation of Results

Assessing the Collection Ratio will provide an indication of the performance against a number of areas, for example:

- Quality of Credit Control - ensuring that what is billed is collected; and
- Quality of Revenue Management - the ability to set affordable tariffs and bill correctly.

If the ratio is below the norm this is an indication that revenue collection of the municipality requires urgent attention and corrective measures should be implemented. A municipality with outstanding debtors should aim at achieving a collection rate of more than 100%. The results from this ratio should be viewed along with results from the age analysis and net debtor's day's ratio.

2. *Bad Debts Written-off as % of the Bad Debt Provision*

Purpose/ Use of the Ratio

The Ratio compares the value of Bad Debts Written-off on Consumer Debtors to Bad Debts Provided for Consumer Debtors to ensure that the Provision for Bad Debts is sufficient.

Formula

Bad Debts Written-off (Period under review)/ Provision for Bad Debt (Period under review x 100

Norm

The norm is **100%**

Interpretation of Results

Municipality should only write-off Bad Debts already provided for and, if the results are less than 100%, it should be ideally due to the recoverability of debtors. When 100% is exceeded, it indicates that the Municipality had not previously identified the Debtor/s as having the potential for defaults, which could indicate weakness in calculation of the Provision for Bad Debt, the methodology used and/or poor credit control processes.

3. Net Debtors Days

Purpose/ Use of the Ratio

This ratio reflects the collection period. Net Debtor Days refers to the average number of days required for a Municipality or Municipal Entity to receive payment from its Consumers for bills/invoices issued to them for services.

The Ratio exclude balances for Debtors, which the Municipality or Municipal Entity has assessed as potentially irrecoverable, and is also a good indication of the effectiveness of credit control procedures within the Municipality or Municipal Entity as well as the extent to which the Municipality or Municipal Entity has provided for Doubtful Debts.

Formula

((Gross Debtors - Bad Debt Provision) / Billed Revenue)) × 365

Norm

The norm is **30 Days**

Interpretation of Results

This Ratio adjusts for Municipality's who have had significant write-offs of Irrecoverable Debtor balances in the Gross Debtors Days analysis as it only assesses the performance of collectable Debtors. In addition, it provides an indication of the quality of credit control policy, effectiveness of the implementation thereof and quality of revenue management. If the ratio is above the norm, this indicates that the Municipality is exposed to significant Cash Flow risk. This is also an indication that the municipality is experiencing challenges in the collection of outstanding amounts due to it. In addition,

this indicates that a significant amount of potential cash is tied up in consumer debtors and the municipality must improve its revenue and cash flow management.

C. *Liquidity Management*

1. *Cash/ Cost Coverage Ratio (Excluding Unspent Conditional Grants)*

Purpose/ Use of the Ratio

The Ratio indicates the Municipality's or Municipal Entity's ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue, during that month.

The Ratio is adjusted for Unspent Conditional Grants as the cash is not available for normal Municipal day-to-day operational expenditure but rather reserved for Grant related expenditure.

Formula

((Cash and Cash Equivalents - Unspent Conditional Grants - Overdraft) + Short Term Investment) / Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, and Provision for Bad Debts, Impairment and Loss on Disposal of Assets)).

Norm

The norm range between **1 month to 3 months.**

Interpretation of Results

If a municipality has a ratio below the norm it would be vulnerable and at a higher risk in the event of financial "shocks/set-backs" and its ability to meet its obligations to provide basic services or its financial commitment is compromised. The results from this ratio should be viewed along with results from analysis on Debtor Management to fully assess Cash Flow Risk. The more cash reserves a municipality or municipal entity has available the lower the risk of it being unable to fund monthly fixed operational expenditure and to continue rendering services.

2. *Current Ratio*

Purpose/ Use of the Ratio

The Ratio is used to assess the Municipality's or Municipal Entity's ability to pay back its Short-term Liabilities (Debt and Payables) with its Short-term Assets (Cash, Inventory, Receivables).

Formula

Current Assets / Current Liabilities

Norm

The norm range between **1.5 to 2 :1**

Interpretation of Results

The higher the current Ratio, the more capable the Municipality or Municipal Entity will be to pay its current or short-term obligations and provide for a risk cover to enable it to continue operations at desired levels. A financial ratio under 1 suggests that the Municipality or Municipal Entity would be unable to pay all its current or short-term obligations if they fall due at any specific point.

If current liabilities exceed current assets, it highlights serious financial challenges and likely liquidity problems *i.e.* insufficient cash to meet short-term financial obligations. Current assets must therefore be increased to appropriately cover current liabilities otherwise there is a risk that non-current assets will need to be liquidated to settle current liabilities.

D. Liability Management

1. Capital Cost (Interest Paid and Redemption) as a % of Total Operating Expenditure

Purpose/ Use of the Ratio

The Ratio indicates the cost required to service the borrowing. It assesses the Borrowing or Payment obligation expressed as a percentage of Total Operating Expenditure.

Formula

Capital Cost (Interest Paid and Redemption) / Total Operating Expenditure x 100

Norm

The norm is between **6% to 8%**

Interpretation of Results

Operating below the Norm could indicate that the Municipality has the capacity to take on additional financing from borrowing to invest in infrastructure projects or it could relate to cash flow problems where it is unable to access borrowed funds or the funding decisions of the municipality impacts of these levels. On the other hand, exceeding the Norm could pose a risk to the Municipality should changes or fluctuations in financing costs arise.

When assessing this ratio, the cash flow requirements of the Municipality or Municipal Entity should also be considered.

2. *Debt (Total Borrowings)/ Total Operating Revenue*

Purpose/ Use of the Ratio

The Ratio indicates the extent of Total Borrowings in relation to Total Operating Revenue. It indicates short and long term debt financing relative to operating revenue of the municipality.

The purpose of the Ratio is to provide assurance that sufficient Revenue will be generated to repay Liabilities. Alternatively stated, the Ratio indicates the affordability of the Total Borrowings.

Formula

Debt (Short Term Borrowing + Bank Overdraft + Short Term Lease + Long Term Borrowing + Long Term Lease) / Total Operating Revenue - Operating Conditional Grant

Norm

The norm is **45%**

Interpretation of Results

If the result of the Ratio analysis indicates less than 45% then the Municipality still has capacity to take increase funding from borrowings, however, this should be considered within the cash flow requirements of the Municipality or Municipal Entity.

E. *Sustainability*

1. *Level of Cash Backed Reserves (Net Assets - Accumulated Surplus)*

Purpose/ Use of the Ratio

The Ratio measures the extent to which the Other Reserves, which are required to be cash backed are actually backed by Cash Reserves.

Formula

(Cash and Cash Equivalents - Bank Overdraft + Short Term Investment + Long Term Investment - Unspent Conditional Grants) / (Net Assets - Accumulated Surplus – Non Controlling Interest – Share Premium – Share Capital – Fair Value Adjustment – Revaluation Reserve)

Norm

The norm is **100%**

Interpretation of Results

If a Municipality or Municipal Entity has less than 100% Cash Reserves it could negatively impact the Municipality's or Municipal Entity ability to comply with the conditions for creating the Reserves and on its ability to fund current and future operations.

2. FINANCIAL PERFORMANCE

A. Efficiency

1. Net Operating Surplus Margin

Purpose/ Use of the Ratio

The Ratio assesses the extent to which the Municipality generates Operating Surpluses.

Formula

(Total Operating Revenue – Total Operating Expenditure)/ Total Operating Revenue x 100%

Norm

The norm is equal to or greater than **0%**

Interpretation of Results

Municipalities should at least recover operational costs for the services being delivered. In addition, a ratio which is greater than 0% will enable the municipality to generate a surplus which will assist to contribute towards its capital funding requirements. If the result is less than 0% it implies that the municipality is operating at a deficit and measures must be implemented to address this situation to ensure sustainable service delivery. In a case of an operating deficit it is critical to ascertain the extent to which the accounting policy, i.e. revaluation method has impacted on the calculations to avoid any distortions in interpretation of the outcome. Refer to Circular 58 section 4.3 regarding revaluation in terms of GRAP 17 and treatment of depreciation and GRAP 24.

2. Net Surplus /Deficit Electricity

Purpose/ Use of the Ratio

This ratio measures the extent to which the municipality generates surplus or deficit in rendering electricity service. The purpose of the Ratio is to determine the contribution

made by the provision of Electricity Services, being one of the major functions of a municipality.

Formula

Total Electricity Revenue less Total Electricity Expenditure /Total Electricity Revenue x 100%

Norm

The Norm range between **0% and 15%**

It should be noted that this norm will be superseded by sector determinations from time to time, as other regulatory bodies address the appropriate level of tariffs and surpluses.

Interpretation of Results

A ratio below 0% depicts that electricity service is rendered at a deficit/loss and will be unsustainable if other revenue is not allocated to fund such services. The results must be between the range to ensure services are sustainable and that all costs associated with the delivery of Electricity Services are at least recovered with a margin for future growth and/ or capital funding for electricity assets.

3. ***Net Surplus / Deficit Water***

Purpose/ Use of the Ratio

This ratio measures the extent to which the municipality generates surplus or deficit in rendering water service. The purpose of the Ratio is to determine the contribution made by the provision of water service being one of the major functions of a municipality.

Formula

Total Water Revenue less Total Water Expenditure / Total Water Revenue x 100%

Norm

The norm is equal to or greater than **0%** and will be superseded by the sector determination from time to time, as other regulatory bodies address the appropriate level of tariffs, surpluses and subsidisation.

Interpretation of Results

A ratio below 0% depicts that water service is rendered at a loss and unsustainable. The results must not be below the norm so as to ensure that the Services are sustainable and that all costs associated with the delivery of Water Services are at least recovered with a margin for future growth and/ or capital funding for water assets.

4. Net Surplus /Deficit Refuse

Purpose/ Use of the Ratio

This ratio measures the extent to which the municipality generates surplus or deficit in rendering refuse service. The purpose of the Ratio is to determine the contribution made by the provision of refuse service being one of the major functions of a municipality.

Formula

Total Refuse Revenue less Total Refuse Expenditure /Total Refuse Revenue x 100%

Norm

The Norm is equal to or greater than **0%** and will be superseded by the Sector determination from time to time, as other regulatory bodies address the appropriate level of tariffs, surpluses and subsidisation.

Interpretation of Results

A ratio below 0% depicts that refuse service is rendered at a loss and unsustainable. The results must not be below the norm so as to ensure that the Services are sustainable and that all costs associated with the delivery of Refuse Services are at least recovered with a margin for future growth and/ or capital funding for Refuse assets.

5. Net Surplus / Deficit Sanitation and Waste Water

Purpose/ Use of the Ratio

This ratio measures the extent to which the municipality generates surplus or deficit in rendering sanitation and waste water service. The purpose of the Ratio is to determine the contribution made by the provision of sanitation and waste water services being one of the major functions of a municipality.

Formula

Total Sanitation and Waste Water Revenue less Total Sanitation and Waste Water Expenditure / Total Sanitation and Waste Water Revenue x 100%

Norm

The norm is equal to or greater than **0%** and will be superseded by the sector determination from time to time, as other regulatory bodies address the appropriate level of tariffs, surpluses and subsidisation.

Interpretation of Results

A ratio below 0% depicts that sanitation and waste water is rendered at a loss and unsustainable. The results must not be below the norm so as to ensure that the Services are sustainable and that all costs associated with the delivery of sanitation and waste water are at least recovered with a margin for future growth and / or capital funding for assets.

B. *Distribution Losses*

1. *Electricity Distribution Losses (Percentage)*

Purpose/ Use of the Ratio

The purpose is to measure the percentage loss of potential revenue from Electricity Services through electricity units purchased and generated but not sold as a result of losses incurred through theft (illegal connections), non or inaccurate metering or wastage. It is expected that implementation of the free basic service policy is included in the calculation for sale of electricity.

Formula

(Number of Electricity Units Purchased and / or Generated - Number of Electricity Units Sold) / Number of Electricity Units Purchased and / or Generated) × 100

Norm

The Norm is between **7% and 10%** and will be superseded by the sector determination.

Interpretation of Results

A ratio below the norm depicts that electricity losses are well managed. If the Ratio exceeds the norm it could indicate various challenges, for example, deteriorating electricity infrastructure or poor management of the networks, affecting the Municipality or Municipal Entity, which would require further analysis to determine the reasons for such losses. In addition, the root causes should be addressed.

2. *Water Distribution Losses (Percentage)*

Purpose/ Use of the Ratio

The purpose of this ratio is to determine the percentage loss of potential revenue from water service through kilolitres of water purchased but not sold as a result of losses incurred through theft (illegal connections), non- or incorrect metering or wastage as a result of deteriorating water infrastructure. It is expected that implementation of the free basic service policy is included in the calculation for sale of water.

Formula

(Number of Kiloliters Water Purchased or Purified - Number of Kilolitres Water Sold) / Number of Kiloliters Water Purchased or Purified × 100

Norm

The Norm is between **15% and 30%**

Interpretation of Results

A ratio within the norm depicts that water losses and water infrastructure are well managed. If the Ratio exceeds the norm it could indicate various challenges, for example, ageing water infrastructure or poor management, affecting the Municipality or Municipal Entity, which would require further analysis and explanation to determine the reasons for such losses. In addition, the root causes should be addressed.

C. Revenue Management

1. Growth in Number of Active Consumer Accounts

Purpose/ Use of the Ratio

The ratio measures the actual growth in the Revenue base of the Municipality brought about by an increase in the Consumer base rather than tariff increases.

Formula

(Period under Review's Number of Active Debtor Accounts - Previous Period's Number of Active Debtor Accounts) / Previous Period Number of Active Debtor Accounts x 100

Norm

No Norm is currently being proposed for this Ratio but will be monitored and a determined in the future. Municipalities are requested to report on this aspect to its Council.

Interpretation of Results

The results from this analysis will have to be taken into consideration when assessing the Growth in Revenue to determine the Real Growth in the Customer base vs growth due to tariff and inflationary adjustments. Growth in number of active consumers indicates an increase in revenue base.

Further, the impact of growth on the Indigent Base vs Growth in Paying Consumers should be assessed regularly as this must be used to inform Councils policy.

2. ***Revenue Growth (%)***

Purpose/ Use of the Ratio

This Ratio measures the overall revenue growth. In addition, this ratio will assist in determining if the increase in Expenditure will be funded by an increase in Revenue base or by some other means.

Formula

(Period Under Review's Total Revenue - Previous Period's Total Revenue) / Previous Period's Total Revenue) x 100

Norm

The norm is at the rate of **CPI**

Interpretation of Results

The Revenue Growth has to be assessed in conjunction with the growth in the Revenue base and number of consumer accounts to determine the real Growth in Revenue.

3. ***Revenue Growth (%) - Excluding Capital Grants***

Purpose/Use of the Ratio

This Ratio measures the overall Revenue Growth adjusted for Capital Grants. In addition, this ratio will assist in determining if the increase in Expenditure will be funded by the increased Revenue Base or by some other means.

Formula

((Period Under Review's Total Revenue Excluding Capital Grants - Previous Period's Total Revenue Excluding Capital Grants)/ Previous Period's Total Revenue Excluding Capital Grants) x 100

Norm

The norm is at the rate of **CPI**

Interpretation of Results

The Revenue Growth has to be assessed in conjunction with the growth in the Revenue base, number of consumer accounts to determine the real Growth.

D. Expenditure Management

1. Creditors Payment Period (Trade Creditors)

Purpose/ Use of the Ratio

This ratio indicates the average number of days taken for Trade Creditors to be paid.

Formula

Trade Creditors Outstanding / Credit Purchases (Operating and Capital) × 365

Norm

The norm is **30 days**

Interpretation of Results

A period of longer than 30 days to settle creditors is normally an indication that the Municipality may be experiencing cash flow problems, however in certain instances this may be as a result of disputes, processing of payments, etc. In addition, a ratio that exceeds the norm indicates that the Municipality may not be adequately managing its Working Capital or that effective controls are not in place to ensure prompt payments. The municipality will be required to provide further explanations in this regard.

2. Irregular, Fruitless and Wasteful and Unauthorised Expenditure/ Total Operating Expenditure

Purpose/ Use of the Ratio

The ratio measures the extent to which the Municipality has incurred Irregular, Fruitless and Wasteful and Unauthorised Expenditure.

Formula

(Irregular, Fruitless and Wasteful and Unauthorised Expenditure) / Total Operating Expenditure x 100

The net amount after condonement should be used in this calculation.

Norm

The norm is **0%**

Interpretation of Results

A ratio that exceeds 0% must be investigated and acted upon.

3. **Remuneration (Employee Related Costs and Councillors Remuneration) as % of Total Operating Expenditure)**

Purpose/ Use of the Ratio

The ratio measures the extent of Remuneration to Total Operating Expenditure.

Formula

Remuneration (Employee Related Costs and Councillors' Remuneration) / Total Operating Expenditure x 100

Norm

The norm range between **25% and 40%**

Interpretation of Results

If the ratio exceed the norm it could indicate inefficiencies, overstaffing or even the incorrect focus due to misdirected expenditure to non-essentials or non-service delivery related expenditure. Various factors need to be considered when commenting on this ratio, such as the powers and functions performed by the municipality or entity, as this can create distortions in the outcomes, if the analysis ignores such factors.

4. ***Contracted Services % of Total Operating Expenditure***

Purpose/ Use of the Ratio

This ratio measures the extent to which the municipalities resources are committed towards contracted services to perform Municipal related functions.

Formula

Contracted Services / Total Operating Expenditure x 100

Norm

The norm range between **2% and 5%**

Interpretation of Results

A ratio in excess of the Norm could indicate that many functions are being outsourced to Consultants, or that Contracted Services are not effectively utilised. This also depends on the model of service delivery selected by the municipality. In addition, outsourcing decisions will have to be weighed against the ability to attract skills; however, increases in this ratio can further expose the municipality to other risks, such as its inability to build capacity and ongoing reliance on Contractors.

E. Grant Dependency

1. Own Funded Capital Expenditure (Internally Generated Funds + Borrowings) to Total Capital Expenditure

Purpose/ Use of the Ratio

The Ratio measures the extent to which the municipality's Total Capital Expenditure is funded through Internally Generated Funds and Borrowings.

Formula

Own Funded Capital Expenditure (Internally Generated Funds + Borrowings) / Total Capital Expenditure x 100

Norm

No norm is proposed at this time. It is critical that the funding mix of capital expenditure is undertaken in such a manner that affordable borrowing is directed towards addressing service delivery needs and that there is also opportunity for increased capacity on internally generated funding to attain an improved balance of the funding sources.

2. *Own Funded Capital Expenditure (Internally Generated Funds) to Total Capital Expenditure*

Purpose/ Use of the Ratio

The Ratio measures the extent to which Total Capital Expenditure of the Municipality is funded through Internally Generated Funds.

Formula

Own funded Capital Expenditure (Internally Generated Funds) / Total Capital Expenditure x 100

Norm

No norm is proposed at this time. The funding mix for capital expenditure is dependent on the municipal policy and ability to raise revenue from different sources. Increased capacity for internally generated funding is required in some circumstances, which could also improve the balance in funding sources.

3. *Own Source Revenue to Total Operating Revenue (Including Agency Revenue)*

Purpose/ Use of the Ratio

The Ratio assesses the extent of Own Source Revenue to Total Operating Revenue, including Agency Revenue hence self-sufficiency.

Formula

Own Source Revenue (Total Revenue - Government Grants and Subsidies – Public Contribution and Donations)/ Total Operating Revenue (Including Agency Services) x 100

Norm

No norm is proposed at this time. The municipal specific circumstances, including the powers and functions assigned to it, must be considered when assessing the level of own source revenue or its self-sufficiency. An analysis of the trends and levels of own source of revenue will also inform the municipality and users of measures taken to optimise own revenues. The ratio measuring own source revenue should be increasing over time as it reflects municipal efforts towards self-sufficiency.

3. BUDGET IMPLEMENTATION

1. *Capital Expenditure Budget Implementation Indicator*

Purpose/ Use of the Ratio

This ratio measures the extent to which Budgeted Capital Expenditure has been spent during the financial year, under review. Further, this ratio measures the municipality's ability to implement capital projects and monitor the risks associated with non-implementation. The ratio also assess whether the municipality has effective controls in place to ensure that expenditure is incurred in accordance with an approved budget.

Formula

Actual Capital Expenditure / Budget Capital Expenditure x 100

Norm

The norm range between **95% and 100%**

Interpretation of Results

This can be used in-year to monitor progress. Any variance below 95% indicates discrepancies in planning and budgeting, capacity challenges to implement projects and/or Supply Chain Management process failures, which should be investigated and corrective measures implemented.

Under-spending is also an indicator that the Municipality might be experiencing possible cash flow difficulties to implement projects. Ideally, under-spending should be the result of improved efficiencies and not as a result of non-implementation of programmes and/or projects.

Overspending may also indicate inaccurate budgeting or poor financial management control.

2. ***Operating Expenditure Budget Implementation Indicator***

Purpose/ Use of the Ratio

This ratio measures the extent to which Budgeted Operating Expenditure has been spent during the financial year, under review. The ratio also assess whether the municipality has effective controls in place to ensure that expenditure is incurred in accordance with an approved budget.

Formula

Actual Operating Expenditure / Budgeted Operating Expenditure x 100

Norm

The norm range between **95% and 100%**

Interpretation of Results

Any variance from 100% indicates either challenge in capacity to implement, issues of financial controls and management and/or poor budgeting.

Under-spending normally is an indicator that the Municipality experiences possible Cash Flow difficulties or capacity challenges to undertake Budgeted/ planned service delivery, and/ or does not prepare accurate and credible Budgets. Ideally, under-spending should be the result of improved efficiencies and not as a result of non-implementation of programmes and/or projects.

Overspending may also indicate inaccurate budgeting or poor financial management control in respect of budget control.

3. ***Operating Revenue Budget Implementation Indicator***

Purpose/ Use of the Ratio

This ratio measures the extent of Actual Operating Revenue (Excl. Capital Grant Revenue) received in relation to Budgeted Operating Revenue during the financial year, under review.

Formula

Actual Operating Revenue / Budgeted Operating Revenue x 100

Norm

The norm range between **95% and 100%**

Interpretation of Results

A ratio below 95% indicates either a challenge in capacity to implement, ineffective billing and credit control, weakness in compilation of budgets or issues of financial controls and management of the Municipality.

4. ***Service Charges and Property Rates Revenue Budget Implementation Indicator***

Purpose/ Use of the Ratio

The ratio measures the extent of Actual Service Charges and Property Rates Revenue received in relation to Budgeted Service Charges and Property Rates Revenue during the financial year, under review.

Formula

Actual Service Charges and Property Rates Revenue / Budgeted Service Charges and Property Rates Revenue x 100

Norm

The norm range between **95% and 100%**

Interpretation of Results

A ratio below 95% indicates either a challenge in capacity to implement, ineffective billing and credit control, weakness in compilation of budgets or issues of financial controls and management of the Municipality.

Monitoring

It is important that these indicators are not seen or used in isolation of one another but used in a combined manner so as to provide a holistic picture of the financial status of the municipality or municipal entity. Poor outcomes with relation to these indicators can also point to weaknesses in Institutional and Governance aspects in a municipality that need attention. Therefore, Councillors, Municipal Managers, Chief Financial Officers, Accounting Offices of Municipal Entities, and all financial officials should derive benefits from a deeper understanding of these Ratios and Norms and their implications. The primary responsibility to avoid, identify and resolve financial problems in a municipality rests with the municipality and proper monitoring and use of these indicators, will support decision-makers overcome such challenges.

The use of these Ratios and Norms should assist Municipalities and Municipal Entities to predict, identify, prevent, avoid, and resolve financial problems/crisis timeously and serve as an early warning mechanism. Moreover, this will ensure that Municipalities and Municipal Entities make strategic decisions based on empirical and factual information and analysis for a sustainable outcome. Monitoring and trend analysis of these ratios is critical to ensure that measures are introduced to address areas needing attention and that there is progressive improvements of municipalities own position against the norms. These indicators and their norms, when viewed holistically, provide an overview of the financial position and performance of the Municipalities and Municipal Entities, while recognising institutional differences. Sound and effective financial management practices form the basis for an effective long term sustainable municipality.

The oversight role played by the Municipal Executive, Audit Committee, and Municipal Public Account Committee will also be enhanced with the use of these financial Ratios and Norms through implementation and reporting of financial information. The financial ratios and norms will strengthen financial management and accountability and be used throughout the cycle - integrated development plans (including long term financial plan), budgets, in-year reports for example section 52, 71 and 72 reports, annual financial statements, annual report and oversight reports. Comparison with other municipalities is now possible.

An Excel template has been developed (Annexure 2 of this Circular) to assist municipalities and Municipal Entities to populate relevant financial information, automate calculations, and assist in interpretation thereof.

These Ratios and Norms will be used to assess financial position and performance, quality of budgeting, management, and other characteristics of Municipalities and Municipal Entities, and should holistically provide an overview of the financial health of the Municipality or Municipal Entity, taking the respective and unique circumstances into account. Benchmarking and comparisons between Municipalities and Municipal Entities can also be undertaken, made simpler in future, and will further assist in targeting assistance and support, where needed.

Different institutions including, financial institutions, research organisations, rating agencies, national and provincial government, legislatures, amongst others, can use these uniform set of financial indicators, ratios and norms to monitor the financial position and performance of municipalities.

Implementation

The ratios and norms provided in this Circular and elaborated in the annexures are to be understood in an aspirational context and utilised as soon as possible to enable municipal councils to commence with the process of introducing measures to address areas needing attention. Municipalities and Municipal Entities should take advantage of the transition period, covering the medium term, to allow for progressive improvements of their own status against the ratios and norms.

Conclusion

The variety of financial ratios and norms, over 200, used by various institutions to assess and compare the financial health and performance of Municipalities and Municipal Entities has resulted in confusion across the sector, as users formulate assumptions based on different interpretation of the same financial information.

The Circular creates a uniform categorisation of ratios, standardising formulas and inputs, providing guidance on norms and interpretation of the financial ratio analysis, as applicable to Municipalities and Municipal Entities. There may be other ratios and norms used by analysts that are more appropriate to the financial status of private sector institutions, therefore, the use, differentiation and range described in this Circular should be understood within the context of a public sector institution.

This Circular therefore attempts to address the above challenges and also provide a more structured approach for holistic analysis, taking into cognisance the different type of Municipalities and Municipal Entities. The consistent use of these ratios and norms will assist in reporting accurately the status of municipal finances.

Institutions performing financial ratio analysis for Municipalities and Municipal Entities should therefore refer to this Circular and interpretation therein to ensure uniformity and consistency of application.

It is important that the Municipal Manager ensure that this Circular is brought to the attention of the Municipal Council, Board of Directors of Municipal Entities, relevant oversight structures (Municipal Executive, Audit Committee, and Municipal Public Account) and all other relevant stakeholders. Training providers are also requested to bring this Circular to the attention of trainees.

The introduction and application of these uniform norms, coupled with other financial reforms, will allow for comparisons with different type of municipalities and municipal entities and it is expected that they will replace earlier regulations issued that cover financial ratios and norms as these are based on the latest reforms in financial management.

Annexure 1: Summary of the financial ratios, norms, formulae and data sources
Annexure 2: Excel template for calculation of the ratios and interpretation of results

SUMMARY OF UNIFORM FINANCIAL RATIO, FORMULAE, DATA SOURCE AND NORMS

1. FINANCIAL POSITION

A. Asset Management

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Capital Expenditure to Total Expenditure	Total Capital Expenditure / Total Expenditure (Total Operating expenditure + Capital expenditure) × 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In-Year reports, IDP and AR	10% - 20%
2	Impairment of Property, Plant and Equipment, Investment Property and Intangible Assets (Carrying Value)	Property, Plant and Equipment Impairment + Investment Property Impairment + Intangible Assets Impairment/(Total Property, Plant and Equipment + Investment Property + Intangible Assets) × 100	Statement of Financial Position, Notes to the AFS and AR	0%
3	Repairs and Maintenance as a % of Property, Plant and Equipment, Investment Property (Carrying Value)	Total Repairs and Maintenance Expenditure/ Property, Plant and Equipment and Investment Property(Carrying value) x 100	Statement of Financial Position, Statement of Financial Performance, IDP, Budgets and In-Year Reports	8%

B. Debtors Management

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Collection Rate	(Gross Debtors Closing Balance + Billed Revenue - Gross Debtors Opening Balance + Bad Debts Written Off)/Billed Revenue x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget , In-Year Reports, IDP and AR	95%
2	Bad Debts Written-off as % of Provision for Bad Debt	Bad Debts Written-off /Provision for Bad Debt x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	100%
3	Net Debtors Days	((Gross Debtors - Bad debt Provision)/ Actual Billed Revenue)) × 365	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	30 days

H101/30

C. Liquidity Management

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Cash/Cost Coverage Ratio (Excluding Unspent Conditional Grants)	((Cash and Cash Equivalents - Unspent Conditional Grants - Overdraft) + Short Term Investment) / Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, Provision for Bad Debts, Impairment and Loss on Disposal of Assets)	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In year Reports and AR	1 - 3 Months
2	Current Ratio	Current Assets / Current Liabilities	Statement of Financial Position, Budget, IDP and AR	1.5 - 2:1

D. Liability Management

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Capital Cost(Interest Paid and Redemption) as a % of Total Operating Expenditure	Capital Cost(Interest Paid and Redemption) / Total Operating Expenditure x100	Statement of Financial Position, Statement of Cash Flows, Statement of Financial Performance, Budget, IDP, In-Year Reports and AR	6% - 8%
2	Debt (Total Borrowings) / Revenue	(Overdraft + Current Finance Lease Obligation + Non Finance Lease Obligation + Short Term Borrowings + Long Term Borrowings) / Total Operating Revenue	Statement of Financial Position, Statement of Financial Performance, Budget, IDP and AR	45%

H 02/30

E. Sustainability

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Level of Cash Backed Reserves (Net Assets - Accumulated Surplus)	(Cash and Cash Equivalents - Bank overdraft + Short Term Investment + Long Term Investment - Unspent grants) / (Net Assets - Accumulated Surplus - Non Controlling Interest - Share Premium - Share Capital - Fair Value Adjustment - Revaluation Reserve)	Statement Financial Position, Budget and AR	100%

H 03/30

2. FINANCIAL PERFORMANCE

A. Efficiency

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Net Operating Surplus Margin	(Total Operating Revenue - Total Operating Expenditure)/Total Operating Revenue	Statement of Financial Performance, Budget, In-Year reports, AR, Statement of Comparison of Budget and Actual Amounts and Statement of Changes in Net Assets	= or > 0%
2	Net Surplus /Deficit Electricity	Total Electricity Revenue less Total Electricity Expenditure/Total Electricity Revenue × 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	0% - 15%
3	Net Surplus /Deficit Water	Total Water Revenue less Total Water Expenditure/Total Water Revenue × 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%
4	Net Surplus /Deficit Refuse	Total Refuse Revenue less Total Refuse Expenditure/Total Refuse Revenue × 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%
5	Net Surplus /Deficit Sanitation and Waste Water	Total Sanitation and Waste Water Revenue less Total Sanitation and Waste Water Expenditure/Total Sanitation and Waste Water Revenue × 100	Statement of Financial Performance, Notes to AFS Budget, IDP, In-Year reports and AR	= or > 0%

H44/30

B. Distribution Losses

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Electricity Distribution Losses (Percentage)	(Number of Electricity Units Purchased and/or Generated - Number of Electricity Units Sold) / Number of Electricity Units Purchased and/or Generated) × 100	Annual Report, Audit Report and Notes to Annual Financial Statements	7% - 10%
2	Water Distribution Losses (Percentage)	(Number of Kilolitres Water Purchased or Purified - Number of Kilolitres Water Sold) / Number of Kilolitres Water Purchased or Purified × 100	Annual Report, Audit Report and Notes to Annual Financial Statements	15% - 30%

C. Revenue Management

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Growth in Number of Active Consumer Accounts	(Period under review's number of Active Debtor Accounts - previous period number of Active Debtor Accounts)/ previous period number of Active Debtor Accounts x 100	Debtors System	None
2	Revenue Growth (%)	(Period under review's Total Revenue - previous period's Total Revenue)/ previous period's Total Revenue) x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= CPI
3	Revenue Growth (%) - Excluding capital grants	(Period under review's Total Revenue Excluding capital grants- previous period's Total Revenue excluding capital grants)/ previous period's Total Revenue excluding capital grants) x 100	Statement of Financial Performance, Notes to AFS , Budget, IDP, In-Year reports and AR	= CPI

Hlophe 130

D. Expenditure Management

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Creditors Payment Period (Trade Creditors)	Trade Creditors Outstanding / Credit Purchases (Operating and Capital) x 365	Statement of Financial Performance, Notes to AFS, Budget, In-Year reports and AR	30 days
2	Irregular, Fruitless and Wasteful and Unauthorised Expenditure / Total Operating Expenditure	(Irregular, Fruitless and Wasteful and Unauthorised Expenditure) / Total Operating Expenditure x100	Statement Financial Performance, Notes to Annual Financial Statements and AR	0%
3	Remuneration as % of Total Operating Expenditure	Remuneration (Employee Related Costs and Councillors' Remuneration) /Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	25% - 40%
4	Contracted Services % of Total Operating Expenditure	Contracted Services / Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	2% - 5%

H107/136

E. Grant Dependency

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Own funded Capital Expenditure (Internally generated funds + Borrowings) to Total Capital Expenditure	Own funded Capital Expenditure (Internally generated funds + Borrowings) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information), Budget, IDP, In-Year reports and AR	None
2	Own funded Capital Expenditure (Internally Generated Funds) to Total Capital Expenditure	Own funded Capital Expenditure (Internally Generated Funds) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information) Budget, IDP, In-Year reports and AR	None
3	Own Source Revenue to Total Operating Revenue(Including Agency Revenue)	Own Source Revenue (Total revenue - Government grants and Subsidies - Public Contributions and Donations)/ Total Operating Revenue (including agency services) x 100	Statement Financial Performance, Budget, IDP, In-Year reports and AR	None

11/08/2020

3. BUDGET IMPLEMENTATION

	RATIO	FORMULA	DATA SOURCE AND POLICY DOCS	NORM
1	Capital Expenditure Budget Implementation Indicator	Actual capital Expenditure / Budget Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, In-Year reports and AR	95% - 100%
2	Operating Expenditure Budget Implementation Indicator	Actual Operating Expenditure / Budgeted Operating Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%
3	Operating Revenue Budget Implementation Indicator	Actual Operating Revenue / Budget Operating Revenue x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%
4	Service Charges and Property Rates Revenue Budget Implementation Indicator	Actual Service Charges and Property Rates Revenue / Budget Service Charges and Property Rates Revenue x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%

2	Bad Debts Written-off as % of Provision for Bad Debt	Bad Debts Written-off/Provision for Bad debts x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	100%		2%		
					Consumer Debtors Bad debts written off	740 714	2020/21 Projected 5	The norm range appears incorrect
					Consumer Debtors Current bad debt Provision	40 641 428		
3	Net Debtors Days	((Gross Debtors - Bad debt Provision)/ Actual Billed Revenue)) x 365	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	30 days		31 days		Taking into account/providing for the high risk regarding the COVID19 lockdown consequences
					Gross debtors	125 132 448	2020/21 Projected 5	
					Bad debts Provision	40 641 428		
					Billed Revenue	922 449 769		
C. Liquidity Management								
1	Cash / Cost Coverage Ratio (Excl. Unspent Conditional Grants)	((Cash and Cash Equivalents - Unspent Conditional Grants - Overdraft) + Short Term Investment) / Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, Provision for Bad Debts, Impairment and Loss on Disposal of Assets)	Statement of Financial Position, Statement of Financial Performance, Budget, IDP, Notes to the AFS, Budget, In year Reports and AR	1 - 3 Months		5 Month		
					Cash and cash equivalents	118 128 773	2020/21 Projected 5	
					Unspent Conditional Grants	-		
					Overdraft	-		
					Short Term Investments	400 000 000		
					Total Annual Operational Expenditure	1 177 418 451		
2	Current Ratio	Current Assets / Current Liabilities	Statement of Financial Position, Budget, IDP and AR	1.5 - 2:1		2.39		
					Current Assets	647 146 937	2020/21 Projected 5	
					Current Liabilities	250 271 629		
D. Liability Management								
1	Capital Cost(Interest Paid and Redemption) as a % of Total Operating Expenditure	Capital Cost(Interest Paid and Redemption) / Total Operating Expenditure x 00	Statement of Financial Position, Statement of Cash Flows, Statement of Financial Performance, Budget, IDP, In-Year Reports and AR	6% - 8%		7%		
					Interest Paid	51 482 056	2020/21 Projected 5	
					Redemption	46 253 371		
					Total Operating Expenditure	1 345 558 620		
					Taxation Expense	-		
2	Debt (Total Borrowings) / Revenue	(Overdraft + Current Finance Lease Obligation + Non current Finance Lease Obligation + Short Term Borrowings + Long term borrowing) / (Total Operating Revenue - Operational Conditional Grants) x 100	Statement of Financial Position, Statement of Financial Performance, Budget, IDP and AR	45%		44%		
					Total Debt	484 357 165	2020/21 Projected 5	
					Total Operating Revenue	1 253 392 334		
					Operational Conditional Grants	150 774 203		
E. Sustainability								
1	Level of Cash Backed Reserves (Net Assets - Accumulated Surplus)	(Cash and Cash Equivalents - Bank overdraft + Short Term Investment + Long Term Investment + Unspent grants) / ((Net Assets - Accumulated Surplus - Non Controlling Interest Share Premium - Share Capital - Fair Value Adjustment - Revaluation Reserve) x 100	Statement Financial Position, Budget and AR	100%		17116%		
					Cash and cash Equivalents	118 128 773	2020/21 Projected 5	
					Bank Overdraft			
					Short Term Investment	400 000 000		
					Long Term Investment	54 460 010		
					Unspent Grants	-		
					Net Assets	3 664 060 154		
					Share Premium			
					Share Capital			
					Revaluation Reserve			
					Fair Value Adjustment Reserve			
					Accumulated Surplus	3 660 705 154		
2. FINANCIAL PERFORMANCE								
A. Efficiency								

