P&D:ENVIRONMENTAL MANAGEMENT & CONSERVATION									<p>There is currently more infield staff appointed on temporary contracts than there has been in previous months and years. Especially in the Baboon Management Programme, the increase of Summer daylight hours mean that the rangers' shift hours are increasing from 5:00 in the morning till 20:00 at night, depending on the town. The rangers have been working for longer daylight hours and therefore more shifts have to be worked. There are still not enough staff to fill all the positions required, so existing staff need to be brought in to work overtime to fill the shift hours, otherwise there is not enough rangers on a shift to manage the baboons troops effectively. What more complicates the situation, is that there is not enough vehicles in the programme. There are only 2 vehicles in the Programme. For the West and one in the East to ensure coverage of the 9 managed troops in Pringle Bay, Hangklip, Silversands, Betty's Bay, Onrus, Hermanus Heights, Fernkloof, Voelklip and Vogelgat. The programme therefore rely on drivers from the permanent staff component from the Conservation Section to pick up and drop staff, which in turn puts pressure on the permanent staff that already have other teams to pick up, such as the safety monitors and also who need to do late patrols on the reserves because the reserve stay open until 19:00 in the summer time. Furthermore is that the Division assisted with teh ongoing fires that took place recently in Stanford, Masakhane, De Kelders and Fisherhaven. The Provincial Government through DEADP has provided a grant of R1 000 000.00 towards the purchse of 3 additional vehicles for the Baboon Management Programme which overtime will be releaved after June 2026.</p>
