Table with 2 columns: Q (Question) and A (Answer)

METERED SERVICES

- 1. How do I shut off the mains water supply?
2. Who is responsible for repairing leaks?
3. I have fixed all the

The main tap (stopcock) to your property is the main isolating valve. This is what you turn off to stop the water supply when you need to fix a leak.
The owner or occupier is liable for repairs on the inside of property boundaries.
Yes, Overstrand Municipality may, at its absolute discretion, provide a

leaks. Can I apply for any discount	financial adjustment to the water rate tariff in accordance with the Overstrand Municipal Customer Care, Credit Control and Debt Collection Policy. A discount will be applicable on the excess sewer consumption charge as calculated. The water leakage discounted tariff will not be considered in the instance of irrigation systems. An application will only be regarded as a valid application if complete information and documentation as prescribed here is received.