1	Net Operating Surplus Margin	(Total Operating Revenue - Total Operating Expenditure)/Total Operating Revenue	Statement of Financial Performance, Budget, In-Year reports, AR, Statement of Comparison of Budget and Actual Amounts and Statement of Changes in Net Asset	= or > 0%		-7%	2020/21 Projected 5	Refer to fluctuations in the housing grant (operational vs capital)
					Total Operating Revenue	1 253 392 334		
					Depreciation - Revalued Portion (Only populate if depreciation line item in the Statement of Financial Performance is based on the revalued total value)			
					Total Operating Expenditure	1 345 558 620		
					Taxation Expense			
2	Net Surplus /Deficit Electricity	Total Electricity Revenue less Total Electricity Expenditure/Total Electricity Revenue x 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	0% - 15%		9%	2020/21 Projected 5	
					Total Electricity Revenue	435 401 292		
					Total Electricity Expenditure	412 253 812		
3	Net Surplus /Deficit Water	Total Water Revenue less Total Water Expenditure/Total Water Revenue x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%		7%	2020/21 Projected 5	
					Total Water Revenue	152 914 664		
					Total Water Expenditure	142 103 582		
4	Net Surplus /Deficit Refuse	Total Refuse Revenue less Total Refuse Expenditure/Total Refuse Revenue x 100	Statement of Financial Performance, Budget, IDP, In-Yeda reports and AR	= or > 0%		15%	2020/21 Projected 5	
					Total Refuse Revenue	98 585 483		
					Total Refuse Expenditure	84 419 720		
5	Net Surplus /Deficit Sanitation and Waste Water	Total Sanitation and Waste Water Revenue less Total Sanitation and Waste Water Expenditure/Total Sanitation and Waste Water Revenue x 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	= or > 0%		7%	2020/21 Projected 5	
					Total Sanitation and Water Waste Revenue	113 788 563		
					Total Sanitation and Water Waste Expenditure	106 019 118		
B. Distribution Losses								
1	Electricity Distribution Losses (Percentage)	(Number of Electricity Units Purchased and/or Generated - Number of units sold) / Number of Electricity Units Purchased and/or generated) x 100	Annual Report, Audit Report and Notes to Annual Financial Statements	7% - 10%		7%	2020/21 Projected 5	
					Number of units purchased and/or generated	258 548 205		
					Number of units sold	241 122 056		
2	Water Distribution Losses (Percentage)	(Number of Kilolitres Water Purchased or Purified - Number of Kilolitres Water Sold) / Number of Kilolitres Water Purchased or Purified x 100	Annual Report, Audit Report and Notes to Annual Financial Statements	15% - 30%		21%	2020/21 Projected 5	
					Number of Mollitres purchased and/or purified	7 334 606		
					Number of kilolitres sold	5 818 996		
C. Revenue Management								
1	Growth in Number of Active Consumer Accounts	(Period under review's number of Active Debtor Accounts - previous period's number of Active Debtor Accounts)/ previous number of Active Debtor Accounts x 100	Debtors System	None		0%	2020/21 Projected 5	
					Number of Active Debtors Accounts (Previous)	48 755		
					Number of Active Debtors Accounts (Current)	48 755		
2	Revenue Growth (%)	(Period under review's Total Revenue - previous period's Total Revenue)/ previous period's Total Revenue) x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= CPI		3%	2020/21 Projected 5	
					CPI	5%		
					Total Revenue (Previous)	1 331 397 397		
					Total Revenue (Current)	1 300 308 047		
3	Revenue Growth (%) - Excluding capital grants	(Period under review's Total Revenue Excluding capital grants- previous period's Total Revenue excluding capital grants)/ previous period's Total Revenue excluding capital grants) x 100	Statement of Financial Performance, Notes to AFS , Budget, IDP, In-Year reports and AR	= CPI		3%	2020/21 Projected 5	
					CPI	5%		
					Total Revenue Ex.Capital (Previous)	1 290 275 779		
					Total Revenue Ex.Capital (Current)	1 253 392 334		
D. Expenditure Management								
1	Creditors Payment Period (Trade Creditors)	Trade Creditors Outstanding / Credit Purchases (Operating and Capital) x 365	Statement of Financial Performance, Notes to AFS, Budget, In-Year reports and AR	30 days		27 days	2020/21 Projected 5	
					Trade Creditors	67 904 750		
					Contracted Services	146 127 507		
					Repairs and Maintenance	118 403 488		
					General expenses	100 656 433		
					Bulk Purchases	270 269 407		
					Capital Credit Purchases (Capital Credit Purchases refers to additions of Investment Property and Property, Plant and Equipment)	280 086 380		
2	Irregular, Fruitless and Wasteful and Unauthorised Expenditure / Total Operating Expenditure	(Irregular, Fruitless and Wasteful and Unauthorised Expenditure) / Total Operating Expenditure x100	Statement Financial Performance, Notes to Annual Financial Statements and AR	0%		0%	2020/21 Projected 5	
					Irregular, Fruitless and Wasteful and Unauthorised Expenditure			
					Total Operating Expenditure	1 345 558 620		
					Taxation Expense			
3	Remuneration as % of Total Operating Expenditure	Remuneration (Employee Related Costs and Councillors' Remuneration) /Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	25% - 40%		34%	2020/21 Projected 5	
					Employeepersonnel related cost	441 241 199		
					Councillors Remuneration	11 899 436		
					Total Operating Expenditure	1 345 558 620		
					Taxation Expense			
4	Contracted Services % of Total Operating Expenditure	Contracted Services / Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	2% - 5%		17%	2020/21 Projected 5	Cost analysis conducted to deliver cost effective services.
					Contracted Services	224 808 539		
					Total Operating Expenditure	1 345 558 620		
					Taxation Expense			
E. Grant Dependency								
1	Own funded Capital Expenditure (Internally generated funds + Borrowings) to Total Capital Expenditure	Own funded Capital Expenditure (Internally generated funds + Borrowings) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information), Budget, IDP, In-Year reports and AR	None		70%	2020/21 Projected 5	
					Internally generated funds	129 334 753		
					Borrowings	75 228 311		

			reports and AR		Total Capital Expenditure	280 086 380		
2	Own funded Capital Expenditure (Internally Generated Funds) to Total Capital Expenditure	Own funded Capital Expenditure (Internally Generated Funds) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information) Budget, IDP, In-Year reports and AR	None		43%		
					Internally generated funds	120 334 953	2020/21 Projected 5	
					Total Capital Expenditure	280 086 380		
3	Own Source Revenue to Total Operating Revenue(including Agency Revenue)	Own Source Revenue (Total revenue - Government grants and Subsidies - Public Contributions and Donations)/ Total Operating Revenue (including agency services) x 100	Statement Financial Performance, Budget, IDP, In-Year reports and AR	None		92%		
					Total Revenue	1 300 308 047		
					Government grant and subsidies	160 774 203	2020/21 Projected 5	
					Public contributions and Donations	-		
					Capital Grants	46 915 713		
3. BUDGET IMPLEMENTATION								
1	Capital Expenditure Budget Implementation Indicator	Actual capital Expenditure / Budget Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, In-Year reports and AR	95% - 100%		100%		
					Actual Capital Expenditure	280 086 380	2020/21 Projected 5	
					Budget Capital Expenditure	280 086 380		
2	Operating Expenditure Budget Implementation Indicator	Actual Operating Expenditure / Budgeted Operating Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%		100%		
					Actual Operating Expenditure	1 345 558 620	2020/21 Projected 5	
					Budget Operating Expenditure	1 345 558 620		
3	Operating Revenue Budget Implementation Indicator	Actual Operating Revenue / Budget Operating Revenue x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%		100%		
					Actual Operating Revenue	1 253 392 334	2020/21 Projected 5	
					Budget Operating Revenue	1 253 392 334		
4	Service Charges and Property Rates Revenue Budget Implementation Indicator	Actual Service Charges and Property Rates Revenue / Budget Service Charges and Property Rates Revenue x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%		100%		
					Actual Service Charges and Property Rates Revenue	922 449 769	2020/21 Projected 5	
					Budget Service Charges and Property Rates Revenue	922 449 769

						" R 000 "		
1. FINANCIAL F								
A. Asset Mang								
1	Capital Expenditure to Total Expenditure	Total Capital Expenditure / Total Expenditure (Total Operating expenditure + Capital expenditure) x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In-Year reports, IDP and AR	10% - 20%		16%		
					Total Operating Expenditure	1 495 006 432	2021/22 Projected 4	
					Taxation Expense	-		
					Total Capital Expenditure	274 774 547		
2	Impairment of Property, Plant and Equipment, Investment Property and Intangible assets (Carrying Value)	Property, Plant and Equipment + Investment Property + Intangible Assets Impairment/(Total Property, Plant and Equipment + Investment Property + Intangible Assets) x 100	Statement of Financial Position, Notes to the AFS and AR	0%		0%		
					PPE, Investment Property and Intangible Impairment	-	2021/22 Projected 4	
					PPE at carrying value	3 772 075 421		
					Investment at carrying value	127 346 000		
					Intangible Assets at Carrying value	4 362 754		
3	Repairs and Maintenance as a % of Property, Plant and Equipment and Investment Property (Carrying Value)	Total Repairs and Maintenance Expenditure/ Property, Plant and Equipment and Investment Property (Carrying value) x 100	Statement of Financial Position, Statement of Financial Performance, IDP, Budgets and In-Year Reports	8%		7%		Repairs & maintenance comprises 17.01% of total expenditure. Asset value was enhanced with the introduction of GRAP 17.o. Depreciated Replacement Cost
					Total Repairs and Maintenance Expenditure	254 233 151	2021/22 Projected 4	
					PPE at carrying value	3 772 075 421		
					Investment Property at Carrying value	127 346 000		
B. Debtors Management								
1	Collection Rate	(Gross Debtors Closing Balance + Billed Revenue - Gross Debtors Opening Balance - Bad Debts Written Off)/Billed Revenue x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In-Year Reports, IDP and AR	95%		100%		
					Gross Debtors closing balance	126 616 877	2021/22 Projected 4	
					Gross Debtors opening balance	125 132 448		
					Bad debts written Off	500 000		
					Billed Revenue	1 089 494 456		
2	Bad Debts Written-Off as % of Provision for Bad Debt	Bad Debts Written-Off/Provision for Bad debts x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	100%		1%		
					Consumer Debtors Bad debts written off	500 000	2021/22 Projected 4	The norm range appears incorrect
					Consumer Debtors Current bad debt Provision	42 141 428		
3	Net Debtors Days	((Gross Debtors - Bad debt Provision)/ Actual Billed Revenue)) x 365	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	30 days		29 days		Taking into account/providing for the high risk regarding the COVID19 lockdown consequences
					Gross debtors	126 616 877	2021/22 Projected 4	
					Bad debts Provision	42 141 428		
					Billed Revenue	1 089 494 456		
C. Liquidity Management								
1	Cash / Cost Coverage Ratio (Excl. Unspent Conditional Grants)	((Cash and Cash Equivalents - Unspent Conditional Grants - Overdraft) + Short Term Investment) / Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, Provision for Bad Debts, Impairment and Loss on Disposal of Assets)	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In year Reports and AR	1 - 3 Months		4 Month		
					Cash and cash equivalents	50 829 296		
					Unspent Conditional Grants	-	2021/22 Projected 4	
					Overdraft	-		
					Short Term Investments	400 000 000		
					Total Annual Operational Expenditure	1 327 843 780		
2	Current Ratio	Current Assets / Current Liabilities	Statement of Financial Position, Budget, IDP and AR	1.5 - 2.1		1.71		
					Current Assets	563 271 875	2021/22 Projected 4	
					Current Liabilities	329 312 163		
D. Liability Management								
1	Capital Cost(Interest Paid and Redemption) as a % of Total Operating Expenditure	Capital Cost(Interest Paid and Redemption) / Total Operating Expenditure x 00	Statement of Financial Position, Statement of Cash Flows, Statement of Financial Performance, Budget, IDP, In-Year Reports and AR	6% - 8%		7%		
					Interest Paid	51 803 648	2021/22 Projected 4	
					Redemption	54 645 960		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense	-		
2	Debt (Total Borrowings) / Revenue	(Overdraft + Current Finance Lease Obligation + Non current Finance Lease Obligation + Short Term Borrowings + Long term borrowing) / (Total Operating Revenue - Operational Conditional Grants) x 100	Statement of Financial Position, Statement of Financial Performance, Budget, IDP and AR	45%		35%		
					Total Debt	481 067 736	2021/22 Projected 4	
					Total Operating Revenue	1 416 838 555		
					Operational Conditional Grants	139 692 100		
E. Sustainability								
1	Level of Cash Backed Reserves (Net Assets - Accumulated Surplus)	(Cash and Cash Equivalents - Bank overdraft + Short Term Investment + Long Term Investment - Unspent grants) / (Net Assets - Accumulated Surplus - Non Controlling Interest Share Premium - Share Capital - Fair Value Adjustment Revaluation Reserve) x 100	Statement Financial Position, Budget and AR	100%		15894%		
					Cash and cash Equivalents	50 829 295		
					Bank Overdraft	-		
					Short Term Investment	400 000 000		
					Long Term Investment	62 164 557		
					Unspent Grants	-		
					Net Assets	3 581 004 420	2021/22 Projected 4	
					Share Premium			
					Share Capital			
					Revaluation Reserve			
					Fair Value Adjustment Reserve			
					Accumulated Surplus	3 677 776 520		
2. FINANCIAL PERFORMANCE								
A. Efficiency								

1	Net Operating Surplus Margin	(Total Operating Revenue - Total Operating Expenditure)/Total Operating Revenue	Statement of Financial Performance, Budget, In-Year reports, AR, Statement of Comparison of Budget and Actual Amounts and Statement of Changes in Net Asset	= or > 0%		4%	2021/22 Projected 4	Refer to fluctuations in the housing grant (operational vs capital)
					Total Operating Revenue	1 416 838 555		
					Depreciation - Revalued Portion (Only populate if depreciation line item in the Statement of Financial Performance is based on the revalued asset value)			
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense			
2	Net Surplus /Deficit Electricity	Total Electricity Revenue less Total Electricity Expenditure/Total Electricity Revenue x 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	0% - 15%		8%	2021/22 Projected 4	
					Total Electricity Revenue	538 843 532		
					Total Electricity Expenditure	505 140 622		
3	Net Surplus /Deficit Water	Total Water Revenue less Total Water Expenditure/Total Water Revenue x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%		2%	2021/22 Projected 4	
					Total Water Revenue	147 445 936		
					Total Water Expenditure	144 040 386		
4	Net Surplus /Deficit Refuse	Total Refuse Revenue less Total Refuse Expenditure/Total Refuse Revenue x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%		0%	2021/22 Projected 4	
					Total Refuse Revenue	94 144 886		
					Total Refuse Expenditure	94 017 578		
5	Net Surplus /Deficit Sanitation and Waste Water	Total Sanitation and Waste Water Revenue less Total Sanitation and Waste Water Expenditure/Total Sanitation and Waste Water Revenue x 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	= or > 0%		7%	2021/22 Projected 4	
					Total Sanitation and Water Waste Revenue	106 696 116		
					Total Sanitation and Water Waste Expenditure	99 523 480		
B. Distribution Losses								
1	Electricity Distribution Losses (Percentage)	(Number of Electricity Units Purchased and/or Generated - Number of units sold) / Number of Electricity Units Purchased and/or generated) x 100	Annual Report, Audit Report and Notes to Annual Financial Statements	7% - 10%		6%	2021/22 Projected 4	
					Number of units purchased and/or generated	250 912 515		
					Number of units sold	235 857 765		
2	Water Distribution Losses (Percentage)	(Number of Kilolitres Water Purchased or Purified - Number of Kilolitres Water Sold) / Number of Kilolitres Water Purchased or Purified x 100	Annual Report, Audit Report and Notes to Annual Financial Statements	15% - 30%		25%	2021/22 Projected 4	
					Number of kilolitres purchased and/or purified	7 720 615		
					Number of kilolitres sold	5 829 065		
C. Revenue Management								
1	Growth in Number of Active Consumer Accounts	(Period under review's number of Active Debtor Accounts - previous periods' number of Active Debtor Accounts)/ previous number of Active Debtor Accounts x 100	Debtors System	None		0%	2021/22 Projected 4	
					Number of Active Debtors Accounts (Previous)	48 755		
					Number of Active Debtors Accounts (Current)	48 755		
2	Revenue Growth (%)	(Period under review's Total Revenue - previous period's Total Revenue)/ previous period's Total Revenue) x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= CPI		14%	2021/22 Projected 4	Refer to fluctuations in the housing grant (operational vs capital)
					CPI	5%		
					Total Revenue (Previous)	1 300 308 047		
					Total Revenue (Current)	1 477 435 355		
3	Revenue Growth (%) - Excluding capital grants	(Period under review's Total Revenue Excluding capital grants- previous period's Total Revenue excluding capital grants)/ previous period's Total Revenue excluding capital grants) x 100	Statement of Financial Performance, Notes to AFS , Budget, IDP, In-Year reports and AR	= CPI		13%	2021/22 Projected 4	Refer to fluctuations in the housing grant (operational vs capital)
					CPI	5%		
					Total Revenue Exl.Capital (Previous)	1 253 392 334		
					Total Revenue Exl.Capital (Current)	1 416 838 555		
D. Expenditure Management								
1	Creditors Payment Period (Trade Creditors)	Trade Creditors Outstanding / Credit Purchases (Operating and Capital) x 365	Statement of Financial Performance, Notes to AFS, Budget, In-Year reports and AR	30 days		24 days	2021/22 Projected 4	
					Trade Creditors	68 000 000		
					Contracted Services	151 558 360		
					Repairs and Maintenance	127 441 548		
					General expenses	130 649 207		
					Bulk Purchases	353 706 800		
					Capital Credit Purchases. (Capital Credit Purchases refers to additions of Investment Property and Property,Plant and Equipment)	274 774 547		
2	Irregular, Fruitless and Wasteful and Unauthorised Expenditure / Total Operating Expenditure	(Irregular, Fruitless and Wasteful and Unauthorised Expenditure) / Total Operating Expenditure x100	Statement Financial Performance, Notes to Annual Financial Statements and AR	0%		0%	2021/22 Projected 4	
					Irregular, Fruitless and Wasteful and Unauthorised Expenditure	-		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense	-		
3	Remuneration as % of Total Operating Expenditure	Remuneration (Employee Related Costs and Councillors' Remuneration) /Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	25% - 40%		32%	2021/22 Projected 4	
					Employee/personnel related cost	463 803 559		
					Councillors Remuneration	12 400 990		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense			
4	Contracted Services % of Total Operating Expenditure	Contracted Services / Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	2% - 5%		17%	2021/22 Projected 4	Cost analysis conducted to deliver cost effective services.
					Contracted Services	247 339 639		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense			
E. Grant Dependency								
1	Own funded Capital Expenditure (Internally generated funds + Borrowings) to Total Capital Expenditure	Own funded Capital Expenditure (Internally generated funds + Borrowings) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information), Budget, IDP, In-Year	None		98%	2021/22 Projected 4	
					Internally generated funds	69 153 867		
					Borrowings	94 085 225		

			reports and AR		Total Capital Expenditure	274 774 547		
2	Own funded Capital Expenditure (Internally Generated Funds) to Total Capital Expenditure	Own funded Capital Expenditure (Internally Generated Funds) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements, (Statement of Comparative and Actual Information) Budget, IDP, In-Year reports and AR	None		25%		
					Internally generated funds	69 153 867	2021/22 Projected 4	
					Total Capital Expenditure	274 774 547		
3	Own Source Revenue to Total Operating Revenue(including Agency Revenue)	Own Source Revenue (Total revenue - Government grants and Subsidies - Public Contributions and Donations)/ Total Operating Revenue (including agency services) x 100	Statement Financial Performance, Budget, IDP, In-Year reports and AR	None		92%		
					Total Revenue	1 477 495 355		
					Government grant and subsidies	139 882 100	2021/22 Projected 4

2. FINANCIAL PERFORMANCE								
A. Efficiency								

1	Net Operating Surplus Margin	(Total Operating Revenue - Total Operating Expenditure)/Total Operating Revenue	Statement of Financial Performance, Budget, In-Year reports, AR, Statement of Comparison of Budget and Actual Amounts and Statement of Changes in Net Asset	= or > 0%		2%	2022/23 Projected 3	Refer to fluctuations in the housing grant (operational vs capital)
					Total Operating Revenue	1 472 059 618		
					Depreciation - Revalued Portion (Only populate if depreciation line item in the Statement of Financial Performance is based on the revalued asset value)			
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense			
2	Net Surplus /Deficit Electricity	Total Electricity Revenue less Total Electricity Expenditure/Total Electricity Revenue x 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	0% - 15%		10%	2022/23 Projected 3	
					Total Electricity Revenue	539 847 490		
					Total Electricity Expenditure	487 314 290		
3	Net Surplus /Deficit Water	Total Water Revenue less Total Water Expenditure/Total Water Revenue x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%		2%	2022/23 Projected 3	
					Total Water Revenue	153 343 776		
					Total Water Expenditure	149 737 045		
4	Net Surplus /Deficit Refuse	Total Refuse Revenue less Total Refuse Expenditure/Total Refuse Revenue x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= or > 0%		1%	2022/23 Projected 3	
					Total Refuse Revenue	97 810 681		
					Total Refuse Expenditure	96 823 122		
5	Net Surplus /Deficit Sanitation and Waste Water	Total Sanitation and Waste Water Revenue less Total Sanitation and Waste Water Expenditure/Total Sanitation and Waste Water Revenue x 100	Statement of Financial Performance, Notes to AFS, Budget, IDP, In-Year reports and AR	= or > 0%		7%	2022/23 Projected 3	
					Total Sanitation and Water Waste Revenue	110 922 363		
					Total Sanitation and Water Waste Expenditure	103 421 157		
B. Distribution Losses								
1	Electricity Distribution Losses (Percentage)	(Number of Electricity Units Purchased and/or Generated - Number of units sold) / Number of Electricity Units Purchased and/or generated) x 100	Annual Report, Audit Report and Notes to Annual Financial Statements	7% - 10%		8%	2022/23 Projected 3	
					Number of units purchased and/or generated	253 421 833		
					Number of units sold	236 216 336		
2	Water Distribution Losses (Percentage)	(Number of Kilolitres Water Purchased or Purified - Number of Kilolitres Water Sold) / Number of Kilolitres Water Purchased or Purified x 100	Annual Report, Audit Report and Notes to Annual Financial Statements	15% - 30%		25%	2022/23 Projected 3	
					Number of kilolitres purchased and/or purified	7 797 824		
					Number of kilolitres sold	5 887 357		
C. Revenue Management								
1	Growth in Number of Active Consumer Accounts	(Period under review's number of Active Debtor Accounts - previous period's number of Active Debtor Accounts)/ previous number of Active Debtor Accounts x 100	Debtors System	None		0%	2022/23 Projected 3	
					Number of Active Debtors Accounts (Previous)	46 755		
					Number of Active Debtors Accounts (Current)	46 755		
2	Revenue Growth (%)	(Period under review's Total Revenue - previous period's Total Revenue)/ previous period's Total Revenue) x 100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	= CPI		2%	2022/23 Projected 3	
					CPI	5%		
					Total Revenue (Previous)	1 477 435 355		
					Total Revenue (Current)	1 514 199 650		
3	Revenue Growth (%) - Excluding capital grants	(Period under review's Total Revenue Excluding capital grants- previous period's Total Revenue excluding capital grants)/ previous period's Total Revenue excluding capital grants) x 100	Statement of Financial Performance, Notes to AFS , Budget, IDP, In-Year reports and AR	= CPI		4%	2022/23 Projected 3	
					CPI	5%		
					Total Revenue Ext.Capital (Previous)	1 415 838 595		
					Total Revenue Ext.Capital (Current)	1 472 059 618		
D. Expenditure Management								
1	Creditors Payment Period (Trade Creditors)	Trade Creditors Outstanding / Credit Purchases (Operating and Capital) x 365	Statement of Financial Performance, Notes to AFS, Budget, In-Year reports and AR	30 days		27 days	2022/23 Projected 3	
					Trade Creditors	68 500 000		
					Contracted Services	154 005 936		
					Repairs and Maintenance	131 867 592		
					General expenses	113 464 549		
					B/E Purchases	385 186 704		
					Capital Credit Purchases (Capital Credit Purchases refers to additions of Investment Property and Property,Plant and Equipment)	142 286 195		
2	Irregular, Fruitless and Wasteful and Unauthorised Expenditure / Total Operating Expenditure	(Irregular, Fruitless and Wasteful and Unauthorised Expenditure) / Total Operating Expenditure x100	Statement Financial Performance, Notes to Annual Financial Statements and AR	0%		0%	2022/23 Projected 3	
					Irregular, Fruitless and Wasteful and Unauthorised Expenditure	-		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense	-		
3	Remuneration as % of Total Operating Expenditure	Remuneration (Employee Related Costs and Councillors' Remuneration) /Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	25% - 40%		33%	2022/23 Projected 3	
					Employee personnel related cost	482 942 365		
					Councillors Remuneration	12 906 071		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense			
4	Contracted Services % of Total Operating Expenditure	Contracted Services / Total Operating Expenditure x100	Statement of Financial Performance, Budget, IDP, In-Year reports and AR	2% - 5%		17%	2022/23 Projected 3	Cost analysis conducted to deliver cost effective services.
					Contracted Services	251 831 862		
					Total Operating Expenditure	1 495 006 432		
					Taxation Expense			
E. Grant Dependency								
1	Own funded Capital Expenditure (Internally generated funds + Borrowings) to Total Capital Expenditure	Own funded Capital Expenditure (Internally generated funds + Borrowings) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information), Budget, IDP, In-Year	None		46%	2022/23 Projected 3	
					Internally generated funds	15 000 000		
					Borrowings	50 000 000		

			reports and AR		Total Capital Expenditure	142 286 195		
2	Own funded Capital Expenditure (Internally Generated Funds) to Total Capital Expenditure	Own funded Capital Expenditure (Internally Generated Funds) / Total Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, Notes to the Annual Financial Statements (Statement of Comparative and Actual Information) Budget, IDP, In-Year reports and AR	None		11%		
					Internally generated funds	15 000 000	2022/23 Projected 3	
					Total Capital Expenditure	142 286 195		
3	Own Source Revenue to Total Operating Revenue(Including Agency Revenue)	Own Source Revenue (Total revenue - Government grants and Subsidies - Public Contributions and Donations)/ Total Operating Revenue (including agency services) x 100	Statement Financial Performance, Budget, IDP, In-Year reports and AR	None		93%		
					Total Revenue	1 514 199 660		
					Government grant and subsidies	144 977 100	2022/23 Projected 3	
					Public contributions and Donations	1 312 032		
					Capital Grants	40 828 000		
3. BUDGET IMPLEMENTATION								
1	Capital Expenditure Budget Implementation Indicator	Actual capital Expenditure / Budget Capital Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, In-Year reports and AR	95% - 100%		100%		
					Actual Capital Expenditure	142 286 195	2022/23 Projected 3	
					Budget Capital Expenditure	142 286 195		
2	Operating Expenditure Budget Implementation Indicator	Actual Operating Expenditure / Budgeted Operating Expenditure x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%		100%		
					Actual Operating Expenditure	1 495 006 432	2022/23 Projected 3	
					Budget Operating Expenditure	1 495 006 432		
3	Operating Revenue Budget Implementation Indicator	Actual Operating Revenue / Budget Operating Revenue x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%		100%		
					Actual Operating Revenue	1 472 059 618	2022/23 Projected 3	
					Budget Operating Revenue	1 472 059 618		
4	Service Charges and Property Rates Revenue Budget Implementation Indicator	Actual Service Charges and Property Rates Revenue / Budget Service Charges and Property Rates Revenue x 100	Statement of Financial Position, Budget, AFS Appendices, IDP, In-Year reports and AR	95% - 100%		100%		
					Actual Service Charges and Property Rates Revenue	1 152 018 016	2022/23 Projected 3	
					Budget Service Charges and Property Rates Revenue	1 152 018 016

ANNEXURE I

mSCOA IMPLEMENTATION

ANNEXURE I1/6

MUNICIPAL REGULATIONS ON A STANDARD CHART OF ACCOUNTS (mSCOA):

POST IMPLEMENTATION STATUS OF mSCOA PROJECT - MAY 2021

---

1. Executive Summary

The purpose of this submission to Council is to:

1. Inform Council on specific initiatives to date by National Treasury to enable a full and complete understanding of the scope and extent of the SCOA implementation as applicable to all municipalities and municipal entities;
2. Report to Council on progress made to date with the implementation of mSCOA at the Overstrand Municipality since the previous report to Council.
3. Maintain an on-going awareness of specific mSCOA initiatives in the Overstrand Municipality; and
4. Considerations on the way forward with the core financial system, being Samras Classic, currently in use by the Overstrand Municipality.

A comprehensive supplementary report in this regard, providing the necessary detail with regard to background and historic information over the past number of years for this National Treasury project, was also included up to 31 December 2019, as part of the reporting to Council.

2. Updated status - March 2021 (Quarter 3)

mSCOA Project Governance and Management: Solvem (previously Bytes Systems Integration) and engagements with regard to the Samras Financial System)

It was reported to Council (Dec 2020, Quarter 2) that Overstrand Municipality received correspondence on 31 December 2020 from the service provider (Bytes Systems Integration) for the financial system currently in use (SAMRAS), inclusive of the following notification as corresponded to National Treasury:

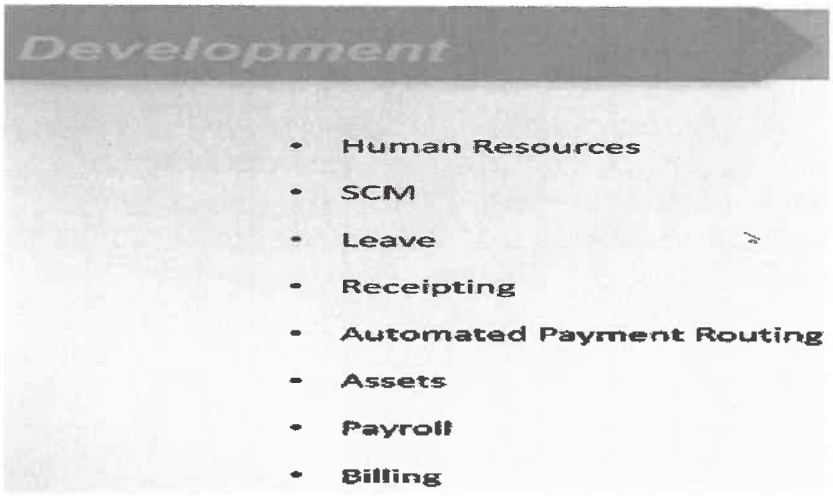

"this letter serves to advise that the service provider for the SAMRAS system has changed from Altron TMT (Pty) Ltd to Solvem Consulting (Pty) Ltd. The effective date of the business transfer is the 1 December 2020. The transfer of the resources will be the 1 January 2021. The SAMRAS product and service offerings remain the same. The full resource team transfers in a section 197 process and hence continuity of service will be uninterrupted to our current clients."

It was also confirmed that this development will be closely monitored and any important matters impacting on the Overstrand contract, service rendering levels, etc. will be reported to Council, with the continuation of this quarterly report, due to the process still not leading to a close-out report in the near future.

The most recent SOLVEM SAMRAS Usergroup workshops and meeting took place as virtual sessions on 3 & 4 March 2021 respectively. The feedback provided to municipalities focused on the continuous development of the Web system modules and importantly, efforts currently with regard to the gradual migration of West Coast District

Municipality, Stellenbosch Municipality, and lately George Municipality, in particular to the web modules. Progress with these efforts are currently at various stages, which could not be established as completed migration processes from the classic environment to the web. Other instances of municipalities involved and the extent of these municipal sites where specific web module testing is currently underway, or planning processes could not be established during these workshops and the usergroup meeting on the 4th of March 2021, to provide the necessary evidence and confirmation that the service provider is currently in a position to provide the required resources and detailed project plan for a viable migration process with regard to any substantial module or section of a module, to the web-based platform.

The service provider provided the following feedback in terms of further development of web modules attended to, since the previous usergroup meeting towards the end of 2020, up to the end of February 2021:

The following status as previously reported to Council with regard to the auditing of ERP mSCOA systems as announced by national treasury, is unchanged at this stage (March 2021):
The outcome of the audit of ERP mSCOA Systems by National Treasury, as previously advised by them (scheduled for 2019, subsequently postponed to 2020, currently scheduled for 2021), has not been received up to date.

The mSCOA Committee is currently investigating above-mentioned and awaits detailed information requested from the service provider, in order to consider the appropriate approach in ensuring that the municipality will not be exposed to risk from either an operational- and/or monitary perspective in this regard. The absence of any clear direction from National Treasury in terms of the outcome of systems audits and their envisaged transversal tender process and specifications, are compounding challenges for municipalities in view of the caution expressed in the municipal budget circular no 108 of 8 March 2021, stating as follows:

4.5 Independent Audits on Municipal Financial Systems

All municipalities and municipal entities had to comply with the mSCOA Regulations by 1 July 2017. MFMA Circular No. 80 provided guidance on the minimum business processes and system specifications for all categories of municipality (A, B and C). The Request for Proposal (RFP) issued on 4 March 2016 for the appointment of service providers for an integrated financial management and internal control system for local government (RT25-2016 published

in Tender Bulletin No. 2906), provided further guidance on the requirements applicable to a specific category of municipality.

The National Treasury will conduct independent audits on all municipal financial systems in 2021 to determine to what extent the financial systems that are currently being used by municipalities comply with the minimum business processes and system specifications required in terms of mSCOA. These audits were initially planned for 2020, but due to restrictions on procurement processes and travel in terms of the COVID-19 pandemic it was postponed to 2021. The results of the audits will also inform the new transversal tender for the procurement of municipal financial and internal control systems in 2022. ***Until these audits have been concluded, and the results have been released, municipalities should exercise caution when changing their financial system to avoid purchasing a system that does not comply with the necessary mSCOA functionality requirements.*** *However, should a municipality need to procure a new financial system, they must follow the processes set out in the MFMA read together with the Municipal Supply Chain Management Regulations and MFMA Budget Circulars No. 93, 98 and mSCOA Circulars No 5 and 6. In addition, National Treasury has not accredited any of the municipal financial systems available in the market and this should therefore not be advertised as a requirement in municipal tender documents.*

It should be emphasised that the onus to ensure compliance with the mSCOA Regulations and minimum system specifications as per MFMA Circular No. 80 and its Annexure B rests with the municipality and not the system vendor. Municipalities must properly manage Service level agreements (SLA) with system vendors. Penalties, including the termination of the SLA in cases of persistent non-compliance, should be imposed if the system vendor does not meet the agreed upon milestones. Likewise, if a system vendor has delivered on the services agreed upon in the SLA, then the municipality should pay all money owing to the system vendor within 30 days of receiving the relevant invoice or statement, as per the requirements of Section 65(2)(e) of the MFMA. Lastly, municipalities must agree on the services that are to be provided by the system vendors and costs thereof in the SLA that is signed by the municipality and system vendor. Municipalities should consider the financial implications thereof and negotiate more favourable terms with the system vendor if necessary before signing the SLA. Once signed, the SLA is legally binding.

4.6 Regulation of Minimum Business Processes and mSCOA System Specifications

National and Provincial Treasuries held extensive engagements with key system providers during which the system functionality on the following were demonstrated: IDP and budget, supply chain management (SCM), asset management, annual financial statements, revenue management, cash flow and period control. These engagements provided National and Provincial Treasuries with an understanding of what functionality is available on each system and what the key system related challenges are.

It was evident from the engagements that municipalities are not using their financial systems optimally. Some of the challenges that were identified in this regard include the following:

- *Some municipalities have not purchased all the modules of the core financial system or have not upgraded to the Enterprise Resource Planning (ERP) (mSCOA enabling) version of their financial systems;*
- *A few municipalities are not paying for the required licences to use system solutions and they are not upgrading and maintaining their servers, hardware and software to become and remain mSCOA compliant and to protect their data;*
- *Several municipalities are still transacting on their legacy systems that are not mSCOA enabling or they are using excel spreadsheets that are not incorporated in the functionality of their financial systems, while they are paying for maintenance and support for the mSCOA enabling system that was procured. This constitutes fruitless and wasteful expenditure; and*
- *Other municipalities are not using all the modules of the core financial system (using 3rd party systems) while they have procured these modules. This is once again fruitless and wasteful expenditure.*

Municipalities should include the cost of the above in their 2021/22 MTREF budgets.

One of the key objectives of the mSCOA reform is to ensure that municipalities are budgeting, transacting and reporting directly on and from integrated ERP systems to have one version of the truth in terms of the reported financial performance. The manual correction of data strings by municipal officials or system vendors are not allowed in terms of the mSCOA Regulations. National Treasury will expand and regulate the business processes and system specifications communicated in MFMA Circular No. 80 and its Annexure B in the 2021/22 MTREF to ensure that municipalities are using the functionality available on their financial systems. MFMA Circular No. 80 was issued in 2016, and several Regulations and best practises as per the MFMA Circulars have been introduced since then. The expansion of the requirements will accommodate these new developments.

4.7 Non-compliance with mSCOA requirements

If your municipality has not yet achieved the required level of mSCOA implementation, then it must provide a detailed action plan (road map) to the National and the respective provincial treasury to indicate how the municipality will fast track the implementation of mSCOA. The action plan should include the following priority areas, as applicable to the municipality:

- *The functionality of the financial system, including the minimum system functionality and business process as per MFMA Circular No. 80 and Annexure B and functionality required in terms of Regulations and MFMA Circulars that was issued after 08 March 2016 (the date on which MFMA Circular No. 80 was issued);*
- *Integration of 3rd party sub-systems with the mSCOA enabling financial system as required in terms of MFMA Circular No. 80 and Annexure B;*
- *Change management initiatives to ensure that mSCOA is institutionalised as an organisational reform and not only a financial reform; and*
- *Training initiatives to ensure that all officials in the organisation are familiar with the mSCOA chart, basic accounting, balance sheet budgeting and movement accounting and the use of the mSCOA enabling financial system.*

Importantly, the action plan must be drafted by the municipality and not the system vendor and the progress against it should be carefully monitored by the municipality's mSCOA Project Steering Committee (chaired by the Accounting Officer). Municipalities must present progress against the action plan at the 2020/21 Mid-Year Budget and Performance visits and Budget and Benchmark engagements with the National and the respective provincial treasury.

