Request date:

OPTION 1

Basic charge for a residential, developed site with a septic tank, plus infrastructure charge per erf/unit per month.

Tank pump service requests will be charged at the approved tariff.

All tanker services requested after 15h00, or after office hours, will be charged at the after-hour rate.

OPTION 2

Basic charge for a residential, developed site, plus infrastructure charge per erf/unit per month, plus per kiloliter for 70% of monthly water consumption – up to 50kl.

Example: If the water consumption was 20kl for the month, the sewerage consumption portion will be calculated as follows:

$$20\text{kl} \times 70\% = 14\text{kl} @ \text{ approved tariff for sewerage consumption}$$

Example: If the water consumption was 80kl for the month, the sewerage consumption portion will be calculated as follows:

$$50\text{kl} \times 70\% = 35\text{kl} @ \text{ approved tariff for sewerage consumption}$$

Tank pump service will be on request.

All tanker services requested after 15h00, or after office hours, will be charged an additional after-hour rate.
