¹ SURVIVALIST ENTERPRISES / MICRO ENTERPRISES ARE DEFINED Micro enterprises are very small businesses, often involving only the owner, some family members and at the most one or two paid employees. They usually lack 'formality' in terms of business licenses, value-added tax (VAT) registration, formal business premises, operating permits and accounting procedures. Most of them have a limited capital base and only rudimentary technical or business skills among their operators. However, many micro enterprises advance into viable small businesses. Earning levels of micro enterprises differ widely, depending on the particular sector, the growth phase of the business and access to relevant support.**AS FOLLOWS:**

Survivalist enterprises are generally defined as businesses set up by people unable to find a paid job or get into an economic sector of their choice. Income generated from these activities usually falls far short of even a minimum income standard, with very little capital invested, virtually no skills training in the particular field and only limited opportunities for growth into a viable business. This category is characterised by poverty and the attempt to survive.

The offline database can also be used to generate new summonses for outstanding section 341 notices and to serve the summons on the offender by Traffic Officers while the offender is present at the roadblock.</p> <p>Together with this manual enquiry, new technology is used to automatically track vehicles by scanning the registration number plates of vehicles. (ANPR = Automatic Number Plate Recognition). A video camera, an ANPR camera, scans the registration number plate of an oncoming vehicle. The registration number is then fed into a workstation connected to the camera. Software "reads" the registration number and compares it against a database of outstanding fines, summonses and warrants of arrest. When a match is found, the workstation screen indicates to the operator that the number plate of a particular vehicle has registered positively. The vehicle is then stopped by a traffic officer. All of this happens within a matter of seconds. Depending on the nature of the offence, the motorist is requested to pay any outstanding notice. In the case of a warrant of</p>