4.8 Extension and Procuring of Service Level Agreements (SLA) for Financial Systems

At least six (6) months prior to the expiry of the SLA for the support and maintenance of the financial system, the municipality should either:

- *Extend the existing SLA with the same system vendor subject to the provisions of Section 33 and 116(3) of the MFMA (read in conjunction with MFMA Circular No. 62); or*
- *Approach the market to procure services for the support and maintenance of the financial system consistent with the Municipal Supply Chain Management Regulations and municipality's Supply Chain Management Policy.*

Importantly, once the SLA has expired, it cannot be extended, and the municipality will have to embark on a new procurement process. In addition, when the contract for the support and maintenance of the financial system comes to an end, it does not mean that the municipality must procure a new financial system. It is only support and maintenance services pertaining to the financial system that needs to be procured. Municipalities need to properly document their systems and the system language used to ensure that system support can be procured in the local market when required.

National Treasury issued the following Circulars and guidance relating to mSCOA from December 2020 to March 2021:

i. *Municipal Budget Circular (No 107) for the 2021/22 MTREF - 04 December 2020;*
ii. *Municipal Budget Circular (No 108) for the 2021/22 MTREF - 08 March 2021:)*

The Draft and Final budgets were compiled according to the latest chart available on the financial system:

mSCOA Segment Detail - (Patch to Final Version 6.5 - 26 Mar 2021) for implementation 2021/22
mSCOA Segment Detail - (Final Version 6.5 - 4 Dec 2020) for implementation 2021/22

It was furthermore now noted in the Circular for this draft budget cycle (No 108), that some municipalities are not transferring their opening balances consistently to the current year of transacting. Opening balances for the previous year must be transferred in the first month (M01) of the current year, and all adjustments made during the preparation of the annual financial statements in period 14 and 15 must be transferred through journals to the opening balances of the current year in the month that it becomes apparent. When municipalities are not doing this correctly and consistently, it compromises the credibility of the mSCOA data strings submitted.
As previously mentioned in the 2020/21 Budget circular, *"challenges to populate the detail of cash payments will be addressed through chart amendments in version 6.5 of the chart"*. Furthermore, we also await the linking relating to cash flow in term of: *"National Treasury will share the linking of A1 Schedule Budget Tables SA30 and A7 to the mSCOA chart items to ensure that the cash flow information is populated correctly with municipalities and system vendors"* *Guidance has now been provided in Circulars 10 & 11*

Municipal SCOA Circular No. 7 - 02 March 2020: Guide on Construction Work in Progress (CWIP)
The principles stated in this circular were implemented during the 2019/2020 General Adjustments Budget, which served before Council on 26 February 2020 and was carried forward into the 2020/2021 Budget Cycle

Municipal SCOA Circular No. 8 - 24 April 2020: Guidance on Virement Policies for Municipalities
The guidance in this circular already forms an integral part of Overstrand municipality's Virement Policy.

Municipal SCOA Circular No. 9 - 09 June 2020: Reporting on COVID-19 using the mSCOA chart
The principle of Typical Workstream Projects relating to COVID-19 was implemented for the Special Adjustments Budget in June 2020, notwithstanding that is circular was issued on the same day that the Special Adjustments Budget was submitted to be tabled in Council.

Municipal SCOA Circular No. 10 – 14 October 2020: Cash Flow Guidance
This circular is to provide further guidance to municipalities on the correct use of the municipal standard chart of accounts (mSCOA) data strings to populate the cash flows tables in Schedules A, B and C of the Municipal Budget Reporting Regulations (MBRR)To ensure that the MBRR cash flow tables (A7, SA30, B7 and C7) are linked correctly to the mSCOA data strings.

National Treasury corrected the linkages in the segment item: asset and liabilities.

Municipal SCOA Circular No. 11 – 4 December 2020: Guidance on the use of the Fund Segment

The purpose of this circular is to provide guidance to municipalities on the use of the Fund segment.

Following the guidance provided in Circular 10, the following cash flow issues still had to be corrected and/or clarified:

- The recording of unallocated deposits;
- The duplication of capital assets other expenditure (trade and other payables – payables and accruals);
- The linking of construction Work-In-Progress (CWIP) to capital assets in Table A9 of the A1 Schedule;
- The linking of advance payments and retentions to the cash flow tables;
- The distinction of and payment between Inventory, Contracted Services and Other Expenditure line items not specifically listed under Liabilities in the mSCOA chart; and
- The linking of Income tax receivable, Income tax payables, Value Added Tax (VAT) receivable, VAT payable, Accrued interest on receivables to cash flow/payments.

COMMENTS ON THE DRAFT BUDGET & RESPONSES

PUBLIC COMMENTS ON DRAFT 2021/2022 BUDGET

#	ORGANISATION/ INDIVIDUAL	LODGED BY:	DATE	WATER & ELEC	SEWER	REFUSE	RATES	REMUNERATION	OTHER (SPECIFIED, COMBINED)	DIRECTORATE RESPONSE
1	**Franskraal Belastingbetalers & Inwonersvereniging**	**Edward de Kock**	01-Apr-21	Graag wil ons versoek watter elektrisiteit tarief vasstelling metode gebruik was om die verhoging van 15.36% te regverdig as bogenoemde in aggeneem word'					Met die uitsondering van Elektrisiteit is ons te vrede met die voorgestelde verhogings maar voel ons tog met die huidige voorspelbare groei an werkloosheid in sekere sektore wat deur die ekonome voorspelword, dat u moontlik in die gees daarvan heroonveging gee aan die begrote uitgawes en tariewe om dit ook vir die inwoners meer bekostigbaar te maak in hierdie tyd van dalende en/of geen inkomste. **Refer to actual comment for details.**	The National Energy Regulator of South Africa (NERSA) approved a Municipal Tariff Guideline increase ('Guideline increase') for the 2021/22 financial year,of 14.59%, applicable to consumers of the municipality, for of electricity. The municipality however, must provide for an increase of 17.8% on the monthly account for bulk electricity purchases of the municipality from Eskom. Taking into account that 70.8% of the Revenue for Electricity Service Charges will be spend on expenditure for the Bulk Purchases payable to Eskom, excluding maintenance costs of an extensive Electricity infrastructure of billions, and all other overheads and operational costs, it is clear that tariff increase is realistic, aiming to maintain this critical service to the benefit of the Overstrand community.
2	**Ward 1 Committee Member**	**André Wagener**	12-Apr-21						Franskraal and Uilenkraalsmond Stormwater Upgrading The purpose of this project, as stated in the Engineering and Impact Assessment Reports, is to alleviate the occasional flooding of Uilenkraalsmond Holiday Resort, (UKM). The problem is that UKM is situated outside of Overstrand Municipal boundaries. It is leased by the Overberg District Municipality from the Department of Public Works. It is State property. To transfer this problem to the account of the Overstrand ratepayers without any benefits to them, would not only be irregular, but probably unconstitutional and unethical. A ratepayer should not fund the State. **Refer to actual comment for details.**	Stormwater flows from the Franskraal,which is a municipal area to the Uilenkraalsmond area. It must be noted that the area was flooded in the past.The Common Law indicates that the lower laying erven must accommodate free flowing stormwater from the higher laying ervan, unless it is not concentrated. The stormwater is concentrated at this point through Uilenkraalsmond and the municipality is required to minimise the impact of the stormwater towards Uilenkraalsmond to avoid possible damage in the future. The project consist of a retention pond as well as a stormwater pipe drilled through the dune. Environmental authorisation was obtained for the project and a public participation process was done during this process.
3	**Individual**	**Mike Botha**	14-Apr-21	The tariff increase for bulk electricity is 15, 6% while the growth in revenue from service charges is 24, 01%.			Property rates will increase by 14% over the next 3 years to cover general community and support services. What services are covered here?	**Employee related cost (cost to company) goes further than Basic Salaries and Wages.**	List of QUESTIONS: BUDGET 2021/2022 – 14th APRIL 2021 Revenue ito capital grants will decline in future years (-16.7%; -39%; - 32.6% = - 88% over 3 years). It was noted that the implementation of the mSCOA web- system - project is slow, not effective and therefore poses a governance risk on the administration. **Refer to actual comment for details.**	Responses on multiple questions attached. (IDP & Budget related)

ANNEXURE K1 1/4

#	ORGANISATION/ INDIVIDUAL	LODGED BY:	DATE	WATER & ELEC	SEWER	REFUSE	RATES	REMUNERATION	OTHER (SPECIFIED, COMBINED)	DIRECTORATE RESPONSE
4	PRINGLE BAY RATEPAYERS' ASSOCIATION	AW Vorster	19-Apr-21						Roads, we find no evidence that the recommendations contained in our report regarding Routine Maintenance, Corrective Maintenance or Rehabilitation of gravel streets are taken into consideration in the budget. Page 3: Stormwater, we find no evidence that the recommendations contained in our report regarding the requirement to upgrade stormwater drainage along our gravel streets are taken into consideration in the budget. We have identified the lack of proper stormwater drainage as the primary problem causing the deterioration of our streets. Ward Specific Projects, we find no evidence that any of 3(a) or 3(b) above are addressed in this part of the budget. **Refer to actual comment for details.**	We have not started with Corrective Maintenance or Rehabilitation of roads since the report submitted, due to a lack of gravel material. Some routine maintenance have been done. Stormwater channels will also be addressed once Corrective or Rehabilitation is being done
5	Individual	Peter Berrisford	19-Apr-21						Concern about the threat of fires in our municipality and especially in Betty's Bay The Cape Town fire is a wake up call! Imagine a meeting after a fire has totally devastated our area! A 100 million rand of damages. Small fires Plot clearing Special Container Reserve Fund **Refer to actual comment for details.**	The municipality had it's final Budget Steering Committee meeting on 6 May 2021, where approval was granted for the budget provision for clearing of alien vegetation and fire breaks to be increased.
6	Individual	Alette Rousseau	20-Apr-21					I was just sorry to hear that the salaries have been raised with 4 1/2% in spite of a request not to raise salaries this year. This brings the budget into a deficit which could be avoided.	I appreciate the excellent work of our Municipality to keep our area well run and beautiful.	The municipality was also dissapointed to learn that the mandate of zero percent general annual increase, as indicated by the municipalities in the Western Cape through SALGA, did not influence the initial proposals related to salary negotiations. The municipality is however obliged to estimate and provide for expenditure in accordance with information available.

KI 2/4

#	ORGANISATION/ INDIVIDUAL	LODGED BY:	DATE	WATER & ELEC	SEWER	REFUSE	RATES	REMUNERATION	OTHER (SPECIFIED, COMBINED)	DIRECTORATE RESPONSE
7	Individual	Alfred Faku	23-Apr-21						Objection of the Zwelihle Budget 2021/2022 The Capital Budget was not clear and confirmed at the Budget roadshow. The meeting was not properly organised. Ward meeting should have been seperated. Not all agenda points were dealth with. The closure of the meeting was supposed to be by the mayor as per agenda,however it did not happen. Refer to actual comment for details.	The Mayor corresponded with Mr Faku in clarifying the arrangements to present the budget to the community (letter attached).
8	BETTY'S BAY RATEPAYERS ASSOCIATION (BBRA)	Werner Zybrandt	26-Apr-21	The proposed across the board tariff increases at 4% are reasonable but in most cases there is a further marginal increase due to VAT at 15% (property rates excluded).				Staff expenditure	The bulk of the proposed operating expenditure cannot be faulted but is qualified in the following respects: **Operating Expenditure:** Baboon management Road maintenance **Capital Expenditure:** Water network Camera project Sub Fire station Clarence Drive (R44) **Refer to actual comment for details.**	The actual comment calls for more dust control on gravel roads - For the past three (3) years we receive an allocation of R1 000 000 for Dust Control and this needs to be split between Betty's Bay and Pringle Bay.
9	Bettys Bay Conservancy	Pete Oxford	29-Apr-21						Municipal public waste bins should be fully baboon/animal proofed. There is NOT A SINGLE such bin in Bettys Bay, yet is a requirement to the Strategic Baboon Management Plan. The few rotary type Fernwood bins are NOT baboon proof nor very practical. Attractive road signage advertising the fact that Bettys Bay is a proud member of the Kogelberg Biosphere Reserve. We need to protect the wetlands WITHIN the urban area. Environmental education **Refer to actual comment for details.**	We agree with the comment that the municipal public bins in problem animal declared areas need to comply with the By-law and be animal proofed. The bins previously used in the area as Baboon / animal proof bins were polywood rotary bins that Mr Oxford referred to. (These bins have proven to be problematic, as the only have a small disposal opening and therefore cannot accept bulkier wastes which are then often either placed on top of or next to the bin.) At the beaches in the area open top swing bins have historically been used to date and these will need to be lidded or replaced as they do not comply with the By-law. A trial locking lid was added to one of the open bins at the Bettys Bay main beach and a second different design was trailed at Grotto braai area in Hermanus the last time I went past both them they were still working quite well and either of these two trail options could be implemented on a larger scale to address the non-compliance with regards to the swing bins where required.

#	ORGANISATION/ INDIVIDUAL	LODGED BY:	DATE	WATER & ELEC	SEWER	REFUSE	RATES	REMUNERATION	OTHER (SPECIFIED, COMBINED)	DIRECTORATE RESPONSE
10	Individual	J H BRIERS	29-Apr-21	The units electricity charge of about 16% that can be attributed to "attributed to the substantial increase in the cost of bulk electricity from Eskom " is supported. The increases of fixed cost or service charge for electricity the same as that of the price per unit used, namely about 16% is irrational. The Availability fee / fixed cost charge per electricity meter, namely R 385.64, must be reduced or remain unchanged and a way find to further reduce this cost in future. This cost should rather be included in the unit cost.					The budget must take cognisant of the continuing decreasing income of the Overstrand ratepayers. Activities such as parks management, road verges, alien invasive tree control, block burning, road maintenance and possibly a number of other activities are done without specific Park- or Fire-management plans. The VAT rate on fixed cost or availability fees should be 0%. That the loss of income due to the abovementioned proposals be off-set by: • Freezing all vacant positions in principle and only filling those positions that would ensure basic service delivery; • Ensuring that all staff performances are carefully aligned to ensure maximum efficiency and value for money efficacy; and • Work should be done in accordance with clear Management Plans. • Reduce of water distribution loss. **Refer to actual comment for details.**	Road maintenance is being dictated by the available funding.
11		Councillor Orban	30-Apr-21						Request for Ward 13 Capital projects to be completed 1. Atlantic drive walkway completion (+/- R600 0000 2. Paving of Davies Pool parking area (+/- R300 000) 3. Sidewalks with cycle lane in Onrus main road 4. Completion of Dog park - Wall along the R43 5. Shearwater stormwater canal completing 6. Speed calming measures throughout the ward (+/- R150 000	1. Project will proceed (Draft WSP - R200 000) 2. Not on Draft WSP 3. Not on Draft WSP 4. Funds to be rolled over. 5. Not on Draft WSP 6 Not on Draft WSP

2021/2022 VOORLOPIGE BERGROTING KOMMENTAAR

Graag wil ek namens die Franskraal Belastingbetalers- en Inwonersvereniging van die geleentheid gebruik maak om u Raad geluk te wens met die samestelling van die voorlopige 2021/2022 begroting wat op sigself 'n moeilike taak moes gewees het.

Maar soos dit met enige begroting gaan sal daar altyd 'n paar onduidelikhede en bekommernisse wees en wil ons graag die volgende kommentaar lewer ten opsigte van die voorgestelde begroting.

Met die uitsondering van Elektrisiteit is ons te vrede met die voorgestelde verhogings maar voel ons tog met die huidige voorspelbare groei en werkloosheid in sekere sektore wat deur die ekonome voorspel word, dat u moontlik in die gees daarvan heroorweging gee aan die begrote uitgawes en tariewe om dit ook vir die inwoners meer bekostigbaar te maak in hierdie tyd van dalende en/of geen inkomste.

1. Elektrisiteit

Gedurende die OMAF vergadering was aangedui dat die Munisipaliteit vir 15.36% Grootmaat Aankope vanaf Eskom voorsiening gemaak het in die begroting, maar ook in dieselfde tyd aangedui dat die Huishoudelike tarief ook as gevolg van dié verhoging ook met 15.36% verhoog word wat nie heeltemal sin maak.

As inagegemeen word dat dat die munisipaliteit se grootmaat aankope ongeveer 66% van die elektristeit begroting uitgawe verteenwoordig, is die 15.36% verhoging dan net van toepassing op die gedeelte van die begroting en ander 35% is onderhewig aan heelwat laer verhoging soos voorgeskryf deur Nasionale Tesourie in hul begrotings omskrywe.

Volgens die voorlopige begroting vir 2021/22 was die wins voorsiening die vorige twee jaar +/- 3% en word daar vir die 2021/22 amper 10% voorsien. Gesien in die lig van huidige swak ekonomiese vooruitsigte word die vraag gevra of dit werklik geregverdig is vir 'n wins grens van 10%. Hoewel dit as die norm aanvaar word dat die wins grens vir elektrisiteits

dienste 10% behoort te wees wil ons verneem of die Raad dit kan oorweeg om die styging van 7% oor 'n periode infasseer.

Graag wil ons versoek watter elektrisiteit tarief vasstelling metode gebruik was om die verhoging van 15.36% te regverdig as bogenoemde in aggeneem word.

U goedgunstige oorweging van ons versoek word hoog op prys gestel en indien moontlik ons u antwoord kan verwag voor Woensdag 7 April 2021 se Publieke Vergadering wat in Gansbaai sal plaasvind.

Subject: Draft Budget 2021/22: Franskraal and Uilenkraalsmond Stormwater Upgrading

Sir,

Thank you for inviting me to raise my concerns about this project to you in writing. It was such a pleasure to attend such a well organized and congenial Draft Budget meeting online, yesterday.

The purpose of this project, as stated in the Engineering and Impact Assessment Reports, is to alleviate the occasional flooding of Uilenkraalsmond Holiday Resort, (UKM).

The problem is that UKM is situated outside of Overstrand Municipal boundaries. It is leased by the Overberg District Municipality from the Department of Public Works. It is State property.

To transfer this problem to the account of the Overstrand ratepayers without any benefits to them, would not only be irregular, but probably unconstitutional and unethical. A ratepayer should not fund the State.

There is also no legal compulsion for our Municipality to address this issue at our cost, since one of the oldest Common Law principles renders us not legally responsible for our stormwater runoff. Keep in mind as well that the flooding occurred in 2013, and never again in the past 7/8 years.

I have no doubt that this project was initiated in good faith and in the spirit of Overstrand Municipality's exemplary service delivery ethos, but the ownership of UKM was not common knowledge then and the Impact Assessment and Engineering Reports did not exercise this due dilligence.

Now the facts are on the table though, and it is obvious that further spending on this project would be highly controversial and contentious, which could impact on a future clean audit.

Ka 4/56

In conclusion I must point out that the Franskraal Ratepayers Association stated their opposition to this project in writing, to the Municipal Manager on 09/09/2020. To date they have not received a reply. Their Chairman, Mr Mitchell did not mention it again at the above meeting, as I had brought it up before he was given a speaking opportunity.

In the light of the above, this project does not merit inclusion in Overstrand Municipality's Budget.

Please be assured of my wholehearted and loyal support and admiration for the professional and enthusiastic service delivery of Overstrand Municipality.

Yours Faithfully
André Wagener
Ward 1 Committee Member

Ka 5/5L

QUESTIONS: BUDGET 2021/2022 – 14th APRIL 2021

Die begroting is n omvattende dokument en dit ontlok vrae by die belastingbetalers wat poog om te verstaan hoe kostes hul huishoudings sal raak. Dankie vir hierdie uitnodiging om vrae te stel wat kwel. Ons hoop op n goeie antwoord.

1. The following questions were asked at the meeting of the Advisory Forum and although the Mayor promised to respond, he neglected to do so. This unacceptable conduct was discussed in the Overstrand Herald. It confirms the perception that public meetings and public participation sessions are of no value to the Democratic Party.

   The questions were:

   1.1 More clarity is needed in terms of the municipality's performance to date in terms of the "top layer" IDP criteria.

   1.2 Performance management remains a grey area and much refinement is required. It is difficult to understand how project proposals can take up to 5 years to be implemented?

   1.3 How is the performance of the municipality linked to performance bonuses (R317m?) of employees?

   1.4 Employee related cost (cost to company) goes further than Basic Salaries and Wages. It should be explained in the context of the expenditure budget. It seems as if more and more functions / tasks (roads, electricity, water, sanitation, refuse,) are not performed by employees while the salaries budget is growing (4, 5% +1, 9%). A previous proposal to restructure the organisation to become more effective and efficient was ignored. In general, the implementation of the mSCOA puts, emphasis on good governance, administration/accounts rather than on effective systems for basic service delivery).

   The total number for personnel increased (1, 2 %) from 1 081 to the current 1211 while the "headcount is 1 186. Please explaine?

   What % of the Operational Expenditure Budget goes to:

   1.4.1 Employee Related Cost (all benefits included – 32, 7%)
   1.4.2 Salaries and Wages
   1.4.3 Councillors
   1.4.4 Contractors (R97 644)
   1.4.5 Outsourced contracted services (Total of R239 915 on p100, compared to total of R249 on p21, 6m – please clarify?) norm 2% to 5%
   1.4.6 Consultants and Professional services (R38 471)
   1.4.7 Repairs and Maintenance (norm 8%)

   1.5 Salaries of people in key positions should be comparable to the broad market. It became evident that 30% of municipal officials in managerial positions don't have the required qualifications or experience and are not subject to strict performance criteria. What is the position at the OM?

K2 6/56

2. The tariff increase for bulk electricity is 15, 6% while the growth in revenue from service charges is **24, 01%.** Please clarify? There is no increase in service tariffs for water infrastructure and the same rule should be applicable to electricity infrastructure.
    - What is the OM's position ito the installation of private solar systems? How will reduced consumption impact on the cost of service charges?
    - Is service charges on the availability of the network / grid is the main source of revenue! Availability and not consumption became the most important source of income (R479 055 m)? What is the increase % and is this approach sustainable?
    - Will independent providers of electricity be charged with an additional rate for the use of the grid? See SALGA'S proposal and ESKOM's view that municipalities cannot claim exclusive rights for the distribution of electricity. Please clarify?
    - What are the OM's plan for the generation of solar/wind energy by IPP's?
    - What % of electricity bought is lost out of the system due to: theft, not metered, system (norm 7% - 10%)? What is the value of loss in Rc?
    - How many households pay a flat rate for services and how much is it? And how many households receive free basic services?
    - What % of water is lost out of the system due to: bursts,theft, not metered, system (norm 15% - 30%) ? What is the value of loss in Rc?
    -
3. Revenue ito capital grants will decline in future years (-16.7%; -39%; - 32.6% = - 88% over 3 years). How will drastic decline ito the capital programme impact on related segments of the budget? Please clarify the increase in operational expenditure of 7, 9 %?
4. Property rates will increase by 14% over the next 3 years to cover general community and support services. What services are covered here?
5. Stakeholders advised that the desperate economic and financial realities, plus the impact of Covid, should be taken in consideration by the budget because numerous households cannot afford more expenses. Why was the plea to the OM for 1) zero per cent increases and 2) reduction in expenditure, ignored?
6. It was noted that the implementation of the mSCOA web- system - project is slow, not effective and therefore poses a governance risk on the administration. (Poor guidance from national dept., weak service provider, no monitoring and auditing of outputs). Kindly provide a risk assessment statement on this serious matter?

Regards.

Mike.

Ka 7/56

QUESTIONS: BUDGET 2021/2022 – 14th APRIL 2021

Die begroting is n omvattende dokument en dit ontlok vrae by die belastingbetalers wat poog om te verstaan hoe kostes hul huishoudings sal raak. Dankie vir hierdie uitnodiging om vrae te stel wat kwel. Ons hoop op n goeie antwoord.

1. **The following questions were asked at the meeting of the Advisory Forum and although the Mayor promised to respond, he neglected to do so. This unacceptable conduct was discussed in the Overstrand Herald. It confirms the perception that public meetings and public participation sessions are of no value to the Democratic Party.**

   The questions were:

   1.1 More clarity is needed in terms of the municipality's performance to date in terms of the "top layer" IDP criteria.

   Feedback from Management Services

   The TOP LAYER SDBIP, which stems from the IDP, is reported on a quarterly basis to Council as well as the Joint Audit and Performance Audit Committee (JAPAC) (external). It is further on a quarterly basis reported to both Provincial as well as National Treasury. It is published on the website and discussed during informal and formal performance evaluations that are attended by Chairperson of the JAPAC as well as a member of the public. On an annual basis the performance is reflected in the Annual Report, scrutinized by the public for input and the oversight report approved by MPAC. The detailed KPI's and targets for the 5-year IDP are stated in Chapter 13 (section 13.3) of the draft 2021/22 IDP review. Also included in the draft 2021/22 IDP review on page 20 is a close out- report illustrating the progress in attaining the KPI's and targets stated in Chapter 13 (section 13.3) of the draft IDP review. Page 20 needs to be read with section 13.3 in the draft 2021/22 IDP review.

   1.2 Performance management remains a grey area and much refinement is required. It is difficult to understand how project proposals can take up to 5 years to be implemented?

   Feedback from Management Services

   Projects are linked to the 5-year IDP cycle, and therefor might take 5 years to be implemented. The implementation of projects in the IDP is dependent on the annual budget allocation. Due to funding availability not all projects in the IDP can be budgeted in the same year, therefor projects are prioritised over the 5-year IDP cycle.

   The progress with the implementation of major projects identified in the 5-year IDP are stated in Chapter 4 (section 4.3) of the IDP under the respective service areas i.e. Water services, Sanitation Services, Electrical services and Roads.

   (Extract – page 102- draft IDP review 2021/22)

Major sanitation services projects planned for the short to medium term are

- Upgrade of the Stanford Waste Water Treatment Works (WWTW),
- Upgrade of sewerage pump stations,
- Upgrade of the Zwelihle sewer network,
- Upgrade of the Kidbrooke sewer
- Extension of sewer networks in Kleinmond, Stanford and Gansbaai,
- Replacement of sewer rising main pipelines in Kleinmond and Greater Hermanus,
- Refurbishment of components/processes at Hawston and Kleinmond WWTW's.

Progress (July 2017 – January 2021) to attain the 5 year sanitation services targets mentioned above:

- The upgrade of the Stanford WWTW has been completed.
- The upgrade of the Bientang sewerage pump station in Hermanus has been completed.
- The upgrade of the Kidbrooke pipeline and construction of 2 new pump stations and rising mains in Onrus River have been completed.
- The next phases of the installation of waterborne sewer reticulation in Stanford, Kleinmond and Gansbaai were completed.

The above extract illustrates that not all projects listed in the IDP take 5 years to implement.

1.3 How is the performance of the municipality linked to performance bonuses (R317m?) of employees?

Feedback from Management Services

NO PERFORMANCE BONUSSES, except in the instance of officials under the bargaining council agreement who receives a 13th cheque. The only officials in terms of legislation that receives a performance bonus is the Municipal Manager.

1.4 Employee related cost (cost to company) goes further than Basic Salaries and Wages. It should be explained in the context of the expenditure budget. It seems as if more and more functions / tasks (roads, electricity, water, sanitation, refuse,) are not performed by employees while the salaries budget is growing (4, 5% +1, 9%). A previous proposal to restructure the organisation to become more effective and efficient was ignored.

Feedback from Management Services

Restructuring is prerogative of the Municipal Manager in terms of the requirements of the Systems Act.

In general, the implementation of the mSCOA puts, emphasis on good governance, administration/accounts rather than on effective systems for basic service delivery).

The total number for personnel increased (1, 2 %) from 1 081 to the current 1211 while the "headcount is 1 186. Please explain?

Feedback from Management Services

The approved organisational structure for 2020/2021 represents a total of 1187 approved positions. Currently 1086 positions are filled (92%) with a vacancy of 101 (8%) positions. NO new posts for 2021 were approved.

What % of the Operational Expenditure Budget goes to: Feedback from Finance (Budget Office)

1.4.1 **Employee Related Cost (all benefits included, Councillors Excluded)** - 31,8% and is within the NT norm of 25 – 40 per cent.

1.4.2 Salaries and Wages – Basic salaries & wages = 20%

1.4.3 Councillors – 0,9%

1.4.4 Contractors (R97 644) – 6,74%

1.4.5 Outsourced contracted services (Total of R239 915 on p100, compared to total of R249 on p21, 6m – please clarify?) norm 2% to 5%. – Both instances are R239m (Typo on page 21)

1.4.6 Consultants and Professional services (R38 471) – 2,65%

1.4.7 Repairs and Maintenance (norm 8%) – 17,2%

1.5 **Salaries of people in key positions should be comparable to the broad market. It became evident that 30% of municipal officials in managerial positions don't have the required qualifications or experience and are not subject to strict performance criteria. What is the position at the OM?**

Feedback from Management Services

The salaries of the S56 appointees are independently determined as per market, relevant to the market as at end March of every year. ALL employees in managerial positions must meet the prescribed minimum competency requirements as prescribed per MFMA MINIMUM COMPETENCY REGULATION published June 2007. This regulation prescribed both financial as well as academic qualifications. On a quarterly basis the municipality report on this requirement to National Treasury as well as CoGTA.

The Local Government Regulation on appointment and conditions of employment of Senior Managers, published in January 2014, further determines the qualifications of all Senior Managers, and the status of the Senior Managers are reported to both the Department of Local Government as well as CoGTA on a quarterly basis.

2. **The tariff increase for bulk electricity is 15, 6% while the growth in revenue from service charges is 24,01%. Please clarify?** **Feedback from Finance (Budget Office):** As discussed previous week with CFO – Due to reduction in anticipated budgeted revenue for 2020/2021 (base year) due to COVID, the increase is perceived to be exceptionally high. **There is no increase in service tariffs for water infrastructure and the same rule should be applicable to electricity infrastructure.** **Feedback from Finance (Budget Office):** No increase in both water and electricity infrastructure levies.

- **What is the OM's position ito the installation of private solar systems?**
  Feedback from Infrastructure & Planning (Gansbaai Electrical)

ka 10/st

Overstrand Municipality has been allowing Small scale embedded generation since 2016. All erven within the electrical distribution area of Overstrand Municipality pay basic service charges whether they are connected to the grid or not. The Solar PV (SSEG) systems thus have no effect on the basic service charge at this stage.

How will reduced consumption impact on the cost of service charges?
Feedback from Finance (Revenue)
Theoretically there should not be an impact because service charges cover fixed cost.

- **Is service charges on the availability of the network / grid is the main source of revenue!** **Feedback from Finance (Revenus):** Service charges in this context as referred to in Table SA1 encompasses all the tariffs which include basic charges, consumption etc, for all basic services (Water, Elec, Sewerage, Refuse).

Availability and not consumption became the most important source of income (R479 055 m)? What is the increase % and is this approach sustainable?
Feedback from Finance (Revenue)
Service charges in this context as referred to in Table SA1 encompasses all the tariffs which include basic charges, consumption etc, for all basic services (Water, Elec, Sewerage, Refuse).

- **Will independent providers of electricity be charged with an additional rate for the use of the grid? See SALGA'S proposal and ESKOM's view that municipalities cannot claim exclusive rights for the distribution of electricity. Please clarify?**
Feedback from Infrastructure & Planning (Gansbaai Electrical)
Tariffs for the wheeling of electricity have not yet been determined. A cost of supply study will be conducted to determine cost reflective tariffs for these applications.

- **What are the OM's plans for the generation of solar/wind energy by IPP's?**
Feedback from Infrastructure & Planning (Gansbaai Electrical)
An Item will be submitted to council for approval within the next month that will open the field for IPP's to apply to Overstrand Municipality for generation opportunities.

- **What % of electricity bought is lost out of the system due to: theft, not metered, system (norm 7% - 10%)? What is the value of loss in Rc?**
Feedback from Finance (Budget Office)
2019 & 2020 AFS

Electricity		
Technical losses		
Rand value	**10,896,351**	**9,478,011**
No. of units (kWh)	**12,697,745**	**12,827,152**
% loss	**5.00 %**	**5.00 %**
Non-technical losses		
Rand value	**2,214,732**	**2,741,394**
No. of units (kWh)	**2,580,874**	**3,710,090**
% loss	**1.02 %**	**1.14 %**

- How many households pay a flat rate for services and how much is it? Feedback from Finance (Budget Office): None. And how many households receive free basic services? Feedback from Finance (Budget Office): +- 7400
- What % of water is lost out of the system due to: bursts, theft, not metered, system (norm 15% - 30%) ? What is the value of loss in Rc?
  Feedback from Finance (Budget Office)
  2019 & 2020 AFS

Water		
Technical losses		
Rand value	**239,696**	**182,326**
No. of units (kl)	**203,612**	**222,190**
% loss	**2.87 %**	**3.17 %**
Non-technical losses		
Rand value	**2,189,013**	**2,126,488**
No. of units (kl)	**1,632,489**	**1,478,668**
% loss	**23.04 %**	**21.08 %**

3. Revenue ito capital grants will decline in future years (-16.7%; -39%; - 32.6% = - 88% over 3 years). How will drastic decline ito the capital programme impact on related segments of the budget? Please clarify the increase in operational expenditure of 7, 9 %?
   Feedback from Finance (Budget Office)
   See grant breakdown – Depends on the nature and timing of the grant and especially the Human Settlements grant variation between Operational and Capital – See the increase over the three years in the MIG grant

CONSTRUCTION CONTRACTS	52 259 085	52 259 085	36 458 195	36 458 195	3 267 000	3 267 000
PROV-SPORT & RECREATION GRANT	600 000	600 000				
MIG	22 053 000	22 053 000	24 628 000	24 628 000	25 568 000	25 568 000
RIEP	18 519 000	18 519 000	7 000 000	7 000 000	7 000 000	7 000 000
WATER SERVICES INFRASTRUCTURE GRANT	5 182 000	5 182 000	9 200 000	9 200 000		

4. Property rates will increase by 14% over the next 3 years to cover general community and support services. What services are covered here?
   Feedback from Finance (Revenue)
   All services excluding the 4 basic services of water, electricity, sewage and refuse.

5. Stakeholders advised that the desperate economic and financial realities, plus the impact of Covid, should be taken in consideration by the budget because numerous households cannot afford more expenses. Why was the plea to the OM for 1) zero per cent increases and 2) reduction in expenditure, ignored? Feedback from Finance The municipality share the concern as to why Salga ignored the mandate from municipalities in the Western Cape.

6. It was noted that the implementation of the mSCOA web- system - project is slow, not effective and therefore poses a governance risk on the administration. (Poor guidance from national dept., weak service provider, no monitoring and auditing of outputs). Kindly provide a risk assessment statement on this serious matter?
   Feedback from Finance (SCM)

k2 12/56

- These are risks identified in the risk register that could potentially prevent the municipality from achieving mSCOA compliance. In order to mitigate these risks, the following controls are implemented:
- mSCOA Project approach being followed up in formal meetings at least monthly.
- Contingency Plan revised as and when necessary.
- Self-assessments submitted to NT/ PT, when requested
- CIMS incident reporting
- mSCOA audit by Internal Audit
- Regular mSCOA Working Committee Meetings to monitor status and consider appropriate remedial actions.

Regards.

Mike.

THE HONORABLE MAYOR

OVERSTRAND MUNICIPALITY

HERMANUS

7200

PER EMAIL: mayor@overstrand.gov.sa

OBSERVATIONS AND COMMENTS: DRAFT 2021/2022 IDP REVIEW AND BUDGET.

1. ORGANISATION

The Pringle Bay Ratepayers' Association (PBRA) was started in the late 1960's by the first residents of Pringle Bay to represent the interests of ratepayers and residents. Today, as you may well be aware off, we are a registered Non-profit, Public Benefit Organisation.

Our primary functions are to liaise with the Overstrand Municipality, with whom we enjoy a close relationship, and to support local environmental conservation. We represent the community on the local Ward Committee and other consultative bodies. We maintain a close contact with local authorities and service providers, particularly on matters affecting ratepayers and residents.

We are grateful for the frank and cordial manner in which have been able to cooperate with you and your esteemed collogues in a quest to fulfill the wishes and expectations of our residents.

2. PURPOSE OF THIS COMMUNICATION

In accordance with our mandate outlined above and against the background of your widely published invitation to the public and other interested parties to consider and comment on the proposed DRAFT 2021/22 IDP REVIEW & BUDGET, we wish to submit comments for your consideration.

Prior to highlighting our comments, we wish to draw your attention to, and put on record, the following communications in one or the other format with Overstrand Municipality and which we consider of specific relevance:

a) Meeting between Pringle Bay Rate Payers Ass Chairperson: Ms. Strydom, Pringle Bay Rate Payers Ass Vice Chairperson: Mr. Vorster, and your Mr. Lackey (OM), Mr. Van Rohde (OM) on 5 March 2020 during which we have offered our assistance to compile documentation that could be used by the relevant officials to prepare appropriate budgets, in particular for the improvement of the streets in Pringle Bay.

b) Our subsequent email dated 8 July 2020 to Councillor Krige submitting our report: PRINGLE BAY GRAVEL STREETS: CONDITION SURVEY AND RESULTS. The report was also in the same email submitted to your Messrs. Lackey and Van Rhode

c) The above-mentioned report was again emailed on 20 July 2020 to the same recipients as an updated version including some corrections.

d) Minutes of Meeting dated 18 August 2020 reflecting discussion that took place a meeting between PBRA, Councillor Krige and several officials of the Overstrand Municipality. At this meeting the Report mentioned in (c) above was discussed. OM officials requested an updated report reflecting updated requirements.

e) The Updated Report mentioned in (d) above was submitted per email on 21 August 2020 to Councillor Krige, Mr van Rohde and Mr Baadjies. (a copy of this report is attached hereto for your records and information).

f) On 21 September 2020 we requested feedback.

g) Following a meeting we had on 19 October 2020 with amongst others yourselves, the report was forwarded to your Mr T Steenberg on 20 October 2020 as was decided on the mentioned meeting..

h) On 18 February 2021 we again requested updated progress. On 23 February 2021 we received feedback which included an undated implementation schedule.

i) Several Ward Meetings attended by PBRA Chairperson. The above mentioned subject was raised on more than one occasion during some of these Ward Meetings.

