Fire Brigade Services Act, Act 99 of 1987
Community Fire Safety By-law, P.N. 6454/2007
By-laws of Overstrand Municipality
Service Delivery Budget Implementation Plan

6. Background

The risk “Failure to provide/render effective fire and rescue service to the public, to fulfil constitutional mandate” was identified for inclusion in the risk register. One of the actions to be implemented was to report on a quarterly basis the status of the vehicles allocated to Fire, Rescue & Disaster Management.

Vehicles in the department must be prioritized for service delivery as the rendering of service of Fire Brigade personnel deal with damage to property and injuries as well as loss of property and possibly life.

**AGENDA of the
Portfolio Committee : Municipal Public Safety
4 February 2025
(Also the agenda for the Mayoral Committee Meeting : 10 February 2025)**

Fire Brigade vehicles are specialized vehicles with specific functions ie an aerial appliance (specialized vehicle with a ladder) will not be effective and efficient for a wildfire.

For an effective and efficient service, the correct fully equipped vehicle must be procured to render the service, with a reserve fleet for when vehicles are sent for annual maintenance or when breakages occur. Currently, when a vehicle is off-run it can take in excess of 3-months for the vehicle to be On-Run.

7. Financial Implications

In accordance with budget provision

8. Staff Implications

None

9. Comments from other Departments, Divisions and Administrations

None

10. Annexures

Annexure A: Status of Fire Brigade Fleet quarter 2
