**RIGLYNE / GUIDELINES:**

**Parkering vir gestremdes** word hoofsaaklik voorsien vir gebruik deur mense in rystoele omdat die parkeerplek meer ruimte bied vir 'n voertuig, die rystoel en 'n helper. / **Disabled parking** is primarily provided for people in wheelchairs because the parking space is bigger to provide space for the vehicle, the wheelchair and the helper.

Sekere tipes **ortopediese loophulpmiddels** vereis ook groter spasie in 'n parkeerplek. Kieries word nie noodwendig as 'n ortopediese loophulpmiddel beskou nie. Krukke sal net aanvaar word ná chirurgie of in uitsonderlike gevalle. / Certain types of **orthopaedic walking aids** also require more parking space. A walking stick is not necessarily regarded as an orthopaedic walking aid. Crutches will only be acceptable after surgery or in exceptional cases.

Indien die aansoeker wel **fisiese hulp** benodig om in/uit die voertuig te klim, sal meer spasie in die parkeerplek benodig word. / If the applicant does, in fact, need **physical assistance** to climb in and out the vehicle, he/she will require more parking space.

**Dié vrystelling geld nie** vir 'n bestuurder wat in 'n voertuig bly sit terwyl die voertuig in 'n parkeerplek vir gestremdes geparkeer is nie. / **This exemption does not apply** to a driver sitting in a vehicle parked in an area demarcated for disabled persons.