3. DRAFT 2021/2022 IDP REVIEW AND BUDGET: OUR COMMENTS

Taking cognizance of the above-mentioned and having inspected the DRAFT 2021/2022 IDP REVIEW AND BUDGET: 2021/22 TO 2023/24 MEDIUM TERM REVENUE AND EXPENDITURE FORECASTS as published on the Overstrand Municipality Webpage, we wish to comment as follows:

a) Referring to Annexure E of the referenced document, Page 2: Roads, we find no evidence that the recommendations contained in our report regarding Routine Maintenance, Corrective Maintenance or Rehabilitation of gravel streets are taken into consideration in the budget. Nor do we find any evidence regarding the streets identified for upgrading to control dust pollution.

b) Referring to Annexure E of the referenced document, Page 3: Stormwater, we find no evidence that the recommendations contained in our report regarding the requirement to upgrade stormwater drainage along our gravel streets are taken into consideration in the budget. We have identified the lack of proper stormwater drainage as the primary problem causing the deterioration of our streets.

c) Referring to Annexure E of the referenced document, Ward Specific Projects, we find no evidence that any of 3(a) or 3(b) above are addressed in this part of the budget.

Against the above-mentioned background, we sincerely request that you re-consider the budget and make the necessary adjustments in the budget to allocation sufficient funds for the implementation of our recommendations as contained in our report attached hereto.

We are once again looking forward to your cooperation in this regard.

Best Wishes

AW Vorster (Pr. Eng.)
Vice Chairman: PRINGLE BAY RATEPAYERS' ASSOCIATION.

CC: Mr. Stephen Muller (smuller@overstrand.gov.za)
Chairperson PBRA: (chairman@pringlebayratepayers.co.za)
Secretary PBRA: (secretary@pringlebayratepayers.co.za)

ACKNOWLEDGEMENTS

The Project Manager and Pringle Bay Ratepayers Association wishes to acknowledge:

1) Pringle Bay Street Watch in particular the Sector Heads.

2) Me. CM Vorster whom on a Pro Bono basis, kindly assisted in developing the Electronic Input Form.

1. BACKGROUND

The Pringle Bay Ratepayers Association (PBRA), as one of their strategic objectives, reached out to the Overstrand Municipality (OM) to offer expertise, capacity and assistance where possible and where and when required.

Following a meeting between PBRA representatives and OM Officials on 5 March 2020, amongst others, the OM Maintenance Program for the upkeeping of the gravel streets in Pringle Bay was jointly identified as one of the key responsibility areas of the OM where significant and valuable input and assistance from the Pringle Bay community could be offered.

PBRA subsequently offered to assist in undertaking a condition survey of the gravel streets in Pringle Bay with a view to prioritise the streets requiring attention of some sort to ensure acceptable trafficability and driver comfort.

The OM Municipal Area Manager and his assistant responsible for roads and streets in Pringle Bay accepted the offer.

The PBRA proceeded to compile a project framework and methodology to guide a project team to perform the condition survey. It was decided to make use of the Pringle Bay Street Watch (PBSW) Sector Heads to assist in the survey focusing on the streets in their respective Street Watch Sectors. Six field workers were sourced to assist with data capturing.

A Field Survey Manual was compiled to assist and guide field workers when performing the Pringle Bay Gravel Street Condition Survey (PBGSCS). The Condition Survey is entirely based on the visual assessment and driving comfort of a street taking cognisance of a number of gravel street design and construction criteria. (Refer to Annexure A).

Based on the Field Survey Manual, a data capturing Survey Form was designed (Refer to Annexure B).

To streamline the data capturing exercise, a real-time on-line data capturing input form was developed which field workers could access via a tablet or a mobile phone while on the move. Data capturing thus became available to the project manager in real time to analyse and verify the input received from the field workers (refer to Annexure C for a description of the electronic input form).

The data was analysed and an Condition Index was determined which was used to determine the required level of maintenance applicable to the particular section of street.

The approach, methodology, analysis and results of the Condition Survey are discussed in the following paragraphs.

2. INTRODUCTION

Gravel roads as implemented in Pringle Bay, have the following purposes:

a) To ensure safe and reliable access to properties and facilities, not only by the general public but also, and equally important, by emergency services;

b) To ensure mobility at a speed not exceeding 40km/h.

c) To create a Country style or rural type atmosphere, something the majority of residence cherish and consider to be one of the main reason for settling in Pringle Bay.

Gravel streets are thus an important element defining the character of Pringle Bay and should be protected and treated with the necessary attention and respect.

Gravel streets (or for that matter any street or road) have several important aspects that define the functional efficiency thereof. These are, amongst others, the following:

- **Riding quality**: primarily defined by the condition of the road surface (driver comfort).
- **Dust pollution**: primarily defined by the composition of the wearing course and design speed of the street.
- **Traffic Safety**: primarily defined by the alignment of the road including safe stop-sight-distances.
- **Road-side Furniture**: primarily defined by the presence of pedestrian facilities (sidewalks) and traffic signs.
- **Stormwater drainage**: primarily defined by the presence of formal drainage structures and the shape of the street.

Collectively the above-mentioned aspects are inter-dependant in defining the functional efficiency of the road. Ensuring that one of these is at all times in accordance with expectations but ignoring or neglecting the others or only one of the remaining ones, will, without doubt, cause the street to fail in terms of functional efficiency. Maintaining the one is as important as maintaining the other.

This initiative however addresses only one of the above-mentioned aspects, namely **Riding quality**. The other aspects will be addressed with the same vigour and interest in the weeks and months to come.

The Approach to and Methodology followed with the Pringle Bay Gravel Street Condition Survey and the subsequent analysis if data, are discussed in the following paragraphs.

2.1. Survey Approach

The condition of streets in Pringle Bay, although judged to be generally in an acceptable condition, is often criticised by residents as being poor, blaming the OM of negligence and ignorance, in some cases justifiable but mostly not justifiable. Purely because these

accusations are mostly based on emotional outcries and perception rather than science and fact. The former is not quantifiable whereas the latter is quantifiable.

It is thus important to steer away from emotion and perception and to rather focus on gravel street performance criteria through evaluating applicable design and construction parameters within a scientifically based framework.

The Transportec division of the Council for Scientific and Industrial Research (CSIR) in the year 2000 compiled a document titled *"Draft TMH12: Pavement Management Systems: Standard Visual Assessment: Manual for Unsealed Roads Version 1"*, which was used as basis for the compilation of the "PRINGLE BAY GRAVEL STREET CONDITION SURVEY: A PRACTICAL MANUAL".

The Field Workers studied the Manual prior to engaging in executing the survey. The Field Workers were continuously guided and assisted by the Project Manager (a qualified Professional Civil, Traffic & Transportation Engineer) to, as far as practically possible, ensure consistency in interpretation of the visual assessments of the parameter's particular condition.

It was planned to undertake several dry runs with the Field Workers team to ensure consistent interpretation of the evaluation criteria prior to performing the actual surveys. However, the event of COVID-19 and the associated Lockdown that commenced end of March 2020 and which is still enforced albeit at a different level, made it illegal for people to be outside their residences and furthermore to congregate or work in a group. Consistency in interpretation thus largely depends on the Project Managers guidance and photographic evidence/examples to individual Field Workers' enquiry or them expressing uncertainty of a particular situation. The outcome of this approach yielded surprisingly consistent results.

Given the limitations imposed by COVID-19 on the free movement of people, the surveys could actually only commenced during June 2020. The five Field Workers were briefed by the Project Manager on using the "App" (nothing more than an electronic data capturing form accessible from any mobile or tablet) to capture field data. Once they were familiar with and comfortable using the "App", and bearing in mind the arrival of our annual rain and storm season, surveying started in all earnest mid-June and was completed early July 2020.

Field Workers performed the survey by logging the condition (degree) of several parameters while driving along the various streets. In some instances data capturing were also performed while walking along the streets.

Captured Data became visible to the Project Manager in real time as and when it was captured, making it possible to telephonically discuss some inputs when considered necessary. Adjustments and/or corrections could then be performed immediately, thus effectively eliminating inconsistency and the necessity of re-runs of certain sections of street.

2.2. Survey Methodology

As was mentioned earlier, the principle of "Science and Fact" is preferred to "emotion and perception". Based in the referenced CSIR's Draft TMH-12 document, a **Level 1** visual survey is adopted to gather the required data to ultimately classify the condition of the gravel streets. It is the very most basic approach to a survey conforming to scientific and factual methodologies.

The following parameters/characteristics are considered in evaluating the condition of the streets based on the **visual** assessment of same:

- General performance
- Moisture condition
- Gravel quantity/layer thickness
- Road profile/shape as an assessment of water shedding capacity
- Road drainage in terms of removal of water from the road surface
- Road drainage in terms of accepting water from elsewhere and drained along the road
- Riding quality and influencing factors
- Dust
- Trafficability
- Isolated problems

These characteristics are judged in terms of a five point classification systems based on the following flow diagram:

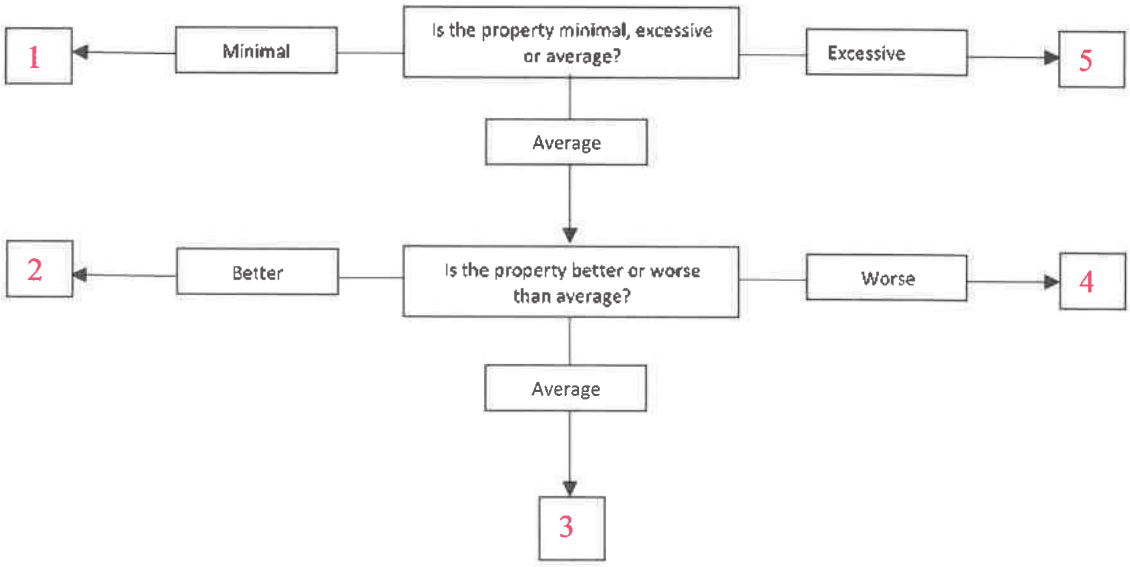

FIGURE 1: Flow diagram – five point classification system

For more detail and description of the above-mentioned methodology, please refer to Annexure A & B.

Field Workers were guided to identify sections on a street with particular collective good or poor performing characteristics allowing a street to be segmented in terms of

the conditions thereof. Due to the absence of chainage markers along streets, it was decided to use Street Numbers as the reference points to define sections along a street (Refer to Annexure D: Pringle Bay Street Map). For purposes of defining the sections, all streets were considered to be one-way streets, thus defining a section from an even street number to an uneven street number is no different than defining the same section from an even number to an even number or alternatively an uneven number to an uneven number.

Field workers used the electronic input form accessible from any mobile or tablet to capture data by judging the degree of all the parameters/characteristics listed above (refer to Annexure A for definition of "Degree").

The condition for the street section is then defined by the Condition Index which is calculated as the cumulative sum of the degrees allocated to each of the characteristics. The streets are then, according to the Condition Index, categorised to be in the **Slight, Warning** or **Severe zones** of maintenance requirements. These categories are then classified in accordance with the suggested Maintenance requirements as either requiring **Routine Maintenance, Corrective Maintenance or Rehabilitation**. Refer to paragraph 5 for a description of the interpretation of the results.

Finally, for each Maintenance Requirement, streets are **prioritised** from High to the Low taking into consideration ONLY the Condition Index score. It remains the prerogative of the OM Officials to also consider social aspects such as the number of households served by the particular street and the importance thereof in a broader mobility sense.

The results are discussed in Paragraph 5.

3. SURVEY

The actual survey started on 17 June 2020 and was concluded on 6 July 2020. Some streets were surveyed during dry conditions and some were surveyed while wet conditions prevailed.

Each Field Worker has a clearly demarcated area to survey.

Once a Field Worker has completed his survey, the Project Manager went out to that area to perform spot checks with a view to make sure that consistency across areas prevail. Very little tweaking was required, the raw data showed a very good correlation in the interpretation of adjudicating the degrees of the various characteristics.

The data will continue to be updated after 6 July 2020. This will allow us to monitor implementation of proposed remedial measures as well as to monitor the performance of improvements over time. It will also signal the deterioration of streets over time.

The intention is to submit to the OM on a quarterly basis updated Condition Indices for each street thus providing the OM with valuable planning data and information.

In total, 131 records were captured representing 77 streets across eight Street Watch sectors.

4. RESULTS

The results of the survey can be presented as follows:

a) Per Street Watch Sector (generally also related to each Field Worker)

b) Per Street showing the various sections along the street.

c) Per Maintenance Category (Routine, Corrective or Rehabilitation).

d) Priorities per Maintenance Category.

For purposes of visual presentation, the Maintenance categories are also shown on the Pringle Bay Street Map (Refer to Annexure E: Pringle Bay Gravel Street Maintenance Requirements).

4.1. Interpretation of Results

Based on the criteria described in paragraph 2.2, the worst condition of a street results in an Index Score of 58, representing 100%.

Streets with an Index Score less than 24 (±40%) are considered to be in good condition and requires only scheduled **Routine Maintenance**.

Streets with an Index Score of more than 38 (±66%) are considered to be in a poor condition and requires substantial **Rehabilitation** works.

Streets with an Index score between 24 and 38 are considered to be in need of urgent **Corrective Maintenance** otherwise they will soon enter the Rehabilitation Zone

4.2. Maintenance Measures

Routine Maintenance as defined above is suggested to consist of scheduled grading (or surface treatment) to improve riding quality including patching of potholes and ruts. It is expected that limited material importation is required. If Routine Maintenance is not performed in accordance with the requirements of the Gravel Street Pavement Management System's criteria, the street will rapidly deteriorate to a point where Corrective Maintenance or even Rehabilitation measures will be the only remedy to save the asset and ensure "fit for purpose" functionality.

Corrective Maintenance as defined above is suggested to consist of importing material to re-construct a new wearing course of about 150 mm of compacted selected gravel, including appropriate shaping to achieve a 4% crossfall with a well-defined crown ensuring proper drainage from the road surface. Maintenance and/or upgrading of longitudinal drainage structures forms an essential part of Corrective Maintenance.

Rehabilitation as defined above is suggested to consist of major road improvement works including vertical re-alignment to accommodate storm water runoff, the provision of appropriate longitudinal drainage structures, associated imported wearing course selected material, shaping to achieve a 4% crossfall with a well-defined crown ensuring proper drainage from the road surface.

In order to ensure maximum value for money, streets that are identified for dust pollution control, are excluded from the gravel street lists as are roads that already are categorised as sealed roads such as Buffels and Central Roads for instance. Streets identified for dust pollution control are mainly streets leading to or serving public areas such as parking areas at beach accesses or streets in and around the business area of Pringle Bay.

The survey results can be summarised as following:

a) From the 144 recorded street sections, 12 street section are categorised as requiring Rehabilitation (refer to Table 1).

b) From the 144 recorded street sections, 83 street section are categorised as requiring Corrective Maintenance (refer to Table 2).

c) From the 144 recorded street sections, 44 street section are categorised as requiring Routine Maintenance (refer to Table 3).

d) From the 144 recorded street sections, 5 street section are categorised as streets requiring Dust Pollution Control (refer to Table 4).

Kz 28/5b

5. CONCLUSIONS AND RECOMMENDATIONS

It is concluded that the following streets, in order of degree of deterioration, taking cognisance of ONLY the Condition Index, requires urgent attention. The priorities are:

PRINGE BAY GRAVEL STREET CONDITION SURVEY RESULTS
STREETS REQUIRING REHABILITATION

Priority	Assessment Date	Street Name	From Street number:	To Street Number	Index	Score	Factors	Length (m)

3	False Bay Road	2	19	356
4	Beach Road	1	16	277
5	Anne Road	31	67	580

TABLE 4: Streets identified for DUST POLLUTION CONTROL
(in order of priority based ONLY on Condition Index: 5 from 5 records)

Over and above the results shown above, it is evident that stormwater drainage (or rather the lack thereof), is the single most important cause for the deterioration of the streets, especially when one considers the state of the streets at various intersections and junctions.

It is also evident that where channels are actually provided along the roads to accommodate longitudinal runoff, these channels tend to favour runoff from the adjacent plots and not so much the run-off from the streets. The main reason for this seems to be the piling of the excavated material on the road edge side resulting in the street being formed as a channel. In most cases, if attention is given to the grading of the streets to shape the surface to feed into the road side channel and rather place the excess material on the plot side of the channel, a much better transverse drainage regime will be achieved.

Based on the above mentioned conclusions, it is recommended to:

A. Include the above-mentioned priorities in the Overstrand Municipality's Pringle Bay Gravel Street Pavement Management Plan if it exist, otherwise to engage in an initiative to compile such a plan.

B. Allocate existing approved finance to focus on the priority street sections listed in Tables 2 and 3. We suggest to focus effort and resources as follows:

   i. Of the remaining budget for the current financial year, approximately 300m of streets can be rehabilitated. Referring to Table 1, we suggest to proceed with Midway Street and Hilda Circle totalling approximately 322m. Alternatively, Midway Street and Zandra Road should be rehabilitated totalling 265m.

   ii. Of the remaining budget for the current financial year, approximately 4,000m of roads can be addressed for Corrective Maintenance. Table 2 contains the priority list for Corrective Maintenance totalling approximately 4,174m of gravel streets.

C. Include streets listed in Table 1 (if not already budgeted for) in the following adjusted budget cycle.

D. Include in the 2021/2022 budget the estimated maintenance cost of the remaining streets including those that could follow in the updated quarterly Gravel Street Condition Survey Report.

Subject: RE: Firestorm

Well done Santie-Reyneke!

Can I add a few points please?

Small fires

Firstly, "a small fire is a big fire until it is completely extinguished". So fire outbreak **response time** is of the essence.

Plot clearing

Clearing plots to reduce fire risk is a formidable exercise. I suggest a more targeted response policy. EG.

"When you clear plots, make it a priority to clear a 15m(?) space round buildings. Ensure roof gutters are free of combustible material such as leaves. Pay particular attention to any **significant** stands of combustible vegetation. Only then, tackle the rest of the plot."

Special Container

I know the authorities pay much attention to the fire risk. But it seems to me that a special purpose container, mounted on a trailer, equipped with a complete set of fire-fighting equipment, should be established. This will minimise delays when a fire alert is sounded.. It should be situated centrally.

Reserve Fund

The potential loss of any large fire is so huge, so that too much concentration on the costs of preparation for fire-fighting is possibly delusional. Prepare a financial reserve fund now, so
that costs can be spread out over the long term.

In all humility

Peter Berrisford

Dear colleagues

Below you will find an important input from Mr Peter Berrisford, who on several occasions expressed his concern about the threat of fires in our municipality and especially in Betty's Bay. I propose that we make this letter part of the public participation process regarding our Draft Budget and IDP Review for 2021/22.

Regards

FANIE KRIGE

To: <sdkrige@gmail.com>

Hi Fanie

The Cape Town fire is a wake up call! Imagine a meeting after a fire has totally devastated our area! A 100 million rand of damages.

We don't want to be saying, " of course we knew about the excessive growth of bush in our area, but we were so busy." Alternately, "we should have cut fire-breaks along all the roads, but we were weighing up the quotes for this exercise, and this takes a long time." Alternately, " we did not budget for more expenditure on fire fighting.' Alternately, "it was Covid!"

Fanie, we rely on you to keep the pressure up. We definitely need a follow up meeting like the one you chaired in Kleinmond, (still no minutes!!! This is awful considering how serious this matter is.)

Many of our politicians excel at planning to do something. Action is what counts. I know much has been done but I am really frightened about the constant risk. We cannot afford not to devote funds in a big way to fire-fighting, the most serious risk to our community.

Please circulate this email to the Mayor, the Fire Chief, the Environmental Department and Desmond Lakey. And any others including those at our meeting.

And confirm to me that you have done this by return. Failing this, reluctantly, I guess all the newspapers would be a last resort.

I am not unaware that so many folk are actually handling this problem and working hard at this. But the Cape Town fire is massive reminder. A wake up event.

Peter

Subject: Budget

Dear Mr King,
I appreciate the excellent work of our Municipality to keep our area well run and beautiful.
I was just sorry to hear that the salaries have been raised with 4 1/2% in spite of a request not to raise salaries this year. This brings the budget into a deficit which could be avoided.
Kind regards,
Alette Rousseau

Honorable Mayor Mr Dudley Coetzee

RE: OBJECTION OF ZWELIHLE BUDGET 2021/22

We wish to express our dissatisfaction of the draft IDP review 2021/22 Ward 5; 6; and 12 Budget presented to our community on the 21 April 2021 due to the following:

1. The Capital budget to be spend in Zwelihle is not clear and was not confirmed at the meeting
2. The meeting was not properly organized as the presentation was not audible and clear. Hence the meeting ended so late.
3. We believe that the Ward meeting should have been separated, so as to deal with specific Ward needs.
4. Lastly item 3.2; 3.3; and 4 of the AGENDA was not dealt with or covered at the meeting. The Agenda point were very important but our community was give half of that.
5. The closure was supposed to be made by the Mayor as per AGENDA, however that did not happen.

Your urgent attention will be appreciated

Yours sincerely

ALFRED FAKU

BBRA COMMENTS ON 2021-22 BUDGET and IDP Review

1. **Introduction**

The draft budget is well prepared and based on sound principles and departure points.

The reviewed IDP is a logical continuation of the existing 5 year IDP.

2. **Revenue**

The proposed across the board tariff increases at 4% are reasonable but in most cases there is a further marginal increase due to VAT at 15% (property rates excluded). Although termed reasonable it is still above the current and projected inflation rate and also above the estimated growth rate in the economy. These increases will also exacerbate the financial burden on many residents already hard hit by COVID-19.

3. **Operating expenditure**

The bulk of the proposed operating expenditure cannot be faulted but is qualified in the following respects:

3.1 Baboon management

The active implementation of the baboon management programme by the Municipality through its service provider, Human Wildlife Solutions, is appreciated especially as this has become more problematic due to rogue baboons causing extensive damage to properties. It is thus essential that there should be sustainable funding of this project until the problem has been resolved.

3.2. **Road maintenance**

The extensive gravel road network in Betty's Bay results in regular (but still inadequate) roads and stormwater maintenance. There should be a more permanent approach by applying dust control sealant on more graded and compacted roads.

3.3 Staff expenditure

The BBRA is in general very satisfied with municipal service delivery and is indeed privileged to experience excellent standards in many respects. Nonetheless there is concern that there are pockets of overstaffing and/or underperformance. This is especially the case with certain maintenance work.

On the other hand there are instances of understaffing leading to reduced service delivery standards. A case in point is the building inspectorate for the Hangklip area where only

one incumbent has to deal with one of the most active areas in the whole of the Overstrand. This matter has been previously raised and Mr Stephen Muller as well as the MM are aware of this problem.

The wage bill percentage of 31% plus is debatable but more important is the proposed adjustment. The notch increases can be supported but not SALGA's proposal of 2,8% and even less so the other demands of trade unions.

4 Capital Expenditure

4.3 Water network

The continued funding of this project is appreciated and supported. Preference should be given:

- To areas where no hydrants exist and/or where the water supply is inadequate to use existing hydrants;
- To sections where the reticulation is subject to continuous breaks as this leads to significant water losses and on-going repair costs.

4.4 Camera project

The provision of R50 000 is appreciated but might be inadequate to ensure successful implementation. The BBRA out of its own funds (community contributions) is also making more than R50 000 available. Safety and security is a high priority especially as illegal poaching and other concomitant criminal activities are rife.

4.5 Sub Fire station

This is referred to in the ward councillor's list but without any funding. Erf 2688 is currently being considered by the Municipality. The present small building is not only impractical but also an illegally erected structure. After the devastating January 2011 fire and with the western part of Betty's Bay posing the highest current fire risk in the Municipality funds for at least the basic planning and design work should be placed on the budget as well as for a first response vehicle.

The seriousness of this matter for the community is reflected in the fact that it has already collected more than R100 000 as a contribution towards the establishment thereof.

4.6 Clarence Drive (R44)

Although this is a provincial road the inherent dangers affect the local community. It deserves to be incorporated into the IDP as an inter-governmental activity. The three most dangerous areas are at Porter west, Porter east and the area between Waterfall and Cliff roads. (A preliminary study has been done in respect of Porter east).

It can be expected that the Municipality would also have to contribute towards the desired solutions.

There is an existing request that reflective and very visible pole mounted street name signs be provided at already identified key intersections. This especially warranted as there are no streetlights in Betty's Bay.

The R44 has a speed limit of 80km/h which is regularly exceeded causing serious accidents. (A municipal vacuum tanker was recently involved in a serious accident due to a speeding motorist). No speeding law enforcement is taking place apparently due to the absence of a calibrated sped checking device. The length of the R44 (about 12km), the traffic volumes and the high prevailing speeds warrant the purchase of a dedicated speed checking device.

4. Conclusion

The BBRA as a representative body of the Betty's Bay area realises that needs will always exceed available resources. To prioritise those needs and to achieve a degree of consensus will always an indication of good governance and an appreciative community.

Subject: Attn for Comments on OM Draft Budget

As a full-time Bettys Bay resident and on the Executive Committee of the Bettys Bay Conservancy I would like to request that sufficient funds for the upcoming budget be allocated to the following:

1. Municipal public waste bins should be fully baboon/animal proofed. There is NOT A SINGLE such bin in Bettys Bay, yet is a requirement to the Strategic Baboon Management Plan. The few rotary type Fernwood bins are NOT baboon proof nor very practical.

2. Attractive road signage advertising the fact that Bettys Bay is a proud member of the Kogelberg Biosphere Reserve.
Ie 'Welcome to Bettys Bay - a proud member of the Kogelberg Biosphere Reserve'. We have to be cognizant of the very special place, of global significance, where we live. There is no signage to date. We need to build a pride campaign.

3. We need to protect the wetlands WITHIN the urban area. They are critical frog habitat, including the Critically Endangered micro frog, endemic to the fynbos of the south western Cape of which Bettys Bay is perhaps its most important refuge.

4. Environmental education. This work could perhaps be channeled through the Bettys Bay Conservancy.

10.

..za

UNICIPAL BUDGET: 2021/22

Notic

1. b.

The budget must take cognisant of the **continuing decreasing income of the Overstrand ratepayers.** kz 52/56

Council has endeavoured to keep the rate increases to the absolute minimum required to maintain service delivery levels at an acceptable standard as well as to ensure continued maintenance and upgrading of infrastructure.

Therefore, municipalities must consider the following when compiling budgets: • improving the effectiveness of revenue management processes and procedures; • paying special attention to cost containment measures; • ensuring value for money through the procurement process; • the affordability of providing free basic services to all households; and • curbing consumption of water and electricity. The Overstand Municipality is therefore urged to (i) **deceasing posts** and (ii) putting the process in motion to **stop previously negotiated salary increases** as it was negotiated under totally different circumstances. It is noted that the mayor acknowledge that "Wage increases for municipal staff that have exceeded headline consumer inflation in the past".

2. QUERIES, OBSERVATIONS, COMMENTS AND NOTES REGARDING THE BUDGET

2.1 The unite electricity charge of about 16% that can be attributed to *"attributed to the substantial increase in the cost of bulk electricity from Eskom "* is supported. **The increases of fixed cost or service charge for electricity the same as that of the price per unit used, namely about 16% is irrational.** The Basic or **Monthly charge per meter** is a fixed cost and to use the above reason for the proposed 15% increase borders on dishonesty as this is not linked to Escom increase at all. Fixed cost are hurting all those people that try to reduce consumption to still manage with a fixed or declining income. This is fundamentally in conflict with sustainable development principals committed to in the IDP and SDF. The %-contribution of Fixed Costs should be reduce to decrease the pressure on natural resources and the environment to discourage wastage and incentivise efficiency.

2.2 I have personally observed more than 25 **pipe bursts** in less than 3 years living in Betty's bay (more than all observed in my life) causing a waste of water, labour and equipment and this cost will rapidly increase.

2.3 Activities such as parks management, road verges, alien Invasive tree control, block burning, road maintenance and possibly a number of other activities are done without specific Park- or Fire- management plans. Only with proper **Management Plans can efficiency be measured and improved on** as well as staff and contractors be effectively managed and held accountable.

3. BUDGET PROPOSALS:

(1) **The Availability fee / fixed cost charge per electricity meter, namely R 385.64, must be reduced or remain unchanged and a way find to further reduce this cost in future. This cost should rather be included in the unit cost.**

(2) **The VAT rate on fixed cost or availability fees should be 0%.**

(3) That the loss of income due to the abovementioned proposals be off-set by:

- Freezing all vacant positions in principle and only filling those positions that would ensure **basic service delivery**;
- Ensuring that all staff performances are carefully aligned to ensure maximum **efficiency** and value for money efficacy; and
- Work should be done in accordance with clear **Management Plans**.
- **Reduce of water distribution loss**.

Subject: Comment on Draft Budget

Dear MM,

K2 51/56

I have cc'd members of my ward committee in this email aswell. As a community, the Municipality has not spent enough capital in our area in the past 5 years, when compared to the other Greater Hermanus wards.

We have a couple of projects that we would dearly like to see completed as they are taking a large portion of our ward specific funding:

1. Atlantic drive walkway completion (+/- R600 0000
2. Paving of Davies Pool parking area (+/- R300 000)
3. Sidewalks with cycle lane in Onrus main road
4. Completion of Dog park - Wall along the R43
5. Shearwater stormwater canal completing
6. Speed calming measures throughout the ward (+/- R150 000

Many of these projects are already being addressed by our ward specific funding, this proves that it is very important to our community. This is vitally important to our ratepayers that our fair share of budget gets allocated.

Kind Regards,
Cllr Jean Orban

SECTION 1: INTRODUCTION

The 2021/22 MTREF planning and budgeting documents are drafted at an unprecedented time. An already weakened economy has been exacerbated by the impact of the COVID-19 pandemic and state spending is placed under severe pressure. It is therefore crucial that planning and budgeting are '*Responsive*' to the current reality facing municipalities and their citizens. The revenue of municipalities revenue is under downward pressure as a result of the COVID-19 related restrictions and its impact on the income of citizens, while the demand for municipal services is on the rise. Municipalities therefore have to be '*Resilient*' against these pressures until the economic crisis has subdued. As per the 2020 Western Cape Recovery Plan, municipalities cannot only focus on responding to the pandemic, but there is also a need to look forward and make provision for economic and financial '*Recovery*' over the medium-term. The 2021 municipal integrated development plans and budgets will therefore be assessed by the Provincial Government against the principles of '*Responsiveness, Resilience and Recovery*'.

The importance of the integrated planning and budgeting assessment is stipulated in Chapter 5 of the Local Government Municipal Systems Act 32 of 2000 (MSA), the MSA Regulations and the Local Government Municipal Finance Management Act 56 of 2003 (MFMA). These annual provincial assessments afford the provincial sphere of government an opportunity to exercise its monitoring and support role to municipalities as stipulated by the Constitution. In addition, the assessments provide an indication of the ability and readiness of municipalities to deliver on their legislative and constitutional mandates.

This report encapsulates comments by the Western Cape Provincial Government on the draft 2021/22 MTREF Budget, 2021/22 reviewed Integrated Development Plan (IDP) and Spatial Development Framework (SDF).

The assessment covers the following key areas:

- Conformance with the MFMA, MSA & Municipal Budget and Reporting Regulations (MBRR);
- Responsiveness of the draft budget, IDP and SDF; and
- Credibility and sustainability of the Budget.

The MBRR A-Schedules, budget documentation, IDP and SDF submitted by the Municipality are the primary sources for the analysis. The quality of this assessment report therefore depends on the credibility of the information contained in the documents submitted by the Municipality.

The Provincial Government plans to meet the executives of your Municipality on **Monday, 10 May 2021** where the key findings and recommendations of this report will be presented and deliberated upon. The planned engagement will contextualise the Municipality's challenges and responses as taken up in the draft budget, IDP, LED, SDF and various other strategies and plans.

All the information related to the assessment and analysis of the annual budget, IDP and SDF are found in the report below.

SECTION 2: PUBLIC VALUE CREATION

2.1 Integrated Planning

2.1.1 Introduction

An Integrated Development Plan (IDP) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development in a municipality. An IDP provides the strategic direction for all the activities of a municipality over five years linked to the council term of office.

Each municipal council must annually review and may amend the IDP of the Municipality. Should the review process determine that an amendment is required, a municipality should follow the process as stipulated in Regulation 3 of the Local Government: Municipal Planning and Performance Management Regulations of 2001.

The 2021/22 review of the IDP of the Overstrand Municipality (the Municipality) is the fourth and last review of the 2017 - 2022 IDP. The 2021/22 IDP review approach took into consideration an assessment of the performance measurements of the Municipality and the extent that changing circumstances so demand.

Based on the review of the tabled IDP at the end of March 2021, the Municipality intends to adopt a review of the IDP in May 2021.

2.2 Integrated Planning Analysis

2.2.1 IDP Overview

Based on the contextual analysis undertaken, the 2021/22 IDP review reflects that the vision and mission of the Municipality, which is aimed at determining the strategic direction, remains unchanged. The 2021/22 IDP Review reflects a high-level strategy of the Municipality which includes an alignment of the Municipality's 5 strategic objectives to the Constitutional objectives of Local Government, National Development Plan as well as the National Key Performance Areas of local government.

The Municipality has a Public Participation Policy that was approved in September 2016 and is aimed at establishing appropriate mechanisms, processes and procedures for public participation in Overstrand. The 2021/22 IDP Review reflects that public engagements took place from August to November 2020 with respective ward communities, in order to review their ward priorities.

According to the 2020 Municipal Economic Review and Outlook (MERO), the Overstrand municipal area is the smallest municipal area in the Overberg in terms of geographical spread, covering 1 675 square kilometres (13.7 per cent), but is the second largest economy in the District. The Overstrand municipal area's economy was valued at R6.4 billion (current prices) in 2018 and the municipal area employed 36 966 people. Estimates for 2019 indicated that although the municipal area's economy increased by 0.3 per cent to R6.6 billion, the economy shed 298 jobs.

The MERO also emphasizes the effect of the COVID-19 pandemic that is expected to have a significant negative impact on economic growth in the Overstrand municipal area. It was estimated that the economy of the municipal area would contract by 8.1 per cent in 2020 before recovering somewhat by 4 per cent. Towns highlighted as potential risks in the MERO includes Stanford, Hawston and Kleinmond that have been identified as being economically vulnerable. The economies of Stanford and Kleinmond are largely influenced by the sizable retired population in the area. Furthermore, Stanford is also a popular town for holiday homes, and economic activity is thus largely influenced by holiday seasonality.

The 2021/22 IDP Review reflects that the significant contraction in the economy, as mentioned in the MERO has resulted in multiple job losses in the Overstrand municipal area. Along with the increasing

unemployment rate, the associated reduction in household income would also increase the demand for public sector support and an increase in the number of indigent households due to COVID-19. It is therefore inevitable that additional pressure will be placed on the Municipality, as revenue collection may be hampered, despite the fact that the same level of services would still be required.

The 2021/22 IDP Review emphasizes the significant impact the COVID -19 pandemic had on the socio-economic conditions in the Overstrand. Tourism, seen as a key economic sector in the Overstrand, has been severely affected. Job losses in this sector will increase unemployment and poverty. It should also be remembered that the second wave, which nullified the potential holiday boost traditionally associated with the December holiday season, is only subsiding now. It is therefore crucial that the Municipality find more resilient, methods/strategies that will ensure that the risks/hazards been posed by COVID-19 be dealt with timeously considering that a third wave is predicted.

2.2.2 IDP process

In terms of Sections 28 and 29 of the Municipal Systems Act 32 of 2000 (MSA), a municipality must follow a prescribed process when reviewing and/or amending an IDP. Furthermore, key activities and deadlines for the process must be set out in a Time Schedule adopted in terms of Section 21 of the Municipal Finance Management Act 56 of 2003 (MFMA).

The MSA and Municipal Planning and Performance Management Regulations requires that a district municipality must consult with the local municipalities when intending to review and/or amend their IDP. Similarly, local municipalities are required to consult the district municipality.

The 2017 – 2022 IDP of the Municipality highlights the requirement to adopt a process plan in terms of section 28 of the MSA. The 2017 – 2022 IDP contains a summary of the steps followed by the Municipality to adopt the IDP Process Plan, as well as the Time Schedule, which sets out the key deadlines, the stakeholders involved in the process, the mechanisms used to communicate the progress made in developing the IDP and the five-year cycle of the IDP involving annual review.

The 2017 – 2022 IDP reflects that the Process Plan was approved by Council on 20 August 2020. In addition, the 2020/21 Time Schedule as approved on 26 August 2020, and reflects the tabling of the Budget and the Service Delivery and Budget Implementation Plan (SDBIP) to Council in March 2021.

2.2.3 IDP compliance

Section 26 of the MSA refers to the core components of an IDP and states that an IDP *must reflect* –

- the municipal council's vision for the long-term development of the Municipality;
- an assessment of the existing level of development in the Municipality;
- the council's development priorities and objectives for its elected term;
- the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the Municipality in terms of legislation;
- a Spatial Development Framework;
- the council's operational strategies;
- applicable disaster management plans;
- a financial plan; and

- the key performance indicators, and performance targets determined in terms of section 41 of the MSA.

As per the above, the Municipality has met the requirements stipulated in Section 26 of the MSA.

2.2.4 IDP alignment

Section 32 of the MSA state that the MEC may within 30 days of receiving a copy of an IDP, or within such reasonable period as may be approved by the Minister request a municipality to adjust the plan or amendment in accordance with the MECs proposal if it is in conflict with or is not aligned with or negates any of the development strategies of other affected municipalities or organs of state. Section 26 of the MSA further requires that IDPs must be aligned with and not negate the national and provincial development plans and planning requirements binding on the Municipality in terms of legislation.

To ensure alignment between the 2021/22 IDP Review and national, provincial plans, various sector departments formed part of the assessment as found below.

Economic Development

The Local Economic Development (LED) Strategy was initially adopted in 2007 and is incorporated to form part of and align with the Spatial Development Framework and the Growth Management Strategy. The 2021/22 IDP Review reflects that the LED Strategy was reviewed in 2017/18 financial year.

In response to the COVID-19 pandemic, the Municipality introduced an Economic Response Plan also referred to as a recovery strategy, which mainly focusses on stimulating the economy by supporting entrepreneurial efforts and bringing back people to work so as to nudge the economy upward. The recovery strategy links with the LED strategy through the implementation of LED programmes and provides relief to local businesses to continue growing the local economy. The 2021/22 IDP Review reflects that currently the Municipality created over 1500 jobs and provided over 400 permits to the Informal Sector.

Human Settlements and Transport

The 2021/22 IDP Review reflects that the Municipality has aligned its vision with that of the Western Cape Provincial Government (WCG) which promotes the development of integrated and sustainable human settlements with access to social and economic opportunities for all its citizens. In addition, the Municipality has compiled a comprehensive Five-Year Human Settlement Strategy and pipeline to improve integrated human settlement development and delivery within the Municipality.

The Municipality indicated that the current housing delivery model cannot address the current and future need for housing, as the growing demand continues to exceed supply. Much of this demand consists of families living in informal structures in informal settlements and backyards. The 2021/22 IDP Review also reflects that there is no reliable information available on the number of backyard dwellers, making it increasingly difficult to accurately plan for future housing needs in the Overstrand area. Another key challenge to the development of sustainable human settlements is the limited availability of well-located land, if a site and service delivery model is followed.

The 2021/22 IDP Review also reflects on a Socio-Economic Study that was undertaken by the Department of Human Settlements (DHS) in conjunction with the Municipality to determine and gain a better understanding of the demand and need for low cost- as well as affordable housing.

The Integrated Transport Plan (ITP) is summarised in Chapter 8 of the 2021/22 IDP Review and is currently being reviewed. The Overstrand Transport Plan Volume 1 which was developed by the Department of Transport and Public Works, will serve along with the Integrated Transport Plan (ITP) as the Road Transport Plan for the Overstrand Municipality. The Municipality's main planning documents for roads are reflected

in the 2021/22 IDP Review as the Integrated Transport Plan; the Pavement Management System; and the Roads Asset Register. Based on these documents, an assessment was made of the roads infrastructure requirements for the next 10 years (i.e. 2020-2030).

Health, Social Services and Amenities

The Municipality has a shortage of ordinary public schools (primary and secondary) in the municipal area, which was confirmed by the Western Cape Education Department. However, the five-year Education Infrastructure Intervention Programme, which was updated in March 2021, indicates how additional learning spaces will be catered for in the various areas within the Municipality, including two new schools planned to commence with construction within the next 5 years (Hermanus Technical High School and Hermanus Primary School for the Zwelihle area).

Safe and Cohesive Communities

The 2021/22 Review IDP reflects that the Municipality's Safety Plan is reviewed on a three-year cycle in conjunction with all the relevant role players and is due for review October 2021. The Overstrand Municipal Safety Plan focuses on integrated increased visible patrols to prevent crime in all communities in an effort to deter Bylaw related offenses that have an impact on the quality of life of residents.

The Municipality has an operational K9 unit and its purpose is to expand the capability of Law Enforcement in dealing effectively with public safety crimes such as poaching and drugs while monitoring and reporting on these crimes.

2.2.5 IDP Implementation

The 2021/22 IDP Review constitutes the fourth and last annual review cycle of the 2017 – 2022 IDP and therefore an important milestone to assess whether the Municipality might be at risk of not achieving its strategic objectives.

The Key Performance Indicators (KPIs) per strategic objective as contained within the Top-layer SDBIP of the 2017-2022 IDP was compared to the 2021/22 IDP Review to determine whether the KPIs have changed and the progress against the set targets. The analysis reflects that the 2021/22 IDP Review contains the same number of KPIs as the 2017 – 2022 IDP.

The 2019/20 Annual Report of the Municipality reflects that the Municipality met 298, 74 per cent of a total number of 403 KPIs for the period 01 July 2019 – 30 June 2020. The 2019/20 Annual Report also reflects that 77, 19.11 per cent of KPIs were almost met and 28, 6.95 per cent of the indicators were, for good and valid reasons not met. The Annual Report highlights the fact that service delivery was severely challenged during the 4th quarter of the 2019/20 financial year due to the nationwide lockdown imposed as result of the COVID-19 pandemic.

As per the 2020/21 Technical Integrated Management Engagement (TIME) report of the mid-year non-financial performance per strategic objective, the Municipality has achieved 76.6 per cent of its target during the first half of the financial year. This reflects a variance of more than 20 per cent between planned and actual targets for the period 1 July 2020 to 31 December 2020. However, the TIME report indicated that corrective measures will be implemented, where targets were not met as planned.

2.2.6 Outstanding areas for improvement

The Municipality adequately responded to the identified areas for further improvement.

2.3 Environmental and Planning Analysis

Compliance, Performance, Implementation and Changing Circumstances

The MSDF contains the beginnings of a Capital Expenditure Framework. The Draft IDP also contains a chapter on the Capital Expenditure Framework as contained in the SDF. A chapter on the MSDF is contained within the IDP. This chapter includes the Spatial Proposals for each area. It is noted that the Overstand SDF does not contain detailed projects and programmes as these are supposed to be included in the Overstand Growth Management Strategy (OGMS). The OGMS was due to be updated with the SDF in 2020, but it seems that this did not happen. The last OGMS was approved by the Council in 2011. Chapter 4 of the Draft IDP lists numerous services/infrastructure projects which are planned for the short and medium term, for the most part the need for these services/infrastructure projects are reflected in the SDF (although not in any detail.)

The MSDF does not provide clear guidance as to exactly which projects require Provincial, National and SOE investments. The IDP does however contain Table 81 which lists what one assumes are Provincial Departments, and the amounts of money required from each of these Departments over the medium term, as well as a table which lists Provincial Infrastructure Investment Projects between 2021 to 2024.

The MSDF does not have a Monitoring and Evaluation Framework and Implementation table against which progress in relation to the implementation of the SDF can be determined. It is therefore difficult to determine the extent to which the budget is aligned to the SDF. The need for the budget to be aligned with the CEF/SDF is critical given that the IDP states that the total requirement for infrastructure over the next 10 years is R3, 113 billion at 2019 prices. Given the need vs what is affordable, it is very important that whatever money is spent, is spent in spatial locations that will have the greatest positive impact.

Since 2022 will be the start of a new IDP cycle, the Municipality will be required to draft a new IDP. This does not however mean that a new SDF needs to be drafted simultaneously, if it is felt that the current SDF remains valid. The decision as to whether to redraft, amend or continue using the current SDF should be made based on a performance review of the current SDF. Following this performance review, if it is found that there are numerous gaps in the current SDF, or circumstances have changed significantly since the SDF was drafted this would indicate the need for an SDF redraft or at the very least an amendment. Whether the SDF is redrafted, amended or simply reviewed in terms of performance, it will need to be adopted together with the IDP at the start of the new IDP terms of office.

A weakness of the MSDF is that it does not contain a comprehensive Capital Expenditure Framework. A more comprehensive CEF will ensure that the spatial direction provided in the SDF can ultimately be implemented through the correct budget allocations in the IDP. Together with a CEF a Monitoring and Evaluation Framework needs to be prepared as part of the SDF.

In the next iteration of the MSDF, Overstrand Municipality should:

- Include the designation of areas for the application of an inclusionary housing policy,
- Include areas within the Municipality where incremental upgrading approaches to development and regulation will be applicable,
- Identify areas where shortened land use development procedures may be applicable.
- Indicate areas of priority intervention and spending for the next 5 years
- Outline specific arrangements for prioritising, mobilising, sequencing and implementing public and private infrastructural and land development investment in priority spatial structuring areas.

O/S Comments - Overstrand intentionally did not further develop its CEF as the Municipality is part of a program instituted by the Provincial Government in conjunction with the Development Bank of South Africa to draft a Capital Expenditure Program.

The biodiversity unit within the Overstrand Municipality (OM) is developing Alien Clearing Management Plans for the municipal reserves and open spaces. The municipal IDP reflects that alien clearing is done. The budget for alien vegetation management for 2020/2021 was R500 000. However, due to COVID-19 lockdown regulations, only R5 400 of the allocated budget was spent as contractors were not allowed to work in the field for a large period of the 2020/21 financial year. Further to this, no vegetation clearing figures were reported on. The Municipal SDF does correctly assign Spatial Planning Categories as per the Western Cape Biodiversity Spatial Plan (BSP), and the BSP has been incorporated into the IDP and SDF.

In terms of Climate Change, it should firstly be noted that this IDP review has taken on a new set of questions to determine the performance of municipalities in terms of climate change responsiveness. Given the increasing emergency in relation to the climate change threats to our society and economy, the level of preparedness and systems change needs to upscale rapidly. This questions in this IDP review assess this maturation of the province to prepare for climate change. Although there are aspects of climate change response that are legislated for municipalities such as climate change adaptation as part of the Disaster Management Amendment Act and the Spatial Planning and Land Use Management Act, amongst others, there is no stand-alone climate change legislation, in place. A Climate Change Bill in under development and this will place specific requirements on municipalities to respond to climate change. The Overstrand municipality was involved in the development of the Overberg Climate Change Strategy and is working on mainstreaming climate change into their own operations. Climate change is already, and will continue to impact on the municipality, in the form of water scarcity, sea-level rise and an increase in extreme events. These and other considerations, including energy security, will need to be included in strategic planning in both the short and the long term. There is however, very little evidence of the inclusion of the climate change in the budgeting documentation accompanying the IDP, although the IDP states that climate change impacts are incorporated into relevant master plans and project specifications. There is also no evidence of systematic plans to reduce spending in locations of activities that are exposed to climate change impacts.

During the review process of Overstrand's Spatial Development Framework (SDF) it was found that the Coastal Management Lines (CML) have been included in this municipality's SDF. DEA&DP has concluded a Coastal Access Audit for the Overberg and is continuing to support the implementation of the Coastal Access Pilot Project for Middlevlei. The review of the Overstrand Coastal Management Programme (CMP) was concluded in the previous financial year and implementation will only happen as budget allows. The Municipality have PLS sites within their jurisdiction, there are draft operational plans for the PLS sites. The current PLS list is in the review process. The Municipality has requested for the delisting of some of the PLS and the listing of Hawston launch site, these requests will be considered during the review. The DEA&DP is assisting with the development of operational plans for all PLS within the municipal jurisdiction. The Draft EMPs are available for the estuaries with the Municipality and there is a need to conclude the Implementation Protocol for the RMA function with this municipality. The DEA&DP will be consulting with the Municipality in the new financial year.

From a Waste Management and Planning perspective, the Municipality has a designated Waste Management Officer to oversee waste management matters. The Municipality's IWMP was recently reviewed and submitted to the Department for assessment and endorsement. The Municipality must provide updated current information on basic and free basic services. The Overstrand Municipality has 3 waste management facilities registered on IPWIS (Integrated Pollutant and Waste Information System), namely Gansbaai Landfill Site, Overstrand Municipality Garden Waste Chipping Gansbaai and Overstrand Municipality Recovery and Recycling Gansbaai. The Municipality submitted 6/6 waste management reports from January to February 2021. Through IPWIS report submissions the Municipality achieved a

compliancy score of 100% within this period. 1 608 tonnes of waste were disposed to landfills and 2 618 tonnes of waste was diverted from landfills. Thus, achieving a diversion rate of 63.2 per cent for this period. The Overstrand Municipality has an Integrated Waste Management By-law, published in July 2013, which is aligned to the National Environmental Management: Waste Act. The Municipality supports a buy-back centre in Hermanus and swop shops by collecting the waste and doing regular awareness at swop shop centres. The Municipality's split bag system has been affected by the destruction of the MRF and other infrastructure due to service delivery protests. Organic waste is diverted through chipping and composting. Furthermore, the Municipality disposes C&D waste in landfill as cover. The Municipality conducts a variety of awareness campaigns which includes waste puppet road shows, Paddavlei clean-ups held on World Environment Day and school programmes which involve tours for learners to the Karwyderskraal landfill facility. Furthermore, the Municipality creates awareness through the local Scout programme and makes use of the Facebook platform, newspaper articles such as Overstrand Bulletin, conducts presentations with the community organisations and schools. Video interviews and pamphlets are also used to raise awareness. The Gansbaai Waste Disposal Facility (WDF) is well managed and maintained and receives a high compliant rating from Departmental Audits conducted. The Municipality submits all internal and external audit reports for all operational Facilities, as well as for the historical closed Facilities. Action plans are submitted to the Department when required. The Municipality recently registered for the N&S for their new Materials Recovery Facility (MRF) and Drop of Facility (DOF) located in Hermanus. The Municipality is currently in the process of developing an Organic Waste Diversion Plan.

In terms of Air Quality, Section 14(3) and Section 15(2) of the National Environmental Management: Air Quality Act (NEM: AQA), a Municipality must designate an Air Quality Officer and adopt an Air Quality Management Plan (AQMP) within its jurisdiction. To ensure that a budget is allocated for air quality management, each municipality must include in its Integrated Development Plan (IDP), an AQMP. The Overstrand Municipality has designated an Air Quality Officer and has adopted an AQMP, as per the NEM: AQA. However, the Municipality must allocate funding to implement the AQMP, particularly in terms of monitoring ambient air quality to manage potential air pollution that may result from increased urbanisation.

L13/101

SECTION 3: ECONOMIC SUSTAINABILITY

3.1 Introduction

This section examines to what extent the tabled 2021/22 MTREF Budget is responsive from a socio-economic perspective as well as the Municipality's ability to meet the community expectations for services from its limited resources to contribute towards achieving economic recovery and maximising benefits for its residents.

Firstly, the socio-economic reality and needs within the community is examined to gain an understanding of the implications thereof. This is followed by an analysis of the budgetary allocations to the strategic objectives and the municipal and provincial expenditure to determine their respective responsiveness to the socio-economic reality of the George municipal area.

3.2 Socio-Economic Context

3.2.1 Socio-economic Overview

Table 1 Socio-Economic indicator analysis

Socio-economic Indicator		NDP Goal	Local context	District Average	WC Average
Population	**Population Growth**	0.5 -1% p.a.	3.1%	0.8%	1.8%
Access to basic services	**Formal housing**	-	78.1%	80.3%	79.1%
	Water	100%	98.5%	97.3%	96.6%
	Electricity	95%	89.2%	90.3%	93.7%
	Sanitation	-	93.1%	88.8%	90.9%
	Refuse	-	94.1%	82.8%	94.0%
Crime	**Murder (per 100 000)**	-	63	46	57
	Residential Burglaries	-	1 613	1 021	515
Economy	**Unemployment Rate**	14% by 2020	14.4%	10.4%	19.4%
	GDP growth (2019e)	4.5% per annum	0.3%	0.4%	0.3%
Human Development	**Human Development Index**	-	0.751	0.764	0.757

Source: Overstrand Municipality's 2020 Socio-economic Profile (SEP-LG)

The IDP Review references the population figures as they appear in the 2020 MERO and SEP-LG Profile i.e. that the population will grow from an estimated 104 748 people in 2020 to 118 316 by 2024 which equates to a 3.1 per cent average annual growth rate. Budget schedule SA9 however indicates that the Municipality will have a population of approximately 114 000 in 2021/22 which is estimated to grow to 117 000 in 2023/23, a 1.4 per cent average annual growth. Provincial Treasury must caution the Municipality to not underestimate its population figures which could result in budget shortfalls and an increase in the backlog.

O/S Comments:

We take note of treasury's cautionary note. However, it needs to be pointed out that the figures for 2019/20 (105901) and 2020/21 (109925) are both higher than Treasury's projection / estimation of Overstrand's population as provided in the *2020 Socio-economic profile (SEP): Overstrand Municipality* which was 104 748 for 2020. The outer year projection of 117 290 is for 2023/24. With another average increase of 1.4

percent, the projections will give Overstrand and estimated population of 118 932 for 2024/23, which is in line with Treasury's projection for 2024 of 118 316 provided in the 2020 SEP.There is a slight difference between the Municipality's own backlog estimates and the service delivery access levels outlined above. The IDP Review indicates that all formal and informal settlements within the municipal area enjoy access to water, sanitation and refuse removal services, but that there is still an electivity backlog. Budget schedule A10 does however not reflect this electricity backlog.

Although residents of the municipal area overall enjoy a high quality of life and well-being, the Municipality's HDI score is the lowest in the Districts and also notably lower than the Provincial average.

Sexual offence, drug-related offences and residential burglaries have been on the decline within the municipal area since 2018/19 which is testament to not only effective policing and law enforcement efforts, but a potential improvement in socio-economic conditions. The decline in criminal activity will encourage economic investment in Overstrand, improve consumer and business confidence and promote the perception of the municipal area as a desirable place to live, work and play. There has however been a sharp increase in the murder rate.

Economic growth has overall been subdued as a result of the constraining fiscal environment. Although the Municipality's growth rate is on par with that of the District and the Province, the general expectation is that the economic constraints will impact significantly on the average consumer. As disposable income dwindles and poverty intensifies, the Municipality can expect a notable increase in the demand for free basic services as more households will apply for indigent support. Stunted growth will have a negative impact on the Municipality's growth potential.

3.2.2 Community Needs Analysis

The Municipality and community have highlighted needs and risks facing the municipal area. These are reflected in the table below:

Table 2 Community Needs Analysis

Themes	Challenges
Economic	• Economic contraction and subsequent job losses, decline in business turnover and household income which will increase overall levels of poverty. • Stunted economic growth, overall skill levels. • Financial viability and sustainability and impact thereof on basic service delivery. • Unconducive environment for ease of doing business.
Social	• Poverty and income inequality. • Limited employment opportunities. • Social ills associated with substance abuse and linkages to other societal challenges such as domestic abuse and contact crimes. • Learner retention rate. • Protest action and civil unrest. • Economic opportunities. • Population growth and impact thereof on basic service delivery.

Themes	Challenges
Service Delivery	• Maintenance of ageing infrastructure. • Ageing and deteriorating fleet and small plant and equipment. • Vandalism and theft. • Effects of climate change on natural environment and infrastructure. • Limited water resources. • Storm water infiltration into sewer networks and inappropriate objects in sewer lines that cause blockages and additional maintenance of sewer lines. • Water pipe replacements. • Drought. • Illegal dumping. • Deterioration of Eskom infrastructure, limited Eskom capacity. • Funding constraints. • Inadequate stormwater network. • State of gravel roads. • Wildfires and urban fires. • Alien invasive species

Source: Overstrand Municipality's 2021/22 IDP Review

3.3 Municipal and Provincial Budget analysis

This section analyses the responsiveness of the budget and strategic objectives to the socio-economic reality of the Municipality.

3.3.1 Key budget priorities in terms of IDP Strategic Objectives

The 2021/22 MTREF budget breakdown in terms of the strategic objectives is indicated in the table below. Overstrand Municipality budgeted for a total operating expenditure budget of R358.3 million and a total capital budget of R50.0 million in the 2021/22 financial year.

Table 3 Strategic Objectives for the 2021/22 Medium Term Revenue & Expenditure Framework

Overstrand Supporting Table SA5 & SA6 Reconciliation of IDP Strategic Objectives and Budget (Operating and Capital Expenditure)								
Strategic Objective	2021/22 Medium Term Revenue & Expenditure Framework OPEX				2021/22 Medium Term Revenue & Expenditure Framework CAPEX			
R thousand	Budget Year 2021/22	Budget Year 2022/23	Budget Year 2023/24	Average Annual Growth	Budget Year 2021/22	Budget Year 2022/23	Budget Year 2023/24	Average Annual Growth
The provision of democratic, accountable and ethical governance	284 355	295 732	315 195	5.3%	3 775	6 125	3 575	-2.7%
The provision and maintenance of municipal services	727 084	763 678	805 413	5.2%	138 446	81 003	78 018	-24.9%
The encouragement of structured community participation in the matters of the Municipality	1 125			-100.0%	5 675			-100.0%
The creation and maintenance of a safe and healthy environment	190 501	199 046	207 552	4.4%	20 048	1 610	6 110	-44.8%
The promotion of tourism, economic and social development	247 470	235 000	219 747	-5.8%	65 300	53 548	8 132	-64.7%
Total Expenditure	1 450 536	1 493 455	1 547 908	3.3%	233 444	142 286	95 835	-35.9%

Source: Overstrand Municipality, A-Schedules

The largest share of the operating budget (R727.1 million; 50.1 per cent) will be directed towards Strategic Objective (SO) 2: *The provision and maintenance of municipal services*. This allocation equates to a 13.0 per cent increase compared to the 202021 full-year forecast and is anticipated to on average grow by 5.2 per cent annually across the MTEF. The 2021/22 allocation bodes well to accommodate inflationary based increases, efforts to uphold existing service standards while simultaneously making progress to eradicate perceived backlogs. The average annual increase across the MTEF does however appear relatively low to keep pace with the anticipated increase in the demand for basic services (including indigent support) amidst a constraint fiscal environment.

Strategic allocations towards SO 1: *The provision of democratic, accountable and ethical governance* will contribute towards strengthening the Municipality's already sound institutional arrangements and relationship with the public.

Sizeable allocations towards Strategic allocations towards SO 5: The promotion of tourism, economic and social development will greatly assist to unlock the municipal areas' growth and developmental potential while prioritising the overall quality of life of the most vulnerable members of society. This allocation therefore aligns particularly well to the WCG Economic Recovery plan that places a strong emphasis on job creation and the promotion of societal well-being.

The Municipality has a total capital budget of R233.4 million for 2021/22 of which R138.5 million (59.3 per cent) has been allocated towards SO 2: *The provision and maintenance of municipal services*. The allocation decreases significantly (13.9 per cent) when compared to the 2020/21 full-year forecast and is anticipated to on average decline by 24.9 per cent which is concerning given the need to expand the network to accommodate future population growth. The decrease can however be attributed to the end of an asset prioritisation cycle whereby a strategic emphasis was placed on bulk water and sanitation infrastructure.

The IDP Review clearly illustrates alignment between the Municipality's strategic objectives and the District, Provincial and National Strategies, objectives and outcomes.

3.3.2 **Municipal and Provincial Expenditure**

Overstrand Municipality and the Western Cape Government (WCG) will in 2021/22 collectively spend R470.7 million on infrastructure expansions across the municipal area. The Municipality will in turn channel R1.451 billion in operating budget allocations towards the provision of services.

Table 4 Comparison of Provincial and Estimated Municipal Expenditure: 2021/22 (R'000)

Source: 2020 Western Cape EPRE (Provincial spend), National Treasury Database (Municipal spend)

3.3.2.1 Economic Expenditure Analysis

Broadly speaking, allocations towards this category refer to expenditure on economic infrastructure i.e. assets and facilities that support the development of other sectors within the economy.

Road transport and Public Works

The Municipality's general road maintenance efforts will in 2021/22 be supported through a R116.1 million allocation from the operating budget. The allocation responds particularly well to the function's biggest challenge, namely to provide for the timeous and regular upkeep of municipal roads. The allocation increases at 6.8 per cent from the 2020/21 full-year forecast which is cost-reflective and inflation-based, but could arguable have been higher to support proactive attempts to maintain the current asset base which is prone to deterioration. Provincial Treasury is however well aware of the funding constraints in this regard.

Funding challenges aside, the overall the operating budget towards the Roads function is responsive. The allocation for regular road maintenance, upkeep, rehabilitation and renewal will have several positive economic and social spin-offs i.e. enhancing the longevity of current assets will ensure sustainable access to economic opportunities which will significantly improve the economic and social standing of businesses and private citizens alike. The allocation towards road transport will further serve as a catalyst for development by unlocking the municipal area's high growth potential.

48/101

The IDP Review indicates that the public participation process on the Public Transport Improvement Plan was delayed as a result of COVID-19 and due to a lack of funding. The Municipality is requested to clarify whether the 2021/22 operating budget will allow for any action in this regard. The capital budget towards road transport decrease by 54.7 per cent and will amount to R10.2 million in 2021/22. The decrease can mostly be attributed to the completion of large new asset projects prioritized in 2020/21. The single largest capital project for road transport will be a R5.6 million allocations for the construction of the Blompark Bus Route. Although this allocation bodes well to improve access to economic opportunities for those living within vulnerable communities and compliments new housing developments within this area, the IDP Review does not reflect how this project links to the Municipality's Integrated Transport Plan.

It does not appear that the current budget makes provision for further non-motorised transport initiatives across the MTEF. Non-motorised transport (NMT) initiatives (dedicated walk-ways, sidewalks and bike paths) have a wide range of social (more time with family, less traffic-induced stress, healthier lifestyles), economic (cost-effective and less time consuming, improving productivity) and environmental (reduced carbon emissions) benefits. Various other social ills will however impact negatively on the public's willingness to make use of such facilities, most notably every increasing crime rates and the general dangerous nature of South African roads resulting in substantial annual road-user deaths. These factors contribute to the fact that South Africa does not in general have a bicycle commuting culture. The Municipality is to this extent urged to invest in information campaigns to raise awareness on the benefits of NMT initiatives. The possibility also exists for the Municipality to link the promotion of NMT to cycling tourism initiatives.

O/S Comments - The road project form part of the Blompark housing project provision has been made for non-motorised transport (NMT) as part of this project. The road project will also link up the Blompark Housing Development with economic opportunities. The WCG's allocation towards road transport infrastructure in 2021/22 will be R120.0 million to rehabilitate, renovate and refurbish the main road linking Hermanus to Gansbaai. This is a multi-year project which will significantly increase the road's mobility function by allowing for future traffic growth while increasing the shoulder distance. Expanding the road's current capacity will improve access to major tourist destinations, agricultural land and nature conservancies while simultaneously allowing for future commercial and industrial presence. This project will link very well to future endeavors to by-pass the Hermanus CBD (Provincial initiative).

3.3.2.2 **Social Expenditure Analysis**

Housing

The Municipality currently gives effect to the objectives of its Housing Strategy through the *Housing* function that delivers an extensive range of services pertaining to the upgrade of informal settlements, provision of integrated human settlements, the roll-out of economic and social facilities within new developments, provision of social housing opportunities, emergency housing and institutional subsidies. The IDP Review contains a detailed schedule outlining how the Municipality prioritises allocations (grant funding permitted) to these programmes and initiatives across the MTEF and beyond.

One of the key objectives of the Municipality's housing function is to mainstream basic service delivery to informal settlements and backyard dwellers (backlog) which includes efforts to roll-out services as well as to formalize these settlements. Efforts in this regard will in 2021/22 be supported by a R63.7 million operating budget allocation which equates to a 49.6 per cent increase on the 2020/21 full-year forecast. This allocation is anticipated to increase by 10.2 per cent across the MTEF. Accelerated spending in this regard has specifically been made possible through the acknowledgment (which has subsequently given rise to a new policy direction by national and provincial government alike) that the provision of formal brick and mortar housing solutions is no longer a sustainable delivery model. To this end, the Municipality should clarify why no functional allocations have been made towards Informal Settlements in budget schedule A2A.

The capital budget allocation towards the Housing function will in 2021/22 increase by 26.6 per cent to R54.4 million, but decline on average by 75.5 annually. Support schedule SA36 indicates that the bulk of this amount will be applied toward "LCH services construction contracts". Budget schedule A9 furthermore indicates that the capital budget for *Housing* will almost exclusively be applied toward the construction of new assets. Provincial Treasury was however not able to link the budget allocations to the human settlement projects planned for 2021/22 as outlined on pages 165 – 166 of the IDP Review. A minor allocation of R2.1 million has been set aside for the Hawston housing development.

The Housing Strategy Implementation Schedule (pages 168 – 179 of the IDP Review) should more clearly distinguish between operational and capital related costs.

O/S Comments - Noted

The WCG will in 2021/22 direct R109.0 million towards Housing projects within the municipal area. Most notable projects include the provision of service site and top structures in Masakhane (R33.4 million), Zwelihle (R18.2 million) and Mount Pleasant (R18.9 million). These projects link very well to the Municipality's Housing Strategy Implementation Schedule indicating the Municipality, in collaboration with the WCG, is prioritizing allocations towards the vulnerable communities to promote social inclusion and to improve access to economic opportunities, jobs and public amenities. Allocations are strategic and targeted giving full effect to the notion of co-planning, co-budgeting and co-implementation.

Health

The Municipality does not perform health functions and has as such not made any allocations towards this area.

The WCG will direct R6.3 million towards the *Health* function in 2021/22 which will mostly be applied towards upgrades and additions at the Gansbaai Clinic (R4.7 million). Minor allocations are also directed towards health technology at the Gansbaai Clinic (R400 000) and the Pearly Beach Satellite Clinic (R600 000). These allocations are referenced in the IDP Review.

Social Development

Investment towards social development is of the utmost importance to improve the overall well-being of citizens to such an extent that they are able to reach their full potential within society. This notion rings particularly true within communities outside of the urban centre where poverty and limited job opportunities often give rise to associated socials ills such as substance abuse, gender-based violence and food insecurity. Although the Municipality is not directly mandated to address these challenges, it does have a dedicated community and social services component concerned with the provision of library service, the upkeep of community halls and facilities. The Municipality further plays a key social development role by facilitating access to services for vulnerable groups of society (children, elderly, disabled etc.)

The operating budget towards libraries and archives increase by 5.2 per cent while annually increasing by 13.0 per cent throughout the MTEF. The 2021/22 allocation will ensure that service standards are upheld whereas the notable average annual increase in the outer years will allow for the Municipality to expand its scope of service by the roll-out of extramural initiatives such as outreach and awareness campaigns and afterschool reading programmes. The Municipality's efforts to allocated sizeable amounts to libraries (amidst existing funding constraints) is commended given the availability of these facilities can improve access to information that translates to economic, social and cultural advancement of particularly the youth.

The Municipality's capital budget towards the *Community and Social Services* function decreases by 51.2 per cent in 2021/22 and will almost be reduced to zero throughout the MTREF. Most of the funding in

2021/22 will be applied towards upgrades and additions to community halls and facilities. Having such assets in good standing contributes notably towards fostering a sense of belonging by providing a safe space for community members to socialise, learn, play and access services. The capital budget makes provision for the construction of a new library in Zwelihle in 2021/22.

The Municipality is requested to provide more information regarding the approval of a cemetery policy and accompanying by-law.

O/S Comments –

Purpose of the Policy and by-law are to:

Regulate burials, prohibit disintegration, destruction and damages of graves, to regulate disturbance, removal and reinternment of bodies, etc. Mentioned draft documentation have been advertised for public comment and implementation is envisaged for January 2022. The Municipality is commended for the extensive manner in which the impact of COVID-19 on the local community has been covered in the IDP Review. A detailed overview has also been provided of the Municipality's efforts through the Community and Social Services directorate to provide relief to vulnerable communities.

Safety and Security

The Municipality's safety and security component fulfils activities associated with traffic and law enforcement (by-laws) as well as fire and disaster management. As safety and security in the broader sense is essentially an unfunded mandate, money to improve service delivery towards this end remains limited. Notable challenges experienced by the function include capacity constraints (staff shortages, especially during festive periods), vagrancy and illegal occupations, adherence to movement restrictions by the public during lockdown as well as upskilling of existing staff compliment.

An amount of R115.1 million in operating budget funding will be directed towards the *Public Safety* function in 2021/22 which constitutes a 6.0 per cent decrease when compared to the 2020/21 full-year forecast. Allocations will however increase by an average annual estimated 4.3 per cent across the MTEF. It is unclear what the underlying assumptions are behind the decrease for 2021/22. The allocation will arguably not suffice to accommodate inflationary increases associated with consumables, provide for additional staff and/or training (improved capacity), allow the function to improve its visible policing efforts or to expand the current K9 unit (albeit that this function will be cross-subsidised from tariffs). Provincial Treasury does however take cognisanse of the anticipated decrease in fine income which does contribute notably towards the functions revenue streams.

It could not be ascertained what contributed to the notable increase towards Civil Defence i.e. from R4.6 million in 2020/21 to R15.2 million in 2021.

- **O/S Comments - The variance is attributed to the re-alignment/restructuring of salary budgets in the protection services directorate. The Civil Defense should be seen in conjunction with other sub-functions for Public Safety as shown in the table below**

L21/101

R thousand	Current Year 2020/21	Budget Year 2021/22
Public safety	122 500	115 101
Civil Defence	4 562	15 237
Control of Public Nuisances	26 017	19 258
Fire Fighting and Protection	33 953	30 180
Police Forces, Traffic and Street	57 967	50 426

Page 275 of the IDP Review contains a table showing the operating budget for Fire & Disaster Management and Safety and Security as part of Vote 8. The figures in this table does not align to budget schedule A3A.

O/S Comments - The reference to "Vote 8" should be "Vote 6" and has been communicated with the Senior Manager: Strategic Services for correction The capital budget allocation for *Public Safety* is limited to R3.8 million to mostly replace the roof of the Hermanus Traffic Department, to establish a K53 test station in Gansbaai and to procure vehicles. These projects all appear on the ward-specific demand list in the IDP.

Job creation

Although job creation is not a direct mandate of local government, the Municipality does facilitate work opportunities through the roll-out of infrastructure projects. The notable increase in the capital expenditure budget for 2021/22 is anticipated to directly benefit local workers and contractors.

The Municipality was able to create 1 060 Extended Public Works Programme (EPWP) job opportunities in 2019/20 through 57 initiatives such as the Abalone Shell and Library Reading projects. Both these projects have a strong skills development/transfer focus. EPWP personnel are also appointed as permanent Cadet Firefighters.

It is unclear whether any EPWP opportunities will be created as part of the Working for the Coast initiative in 2021/22.

O/S Comments - There is no EPWP initiative for the coast for 2021/22,through the Department of Forestry, Fisheries and Environment with the Municipalities on the coastal districts there are engagements on the implementation of the Source of Sea programme as part of the Presidential Employment Stimulus Initiative the project is expected to roll out in July or August 2021. The Municipality's EPWP national key performance indicator (NKPI) target (number of temporary work opportunities create through EPWP) in the draft SDBIP remains unchanged at 1 018 job opportunities in 2021/22.

The IDP Review does not reflect on the specific skills training and development initiatives and associated cost implications planned for external parties (not municipal workforce) in 2021/22.

3.3.2.3 **Trading Services Infrastructure Analysis**

The Municipality's operating budget for trading services increase by 12.5 per cent and will continue to increase annually by 5.3 per cent across the MTEF. These increases bode well to uphold service standards; provide for the increased demand for services stemming from population growth and to formalise services within informal settlements.

It is at face value unclear how the Municipality intends to ensure the timeous and effective upkeep of existing assets (renewal and upgrades) while proactively expanding the basic services network towards new developments and informal settlements with a 13.9 per cent decrease in the capital budget towards trading services.

Grants and transfers, as a percentage of the overall capital budget, increase notably due to the reduction in cash surpluses (own revenue) being made available for infrastructure investment.

Electricity

Although the Municipality does not have any electricity backlogs, its service standards are under pressure amidst ongoing theft and vandalism, ageing infrastructure and the intermittent Eskom supply which has a direct impact on the region's economic growth prospects.

The operating budget for electricity services is estimated to increase by 14.5 per cent when compared to the 2020/21 full-year forecast. Although the allocation does bode well to accommodate the NERSA price increase (and to provide for inflationary increases in the cost of consumables), it is unclear whether it will suffice to uphold existing service standards while simultaneously providing for new service connections stemming from population growth. The budget report does however indicate that operating expenditure increases were made taking into consideration the urgent need to maintain its current assets. The operating budget allocation for repairs and maintenance of electricity infrastructure is anticipated to increase by 3.1 per cent in 2021/22. The capital budget allocation towards the electricity function will significantly increase by 213.4 per cent. This allocation responds particularly well to give effect to the electrical infrastructure requirements for the next ten years as informed by the Municipality's Electricity Master Plan, Electrical Asset Register as well as the housing plan. The 2021/22 capital budget allocation will almost exclusively be applied towards the construction of new assets. The substantial investment in electricity infrastructure will not only serve as a catalyst for industrial growth and development, but bodes well to accommodate new housing developments. The allocation does however on average decrease by 36.1 per cent annually across the MTEF which does draw into question the sustainability of these efforts.

Budget schedule A10 reflects a 0.4 per cent increase in the number of households to receive electricity services above the minimum standard. The number of households is expected to decrease by 0.3 per cent. The Municipality is requested to clarify the relatively small increase given the above average population growth and anticipated increase in the demand for basic services.

O/S Comments - The Birkenhead 66kV Substation will make out the biggest part of the capital expenditure within the next few years. Currently the electricity supply is constrained which is inhibiting the development of the agricultural sector, in particular the Abalone farming which is energy intensive. In addition the existing fish processing plants are also prevented from expansion. The project's main aim is to unlock the agriculture and industrial industry in the Gansbaai area which is in desperate need for growth in employment.

Overstrand has standardized on the installation of pre-payment meters for all domestic consumers. Due to the conversion from credit to prepaid installations, there is an annual decline in the number of credit meters and an increase in the number of prepaid meters. These are indicated on the Budget schedule A10 as Electricity (at least min. service level) and Electricity-prepaid (min. service level). According to Overstrand's Electricity Supply By-law as promulgated in the Gazette on 21 October 2016, Overstrand only supplies one meter per property. The increase in the number of service connections thus does not increase exponentially with the population growth as many families tend to stay together on one property.

Water

The Municipality will in 2021/22 increase its general water consumption tariff by 4.0 per cent which is cost-effective given the associated increase in the operating budget allocation towards the water function (3.5 per cent). The Municipality is commended for the manner in which it keeps this service affordable through a modest prince increase.

The increase does however appear relatively low taking into consideration inflationary increases and the need to provide for an anticipated increase in the demand for water services. Budget schedule A10 indicates that the Municipality will in 2021/22 provide 2.3 per cent more households with access to water services above the minimum standard. This figure is expected to annually increase by 3.7 per cent on average across the MTEF.

The most pressing challenges facing the water function however relate to the need for bulk infrastructure expansions which would necessitate sizeable capital budget allocations. It does therefore come at a surprise that the capital budget allocation decrease by 28.6 per cent in 2021/22 and will continue to decrease by an average annual 21.5 per cent across the MTEF. Although this decrease does at face value appear concerning, the current network is stable and is able to meet the existing demand in a sustainable manner through a well-diversified mix of ground and surface water sources. The current decrease will therefore not compromise the timeous expansion of the network (storage, distribution as well as treatment capacity) over the medium term.

Sanitation

The IDP Review document lists several challenges experienced by the Municipality in providing adequate waste-water services. These include, but are not limited to, ageing bulk infrastructure, extending the waterborne sewer network, the provision of sufficient treatment capacity in all areas, sludge handling according to legislation, lack of consumer knowledge, sewer blockages as well as the use of conservancy tank services. All of the Municipality's current waste-water treatment plants have adequate capacity to accommodate a demand increase. These challenges necessitate both operational and capital expenditure allocations.

The operating expenditure budget will in 2021/22 increase by 15.1 per cent and will on average increase by 3.5 per cent annually across the MTEF. The 2021/22 increase is notably above the 4.0 per cent sanitation tariff increase which means that the Municipality is proactively directing additional funding towards the function to, what is assumed, be applied towards increased repairs and maintenance efforts. The budget report (page 22) however indicates that expenditure on repairs and maintenance for the *Sanitation* function decreases by 12.8 per cent.

The capital budget decrease of 41.6 per cent in 2021/22 appears excessive, but can be attributed to the completion of the 3-year water and sewerage infrastructure upgrading and expansion strategy which draws to a close at the end of the current (2020/21) financial year. The total capital budget allocation of R40.7 million towards waste-water management still serves as a proactive attempt to expand the current network's ability (both distribution and treatment capacity) to accommodate new housing developments in future.

The IDP Review/annual report indicates that Betties Bay, Pringle Bay, Rooi-Els, Baardskeerdersbos and Buffeljagsbaai all still rely on the sewerage tanker truck system. The annual report specifically indicates that the Municipality will over time eliminate the tanker system as it gradually upgrades and expand the sewer system, but that more tankers are required in the interim. It does not appear that the capital budget makes provision for such tankers or for network expansions in above mentioned areas which falls within Ward 10.

L24/101

Refuse Removal

The 2019/20 draft annual report (page 229) refers to the "new Materials Recovery and Public Drop-off Facility" as well as the "Hermanus Material Recovery Facility". The former project is currently being constructed and is scheduled to be completed before the start of the new financial year. The annual report indicates that the Municipality is busy appointing an operator for the latter project. It is unclear whether this is the same project or two different initiatives. Irrespective, the Municipality is requested to update the IDP Review to reflect the cost implications of this facility/facilities for the new financial year.

O/S Comments - The reporting on IPWIS is done on a monthly basis as required and currently includes the tons recycled at the Gansbaai MRF, Information on tons recycled at the new Hermanus MRF will be added on the IPWIS system once the MRF starts to operate Two different projects the first is for construction of the facility and drop off.The second is for operation of the facility

The annual report further indicates that the contract for private contractors for area and street cleaning will again be put out to tender. The IDP Review does not specifically refer to this function (situation update) and as such does not indicate what the operating budget implications will be.

Included in the operational budget and is an ongoing activity, (replaces previous completed tender)

The IDP Review lists several landfill sites that must be rehabilitated at an estimates cost of R70.0 million. The Municipality is however looking at alternative ways to use these sites to save costs. Consideration of support schedule SA3 indicates that the Municipality is making provision for the rehabilitation of these sites as a non-current item i.e. the potential rehabilitation costs are not cash backed. The Municipality is requested to provide more clarity regarding the alternative options being considered to bring the costs down. The Municipality must ensure that its refuse removal tariffs are cost-reflective to accommodate the rehabilitation costs, should alternative cost-saving mechanisms not materialise.

O/S Comments - The Municipality has a current tender with a service provider to create waste recycling awareness amongst the scholars Overstrand wide (i.e. covers all areas) via puppet and live theatre shows. There are also privately run swop shops operating in Zwelihle, Stanford Masekhane and Exloweni which also helps to encourages the recycling of materials from these informal areas Three of the closed sites were or are planned to be removed instead of rehabilitating them as it is more cost effective to do that and also then the land can be made available for other uses.
The Pearly beach landfill was removed and a wastewater treatment works constructed on the site.
The Hawston Landfill removed to Karwyderskraal instead of rehabilitating.
We are currently busy with the waste surrendering process for these two.
The Fisherhaven is the last one still to be removed under our current plan.

The specific operating budget allocation for recycling did not change throughout 2020/21 (R258 000) despite the annual report indicating that the contractor had to reduce activities amidst the COVID-19 pandemic. It is unclear whether there were any cost-implications for the Municipality as a result of this situation. The allocation does also not increase (budget schedule A2A) for 2021/22.

O/S Comments - The R258 00 is only the maintenance portion of recycling which was kept the same. The operating budget should actually also include the recycling operational numbers which are in B Key 20200630034789 Outsourced Services :Refuse Removal R443400 in 2010/21and this did increase in 2021/22

This was referring to the Gansbaai MRF operations and that operational costs of that MRF form part of the Gansbaai landfill ops tender

The operating budget (with an increase of 14.7 per cent) does at face value make provision for the immediate increase in operational activities associated with the solid waste function.

The capital budget decreases quite dramatically in 2021/22 which is attributed to the completion of the new Hermanus Transfer Station. The limited capital budget allocation of R2.1 million for 2021/22 will mostly be applied to complete minor work at the facility (fencing costs).

The annual report indicates that the Stanford drop-off site experiences regular vandalism and that funding was requested to provide surveillance cameras in 2020/21.

3.4 Utilising Procurement as a Lever to Enhance Local Economic Development

The impact that the pandemic has had on the economy and the fiscus requires that a post-disaster recovery strategy is enabled to utilise procurement as a lever for recovery that supports not only the creation of jobs but enables provincial priorities such as safety and well-being through purchasing.

Key lessons and learnings will be customised for municipal requirements considering capabilities, capacity and maturity of the municipal sphere through the following key focus areas which have been identified as priorities for the implementation of the SCM strategy through the following Local Government initiatives in the future.

- e-Procurement and Supplier Evidence Bank.
- Procurement Planning Toolkits.
- District Transversal Contracts (Upfront Participation and collaboration keeping in mind regulation 32 and 36 challenges).
- Asset Management Capacitation and Development Programmes.

These initiatives will be driven through the four-pronged SCM approach namely, SCM Governance, SCM Capacitation and Training, Strategic Procurement and SCM Technology.

3.4.1 SCM Technology

The intent of this report is to provide performance information in terms of Supply Chain Management (SCM) to accounting officers in order to improve planning and decision-making processes as well as to measure results or outcomes that has been achieved by municipalities in terms of suppliers registered on CSD, conflict of interest, monitoring the implementation of the Preferential Procurement Policy Framework Regulations, 2017 (PPPFR) by analyzing awards to designated BEEE groupings and COVID-19 Emergency expenditure.

The ultimate purpose is to drive good governance through compliance that builds business confidence and trust which can be used as an enabler to attract capital investment towards the George **municipal area**.

Analytical Trends

The analysis identified the following challenge with municipal data in that there is no standardised allocation methodology for transactions that categorise goods and/or services-:

- Certain transaction could not be matched to a specific commodity, due to incorrect allocation.
- Items that have been procured could not be matched to certain projects or determined whether certain expense forms part of operational cost.
- The system that does not make provision for demographic reporting.

Improvement Initiatives

- A workgroup to be established to assist municipalities on how to use data as an enabler in making strategic decisions for future procurement.
- Municipalities to prioritise correct system usage as this is the main enabler for meaningful and reliable reporting.
- Provincial Treasury is committed to continuously assist and guide the Municipality in this regard.

3.4.2 Strategic Procurement

The assessment of municipal procurement plans is to provide a diagnostic analysis of planned expenditure in order to provide technical support to municipalities in keeping with the resolutions taken at the LED-SCM Indaba 2019. The procurement analysis focus on municipal infrastructure spend as a theme to Public Value Creation and Economic Sustainability as investments in infrastructure are vital to the municipal region's economic development and prosperity. Infrastructure connect various supply chains and is the catalyst for the efficient movement of goods and services across borders and regional boundaries. Infrastructure also connects households across metropolitan areas to higher quality opportunities for employment, healthcare and education:

Analytical Trends

Data integrity issues that relate to incorrect linkages, inconsistent capturing, dual language capturing and in a format that is difficult to analyse

Improvement Initiatives

- Local Economic Development: Empowerment focused initiatives; relooking at and reconsidering the economic focus on post disaster recovery initiates to stimulate the market differently; and supplier development and linkages to Strategic Sourcing
- Framework Agreements and Transversal Contracting: Use opportunities for alternative strategic sourcing initiatives that leverages on economies of scale, SMME and job creation focus as opportunities
- Consideration could be given towards an alternative "Sourcing Business Model" to strengthen strategic supplier relationships where the aim is to leverage against productivity driven improvements that requires a more flexible contractual relationship e.g. Preferred Provider, Performance Based Managed Services, Vested Relationship etc.

3.4.3 Strategic Procurement & SCM Technology

Key outcomes of the Municipal Districts assisted with SCM & Asset Management Business Practices to Continuously improve Maturity Levels Analysis

Asset Management is an integrated discipline between accounting, engineering, project management, supply chain management, governance & risk management and financial management which impacts on municipal sustainability, economical cost saving, reliable service delivery and the performance of a Municipality as whole.

Modern society is heavily reliant on physical assets in order to function effectively:

- The managing of assets provides services now, and into the future.
- Is a core part of the local economy, providing the platform for local investment and job creation.
- Asset Management is about extracting value more than what you invest into assets.

- It's about using assets to deliver public value and achieve the municipality's business objectives.

Generic Trends in Expenditure on Repairs & Maintenance post COVID-19

The aftermath of COVID-19 and the downturn in the economy caused some municipalities to postpone maintenance activities, a practice commonly known as Deferred Maintenance in order to save costs, meet budget funding levels, or to realign available budget monies when revenue collection is low. Others have shifted to a reliance on Corrective Maintenance as an alternative strategy

Improvement Initiatives

a) **Deferred Maintenance**

Deferred Maintenance should only be used in the short-term as long-term exposure of limited to no maintenance could result in costly entire system failure that would put a strain on the Municipality's financial resources, completely wiping out the savings the Municipality hoped to achieve through the deferred strategy. Long-term exposure to this strategy has the following risk attached to it:

- Safety and Health Risks to occupants within the region if waste system shuts down (e.g. pollution)
- Possible fines from a regulatory agency
- Possible protest action for non-delivery of essential services
- The escalation of crime within the area (Vandalism of Municipal Property.)

b) **Corrective Maintenance**

Municipalities to explore an autonomous Strategy instead of a one-dimensional corrective maintenance strategy as this increases the maintenance backlogs that is currently experienced at many Municipalities. The risks associated with this:

- Increased long-term costs due to unplanned equipment downtime will put an additional burden on the already constraint finances of a Municipality
- Possible secondary equipment or process damage also known as "Collateral Damage"/Entire system failure
- Decreased reliability due to neglect of assets that in long run could lead to decreased reliability due to equipment downtime
- Increased Unpredictability – Can lead to a backlog of maintenance work orders
- Increased cost of Maintenance – deteriorating parts may not be detected and found as quickly as under condition assessment

3.5 Revenue Envelope, Own Revenue and Intergovernmental Revenue Trends

3.5.1 Own Revenue Assessment: Tariff Analysis and Overview for the Four Trading Services

MFMA Circular No. 108 (March 2021) encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between – the affordability to poorer households and other customers while ensuring the Municipality's financial sustainability. National Treasury advocates that the trading services tariffs should at least be cost reflective. Cost reflective tariff setting is a requirement as per Section 74(2) of the Municipal Systems Act, 2000 (Act No.32 of 2000) highlighting that tariffs must reflect the

L28/101

costs reasonably associated with rendering a municipal service. The MFMA Circular requires that funded budgets for the 2021/22 MTREF are based on realistically anticipated revenue collection.

The Overstrand Municipality acknowledges that the expenditure required to address the current challenges will inevitably always exceed available funding, hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues. The Municipality states that its Tariff Policy is based on the key principles, namely affordability, financial sustainability and cost efficiency. These principles guide the exercise of power given under section 75A of Municipal Systems Act to levy and recover fees, charges or tariffs in respect of any function or service.

Brief commentary provided in terms of the Municipality's Tariff Policy and Tariff Schedule is provided below.

Table 5 Summary of Trading Services Tariffs

Service	Tariff Structure	Propose % increase	Changes/Comments
Electricity	Single phase two-part tariff for domestic users	15.6%	Two-part tariff (For credit meters up to 60 Amp). Basic charge and IBT
Water	Basic charge and metered consumption	4%	Municipality states that this in line with the approach of the NT directive, that the level and structure of water tariffs are cost reflective. At present the cost of providing water is around R25.19 per kl (excluding VAT)
Sanitation	Flat tariff	4%	Sanitation charges are calculated according to the percentage water discharged
Refuse	Flat rate	4%	1 collection per week (Wheelie bin is a unit or 5 bags amount to a unit)

Source: Overstrand Municipality 2021/22 Tabled Budget

Tariff Analysis

The following CPI forecasts were published in the MFMA circular 108 for consideration when preparing the 2021/22 MTREF.

Table 6 CPI Performance and Projections, 2019 - 2023

Fiscal Year	2019/20	2020/21	2021/22	2022/23	2023/24
	Actual	Estimate	Forecast		
CPI Inflation	4.1%	3.3%	3.9%	4.2%	4.4%

Source: MFMA Circular No. 108, March 2021

Essentially on par with the National Treasury inflationary figures, the principles underpinning the municipal tariff structure are to ensure efficiencies in spend; in conjunction with the striving for effectiveness in order meet development objectives. The emphasis is placed on enhancing processes, technology and systems, whilst minimising costs.

The Municipality took a pro-active approach some years ago by firstly implementing a water conservation and demand management program, and secondly diversifying its sources. Currently more than 30 per cent of the water demand of the Greater Hermanus area is supplied from groundwater sources. As a result of water conservation and demand management programme, an actual reduction in the Municipality's total annual bulk water demand by 22.5 per cent from 2008/09 to 2019/20, despite a rapidly growing population. Furthermore, the volume of water losses was reduced by 31 per cent over the same period.

With specific reference to creating awareness for responsible use of water as an example, a billboard at the Gateway intersection in Hermanus which illustrates the level of the De Bos Dam and the average water consumption for the previous week, with weekly updates conducted. At present, each consumer receives a 24-month moving graph of water consumption at his/her property with their monthly accounts

Bearing in mind that in March 2020, NERSA approved a municipal tariff increase of 6.9 per cent effective 1 July 2020 (1.2 per cent lower than the tariff increase in Multi-Year Price Determination (MYPD), the period due to differences in municipal and national financial years).

Electricity

The Overstrand Municipality is responsible for electricity distribution and reticulation in the Greater Hermanus area, Hawston, Greater Gansbaai area, Kleinmond and Stanford. All other areas are supplied by Eskom.

For the 2021/22 financial year, the NERSA process in determining the Municipal Tariffs was slightly amended due to the court proceedings that the energy regulator and the power supplier were embroiled in. The total approved allowable revenue for energy producer in the upcoming financial year is R245.709 billion. This was approved by the national energy regulator on the 5th March 2021, after receiving the Eskom Retail Tariff Structural Adjustment which was submitted on the 22nd February 2021. This has resulted in an increase of 15.6 per cent to Eskom and a bulk purchase increase of 17.8 per cent for municipalities. The specified rate of 14.59 per cent falls within the NERSA Guideline. This is due to the difference between the SoE and municipal financial years, with the power supplier having to collect the estimated revenue from municipalities over a 9-month period.

Even though the electricity tariff is NERSA approved, it is important to mention that the tariff structure was influenced by a recent assessment regarding the electrical infrastructure requirements for the next 10 years (i.e. 2020-2030). The needs in terms of bulk and internal requirements were taken into consideration which included the following initiatives:

- The replacement/refurbishment of current electrical infrastructure (Mini-sub and Medium/Low Volt Upgrades in Gansbaai, Stanford, Kleinmond and Hawston).
- The addressing of electricity-related requirements for various housing projects in various areas (like Kleinmond)

The information below provides the quantum of the anticipated initiatives and projects:

Table 7 Anticipated Cost to implement the 10-year Electricity Master Plan

Cost to implement the 10-year Electricity Master Plan (Rm)			
Services	**New and upgrades**	**Refurbishment and replacement**	**Total**
Electricity	R474	R269	R743

Source: Overstrand Municipality 2021/22 Tabled IDP Review

The issue of Eskom to supply extra capacity for growing electricity demand is identified as a risk going forward[1]. The current situation exposed Eskom's inability to supply uninterrupted electricity, resulting in load-shedding, unavailability of extra capacity and unplanned outages on Eskom networks. It is noted that the Overstrand Municipality aims to expand the business hub/industrial area, with current work involving

[1] A major concern for Overstrand relates to the limited Eskom network capacity puts a constraint on development in key areas as Eskom cannot provide the applicable capacity requirements without having to do a full network upgrade. The various 66/11kV Eskom infrastructure that supplies the Overstrand area is in a deteriorating state and causes multiple unplanned/prolonged outages in all municipal areas on a regular basis.

the building of facilities for small business entrepreneurs in Franskraal, including the electrifying of ward 12 Informal Settlement (Zwelihle).

The expansion of renewable energy or alternative energy solutions as outlined within the renewable energy plan is envisaged over the 2021/22 MTREF. The energy efficiency projects and interventions with specific focus on electricity distribution.

Water and Sanitation

It is noted that the Municipality has 8 water schemes, supplying the 11 towns and villages with water. In addition, the Municipality has 6 wastewater schemes for the treatment of waste water from the 11 towns and villages. The above water resources are all considered to be adequate for the projected population and demand growth until at least 2030 – except for the Greater Hermanus system where additional sources will have to be developed within the next 5 years to satisfy the growing demand. The Municipality emphasises that treatment capacity and bulk conveyance capacity will have to be upgraded at some of the water schemes over the next 10 years (long-term planning).

The assessment which was made of the water infrastructure requirement for the next 10 years (i.e. 2020-2030) was crucial in determining the tariff structure. Based on this assessment, it was determined that bulk water provisioning required address, for example the replacement of current infrastructure that is in a poor or very poor condition in conjunction with the enhancing of the water treatment.

Table 8 Anticipated Cost to implement the 10-year Water Master Plan

Cost to implement the 10-year Water Master Plan (Rm)			
Services	**New and upgrades**	**Refurbishment and replacement**	**Total**
Water	R419	R239	R658

Source: Overstrand Municipality 2021/22 Tabled IDP Review

The Overstrand Municipality highlighted the need to extend the waterborne sewerage drainage networks in Kleinmond, Greater Gansbaai, Greater Hermanus, Hawston and Pearly Beach. Water provisioning upgrade was also envisaged; bearing in mind that fact that the entire towns of Betties Bay, Pringle Bay, Rooi-Els, Baardskeerdersbos, and Buffeljagsbaai are still dependent on the sewerage tanker truck service. It was also noted that several sewerage pump stations are in need of upgrading and/or refurbishment, including at the Hermanus WWTW inlet works and at Zwinglers Corner in Hermanus, and some of the bulk sewer rising main pipelines need to be refurbished. Thus the tariff increase for sanitation needed to factor in these in the long-term needs.

Table 9 Anticipated Cost to implement the 10-year Sewerage Master Plan

Cost to implement the 10-year Sewerage Plan (Rm)			
Services	**New and upgrades**	**Refurbishment and replacement**	**Total**
Waste Water	R856	R150	R1 006

Source: Overstrand Municipality 2021/22 Tabled IDP Review

It is also important to note that the Municipality took a 3-year infrastructure external loan was taken up for implementation of specific water and sewerage projects from 2018/19, highlighted the financial responsibility of the Municipality in this regard. The funds were spent on the upgrades and replacement of aging bulk water and water reticulation infrastructure. In the pipeline, project planning has been initiated for the upgrading of wastewater treatment works and sewerage pumpstations in areas such as Kleinmond, Hawston, Buffels River as well as Stanford.

It is noted that additional major water services projects have been planned for the short to medium term, which include the construction of new reservoirs (Sandbaai, Pringle Bay and Gansbaai); the phased replacement and upgrade of the bulk and reticulation water systems; the expansion of the well fields in Hermanus; borehole commissioning as well as the implementation of a potential transfer scheme from Theewaterskloof Dam for Hermanus and Kleinmond. Furthermore, a feasibility study has been completed on seawater desalination as water augmentation option for Hermanus. Increasing emphasis is being placed on substantially improving water demand and water conservation management.

Solid Waste Management

As an entry point with reference to the tariff structure, it is noted that all the urban and informal areas of Overstrand Municipality have access to at least a basic refuse removal service. No refuse removal service exists in the rural areas and farming communities, but all the rural areas have access to drop off facilities and landfill sites, at the applicable tariffs.

The Overstrand Municipality has specifically highlighted the inherent challenge with regard to the cost of licensing and rehabilitating landfill sites. Overstrand has seven un-rehabilitated landfill sites. All seven sites (Pearly Beach, Stanford, Hermanus, Voëlklip, Onrus, Hawston, and Fisherhaven) have closure licenses. All of the abovementioned sites must be rehabilitated and the estimated cost for the seven sites is R70 million (VAT excluded). Overstrand Municipality is exploring alternative ways to use these sites in order to minimise the rehabilitation costs. As a result, the construction of the new Hermanus Drop-off/Transfer and Material Recovery Facility (MRF) is under way and it is aimed to have the MRF and two bag system operational again from July 2021. From a legislative perspective, the Municipality highlights that failure to comply with licence conditions and legal requirements for the removal and safe disposal of solid waste – can potentially result in municipal officials being criminally charged in conjunction with the Municipality being placed under administration.

Strengthening the waste minimisation or recycling within the Overstrand Municipality is a key priority, which is also geared to promote local economic development, including the diversion of waste from landfill sites. The Municipality has also drawn attention to the costing implications to implement recycling and other alternative options for diversion of waste from landfill. The costs involved with addressing illegal dumping is substantial, hence one option adopted by the Municipality was to provide refuse skips or swing bins (for example areas such as Kleinmond and Hangklip).

The Hermanus Transfer Station and the Material Recovery facility (MRF) were badly damaged in the riots of March and June 2018. An attempt was made to rebuild the MRF after the first riots, but it was again damaged during the riots in June 2018. Walker Bay Recycling's sheds were also burned down resulting in an abrupt halt of recycling, including the two-bag waste collection system in the Hermanus and Kleinmond areas.

A general point made by the Municipality acknowledges that the vandalism of municipal infrastructure remains a massive problem, especially in informal areas with ablution resulting in the regular maintenance of toilets and taps. For example, the putting in place of improved security fencing and alarm systems were installed at several water installations to address the risk of theft and vandalism. In addition, the recent protest action as a result of the socio-economic conditions in Overstrand and the inability of government (local, district, provincial and national) to fulfil the basic needs of the community, has increasingly become a significant challenge. This hamper or limits the municipal ability to deliver specific services, often exacerbated by the destruction of municipal infrastructure.

3.5.2 Cost Reflective Tariffs

Bearing in mind the National Treasury stance on maintain tariff increases, municipalities are still required to justify all increases in excess of the projected inflation target for 2021/22 in their budget narratives and pay

careful attention to tariff increases across all consumer groups. Municipalities should include detail of their revenue growth assumptions for the different service charges in the budget narrative (Municipal Budget Circular No. 107).

This section will assess the cost reflectiveness of the trading services, i.e. electricity, water, sanitation and refuse. According to National Treasury, these services should at least be cost reflective. In theory, trading services are services which can, in principle, run as separate businesses, because tariffs can in theory be set in such a way as to yield a trading surplus. Consumers receive a direct quid pro quo for the tariffs paid.

For this section the revenue of budget table A4 will be used as this is the revenue generated from the service less all subsidies provided by the Municipality. In addition to this, budget table A2 provides the expenditure information less the National Treasury allocation for each of the trading services as it is already exempted on the revenue side. The reasoning behind this is that theoretically for cost reflectiveness the revenue generated from the service should be able to cover the full cost of the service before transfers. This may become crucial going forward given the low economic growth, under-collection of tax revenue and shifts in governments priorities.

The methodology does not provide the full view on the cost reflectiveness of the set tariff. This is largely due to the absence of the secondary costs associated with the provision of these services.

Decisions about accepting profits or losses on services can only be made by looking at all services together and ensuring that in balance a municipality will fully recover costs. Tariff revenue losses will be made on some services. These must be balanced against tariff revenue profits on other services, as well as other income sources such as assessment rates and subsidies. Getting the balance right is one of the most difficult parts of tariff setting.

Two scenarios using the methodology of cost reflectiveness are discussed below.

Scenario 1

In the first scenario, data from the LGES formula, as calculated by National Treasury is used to account for the transfer revenue that subsidises tariffs. As municipalities tend to not use the full allocations for free basic services from the LGES for the subsidy of services, this is likely to over-estimate the cost reflectiveness of tariffs. It is apparent from the information illustrated that surplus is generally generated by water, sanitation and refuse services.

There is general consistency in the MTSF figures from the 2018/19 financial year, in line with evidence of a decrease in the cost coverage for water and sanitation services.

Table 10 Trading Services Revenue and Expenditure (Scenario 1)

R'000	2017/18	2018/19	2019/20	2020/21	2021/22
	Audited	Audited	Audited	Current Year	Current Year
Schedule A4 Revenue:	**590 112**	**648 033**	**699 549**	**663 209**	**773 598**
Service charges - electricity revenue	349 298	378 693	415 947	386 294	479 057
Service charges - water revenue	110 932	129 858	133 628	128 520	132 168
Service charges - sanitation revenue	72 106	77 719	80 871	78 913	87 631
Service charges - refuse revenue	57 775	61 763	69 102	69 482	74 741

Source: Overstrand Municipality 2021/22 Tabled Budget - Municipal A Schedules and National Treasury LGES Breakdown

Based on the data generated within the table above, it is concluded that surpluses are generally reflected for the multiple financial years. In essence, the Municipality is generally covering the primary costs associated with the provision of these services in the municipal area – which entails covering the costs of service provision and reflecting a surplus value as outlined. It is noted that the generation of surplus (as percentage of expenditure) reflect fluctuating trends:

- Water management reflects quite a substantial decrease in cost coverage and surplus since thee 2071/18 financial year.
- Electricity averages approximately 21 per cent surplus as percentage of spend over the five-year period.
- Sanitation reflects a significant decrease in the 2018/19 financial year (17 per cent) from the preceding year 2017/18 from 39 per cent surplus, with a moderation stable percent evident from 2018/19 onwards.

Scenario 2

From the below trading services performance table, it is noted that only two of the four municipal trading services is maintaining operating surpluses over the MTREF period. These trading services surpluses are required to fund future capital infrastructure and the maintenance on assets. In this regard 2 trading services are projecting deficits over the MTREF period of an aggregated amount of R15.26 million and R10.43 million, respectively. The cost of free basic services was not completed in SA1 and therefore excluded in the calculation impacting the accuracy of the surplus/deficit calculation.

Table 11 Trading Services Revenue and Expenditure link - Trading and Economic Services

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The Municipality anticipates maintaining a 99 per cent collection rate over the MTREF leading towards a sustainable cash flow position. As guided in MFMA Circular No. 107, cognisance should be taken of the increasing unemployment and growth in the number of persons per household means that the revenue foregone in respect of free basic services will likely increase, and it will become even more difficult to collect revenue.

The current (as at 28 February 2021) outstanding debtors amounted to R129.67 million of which R111.14 million is owed by Households. Debtors owed for more than 90 days represent 39 per cent and reflects an annual increase of 30.7 per cent and debtors in excess of 90 days have a negative impact towards the revenue recovery from trading services.

3.5.3 Intergovernmental Revenue Overview

Given the minimum service level as set out by national government – the Municipality conforms to the set standards. Free basic services are allocated based on the municipal indigent register. National Treasury annually updates the minimum threshold for FBS which is double the amount of a state pension, in addition the factor cost per service and the number of Households are also updated annually.

As indicated in MFMA Circular No. 108, there were changes made to the LGES and this is detailed in the Annexure in the Division of Revenue Bill. As of the 2021/22 Financial year, the LGES will no longer be fully covered.

From the table below it is revealed that there are some differences regarding what is funded by the Overstrand Municipality compared to what is funded by the National Treasury (with the Municipality's contribution slightly higher for energy, sanitation and refuse in respect of basic services provisioning. However the quantum of indigent households as determined by National Treasury is higher than the number provided by the Municipality.

Table 12 Indigent Population Comparison

Service	National Guidelines	Quantum	FBS factor cost per service	NT allocation per service (R'000)	Municipal allocation for Basic Service Component (R'000)	NT estimate of Indigent HH	Indigent Numbers (as per Table A10 of Municipality)
Energy	50 kWh	50 kWh	99.83	23 222	25 881	40 294	7 595
Water	6 kl	6 kl	155.73	36 227	34 402		7 595

SECTION 4: FINANCIAL SUSTAINABILITY

4.1 Review of the Historical Information

Table 13 Financial ratios and norms

	Financial ratios and norms	2016 Audited	2017 Audited	2018 Audited	2019 Audited	2020 Audited	CAGR*	Projection based on historical trend	Comments	Overall assessment
	Asset Management									
1	Capital Expenditure to Total Expenditure: 10% - 20%	8.98%	8.52%	9.55%	13.48%	15.07%	**13.84%**	**17.16%**	The ratio results reflect year-on-year improvement from 2017 to 2020 financial year. In the 2019/20 FY capex increased by R69.9 million, causing the ratio result to sharply increase from 13.64% to 15.07%. The ratio result is within the acceptable NT norm of 10-20%.	
2	Capital Expenditure Budget Implementation Indicator: 95 – 100%	92.17%	106.49%	90.25%	98.87%	76.53%	**-4.54%**	**73.05%**	The ratio results reflect a fluctuating trend. In the 2019/20 financial year the Municipality under spent its capital expenditure budget (R0.362 million). The ratio result sharply decreased in the 2019/20 financial year. The ratio result is outside the acceptable NT norm of 95% - 100%.	
3	Impairment of Property, Plant and Equipment, Investment Property and Intangible Assets (Carrying Value): 0%	0.02%	0.21%	0.14%	0.04%	0.05%	**25.31%**	**0.06%**	The ratio results fluctuated year-on-year. The ratio result of 0.05% in the 2019/20 financial year is slightly outside the acceptable NT norm of 0.00%.	

L36/21

Financial ratios and norms		2016 Audited	2017 Audited	2018 Audited	2019 Audited	2020 Audited	CAGR*	Projection based on historical trend	Comments	Overall assessment
4	Repairs and Maintenance as a % of Property, Plant and Equipment, Investment Property (Carrying Value): 8%	0.00%	3.30%	4.63%	6.10%	5.22%	**12.12%**	**5.85%**	The ratio results fluctuated year-on-year, it however remains below the acceptable NT norm of 8.0%. The ratio result indicates insufficient funds has been spent on repairs and maintenance, and this might be due to the new assets acquired over the past two years which does not necessary require repairs and maintenance.	
5	Own funded Capital Expenditure (Internally generated funds + Borrowings) to Total Capital Expenditure :(None)	34.7%	52.96%	38.95%	81.51%	82.28%	**24.02%**	**102.04%**	Fluctuating trend over the period under review. 56.7% of the capital expenditure was funded from internal funds; 25.6% of capital expenditure is financed through borrowings; 17.7% is financed through capital grants. The ratio result indicates that a substantial amount that financed Capital expenditure is from internal generated funds.	
6	Own funded Capital Expenditure (Internally Generated Funds) to Total Capital Expenditure: (None)	2.5%	14.3%	10.4%	50.3%	56.7%	**117.6%**	**123.4%**	The ratio results reflect a fluctuating trend over the period under review. The ratio result increased from 50.3% in 2018/19 financial year to 56.7% in the 2019/20 financial year. The ratio result indicates that the Municipality is not heavily dependent on borrowings and Capital grants to finance its capital expenditure.	
Revenue, Debtors and Liquidity Management (cash availability)										
7	Net debtor's days: ≤ 30 days	25 days	30 days	29 days	51 days	53 days	**0.2%**	**64 days**	The ratio results indicate a fluctuating trend over the 5-year period under review. The result indicates that in the past two financial years, the Municipality is experiencing challenges in the collection of outstanding amounts due and a significant amount of potential cash is tied up in consumer debtors. The ratio result is within the acceptable NT norm of 30 days.	

L31/101

Financial ratios and norms		2016 Audited	2017 Audited	2018 Audited	2019 Audited	2020 Audited	CAGR*	Projection based on historical trend	Comments	Overall assessment
8	Bad Debts Written-off as % of Provision for Bad Debt: 100%	3.9%	5.4%	3.7%	1.6%	0.9%	**31.3%**	**0.6%**	The ratio results indicate a fluctuating trend over the period under review, and the Municipality generally overestimated the bad debts to be written off. In the 2019/20 financial year the bad debts written-off amount to R653 643 (0.86%) of the provision for bad debts which amounted to R76.18 million. Bad debts written off averages at 3.08% of the bad debt provision over the 5-year period under review, which is far below the envisaged write-off of 100.0% of provision for bad debts.	
9	Operating Revenue Budget Implementation Indicator: 95% - 100%	102.4%	99.9%	98.2%	103.1%	96.4%	**-1.5%**	**95.0%**	The ratio results fluctuated year-on year. The ratio is within the acceptable NT norm of 95 - 100%.	
10	Service Charges and Property Rates Revenue Budget: 95% - 100%	100.9%	96.5%	100.6%	102.5%	100.8%	**-0.0%**	**100.8%**	The ratio results fluctuated year-on-year over the 5-year period under review. The ratio result is slightly outside the acceptable NT norm of 95-100%.	
11	Revenue Growth (%) - Excluding capital grants: = CPI	25.5% 6.3%	7.1% 5.1%	8.1% 4.6%	9.9% 4.5%	9.4% 2.2%	**-22.2%**	**7.3%**	The revenue growth excluding capital grants fluctuated year-on-year, but is consistently above the CPI rates for the 5-year period under review.	
12	Cash/Cost Coverage Ratio (Excluding Unspent Conditional Grants): 1 - 3 months	3 Months	4 Months	6 Months	7 Months	7 Months	**29.25%**	**9 Months**	The ratio results improved year-on-year, but remain constant in 2019/20 financial year and exceeded the norm across the 5 years. It appears that the Municipality has sufficient funds to meet its monthly fixed operating commitments without collecting any other additional revenue.	

L38/101

Financial ratios and norms		2016 Audited	2017 Audited	2018 Audited	2019 Audited	2020 Audited	CAGR*	Projection based on historical trend	Comments	Overall assessment
13	Current Ratio: 1.5 - 2:1	1.84:1	2.25:1	2.82:1	3.10:1	2.75:1	**10.49%**	**3.04:1**	The ratio results reflect an upward trend for the past four years, and a decline in the 2019/20 financial year. The ratio decreased from 3.10:1 in 2018/19 to 2.75:1 in the 2019/20 financial year, but remains within the acceptable NT norm of 1.5-2:1. The ratio results indicate that the Municipality has sufficient current assets to cover its short-term obligations.	
Liability Management										
14	Debt (Total Borrowings)/Revenue: 45%	3.2%	49.8%	46.0%	43.0%	40.7%	**89.0%**	**77.0%**	The ratio results fluctuated year-on-year over the 5 year period under review, and ratio result in 2019/20 financial year is within the acceptable NT norm of 45%.	
15	Capital Cost (Interest Paid and Redemption) as a % of Total Operating Expenditure: 6% - 8%	7.2%	7.3%	7.6%	7.1%	7.3%	**0.2%**	**7.3%**	The ratio results indicates a fluctuating trend for the past 5-year period. Capital costs as a percentage of total operating expenditure appears to be affordable for the period under review. The ratio results are within the acceptable NT norm of 6% - 8%.	
16	Creditors Payment Period (Trade Creditors):30 days	28 days	27 days	36 days	26 days	35 days	**5.98%**	**37 days**	The ratio results fluctuated year-on-year over the past five years. The ratio result in 2019/20 financial year is slightly outside the acceptable NT norm of 30 days. The National Lockdown might be the reason for the late payment of Creditors as the Municipality has been complying with the Municipal Finance Management Act (MFMA) requirements for the past four years under review.	

	Financial ratios and norms	2016 Audited	2017 Audited	2018 Audited	2019 Audited	2020 Audited	CAGR*	Projection based on historical trend	Comments	Overall assessment
Expenditure Management										
17	Operating Expenditure Budget Implementation Indicator: 95% - 100%	95.3%	92.7%	94.8%	96.0%	93.3%	**-0.5%**	**92.8%**	The ratio results fluctuated year-on year. The ratio result in 2019/20 is not within the acceptable NT norm of 95% - 100%. The deterioration of the ratio result is mainly due to Lease rentals on operating lease, contracted services and general expenses which were less than budget and cost savings and the impact of National Lockdown during March 2020.	
18	Remuneration as a % of Total Operating Expenditure: 25% - 40%	29.9%	31.3%	30.8%	34.2%	33.1%	**2.6%**	**34.0%**	The ratio results fluctuated year-on-year, but remains within the acceptable NT norm of 25% - 40%.	
19	Contracted Services as a % of Total Operating Expenditure: 2% - 5%	11.9%	15.7%	16.8%	16.8%	15.0%	**5.9%**	**15.8%**	The ratio results increased year-on-year over the period under review, but slightly decreased in 2019/20 financial year. The ratio results are above the acceptable NT norm of 2% - 5%.	
20	Irregular, Fruitless and Wasteful and Unauthorised Expenditure/Total Operating Expenditure: 0%	0.0%	0.6%	0.00%	2.5%	0.3%	**64.7%**	**0.5%**	The ratio results indicate a fluctuating trend over the period under review, and a sharp decline (R24.19 million) in the Irregular, Fruitless and Wasteful and Unauthorised Expenditure as a percentage of Total Operating Expenditure in the 2019/20 financial year, which is an improvement. The ratio results over the period under review are not within the acceptable NT norm of 0.00%.	
Grant Dependency										
21	Own Source Revenue to Total Operating Revenue (Including Agency Revenue): None	88.8%	87.6%	88.7%	88.8%	90.2%	**0.4%**	**90.6%**	The trend analysis indicates year-on-year fluctuation over the period under review. The analysis reveals that the Municipality is not dependent on grants and public donations for its day to day operations.	

L46/101

	Financial ratios and norms	2016 Audited	2017 Audited	2018 Audited	2019 Audited	2020 Audited	CAGR*	Projection based on historical trend	Comments	Overall assessment
Net Asset Position (Going Concern)										
22	Total Liabilities to Total Assets: <50%	19.7%	19.7%	19.6%	19.7%	20.3%	**0.7%**	**20.4%**	The ratio results fluctuated slightly year-on-year as further illustrated by the CAGR over the period. The ratio results are within the acceptable NT norm over the 5-year period under review. The Municipality's liquidity position is sound, as the Municipality is able to pay its long-term and short-term liabilities as they become due.	

** CAGR = Compound annual growth rate is a business and investing specific term for the geometric progression ratio that provides a constant rate of return over the time period. CAGR = [(End Value/Beginning Value) ^1/number of years of growth] – 1*

4.1.1 Asset Management

Capital Expenditure Budget Implementation Indicator: The ratio result reflects a fluctuating trend over the 5-year period under review. The ratio results deteriorated from 98.9 per cent in 2018/19 to 76.5 per cent in 2019/20 financial year. In the 2019/20 financial year the Municipality under-spent its capital expenditure budget by 23.5 per cent (R64.74 million). The ratio result is not within the National Treasury norm of 100.00 per cent. The under-spending is mainly due to capital expenditure not realised as planned and roll over to the next financial year and the influence of the National Lockdown during March 2020. The Municipality should adhere to its budgetary commitment in order to ensure that services are delivered to the communities as per the budget.

Impairment of Property, Plant and Equipment, Investment Property and Intangible Assets (Carrying Value): The ratio result reflects a fluctuating trend over the 5-year period under review. At 30th June 2020 the Municipality conducted an impairment assessment of assets as required by the Standard of GRAP (GRAP 21 & 26) to alert management on the condition of assets and an amount of R1.82 million was recognised as the impairment loss on PPE in the statement of financial performance. The impairment has increase from R1.44 million in 2018/19 financial year to R1.82 million in the 2019/20 financial year, and the carrying value of property, plant and equipment, investment property, and intangible assets has also increased from R3.531 billion in 2018/19 to 3.621 billion in the 2019.20 financial year.

Repairs and Maintenance as a % of Property, Plant and Equipment, Investment Property (Carrying Value): The ratio results reflect a year-on-year increase for the past 4-years and slight decline in the 2019/20 financial year from 6.1 per cent to 5.2 per cent which is below the acceptable NT norm. In the 2019/20 financial year repairs and maintenance decreased by 12.0 per cent, whilst the carrying amount of assets increased by 2.5 per cent. New assets acquired over the past two years represent 4.4 per cent of the carrying value of property, plant and equipment, and investment which do not require repairs and maintenance; however the ratio should be improved as it may affect the pace of service delivery.

4.1.2 Revenue, Debtors and Liquidity Management (cash availability)

Net debtor's days: The table above reflect year-on-year fluctuations of debtor's collection period after impairment over the years of assessment. In the 2019/20 financial year the Municipality took 53 days to collect revenue from debtors and the ratio is not within the acceptable NT norm of 30 days. In the 2019/20 financial year, the net consumer debtors increased by 10.3 per cent (R12.63 million) as the consumer debtors' collection decreased due to the debt relief given during the National Lockdown period, whilst actual billed revenue increased by 6.7 per cent (R59.34 million). Furthermore, Bad debts written off amounts to R76.18 million. The result indicates that the Municipality is experiencing challenges in the collection of outstanding amounts due and a significant amount of potential cash is tied up in consumer debtors. The Municipality should continue in implementing effectively its credit control policy. This will have a positive impact on the financial sustainability of the Municipality.

Bad Debts Written-off as % of Provision for Bad Debt: The trend analysis indicates that the ratio results fluctuated year-on-year over the period under review. In the 2019/20 financial year the ratio result declined from 1.6 per cent in 2018/19 to 0.9 per cent in 2019/20 financial year. The CAGR and projection indicates that the ratios result will decline further in the next financial year. The ratio result is not within the National Treasury norm of 100 per cent. Consumer Debtors Current bad debt Provision amount to R76.18 million in the 2019/20 financial year, and the Municipality only wrote off R bad debt written off R658 643 of the bad debt provision. It is imperative for the Municipality to sufficiently provide for its doubtful debts in order to reports accurately figures in the financial statements.

4.1.3 Liability Management

Creditors Payment Period (Trade Creditors): Creditors Payment Period (Trade Creditors): The ratio results fluctuated year-on-year over the 5-year period under review. The Municipality took 35 days to pay its creditors in the 2019/20 financial year, and this might due to the National Lockdown during March 2020. The ratio results are outside the acceptable NT norm of 30 days. The analysis of the Statement of Financial Position reveals that Trade Creditors increased by R20.76 million (41.6%) from R49.95 million in 2018/19 to R70.71 million. These ratio results indicate that effective controls are not in place to ensure prompt payments of creditors as the Municipality has sufficient funds to cover its monthly operating expenditure as they become due. This is non-compliance with Municipal Finance Management Act (MFMA) regulation which requires the Municipality to pay its creditors with 30 days from the date of receipt of an invoice.

O/S Comments -

- **The ratio is purely based on the formula for calculating Accounts Payable Days which is: (Accounts Payable / Cost of Goods Sold) x Number of Days In Year.**
- **Hard lock-down for COVID-19 impacted on expenditure as the bulk thereof was delayed towards the end of the financial year, resulting in higher value of transactions processed over the year-end period.**
- **For the financial year July 2019 – June 2020, on average, 98.87% of trade creditors were paid within 30 days after receipt of a valid tax invoice and statement. The remaining 1.13% were mainly due to price or quantity disputes with the suppliers.**

4.1.4 Expenditure Management

Operating Expenditure Budget Implementation Indicator: Operating Expenditure Budget: The trend analysis indicates that the ratio results fluctuated over the 5-year period under review. The ratio result deteriorated from 96.0 per cent in 2018/19 to 93.3 per cent in 2019/20 financial year. The ratio result is not within the acceptable NT norm of 95 - 100 per cent. In the 2019/20 financial year the Municipality underspent its operating expenditure budget by 6.7 per cent (R85.87 million), mainly due to Lease rentals on operating lease, contracted services and general expenses which were less than budget and cost savings and National Lockdown during March 2020.

Contracted Services as a % of Total Operating Expenditure: The results of the ratio indicate an upward trend over the past 4-years, and slight decline from 16.8 per cent in 2018/19 financial year to 15.0 per cent in the 2019/20 financial year, but remains not within the acceptable NT norm. These results indicate that the Municipality outsource some of the functions to consultants. It is recommended that the senior official of the Municipality should monitor the transfer of skills and knowledge to the responsible municipal officials. Included in the service level agreement should be a clause regarding the transfer of skills from the service provider to the Municipality's employees. This could reduce the use of consultants.

Irregular, Fruitless and Wasteful and Unauthorised Expenditure/Total Operating Expenditure: The results of the ratio after the condonement fluctuated year-on-year and a sharp decreased by 87.3 per cent from 2.5 per cent in 2018/19 to 0.3 per cent in the 2019/20 financial year. The Municipality reported in the note 48 of the 2019/20 audited AFS the amount incurred for irregular expenditure was R3.75 million. With regard to the unauthorised, irregular, fruitless and wasteful expenditure, the Municipality should continue to take measures to prevent, identify, investigate and respond appropriately according to the MFMA, and ensure that officials are held accountable.

4.2 Credibility of Funded Budget

Table 14 Budgeted Performance against Audited Performance and current year

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The above table sets out the past and current performance of the municipality's operating and capital budget. Over the past 3 audited years, the Municipality recovered 102.8 per cent in 2017/18, 106.8 per cent in 2018/19 and 103.5 per cent in 2019/20 against the planned operating revenue, which is within the National Treasury norm of 95- 100 per cent.

It is observed that all own revenue streams in the current financial year of 2020/21, showed a downwards adjustment amounting to a total of R4.11 million or 0.3 per cent adjustment. This can be attributable by the impact of COVID-19 and the disaster management restriction. The total year- to- date performance of the Municipality indicates R884.04 million or 70.7 per cent against the adjusted budget as at the end of February 2021 representing an over recovery of 8.9 per cent.

The implementation of the operating expenditure budget was 94.5 per cent, 96 per cent and 88.5 in the 2017/18, 2018/19 and 2019/20 financial years. In the current year, the total expenditure budget increased by R2.11 million or 0.2 per cent due to upward adjustments in Employee costs together with Materials and Bulk purchases.

In terms of the capital budget performance, the Municipality underspent by 9.7 per cent in 2017/18, overspent by 0.2 per cent in 2018/19 and underspent in 2019/20 by 24.6 per cent as reflected in the above table. For the current financial year as at 28 February 2021, the capital expenditure was reported at 36.8 per cent against the adjusted budget, which is an underperformance of 18.3 per cent.

The on-going effects of COVID-19 and disaster lockdown restrictions will still have a negative impact in all spheres of government including municipalities. The persistent lockdown restrictions will affect the capital spending as well as the operating expenditure spending where Municipalities are funding expenditures

that are not within their mandate and additional provision of municipal basic services. Therefore, the Municipality is reminded to limit its expenditures to mandatory functions such as water, sanitation, refuse and electricity as encapsulated in the Constitution.

It is also advisable that the Municipality follows a conservative approach when projecting revenue and eliminate any waste and unnecessary expenditure during the 2021/22 MTREF.

In view of the above findings it is recommended that the Municipality consider current and past revenue and expenditure trends which set the baseline and therefore have an impact on future budgetary provisions.

Sound financial management principles applied in the past should be built on in order to achieve improved revenue generation, greater savings, more efficient and effective spending and increased contributions to capital investment which will ensure sustainable service delivery.

4.3 Review of the New (2020/21) MTREF

4.3.1 Review of the Budget Assumptions

The budget assumptions listed in the budget document are used as benchmark in predicting the expected operating revenues and expenditures as well as the capital expenditure given the current realities facing the Municipality and its ability to manage its financial administration. These include amongst others policy decisions of different spheres of government affecting municipal operations, external factors influencing municipal revenue and expenditure patterns and the management of internal factors to minimise the impact on both the Municipality and its clients that they serve.

The overall budget assumptions are credible and aligned to the prescribed regulatory framework as contemplated by the Municipal Budget and Reporting Regulations (MBRR). The Municipality is commended for taking into consideration the strategic guidance given in National Treasury's MFMA Circular No. 107 & 108 in the planning and prioritisation process.

Economic development and growth remain a strategic focus area of the Municipality and the impact of uncertainty in the current global, regional and local government outlook remains a concern as the effects of the pandemic is far reaching. These factors were amongst other considerations in the Overstrand MTREF budget planning which provides a backdrop for revenue and expenditure projections.

Attracting capital investment from external investors as well as other spheres of government should remain a key focus by ensuring own capital investments and operations create an enabling environment for further growth.

Increases in tariffs are set at 4 per cent in the next financial year and collection rates are based on 99 per cent. The revenue base of the Municipality is made up of several industries, business and households and careful consideration must be given to the funding of expenditure pressures in the context of the afore-mentioned external challenges.

The main fiscal challenge remains to elicit enough economic growth in order to expand the current revenue base to be able to finance increasing expenditures. An increase in salaries of 4.5 per cent and a notch increase of 1.9 per cent are budgeted. Prudent financial decisions must be made regarding available resources.

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The Municipality tabled operational deficit budgets over the entire 2021/22 MTREF due to the depreciation that is not fully cash backed. This has a negative impact on contributions towards the cash backed reserves and funding of future capital investments, particularly the own funded projects. The reasons regarding the revaluation of assets are noted, however the Municipality is encouraged to strategically move towards tabling budgets that yields operating surpluses.

The budget is reflected as funded without any threats of going concern and sustainability over the 2020/21 MTREF. This is supported by table A8 and SA10 which is in accordance with section 18 of the MFMA.

The Municipality is commended for its steady cash flow balances maintained over the past few years and over the 2021/22 MTREF. The application of this results in a funded budget given high cash and cash equivalent balances to fund all current provisions.

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The operating revenue budget is R1.4 billion, R1.45 billion and R1.49 billion in the 2021/22, 2022/23 and 2023/24 financial years, which shows a gradual increase over the MTREF period. The Municipality anticipates to realise an average increase in total operating revenue of 6.2 per cent for the entire 2021/22 MTREF period which represents minimal real growth patterns when discounted against inflation, but at a small margin.

Although the aggregated overall increase is 6.2 per cent, the revenue growth for the 2021/22 financial year is 11.7 per cent and tariff increase remained to be within the CPI of between 3 to 6 per cent. The overall 11.7 per cent increase on revenue is attributable by Service Charges Electricity (24 per cent), other revenue (31.9 per cent), and Service Charges Sanitation (11 per cent) which have substantial increases. These increases were also casted on the current municipal revenue performance of 2020/21 which were exceeding the year to date budget as at 28 February 2021. This also confirms that some revenues streams reflect a realistically anticipated revenue as stipulated in section 17 of the MFMA.

Service charges and property rates account for approximately 75.1 per cent of the Municipality's total operating revenue budget, which is evident that the Municipality heavily rely on these revenue streams to fund most of their operating expenditures. Therefore, it is critical that the Municipality continue to put workable strategies in place to recover and optimize these revenues and continue to strengthen the revenue. Any changes to consumption patterns as a measure of savings by the consumers will affect the revenue generation and the projected revenue as well the further contributions to any reserves that will be generated from the surpluses.

Although service charges indicate real growth from the previous financial year it should be noted that pressure will be exerted on surplus margins due to budgetary increases. The Coronavirus (COVID-19) will further exacerbate pressure on expenditure and can affect the Municipality's ability to collect its revenue.

L48/101

Property Rates is the second largest revenue sources contributing 19.7 per cent of the total operating revenue budget for 2021/22 budget. Property rates will increase by 6.3 per cent which do not correlate with the tariff increase of 4 per cent. A decline in the number of residential properties is noted on SA12b and should be reviewed with SA11 indicating no change in the number of properties.

O/S Comments - It is important to remember that Overstrand is a developing area. Vacant plots are being developed which raises the valuation and thus increases the rates collection to more than 4%The Municipality is commended for the regular reconciliations between the valuation roll and financial system and should ensure regular comparisons to deeds register is done to ensure all revenue due to the Municipality is recovered.

Balance sheet budgeting as per mSCOA Circular No. 10 and 11 were applied however some consideration should be given to the following technical mSCOA matters for updating in the final budget:

- It is noted that the total Revenue: Non-exchange Revenue: Property Rates of R275.64 million aligns to the Assets: Current Assets: Receivables from Non-exchange Transactions: Property Rates (A6).
- Alignment is further noted in respect of the Assets: Current Assets: Receivables from Non-exchange Transactions: Property Rates: Collections mSCOA item segment and the cash flow budget in respect of Fund: Operational: Revenue: General Revenue :Taxes: Property Rates: Levies amounting to R268.65 million.
- In cross-checking the correctness of the total Debt Impairment amount of R300 000, in respect of Property rates, it was determined that the debt impairment amount is not based on the 99 per cent collection rate.

Transfers and subsidies amount to an average of 10.1 per cent of the total operating budget indicating the Municipality is self-supporting with no significant reliance on operating grants.

Electricity services remains the largest contributor to the operating revenue budget. The Municipality's growth increase on electricity revenue is reflected as 24 per cent in 2021/21 and the tariff increase is projected at 15.6 per cent and the final tariff for electricity must be considered in terms of the NERSA tariff guidelines for 2021/22. Although Municipalities have no control over these increases, it might have affordability challenges to the consumers that will in turn lead to a decline in revenue due to reduced consumption. Surpluses of 18.3 per cent over the MTREF are planned but these surpluses must be viewed in line with technical and non- technical electricity losses that were reported as 5.00 per cent and 1.02 per cent, respectively during the 2019/20 financial year. Although it is within the NT norm of 7 - 10 per cent (as stipulated in Circular No. 71 issued January 2014), the Municipality is encouraged to continue driving the reduction of the distribution loses.

Significant increases in electricity bulk purchases and the planned load shedding over the next 4 to 5 years may exert pressure on consumers to explore alternative off the grid options impacting on consumption and growth patterns.

The Municipality remains heavily reliant on electricity profit margins however with increasing pressures to provide a sustainable service, the Municipality should regularly review underlying assumptions to ensure all factors are considered over the medium to long term to inform its long-term funding model.

Over the MTREF period the Municipality will spend R95.79 million in electricity infrastructure of which R77.79 million is on new infrastructure. The Municipality is encouraged to maintain the current capital outlay requirements, while also considering the strategic supporting initiatives by the Western Cape Government to ensure a sustainable service over the long term. The Municipality is also engaging with the province on the Municipal Energy Resilience project that will support municipalities in procuring or generating electricity independently from Eskom.

The Water Service Charges budget is projected at R132.17 million constituting 9.5 per cent of the total operating revenue budget in 2021/22. An average increase of 3.6 per cent over the MTREF has been projected which indicates a marginal growth over the MTREF period. The Municipality projected a water sales revenue of 2.8 per cent in 2021/22 budget year. On the other hand, the tariff increase is projected at 4 per cent in 2021/22 budget year, yielding a marginal profit when compared to previous year's growth. Therefore, the Municipality should carefully monitor the performance of the in-year trends on this revenue stream. Water losses amounted to 25.9 per cent which is a slight increase from the previous year of 24.3 per cent. This ratio is within upper band of the NT norm of 15-30 per cent and measures must be implemented to reduce these losses. The total outstanding debtors in respect of water as at 28 February 2021 amounted to R28.3 million which represents a year-on-year increase of R6.03 million or 27 per cent from an amount of R22.3 million as 28 February 2020. This remains a scarce resource and is key to manage the spread of the coronavirus and measures must be implemented to curb consumption to those that can't pay for the services.

The Municipality projected revenue growth of 11 per cent on sanitation and a tariff increase of 4 per cent which is based on inflationary increases. This revenue source will contribute R87.6 million or 6.3 in revenue for the 2021/22 financial year however the sanitation trading service is operating at a deficit projected at 17 per cent, on average, over the MTREF period. Therefore, the Municipality should revisit the revenue generated from sanitation services to ensure that cross subsidisation of municipal services is effective and implemented according to the strategy.

The Municipality proposed a refuse removal tariff increase of 4 per cent to cover the costs of the services, whilst expected revenue growth will be 7.6 per cent for the 2020/21 budget year and 4 per cent in the outer years. Refuse removal contribute 5.4 per cent to the operating revenue but is operating at a deficit which is projected at 13 per cent, on average, over the MTREF period. The Municipality is reminded of the provisions as set out in Section 74(2) of the Municipal Systems Act (2000) which provides that the setting of cost-reflective tariffs is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. Furthermore, the Municipality should revisit the revenue generated from sanitation services to ensure profit are yielded. The current cross subsidisation of municipal services and overall funding model should be in line with the municipal funding strategy.

TABB Service charges segment analysis

It is noted that the total Assets: Current Assets: Trade and other Receivables from Exchange Transactions: (Collections) do not align with the cash flow budget in respect of Fund: Operational: Revenue: General Revenue: Service Charges (A7). **It therefore means that balance sheet budgeting was not correctly applied by the Municipality.**

It is also noted that the total Revenue: Exchange Revenue: Service Charges(A4) amount do not align with the balance sheet amount of Assets: Current Assets: Trade and other Receivables from Exchange Transactions: Trading Service and Customer Service Debtors (A6). **Cash flow budgeting for service charges was not applied correctly by the municipality.**

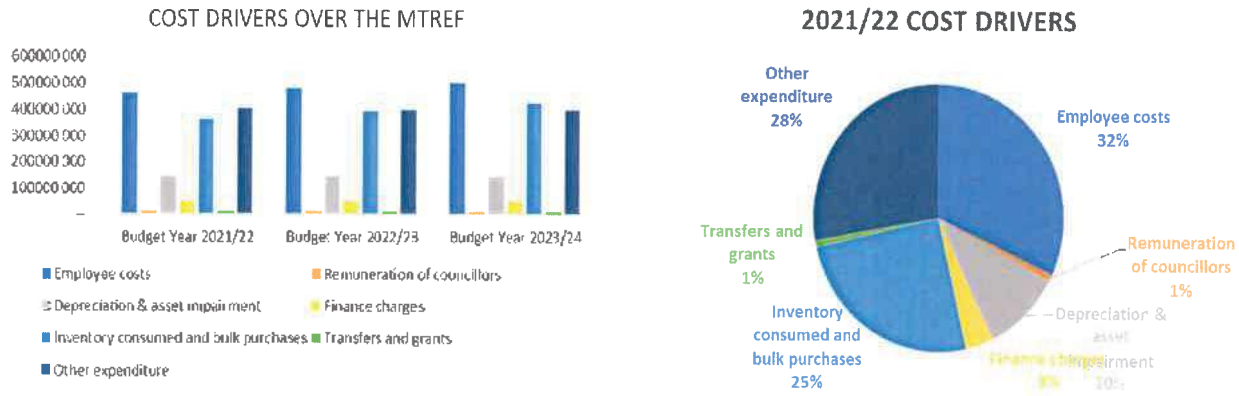

- O/S Comments -
- **Isn't this supposed to be the cash flow budgeting?**
- **The misalignment is due to the total movement in the consumer debtors as a whole. We are already looking into this for the final budget.**

In cross-checking the correctness of the total Debt Impairment amount for Service charges (R1.2 million) it was determined that the amount is not accurately projected.

4.3.4 Operating Expenditure Budget

The Municipality's planned operating expenditure is R4,49 billion over the entire 2021/22 MTREF period and increases in expenditure is projected at 7.9 per cent, 3.0 per cent and 3.6 per cent in 2021/22, 2022/23 and 2023/24 respectively.

Figure 1 Operating Expenditure Cost Drivers

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

Employee related cost for the 2021/22 budget year amounts to R461.74 million which represent an increase of 6.1 per cent. The South African Local Government Bargaining Council (SALGBC) has not finalized the salary negotiations on the wage increases as per the MFMA Budget Circular 107 and municipalities are advised to consider their financial sustainability when considering salary increases. Overstrand municipality budgeted for an increase of 4.5 per cent for salaries and an average notch increase of 1.9 per cent.

This wage bill over the total operating expenditure represents 31.8 per cent for 2021/22 and slightly increases to 32.2 per cent and 32.4 per cent in the outer years and remains to be within the NT norm of 25 to 40 per cent.

The **contracted services** amounted to R239.92 million or 17 per cent of the total operating budget and remains higher than the NT norm of 2-5 per cent. The average increases in Expenditure: Contracted Services: Outsourced Services: represented 6 per cent over the MTREF mainly influenced by the following contractors.

- Sewerage Services
- Mini Dumping Site
- Litter Picking and Street Cleaning

Cost benefit analysis should be performed regularly to ensure outsourcing is the best value for money option to the municipality.

Repairs and Maintenance remains a key factor to the overall sustainability of service delivery and can be achieved by maintaining assets in line with maintenance plans. The Municipality's repairs and maintenance as a percentage of the value of PPE is 6.7 per cent which is below the 8 per cent norm prescribed by National Treasury. Measures must be implemented to improve this ratio to ensure an overall sustainable service delivery.

Bulk Purchases is a significant cost driver contributing 22.0 per cent of the operating budget, amounting to R270.3 million and is projected to substantially increase by 17.9 per cent and 8.9 per cent in the two outer years. Minimal control can be exercised over these increases; however, the impact of growing costs must

be absorbed by internal efficiencies identified. These include effective asset maintenance towards reducing water and electricity losses even further.

Water Inventory was not correctly budgeted for as per the recent circular provided as no budget is allocated under consumed inventory.

- **O/S Comments –**
- **Is this the expenditure part or the balance sheet part, either way, we kept the amount the same as the previous year for the draft budget so there won't be an expenditure item.**
- **As for the balance sheet part:**
- **We don't buy our water so this will be quite an undertaking to get all the information aligned per the SCOA chart. We have bulk amounts that SCOA wants split up into quite a few different categories.**
- **My main concern is that this account does not take into account the amount of water in the pipes at year end to determine the water inventory. When you treat your own water, the difference between the water supplied and the water consumed is not the water left over to determine the water inventory, this difference is to determine the water losses. Here is an example of our data:**

Overstrand Municipality Water Distribution Losses 2019/2020 per Distribution Area

Water Scheme	Bulk Water per Town and Scheme Kℓ	Water Metered Kℓ	Grey Water & Raw Water (Fin) Kl	Water Metered excl Grey&Raw Water Kl	Losses per Town Kℓ	Operational Losses Kl	Water Metered plus Operational Losses Kℓ	Non-Technical Water Losses Kℓ	Cost per Kℓ Purified R	Cost of Non-Tech Water Losses R	Cost of Tech Water Losses R	Cost of Gen Water Losses R	Total Cost of Bulk Water R

Water supplied

Water consumed

Difference between supplied and consumed = losses

Overstrand Municipality: Water Inventory @ 30 June 2020

1 Treatment Plants:	Scheme:	Capacity (Kl)	Volume on 30 Jun 2020 (kl)	Unit cost (R/kl) excl. VAT	Total Value (Rand) on 30 Jun 2020
Total for treatment plants on 30 June 2020:			59025		R 65,275.00
2 Reservoirs:	Scheme:	Capacity (Kl)	Volume on 30 Jun 2020 (kl)	Unit cost (R/kl) excl. VAT	Total Value (Rand) on 30 Jun 2020
Totals for storage reservoirs on 30 June 2020:			49,363		R 59,322.42
3 Pipelines: diameter (mm)	Scheme:	Length (m)	Volume on 30 June 2020 (kl)	Unit cost (R/kl) excl. VAT	Total Value (Rand) on 30 June 2020
Totals for pipe networks on 30 June 2020:		821,148	13,379.1		R 17,750.81
Total Water Inventory for Overstrand Municipality (OM) on 30 June 2020:			121,767		R 142,348.23

Total water at year end left and used for the water inventory calculation – As can be seen, this differs quite a bit to the above table

We are currently looking into this, to see how we can make it work.

Also note above O/S Info as part of the comments

Finance charges contribute to only 3.6 per cent of the total operating expenditure. These costs should be considered in the context of the expected interest rates charged for bank charges as well as for the interest and redemption for the borrowings to be taken over the MTREF period. Furthermore, the budget should

also take cognizance of the timeframes when borrowings and the drawn downs are anticipated in a financial year, which will have an impact on credible prediction as and when these expenditures will be incurred. The gearing ratio of borrowing to revenue is expected to below 40% for 2021/22, which is within the norm of National Treasury and the Municipality is commended for driving down this ratio.

The above analysis notes that the Municipality employed a concerted effort to reduce many expenditure items, however, to attain an affordable and sustainable budget, expenditure must be contained within realistic revenue collections. Municipal resources should thus be used effectively, efficiently and economically.

4.3.5 Capital Budget

Table 17 2021/22 MTREF Capital Expenditure Budget

Vote Description	Current Year 2020/21		2021/22 Medium Term Revenue & Expenditure Framework			Growth over the 2021/22 Medium Term Revenue & Expenditure Framework			Average Growth

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The Municipality indicated that the capital programme is largely reliant on borrowings contributing 59.4 per cent to the capital programme. The capital programme is prioritised towards wastewater management contributing 36.8 per cent, water management at 20.3 per cent and energy sources at 16.4 per cent.

The Municipality for the 2021/22 financial year appropriated an amount of R138.45 million for the development of basic services infrastructure which represents 59.3 per cent of the total 2021/22 capital budget of R233.4 million. An amount of R81.0 million and R78.02 million is earmarked for the 2022/23 and 2023/24 MTREF years, respectively for the same.

Included in the basic services infrastructure developments are wastewater infrastructure development (R40.7 million), water management (R35.72 million), waste management (R2.1 million) with the electricity trading service appropriated the highest amount of R59.9 million or 43.2 per cent of the total budgeted amount.

The Municipality does incorporate Section 16(3) of the MFMA into the budgeting process, which allows for the appropriation of large capital projects over multi years, enabling municipalities to improve planning and spending.

MBRR section 13 (footnote 7), read together with MFMA Section 19 stipulates that where the total projected cost of a capital project is above R50 million, these values must be approved individually by the council in terms of MFMA section 19(1)(b) of the MFMA. The following projects in SA36 indicate a total value above R50 million:

- Low cost housing construction contracts (R52.26 million)
- F.kraal substation project (R50.4 million)

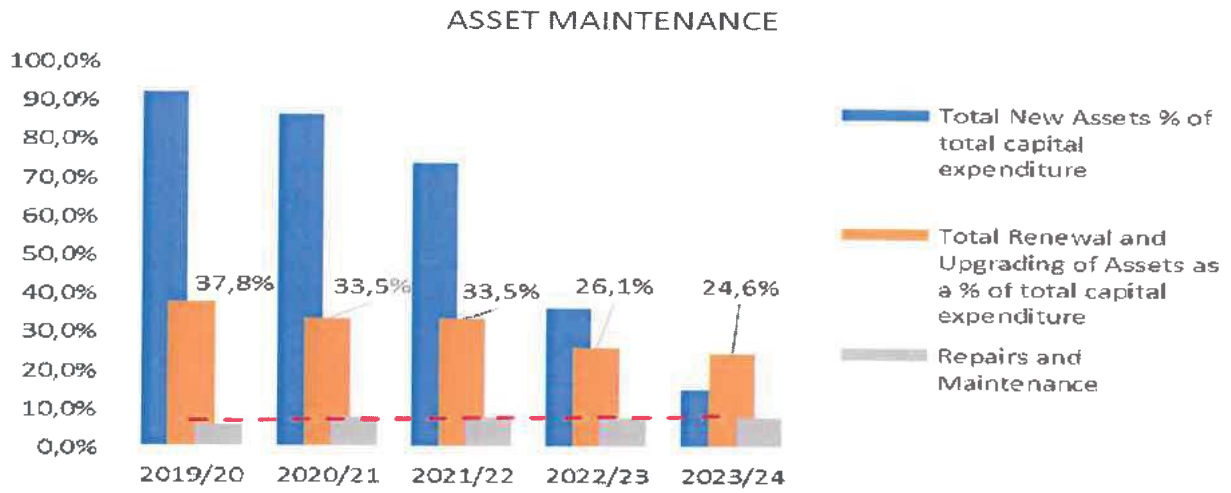

The following conditions must be considered as prescribed in section 19 (1(b) and section 19(2)(a)(b):

- Section 33 has been complied with to the extent that this section may be applicable to the project,
- The projected cost covering all financial years until the project is operational, and
- The future operational costs and revenue on the project, including municipal tax and tariff implications.

The Municipality must ensure adherence to the MBRR and MFMA and effectively and efficiently budget for all costs affecting future operational budgets. Schedule SA33 must further be completed to present a transparent budget.

Provincial Treasury encourages the Municipality to continuously monitor the implementation strategies with the management of the capital budget and apply project management principles to adhere to the procurement plan and avoid escalation of costs.

Figure 2 Asses Management

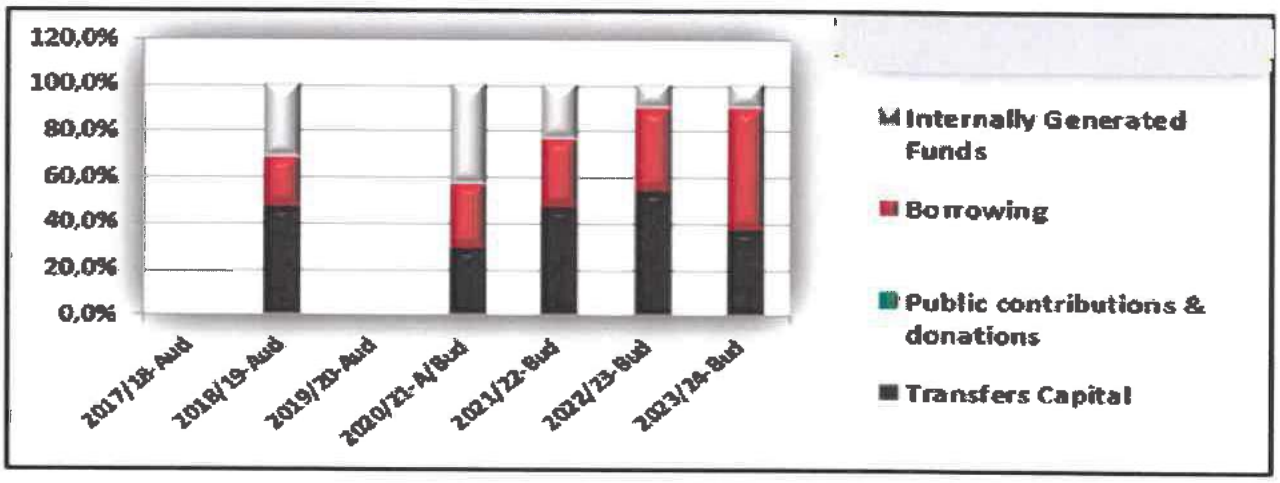

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The Municipality intends to use R172.40 million (73.9 per cent) of the total capital funding for new capital assets and R23.05 million (9.9 per cent) for renewal of existing properties while R37.99 million (16.3 per cent) will be for upgrading of Existing Assets which remains below the norm of 40 per cent. Renewing and upgrading of assets is an integral part of the delivering of a sustainable service and therefore must be prioritised.

The Municipality should safeguard assets by ensuring assets are maintained, upgraded and renewed as per asset replacement and management plans.

Figure 3 Capital Budget Funding Mix

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The 2021/22 Capital funding mix consists of R45.75 million (19.6%) from National grants, R600 thousand (0.3 per cent) from Provincial grants, R64.16 million (27.5%) from Transfers and subsidies – capital, R67.25 million (28.8 per cent) from borrowings and R55.68 million (23.9%) from internally generated funds, indicating a higher reliance on borrowings and internally generated funds.

The Municipality spent 54.5 per cent of its capital grants at the end of February 202 and is cautioned against a slow spending rate as it will result in either rollover grants or the repayment of grants should they not be fully spent by 30 June 2021.

Over the past 3 audited financial years the Municipality maintained a total surplus net cash balance R393.99 million which indicates sufficient cash towards the CRR. The current year however indicates a nett cash deficit of R68.18 million and gradually improves over the MTREF period towards positive nett cash balances. Prudent management of current available resources is required pertaining to the type of assets it funds to stimulate economic growth opportunities and further revenue generation.

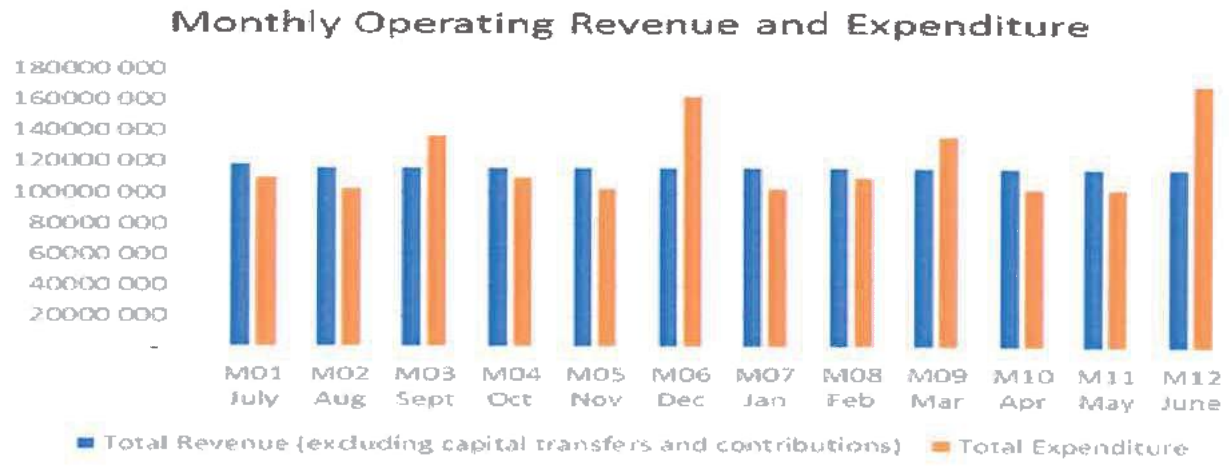

Borrowing remains an important element of the funding model and will ensure that the user pay for use of infrastructure over the lifetime of the asset whilst leveraging its healthy capital replacement reserve for smoothing over the medium to long term.

Municipality is encouraged to enhance the quality of capital infrastructure to unlock future economic investment by maintaining operating surpluses to contribute to reserves.

Multi-year Budgeting

On assessment of supporting Tables SA25 to SA30 it is evident that the Municipality has considered seasonal fluctuations as evidenced by the below graphs.

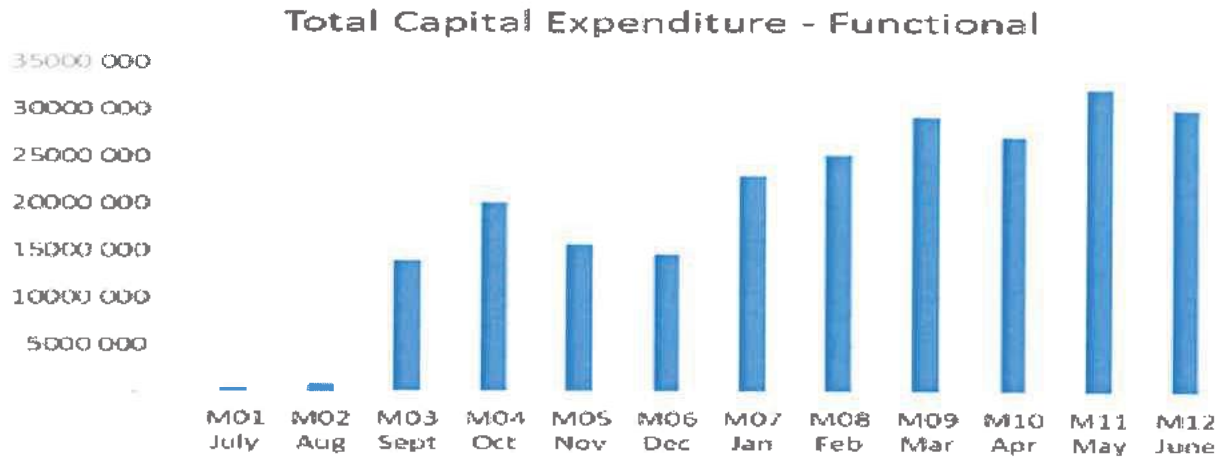

Figure 4 Monthly Operating Revenue and Expenditure

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1 Schedule mSCOA data strings

On assessment of supporting Tables SA25 to SA27 it is evident that Overstrand Municipality used seasonal projections to project its spending to operating revenue except in line items like employee related costs, which are constant monthly.

Figure 5 Total Capital Expenditure Functional

Source: Overstrand Municipality 2021/22 MTREF Draft Budget Data strings

The capital expenditure of supporting Tables SA28 to SA29 starts up lower and progressively increasing over the months and shows a slower expenditure at year end, which is a sign of adequate planning.

Capital spending in accordance with procurement plans should be strictly implemented.

4.3.6 Financial Position – Budget Schedule A6

The analysis of the A6 (Budgeted Financial Position) data strings and budget submitted by the Municipality indicated that the Municipality forecasted a positive working capital after taking the short-term obligations of the Municipality into account for the 2021/22, 2022/23 and 2023/24 MTREF years. The data strings and the budget submitted by the Municipality is consistent for the 2021/22 MTREF year, however it is noted it is not consistent for the 2022/23 and 2023/24 year. Variances have been identified for the 2022/23 and 2023/24 years.

Current Ratio

The Municipality shows a trend analysis where the Municipality's current ratio is fluctuating from 2.24:1(2021/22), 2.23:1 (2022/23) and 2.33:1 2023/24) over the MTREF years when using the data strings. The budget submitted by the Municipality indicated a trend analysis of 2.34:1(2021/22), 2.23:1(2022/23) and 2.33:1(2023/2024). The outcome of the ratios indicate that the Municipality do have adequate financial resources to settle its short-term debts as the outcome of the ratios are all above the national Treasury recommended norm of 1.5-2:1.

Liquidity Ratio

The anticipated liquidity ratios reported to be 1.71:1(2021/22), 1.22:1(2022/23) and 2.77:1(2023/24) when using the data strings. This depicts that the Municipality is anticipating that it should have adequate financial resources to settle its short-term debts immediately without collecting additional revenue from outstanding debtors. The data strings for cash and cash equivalents are understated during the 2022/23 and 2023/24 MTREF years and are reported as R15.91 million and R84.94 million respectively when comparing it to the budget of R462.21(2022/23) and R547.16(2023/24) submitted by the Municipality. Furthermore, it is noted that the budget submitted by the Municipality ratio calculations is more than the 1:1 national treasury recommended norm for the MTREF years 2021/22 to 2023/24 and is reported as 1.76:1, 1.68:1 and 1.79:1 respectively.

Cost Coverage Ratio

The data strings forecasted outcome of the cost coverage ratio appears to be above the national treasury recommended norm of 4.17 months for the 2021/22 year and below the norm of zero months for the outer MTREF years, 2022/23 and 2023/24. Furthermore, it is observed that the outcome of the cash coverage ratio for the budget submitted by the Municipality is reported as more than 4 months indicating that the Municipality can meet its monthly fixed operating expenditure.

Debt to total Operating Revenue

It is noted that the debt to total Operating Revenue ratio is reported as ratios ranging between negative 2.3-31 per cent for the data strings and budget submitted by the Municipality.

The short-term portion of long-term borrowings for the 2021/22 year are similar in amount whereas the outer MTREF years are reported as R4.07 million (2022/23) and negative R11.61 million (2023;24). With reference to the long-term portion the 2022/23 year reported the amount as negative R37.06 million and the 2023/24 year is reported as R55.63 million. Both amounts are understated when compared to the budgeted amounts submitted by the Municipality. The incorrect classification of line items affects ratio calculation outcomes. The Municipality do have capacity to take on additional borrowings however this should be done within the cash flow requirements, affordability parameters and solvency of the Municipality.

Capital Cost (Interest Paid and Redemption/Total Operating Expenditure)

The Municipality reported capital cost ratios between 6-8 per cent which are within the National Treasury norm of 6 - 8 percent over the MTREF period. This ratio indicates that should the Municipality take up additional borrowing and the fluctuations in finance charges arise the Municipality could be exposed to a risk of putting its revenue under pressure to cover the capital cost.

4.3.7 Cash – Budget Schedule A7

The data strings of the Municipality reported a budgeted positive cash and cash equivalents balance which is consistent with the budget submitted by the Municipality. It is noted that there are variances for the 2022/23 and 2023/24 MTREF years when comparing the data strings to that of the submitted budget of the Municipality. Except for finance charges, capital assets and borrowing refinancing differences are still identified on the line items when comparing the data strings and the budget submitted. Although the Municipality is forecasting a positive cash and cash equivalents balance, adjustments must be made for the data strings and the budget submitted by the Municipality to be identical.

4.3.8 Application of Cash and Investments – Budget Schedule A8

The A8 outcome of the funding tool indicated that the Municipality's budget is funded, however the credibility of the data strings remains a challenge to the Municipality.

4.3.9 mSCOA Implementation

To ensure that the relevant budget data strings are accurate, a segment use analysis on 2020/21 draft budget data strings (TABB) was conducted the following was identified:

Table 18 mSCOA Segment Analysis

		Vendor	Bytes
No	Segment		Overstrand
1	**Project Segment**		
1.1	**Maintenance**		Sufficiently used the Project Operational Maintenance available options
1.1.1	**Corrective Maintenance**		

1.1.1.1	Planned	Budget Allocated
1.1.1.2	Emergency	Budget Allocated
1.1.2	**Preventative Maintenance**	
1.1.2.1	Condition Based	Budget Allocated
1.1.2.2	Interval Based	Budget Allocated
1.2	**Typical Work Streams**	Utilization of available options is limited. Consider allocating more from Municipal Running Costs.
1.3	**Municipal Running Costs**	Excessive use Municipal Running Costs project. Consider transferring some of that to Typical Work Stream.
1.4	**Default**	Sufficiently used the project default for revenue items.
2	Fund Segment	
2.1	Use of Fund Segment	Adequate use of the Fund segment
3	Function Segment	
3.1	**Use of Function Segment**	Substantial use of available options
4	Costing Segment	
4.1	**Use of Costing Segment**	Not used correctly everything was lumped under the primary transactions and no indirect cost/secondary costs which have been disclosed (Charges and Recoveries). This is a concern as by now Municipalities were supposed to have been using this segment.
5	Region Segment	
5.1	**Use of Region Segment**	Adequate use of the Region Segment
6	Item Segment	
6.1	**Property Rates**	Adequate use of the available options.
6.2	**Service Charges**	Adequate use of the available options. However, the movements to the SFP are not reconciling.
6.3	**Fines**	Adequate use of the available options.

Source: Overstrand Municipality 2021/22 MTREF Draft Budget A1-Schedule – mSCOA data strings

The Municipality is commended for the progress made towards implementing mSCOA in the Municipality and for the timeous submission of data strings.

The above table provides an analysis on the tabled budget submitted and the complete excel documents were provided for consideration with the final budget.

The Municipality applied balance sheet budgeting on most items, however collections and cash flow on service charges remains misaligned. It therefore means that balance sheet budgeting was not applied correctly by the Municipality.

O/S Comments - The consumer debtors have an account named service charges. The items in this account consist of other types of items billed to a consumer account, for example: fire services, legal fees, collection fees, plot clearing etc. and most of these don't fall under revenue service charges but rather operational revenue and therefore the monthly billing in the balance sheet does not necessarily align to the service charges in the income sheet. In cross-checking the correctness of the total Debt Impairment amount for Service charges it was determined that the amount is not accurately projected. The amount for Debt Impairment is a projection for the year and can be adjusted at year-end. Adequate use of all segments was used as indicated in the above segment analysis table.

Provincial Treasury take notes of the Municipality's efforts to successfully implementation of the reform.

SECTION 5: KEY FINDINGS, RISKS AND RECOMMENDATIONS

This section outlines the main points and risks/recommendations based on the SIME Assessment.

5.1 Public Value Creation

5.1.1 Integrated Development Planning

- It is noted that the Municipality indicated that there is no reliable information available on the number of backyard dwellers, making it increasingly difficult to accurately plan for future housing needs in the Overstrand area. However, a study conducted by DHS assisted the Municipality to come up with alternative solutions to address these issues.

- It is recommended that progress on the findings and agreed actions of the Socio-Economic study, conducted by DHS, should be updated and included in the new Five-year IDP.

  Agreed, this will be included in the next update

5.1.2 Environmental Affairs and Development Planning

- Chapter 4 of the Draft IDP identifies "restructuring zone sites" in the settlements of Hermanus, Gansbaai and Hawston. These restructuring zone sites are not reflected in the SDF? Furthermore, Figure 27 shows integrated housing development sites in Kleinmond, which appear to be outside of what the SDF indicates as the urban edge. What all of this points to is the need for the sector plans to be aligned - at the very least the human settlement strategy and the SDF are in need of alignment. In addition, it would appear that the Housing section in the IDP has not been adjusted to taken into account the National directive issued in September 2020 regarding who now qualifies for top structures.

  - **O/S Comments -**

  - **The Restructuring Zones will be taken up in the Overstrand Growth Management Framework which will be reviewed together with the drafting of the Capital Expenditure Framework.The Growth Management Framework acts as an informant to the SDF. Cognizance is taken of the comment and additions will be done to cross reference the restructuring initiative. Regarding figure 27 not aligned with the SDF Urban Edge diagrams, a study regarding development opportunities in Kleinmond is currently being finalized. This must still be submitted to Council. After Council approve this the SDF diagram will be aligned accordingly.**

  - **The directive is only applicable to projects for which no applications have been submitted to DoHS and will be applied to all new top structure applications submitted to DoHS. The next update of the Housing Chapter will be amended accordingly.**

  - As stated in the SDF, the Overstrand Engineering Master Plans need to be updated based on the 2020 MSDF proposals.

  O/S Comments - The Water and Sewer Master Plans are in the process of being updated, for completion by 30 June 2021.

- On page 12 of the Municipal SDF, the Western Cape Biodiversity Spatial Plan is incorrectly referred to as the Western Cape Biodiversity Sector Plan. It is recommended that this be corrected in future updates of the SDF.

  O/S Comments - The correction will be placed in the local and Provincial newspapers.

- As stated above, there is currently no requirements on municipalities to develop a specific climate change plan or strategy for the Municipality. There is, however, a need for climate change considerations to be mainstreamed into sector plans. The Municipality has identified funding as one of the limiting factors hindering implementation of programme/projects and that it would require support from other spheres of government and possibly the private sector in this regard.

- It is recommended that the Municipality identify opportunities to ensure climate change and resilience building is integrated in projects with dedicated budgets. It is also recommended that the Municipality make provision for a system that can steer divestment in fossil fuel-linked activities and procurement, as well as risk management that will direct investment away from disaster prone areas.

  O/S Comments - The Climate Change Response Plan will be drafted in 2023 once a specialized provider has been identified. The OM personnel does not possess the expertise to draft such a document but will be able to assist with the drafting, coordination and review of the document.

  - ✓ **The OM's Environmental Department comments on all developments in the Overstrand, whether it is a large or small private development, provincial or municipal development and always comment in such a way the Climate Change and resilience building in incorporated into the development.**

  The Environmental Management Overlay Zone document refers to the Coastal Management Line and identifies the high, medium and low risk zones in this document The Municipality is encouraged to make use of the Overberg Coastal Access Audit which will allow them to assess and prioritise coastal access sites that may require designation and any modifications or maintenance that may be deemed necessary and directly contribute to the development of the municipal IDP.

- **O/S Comments - The Environmental Management Overlay Zone document refers to the Coastal Management Line and identifies the high, medium and low risk zones in this document.**

- The Municipalities reporting on the IPWIS is consistent and up to date. Waste diversion initiatives must be reported to the IPWIS. Continuous and regular waste reporting must be submitted to the IPWIS.

- It is recommended that Overstrand Municipality puts more effort in informal areas and low-income areas with regards to waste minimisation/recycling or infrastructure and to challenge current attitudes towards waste in these areas.

- **O/S Comments - The Municipality has a current tender with a service provider to create waste recycling awareness amongst the scholars Overstrand wide (i.e. covers all areas) via puppet and live theatre shows. There are also privately run swop shops operating in Zwelihle, Stanford Masekhane and Exloweni which also helps to encourages the recycling of materials from these informal areas** A budget allocation to implement the Overstrand Municipality's AQMP is to be secured in its IDP to:

  - monitor ambient air quality (passive or continuous monitoring of air pollutants via either a fully-equipped ambient air quality monitoring station or low-cost air quality sensors),
  - train Air Quality Officers in air quality management,
  - develop an Air Quality By-law, and
  - implement air quality management intervention strategies in its jurisdiction.

- The implementation of the Overstrand Municipality's AQMP is also required to be measurable in order to assess and review its performance and achievements after five (5) years, as assigned in the 2017 National Framework for Air Quality Management in the Republic of South Africa (DEFF, 2018).

5.2 Economic Sustainability

5.2.1 Budget Responsiveness

- It is evident upon consideration of the 2021/22 budget that the Municipality, in collaboration with the WCG, is prioritising allocations towards vulnerable communities to promote social inclusion and to improve access to economic opportunities, jobs and public amenities. Allocations are strategic and targeted giving full effect to the notion of co-planning, co-budgeting and co-implementation.

- The operating budget allocation towards road transport responds particularly well to the function's biggest challenge, namely to provide for the timeous and regular upkeep of municipal roads. The allocation increases at 6.8 per cent from the 2020/21 full-year forecast which is cost-reflective and inflation-based, but could arguable have been higher to support proactive attempts to maintain the current asset base which is prone to deterioration.

- The allocation for regular road maintenance, upkeep, rehabilitation and renewal will have several positive economic and social spin-offs i.e. enhancing the longevity of current assets will ensure sustainable access to economic opportunities which will significantly improve the economic and social standing of businesses and private citizens alike.

- It does not appear that the current budget makes provision for further non-motorised transport initiatives across the MTEF.

  O/S Comments - No funding is available due to budget constraints

- The Housing Strategy Implementation Schedule should more clearly distinguish between operational and capital related costs.

  Noted

- The Municipality is commended for the extensive manner in which the impact of COVID-19 on the local community has been covered in the IDP Review. A detailed overview has also been provided of the Municipality's efforts through the Community and Social Services directorate to provide relief to vulnerable communities.

- The operating budget allocation towards the *Safety and Security* function will arguably not suffice to accommodate inflationary increases associated with consumables, provide for additional staff and/or training (improved capacity), allow the function to improve its visible policing efforts or to expand the current K9 unit (albeit that this function will be cross-subsidised from tariffs).

- It is unclear whether the operating budget increase for electricity it will suffice to uphold existing service standards while simultaneously providing for new service connections stemming from population growth. The substantial investment in electricity infrastructure will not only serve as a catalyst for industrial growth and development, but bodes well to accommodate new housing developments.

- The operating budget increase towards the Water function does appear relatively low taking into consideration inflationary increases and the need to provide for an anticipated increase in the demand for water services.

- As a result of the weak economic conditions and exacerbated by the COVID-19 pandemic, the ability of consumers to pay for services is continually diminishing, the challenge to maintain budget sustainability is recognised. With the energy tariff increase, the issue of high-end consumers going off the energy grid, in particular the business sector is cause for concern over the medium- to long-term. A key aspect is the optimising the efficiency in the use of water sources; or more significantly making use of alternative sources of water where appropriate (including potential desalination).

- **O/S Comments - The municipality continues with it's water demand management program in an effort to optimise the efficiency of the use of water sources. Budget constraints is however limiting the ability to replace aging infrastructure at the required rate. The municipality is also expanding it's groundwater abstraction capacity, and recently completed a feasibility study for the construction of a seawater desalination plant in Hermanus, potentially linked to green energy sources.**

- The issue of the long-term sustainability of Eskom and the rendering of a reliable service that is both affordable, sustainable and profitable (bearing in mind also the crippling economic impact of load shedding on the local economy and industry). The need for the expansion of renewable or alternative energy solutions is specifically outlined in the renewable energy plan. The issue of the strengthening of the waste minimisation initiatives or recycling is a key priority going forward.

- If the Municipality is planning on making use of a cost of supply study for their electricity tariff increases, then they will have to submit to NERSA by no later than 15 March 2022 for the 2022/23 financial year. The volatility in the municipal service revenue impacted by the increasing level of indigence, which impact on the revenue base due to the weak or unfavourable macro-economic conditions. The anticipated business closures and job losses influence negatively the revenue-collection ability of the Overstrand Municipality. The risk of an increase in the municipal debt portfolio due to an increased inability to pay municipal accounts. In addition, the issue of vandalism of municipal infrastructure (in conjunction with protest action) is a growing challenge, which have direct implications for the tariff structure.

- An important point to note that the LGES as stated in the Annexures of DoRB 2021 is no longer 100 per cent funded (but provisionally at 80 per cent).

5.3 Financial Sustainability

- Service charges and property rates account for approximately 75.1 per cent of the Municipality's total operating revenue budget, which forms a stable and predictable revenue base for the Municipality. Any changes in bulk purchases, consumptions usage, or changes in the projected revenue growth rate base will have a negative impact on the overall revenue recovered and will apply pressure on cash backed surpluses, operational expenditure and ability to contribute to capital investment.

- Managing surpluses on Service Charges is therefore key to the overall funding model of the Municipality. Currently high reliance is placed on profit margins from electricity, however with the unstable electricity supply due to load-shedding and high bulk purchases exerting further pressure on consumers, consumption levels may be influenced as off the grid alternatives are explored by consumers.

- A concerted effort to reduce deficits on two of the services rendered and efficiency gains must be considered.

- The impact of COVID-19 poses a significant risk to the overall sustainability of all municipalities with added expenditure pressures while the corresponding revenue streams is not generated due to the contracting economy. The sustainability of service delivery is dependent on effective, efficient and economical use of resources and the Municipality is encouraged to maintain its initiative to identify efficiencies to drive down costs. The implementation of the cost containment regulation is key to achieve this given uncertainty of a future third wave that may further add pressure on both the operating and capital budget.

- Asset management remains an integral part of the overall sustainability of the Municipality's overall sustainability and a strategy must be devised to improve repairs and maintenance and asset renewal ratios.
- Capital expenditure is a key enabler for economic growth and assets to be funded the CRR should ensure a return on investment. Prudent management of current available resources is therefore required pertaining to the type of assets it funds.
- mSCOA has been implemented in the Municipality in line with guidance provided in recent mSCOA circulars. Misalignments however exist with balance sheet budgeting informing the cash flow budget which should be prioritised with the final budget.

Western Cape Government

STRATEGIC INTEGRATED MANAGEMENT ENGAGEMENT: LG MTEC 2021
OVERSTRAND MUNICIPALITY

2021/22 MTREF BUDGET, IDP, SDF & OTHER ASSOCIATED DOCUMENTS

Ms Teams

Mr C Mapeyi

L64/101

STRATEGIC OVERVIEW

- **Integrated work plan** places emphasis on importance of performance cycle i.e. linkages between performance monitoring and evaluation processes.

- Golden Thread that **ensures coherent planning, budgeting and implementation** through Integrated Management Approach.

- Necessitates the use of the SIME platform to discuss **strategic enablers** of sustainable local government.

- Informs **differentiated approach** that aims to ascertain how planning and budget priorities respond to the following priority areas:

Conformance and Compliance	Governance	Financial Sustainability	Economic Growth and Development

Western Cape Government

Economic and Fiscal Context

- Uncertain and **uneven global economic recovery**, with significant downside risks.
- SA economy estimated to have declined by **7.8 per cent in 2020**. Only a 3.3. per cent recovery expected for 2021. Slow growth under 2 per cent over remainder of MTREF. Output is only expected to return to **pre-pandemic levels in 2024**.
- Inflation is forecast to fluctuate around the 4.5 per cent midpoint over the medium term, **3.9 per cent for 2021/22.**
- **Conservative approach** is advised for revenue projections and cost containment measure for expenditure.
- **Electricity shortages** remain a binding constraint on economic recovery.
- Challenges of poverty, inequality and unemployment persist, which have a **negative impact on municipal revenue.**
- **Local Government Risks:** Increase in indigent households, trading services revenue model, COE, service delivery protests, governance disruptions, local government elections.

2021/22 SIME Assessment

Key Findings, Risks and Recommendations

Western Cape Government

SIME 2021 - Key Findings, Risks and Recommendations

Integrated Planning

- In order to enhance the next generation IDP, progress on the findings and agreed actions of the socio-economic study, conducted by the Department of Human Settlements should be updated and included in the 5-year IDP 2022-2027.
- The Municipality adequately responded to the identified areas for further improvement as identified in previous findings.

SIME 2021 - Key Findings, Risks and Recommendations

Environmental Analysis & Spatial Planning

- Presentation is not a comprehensive list of findings and should be read in conjunction with the compliance checklist and assessment report.
- Chapter 4 of the Draft IDP Review identifies "restructuring zone sites" in the settlements of Hermanus, Gansbaai and Hawston. These restructuring zone sites are not reflected in the SDF. Furthermore, Figure 27 shows integrated housing development sites in Kleinmond, which appear to be outside of what the SDF indicates as the urban edge.
- As stated in the SDF, the Overstrand Engineering Master Plans need to be updated based on the 2020 MSDF proposals.
- The Municipality is encouraged to make use of the Overberg Coastal Access Audit which will allow them to assess and prioritise coastal access sites that may require designation.
- Recommended that the Municipality puts more effort in informal areas and low-income areas with regards to waste minimisation / recycling or infrastructure and to challenge current attitudes towards waste in these areas.

SIME 2021 - Key Findings, Risks and Recommendations

Economic Sustainability

- Evident that Municipality, in collaboration with WCG, is prioritising allocations towards vulnerable communities to promote social inclusion, improve access to economic opportunities, jobs and public amenities – allocations are strategic, targeted giving full effect to notion of co-planning, co-budgeting and co-implementation.
- OPEX towards road transport cost-reflective, could arguable have been higher to support proactive attempts to maintain current asset base which is prone to deterioration.
- Does not appear that current budget makes provision for further non-motorised transport initiatives across the MTEF.
- OPEX allocation towards *Safety and Security* function will arguably not suffice to accommodate inflationary increases, provide for additional staff and/or training (improved capacity), allow the function to improve its visible policing efforts or to expand current K9 unit.
- Unclear whether OPEX increase for electricity will suffice to uphold existing service standards while simultaneously providing for new service connections stemming from population growth.
- OPEX increase towards *Water* function appears relatively low taking into consideration inflationary increases and need to provide for anticipated increase in demand for water services.

Western Cape Government

SIME 2021 - Key Findings, Risks and Recommendations

Financial Sustainability

- Budget is funded without any threats to its going concern and sustainability over the 2021/22 MTREF.
- The Municipality tabled operational deficit budgets over the entire 2021/22 MTREF due to the depreciation that is not fully cash backed. This has a negative impact on contributions towards the cash backed reserves and funding of future capital investments, particularly the own funded projects.
- High reliance is currently placed on profit margins from electricity. However, with the unstable electricity supply due to load-shedding and high bulk purchases exerting further pressure on consumers, consumption levels may be influenced. Growing surplus margins of 15 to 22 per cent over the MTREF must be monitored.
- Tariff increases are in line with CPI which is commendable. A balance between affordable tariffs and cost reflective tariffs must be achieved across all service charges as waster water and waste management services reflect deficit.
- Outsourced contracted services will increase by 17 per cent; a cost benefit analysis should be performed regularly to ensure outsourcing is the best value for money option to the Municipality.

SIME 2021 - Key Findings, Risks and Recommendations

Financial Sustainability

- Asset management remains an integral part of the Municipality's overall sustainability and a strategy must be devised to improve repairs and maintenance and asset renewal ratios which is below the norm.
- Ensure adherence to the MBRR and MFMA section 19(1) in respect capital projects over R50 million.
- Reliance from internally generated funds and borrowing amounts to 28.8 per cent and 23.9 per cent respectively in 2021/22. Capital expenditure is a key enabler for economic growth and assets to be funded the CRR should ensure a return on investment. Prudent management of current available resources is therefore required pertaining to the type of assets it funds.
- Historical and current trends indicate underspending on the capital budget and the impact on service delivery delays must be managed.
- Progress on mSCOA implementation is noted especially balance sheet budgeting. A few misalignments are noted on the budget for correction in the final budget.

PART B

Western Cape Government

L73/101

Planning for Economic Recovery over the Medium-Term

74|101

PROBLEM STATEMENTS

ECONOMIC RECOVERY

- In an ideal world, **what would unlock your growth potential**?
- Possible impact of new wave, aggravating circumstances for indigents.
- Modest population growth towards 2030 and anticipated impact on service delivery.

SERVICE DELIVERY

- **Universal access** to basic services a **utopian notion**: **Shared services** as vehicle towards service delivery excellence. Need to **break free from conventional supply/demand approach** towards service delivery.
- **Investment in green infrastructure** only way to maximize efficiency gains.
- Stronger emphasis on roles and **responsibilities of both users and municipalities**, consideration of incentives.

INFRASTRUCTURE DEVELOPMENT

- **Reevaluate service delivery standards** (for example, housing model).
- Current **grant structures** does not **reward improved performance**.
- Infrastructure expansions stunted not so much by funding constraints:
  - Weak effective demand due to absence of robust project preparation
  - Failure to tap into revenue-generating abilities of sustainable resource management practices/models.
  - Inertia of legacy programs.
  - Poor portfolio management.

Western Cape Government

Thank you

Contents

PART A: SIME 2021/22

- 2021/22 MTREF Assessment Response
- IDP & Budget Process
- Assumptions - planning, spatial, financial, economic
- Key service delivery & fiscal risks
- Revenue Optimisation Strategies
- Expenditure priorities & efficiencies
- Capital Budget: Service delivery objectives & challenges, funding mix, external borrowing strategy, infrastructure pipeline & long-term financial planning

PART B: Economic Recovery and Resilience (Discussion Session; No PPT Required from Municipality)

- Economic & Financial Recovery
- Economic Growth Enablers
- Investment Potential
- Infrastructure Development (In contrast to above subject on capital spending, this topic will focus on future infrastructure priorities and funding modalities.)
- Regional Collaboration
- Areas for Integrated Service Delivery

PART A

2021/22 MTREF

179/101

Assessment Response

- **Public Value Creation**
- **Integrated Development Planning**
- ***Query:*** *"It is noted that the Municipality indicated that there is no reliable information available on the number of backyard dwellers, making it increasingly difficult to accurately plan for future housing needs in the Overstrand area. However, a study conducted by DHS assisted the Municipality to come up with alternative solutions to address these issues.*
- *It is recommended that progress on the findings and agreed actions of the Socio-Economic study, conducted by DHS, should be updated and included in the new Five-year IDP."*

- **Response:** Agreed, this will be included in the next update

L80/21

Assessment Response

- **Environmental Affairs and Development Planning**
- ***Query:*** *"Chapter 4 of the Draft IDP identifies "restructuring zone sites" in the settlements of Hermanus, Gansbaai and Hawston. These restructuring zone sites are not reflected in the SDF? Furthermore, Figure 27 shows integrated housing development sites in Kleinmond, which appear to be outside of what the SDF indicates as the urban edge. What all of this points to is the need for the sector plans to be aligned - at the very least the human settlement strategy and the SDF are in need of alignment. In addition, it would appear that the Housing section in the IDP has not been adjusted to taken into account the National directive issued in September 2020 regarding who now qualifies for top structures."*

Assessment Response

- **Response:** The Restructuring Zones will be taken up in the Overstrand Growth Management Framework which will be reviewed together with the drafting of the Capital Expenditure Framework.The Growth Management Framework acts as an informant to the SDF. Cognizance is taken of the comment and additions will be done to cross reference the restructuring initiative.
  Regarding figure 27 not aligned with the SDF Urban Edge diagrams, a study regarding development opportunities in Kleinmond is currently being finalized. This must still be submitted to Council. After Council approve this the SDF diagram will be aligned accordingly.

- The directive is only applicable to projects for which no applications have been submitted to DoHS and will be applied to all new top structure applications submitted to DoHS. The next update of the Housing Chapter will be amended accordingly

L82/101

Assessment Response

- ***Query:*** *"As stated in the SDF, the Overstrand Engineering Master Plans need to be updated based on the 2020 MSDF proposals."*

- **Response:** The Water and Sewer Master Plans are in the process of being updated, for completion by 30 June 2021.

- ***Query:*** *"On page 12 of the Municipal SDF, the Western Cape Biodiversity Spatial Plan is incorrectly referred to as the Western Cape Biodiversity Sector Plan. It is recommended that this be corrected in future updates of the SDF."*

- **Response:** The correction will be placed in the local and Provincial newspapers.

L83/19

Assessment Response

- ***Query:*** *It is recommended that the Municipality identify opportunities to ensure climate change and resilience building is integrated in projects with dedicated budgets. It is also recommended that the Municipality make provision for a system that can steer divestment in fossil fuel-linked activities and procurement, as well as risk management that will direct investment away from disaster prone areas.*

- **Response:** The Climate Change Response Plan will be drafted in 2023 once a specialized provider has been identified. The OM personnel does not possess the expertise to draft such a document but will be able to assist with the drafting, coordination and review of the document.
- The OM's Environmental Department comments on all developments in the Overstrand, whether it is a large or small private development, provincial or municipal development and always comment in such a way the Climate Change and resilience building in incorporated into the development.

10/84/101

Assessment Response

- The Environmental Management Overlay Zone document refers to the Coastal Management Line and identifies the high, medium and low risk zones in this document.

- ***Query:*** *The Municipality is encouraged to make use of the Overberg Coastal Access Audit which will allow them to assess and prioritise coastal access sites that may require designation and any modifications or maintenance that may be deemed necessary and directly contribute to the development of the municipal IDP.*

- **Response:** The Environmental Management Overlay Zone document refers to the Coastal Management Line and identifies the high, medium and low risk zones in this document.

Assessment Response

- **Query:** *It is recommended that Overstrand Municipality puts more effort in informal areas and low-income areas with regards to waste minimisation/recycling or infrastructure and to challenge current attitudes towards waste in these areas.*

- **Response:** The Municipality has a current tender with a service provider to create waste recycling awareness amongst the scholars Overstrand wide (i.e. covers all areas) via puppet and live theatre shows. There are also privately run swop shops operating in Zwelihle, Stanford Masekhane and Exloweni which also helps to encourages the recycling of materials from these informal areas.

Municipality • UMasipala • Munisipaliteit
OVERSTRAND

Assumptions – planning, spatial, financial, economic

- The Overstrand remains a popular destination for in-migration and tourism resulting in rapid urbanization and population growth.
- The fast space of urbanization and growth requires a flexible response to cater for the diverse needs of communities i.e. basic services, housing, education, health, sport, recreation, tourism, etc.
- The current uncertainty due to the Covid-19 pandemic and global, national and local financial stress also requires flexibility in planning.
- The SDF make provision for different scenarios of growth: high, medium and low growth projections.
- The growth areas and densification areas respond to above scenarios.

Assumptions – planning, spatial, financial, economic

FINANCIAL:

The following budget principles and guidelines directly informed the compilation of the 2021/221 MTREF:

- The 2020/2021 Adjustments Budget priorities and targets, as well as the base line allocations contained in the Budget Circulars informed the upper limits for the new baselines for the 2021/22 annual budget;
- Service level standards were used to inform the measurable objectives, targets and any backlog eradication goals;
- Tariffs and property rates increases should aim to be affordable;
- Some price increases in the input costs of services are beyond the control of the municipality, for instance the cost of fuel, chemicals and electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure maintenance and backlogs;

L9/10

Assumptions – planning, spatial, financial, economic

- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;

- The following cost saving measures were applied:
    - The principle of a minimal increase in non-core general expenses unless valid motivations such as contractual inflation adjustments dictate.
    - Municipal Cost containment Regulations, 2019.

- All aspects of Revenue, Expenditure and Capital will be reviewed for the Final Budget in trying to anticipate and plan for the impact of a third wave of COVID-19 on the 2021/22 financial year.

Key service delivery & fiscal risks

Risk Description	Risk Background
Theft and vandalism to municipal infrastructure/assets.	Street signs, furniture, public toilets, municipal administration buildings, sport amenities, taxi ranks, community halls, transfer station, coaster foot paths, etc.
Inability to provide basic services to households on invaded land.	People in informal areas occupying land which has no municipal services. The norms in terms of basic service provision are: • One (1) toilet for every five (5) households; and • One (1) tap per 25 households.
Water losses	Losses incurred on the water distribution networks.

L93||01

Key service delivery & fiscal risks

The main challenges experienced during the compilation of the 2021/22 MTREF can be summarised as follows:

- The on-going difficulties in the national and local economy, with severe blows added in terms of the downgrading of SA to sub-investment grade, and the COVID-19 disaster;
- Ever aging water, roads, sewage and electricity infrastructure;
- Sustainable refuse disposal;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The cost of bulk electricity with the latest draft guideline price increase from NERSA;
- Revenue recovery from cost reflective core municipal services;

...../

L94/161

Key service delivery & fiscal risks

- The uncertainty regarding wage increases for municipal staff
- Affordability of capital projects and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2021/22 MTREF process;
- Maintaining a positive cash flow; and
- Ensuring financial sustainability.

Over and above the fact that the impact of COVID-19 will have to be actively monitored on an ongoing basis from the onset of the 2021/22 financial year, a review of the Draft MTREF Budget tabled in council on 31 March 2021, is currently in progress relating to the public participation process.

Revenue Optimisation Strategies

- Sustained application of the Customer Care, Credit Control and Debt Collection (CC, CC & DC) policies to ensure the recovery of arrears.
- Inform the customers of the following incentives as stipulated in the CC, CC & DC Policy:
  - 10.1.2. Where a customer is prepared to pay off the capital amount on an outstanding account, older than two (2) years, in one payment, the Municipal Manager will approve the write off of all interest charged with regard to afore-mentioned period;
  - 10.1.4. In the instance where a customer is prepared to pay off the total amount of an outstanding account in one payment, then the Municipal Manager will approve the write off of all interest charged to date for the total period.
  - Promote Indigent Policy & free basic services;
  - All four of the services, namely water, electricity, sewerage and refuse, must cover all fixed costs, to ensure that holiday homes contribute to this, due to the need to provide a high level of service and create quality infrastructure which is only used to its full capacity during peak but short holiday periods.
  - Continuous data cleansing to ensure that the information available is correct and useful;

69/101

Expenditure priorities & efficiencies

- **Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship.**

- **A critical review was also undertaken of expenditure with regards to cost containment measures, non-core and 'nice to have' items.**

- It is important to note that as the COVID-19 situation currently is reasonably stable, however still requiring monitoring and continuous review of strategies and measures to prevent and reduce spread of the infection.

L9/1/01

Capital Budget

- **Service delivery objectives & challenges,**
  - Expansion of basic services (water, sanitation, electricity, roads and storm water) to cater for rapid growth and urbanisation.
  - Refurbishment and replacement of aging infrastructure.
  - Reduction of water and electricity losses and minimising waste.
  - Promote sustainable development by considering the environment, climate change and social development.
  - Funding constraints
  - Slow pace of government subsidized housing development
  - Vandalism of municipal infrastructure
  - Illegal connections (mainly electricity)
  - Social unrest

...../

L98/101

Capital Budget

- **funding mix,**
- The funding mix results from the funding sources available, with a conservative approach to surplus funding available in outer years. Substantial rollovers from 2020/2021 has increased the Capital Budget for 2021/22
- **external borrowing strategy,**
- Borrowing is in line with our strategy to fund revenue generating infrastructure assets from borrowing and to continuously decrease the gearing between borrowings and revenue
- **long-term financial planning**
- The LTFP is reviewed annually and considered during the compilation of the Draft Budget

Capital Budget

- **infrastructure pipeline**
- **A five year budget is prepared annually with the focus on -**
  - Water,
  - Sewerage,
  - Electricity,
  - Roads,
  - Storm water,
  - Waste Management and
  - Housing
- **Attention is also given to -**
  - Finance and Administration,
  - Public Safety,
  - Planning and Development,
  - Community and Social Services, and
  - Sport and Recreation
